1 MHz denotes microprocessor internal clock speed; other factors may affect application performance.

2 The processor may be reduced to a lower operating speed when operating on battery power.

3 GB means one billion bytes when referring to hard drive capacity. Accessible capacity may vary.

4 i