Safety Instructions

Save these instructions

Read these safety instructions before use!

> **Note:** _When using your telephone or connected equipment, the following basic safety precautions should always be followed to reduce risk of fire, electrical shock and other personal injury._

- Follow instructions in the equipment's user guide or other documentation.
- Always install equipment in a location and environment for which it is designed.
- Headsets used with this equipment must comply with EN/IEC 60950-1
- Do not make any changes or modifications to equipment without seeking approval from the party responsible for compliance. Unauthorized changes or modifications could void the user's authority to operate the equipment.
- Do not use the telephone to report a gas leak in the vicinity of the leak.
- Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathtub, washbowl, and kitchen sink, in a wet basement or near a swimming pool.
- Do not insert any object into equipment slots that is not part of the product or auxiliary product.
- Do not disassemble the product. Contact a qualified service agency when service or repair work is required.
- Do not use a telephone (other than cordless type) during an electrical storm.

Disposal of the product

Your product should not be placed in municipal waste. Please check local regulations for disposal of electronic products.

Telephone Parts

When you unpack your phone, you should ensure that you have all of the
following items. If any part is missing, contact the supplier of your phone.

Call forwarding

Diversion
If you do not want to be disturbed or will be out of office, you can have all calls to your extension diverted to a preprogrammed answering position. During diversion you will hear a special dial tone. You can still make calls as usual. Diversion can be made direct, on no answer, on busy or to another information service facility.

Order direct diversion from your own extension

The call can be diverted to an individual position or up to three determined common answering positions (depending on the type of the incoming call). Preprogrammed by your system administrator.

1. Lift the handset and Press numeric keys *** 21 #** (UK: *2#)
2. Press 📞 to hang up

Cancel diversion from your own extension:

1. Lift the handset and press numeric keys **# 21 #** (UK: # 2 #),
2. Press 📞 to hang up.

Diversion when there is no answer

1. Lift the handset and Press numeric keys *** 211 #** (Finland and Norway: *61#)

2.   Press 📞 to hang up

Cancel diversion when there is no answer:

1.   Lift the handset and press numeric keys **# 211 #** (UK: #61#),
2.   Press 📞 to hang up.

Diversion when the caller receives a busy tone

1.   Lift the handset and Press numeric keys *** 212 #** (Finland and
         Norway: *67#)
2.   Press 📞 to hang up

Cancel diversion when the caller receives a busy tone:

1.   Lift the handset and press numeric keys **# 212 #** (UK: # 67 #),
2.   Press 📞 to hang up.

Internal Follow me
All calls to your extension are diverted to an extension of your choice, within the private network. For example, when you are working in another room and want your calls to follow you to that answering position.
When your telephone has Follow-me you can still make calls from it as usual.
As a reminder that your telephone has Follow-me, you will hear a special dial tone each time you lift the handset to make a call.

Ordering Follow-me from your own phone

1.   Lift the handset (dial tone) and press numeric key *** 2 1 *** (UK:*2*)
2.   Dial extension number of the answering position and press **#**
          (Special dial tone)

Lift the handset and Press numeric keys **# 0 01 #**

Optional Call handling Features

The features below may not be available in your telephony system. Please contact your system administrator for information.

Free seating
1.   Log on: Lift the handset and press numeric keys ***11***
2.   Dial Authorization code and press numeric key *   Own extension number, press **#**
      Log off: Lift handset and press numeric keys **#11#** press 📞 to hang   up

Personal Number

With the personal numbers and profiles feature you can be reached on your normal office phone number even if you are out of the office. A search profile (1-5) can be designed to fit the situation (in the office, traveling, at home, and so on). Both internal and external phone numbers can be used in a profile. Your search profile is programmed or modified by system administrator.

When the feature is activated, incoming calls are transferred to selected phones or back-up services in the order that you choose. If an answering position in the profile is busy, the call can be transferred to another predefined position in the profile (Voice Mail or a colleague). You can handle the profiles from your own office phone. How to do this is described in this section (an operator can also assist you).

You can also use any of the Personal Assistant applications if available.

Contact your system administrator for more information. When out of the office, the feature Direct Inward System Access (DISA) can be used, if available in your system. How to use DISA is described in this section.

Activate or change profile from own extension

1.   Lift handset and press numeric keys ***1 0 * (1- 5) #**
2.   press 📞 to hang up

Canceling a profile from your phone
1.   Lift handset and press numeric keys **#10#**
2.   Press 📞 to hang up

Voice Mail

Enter your mailbox:

1.   Lift handset and dial the voice mail number and follow recorded instruction.

Note: if the number to the voice mail system has been programmed on the message waiting key you can also press that key to enter the mailbox

Call Waiting

If you urgently wish to contact a busy extension or external line, you can notify the extension by a call waiting signal:

1.   At busy tone, press numeric key, **5** (Finland, France: 6 Sweden:4).
2.   Wait on line on line

Account Code

This feature is used to charge a call to an account number or to prevent unauthorized calls from your phone. The account code can have 1-15 digits.

1.   Lift handset and press numeric key * **6 1** * account code **#**
2.   Dial the digit or digits to get an external line or external line

Absence Information

The absent information is used to inform the caller why you are absent and when you will return. Contact your system administrator regarding the available absence codes.

With return date and time
1.   Lift the handset and press numeric key * **2 3** *
2.   Enter absence code (0-9) and press numeric key *
3.   Enter the date or time (MMDD) or time (HHMM), press **#**
Cancel: Lift handset and press numeric key **# 2 3 #,** press 📞 to hang up.

Without return date and time
1.   Lift the handset and press numeric key * **2 3** *
2.   Enter absence code (0-9) and press numeric key **#**
Cancel: Lift handset and press numeric keys **# 2 3 #,** press 📞 to hang up

Order for another extension:
1.	Lift the handset and press numeric key *** 2 3 0 ***
2.	Dial the extension number and press *****
3.	Enter the absence code (0-9), press *****
Enter date or time (MMDD) or time (HHMM), for the other persons return,
Press **#**, press 📞 to hang up.

Cancel: Lift handset and press numeric key **#230*** Dial extension number and press **#**, press 📞 to hang up

Parallel Ringing
This feature makes it possible for an incoming call to ring on several phones simultaneously and for the call to be answered on any of the phones. The feature requires all the phones involved to be defined in a parallel ringing list.

To disable the parallel ringing temporarily:
1.	Lift the handset and press numeric key *** 2 1 ***
2.	Dial extension number and press, **#**, press 📞 to hang up.

To restore Parallel Ringing:
Lift the handset and press numeric key **# 21 #,** press 📞 to hang up.

Intrusion on a busy extension
You can intrude on an ongoing call on a busy extension:

Lift the handset and Press numeric key **4,** (France and Sweden: 8)
Before the intrusion a warning tone is sent to the parties in the ongoing call.

Group features
Group Call – pick - up
In a call-pick-up group, any member can answer any individual call to group member.

Lift the handset and Press numeric key **8** to answer the call (Finland and Sweden: 0)

Common bell group
Calls are signaled on a common bell

1.   Lift the handset and Press numeric key * **2 1** * (U.K: *2*)
2.   Dial your own extension number and press **#**, press 📞 to hang up

To re-enter the group:

Lift the handset and press numeric keys **# 21 #,** press 📞 to hang up (UK:#2#)

If you are authorized, you can divert all calls to a group, to another extension or another group:

1.   Lift the handset and press numeric key * **2 4** *
2.   Dial number of the group to be diverted, Press numeric key *
3.   Dial extension number to the new answering position, press **#** press 📞 to hang up

To cancel the diversion:
1.   Lift the handset and press numeric key **# 2 4** *
2.   Dial the number of the group that has been diverted
3.   Press numeric key **#**, press 📞 to hang up

Direct inward system Access - DISA
If you are assigned to use this feature and you are working externally, you can call your office and get access to an external line in order to make business calls.

With common authorization code:

1.   Lift the handset and call the DISA feature in your office.
2.   You receive dial tone, press numeric key: *** 7 2 ***
3.   Dial the authorization code and press numeric key **#**
4.   You receive a dial tone, Dial external number

With individual Authorization code:

1.   Lift the handset and call the DISA feature in your office.
2.   You receive dial tone, press numeric key: *** 7 5 ***
3.   Dial the *authorization code* and press numeric key *****
4.   You receive a dial tone, Dial *external number*, press *****
5.   Dial your *own extension number* and press **#**
6.   You receive a dial tone. Dial external number

Authorization code, Common
If you are authorized to use a common authorization code (1 to 7 digits) you can temporarily change any phone used within the telephone system to the authority level connected to this code.

For a single call:
1.   Lift the handset and press numeric key * **7 2** *
2.   Enter *authorization code* and press **#**
3.   You receive a verification tone, Dial the digit or digits to get an external line and the external number.

To open an extension for several calls:
1.   Lift the handset and press numeric key **# 7 3** *
2.   Enter *authorization code* and press **#**
3.   You receive a verification tone.

To lock an extension:
1.   Lift the handset and press numeric key * **73***
2.   Enter *authorization code* and press **#**
3.   You receive a verification tone.

Authorization code, individual

If you are authorized to use an individual authorization code (1-7 digits, affiliated to your own extension) you can lock your own extension to a common authority level, e.g. when out of the office. You can also temporarily change any other phone used within the telephone system to the same authority level as you have on your own phone. The individual code can be changed from your own extension.

To lock the phone:
1.   Lift the handset and press numeric key * **76** *
2.   Enter *authorization code* and press **#**
3.   You receive a verification tone.

To make calls with your authority level when your phone is locked:
1.   Lift the handset and press numeric key *** 75** *
2.   Enter *authorization code* and press **#**
3.   Dial the digit or digits to get an external line and the external number.

To open your phone:
1.   Lift the handset and press numeric key **# 76** *
2.   Enter *authorization code* and press **#**
3.   You receive a verification tone.

To assign your own authority level to another phone:
Lift the handset and press numeric key * **75** *
1.   Enter *authorization code* and press *
2.   You receive verification tone
3.   Enter your *own extension number* and press **#**
4.   You receive verification tone, Dial the digit or digits to get an
        external line and the external number.

To change your individual authorization code:
Lift the handset and press numeric key * **74** *
1.   Enter *old authorization code* and press *
2.   Enter *new authorization code* and press **#**
3.   You receive verification tone.

Call Records/Call log

View Call Records

      be presented and so on.
3.   Lift the handset or press either ◁/↻ or ▶ to dial out.

Add Contact to Phonebook
1.   Select ADD and press 📖 key to enter into Phonebook modification
      state.
2.   Enter the name you wish to record and press 📖 to save.
3.   Enter the number using the dial pad and press 📖 to save.

Note: Pressing ♔ in phonebook entry mode is the same as "**back space**".

Protect All Memories
It is possible to set a password in the telephone for speed dial and phone book entries. Please see "Set Password" found below under the paragraph for "Phone setting".

Delete Contact in Phonebook
1.   In Phonebook viewing state, press ▲ or ▼to find the record you want to
      delete.
2.   Press ♔ and you will see 'DELETE?', then press ♔ to confirm the
      deletion.
3.   If you want to delete all the records, press ♔ for 3 seconds. Then you
      will see 'DELETE ALL?', and then press ♔ to confirm.

Note: If the phone was locked, you need to enter the password for deleting the calls phonebook and calls record (see "Set Lock State").

Caller ID display

After receiving a new incoming call, the number will be displayed on the LCD and hold for 10s, during this time, if received another new call, it will continue to display for 10s and then display the new corresponding call.

The Caller ID information is presented in the display and includes alpha numeric presentation of [Number], [Name], [Time] and additional information indicated with the Icons shown below.

REP = Repeat call

NEW = New missed call

📵 = Missed call

📞 = Received call

The display below indicates where in the display the Caller ID information is presented.
Call Record/Call log Information

The above mentioned information related to incoming and out going calls is stored in the Call Records memory. If the record is full, the next incoming call will replace the oldest record one by one.

After viewing new missed incoming calls, the **NEW** icon will disappear,

and missed icon 📵 will be shown

When there is new call, the new call indicator LED will flicker. Pick up and the record will become received calls.

<u>Shortcut key to view records</u>

When the phone is in idle, press ▲ or ▼to view all the call records.

The call details are displayed below:

```
12:00    9/3    REP NEW IN
                     OUT
        0755123456
TOM SMITH
```
Note: "12:00" indicate the call's time and 9/3 indicates the date. Either one of the icons can be displayed depending on the status for the call.

<u>Call duration time</u>

The call duration is presented in the bottom row. In the picture below 00:06 indicates that the duration of this outgoing call was 6s.

```
12:00    9/3
                     OUT
        131256585621
           00 : 06
```

Alarm function

The telephone has a built in alarm that can be used e.g. as a wake up alarm. The real time clock in the telephone is used. The alarm function is set by stetting the <u>alarm time</u>.

When the alarm is sounding, press 📞 or just <u>lift the handset</u> and the alarm will be turned off.

If the signal is not shut off manually it will keep on alarming for the whole alarm <u>duration time</u>.

The preset time will remain active until the alarm function is deactivated.

Alarm Setting

<u>Alarm clock</u>
The alarm clock should be set as 24H, HH/MM and phone should then activate the alarm in 5 sec after the local clock reached the set time in alarm clock

1.	Press ▬C > ALARM SETTING > ALARM CLOCK
2.	Press ▲ or ▼ to adjust the time
3.	Press ▬C or ► to confirm

<u>Alarm ON/OFF</u>
1.	Press ▬C key > ALARM SETTING > ALARM ON/OFF
2.	Press ▲ or ▼ to select ON / OFF to enable / disable the alarm
3.	Press ▬C or ► key to confirm

<u>Alarm duration</u>
Options for selecting the desired alarm duration:

1.	Press ▬C key > ALARM SETTING > ALARM DURATION
2.	Press ▲ or ▼ to select the alarm duration (5 / 10 / 15 / 30 min; default 10 min)
3.	Press ▬C or ► key to confirm

System Dependent Phone setting

Message Waiting Memory (MWM)

The message waiting memory normally stores the number to reach the voicemail box.

Save MWM

1. Place the handset on the phone and press ✉
2. Press ⊡ and enter the number to be saved
3. Press ⊡ key again to complete saving

Dial from a MWM

1. Pick up the handset or press 'Speaker/Handset'
2. Press the ✉

Delete MWM

1. Place the handset on the phone
2. Press ✉
3. Press ✋

Message Waiting LED

When there is a message, the message waiting LED will be lighted ON or flashing in blue.

When there's message waiting to be read, the message waiting LED will be lighted ON or flashing in red.

The Message Waiting switch (at the back of the phone) is used to select the appropriate MW mode (HV / + / -). Please check the MW type of the connected PBX to work with the phone. Select "OFF" on the MW switch to deactivate the message waiting function.

If the LED is steady active, change the message waiting switch position.

Set Flash time

Some systems require a different flash time for the flash key. To change the flash time, proceed as follows:

1. Press ▬C > PHONE SETTING > SET FLASH TIME
2. Press ▲ or ▼ to select the needed flash time
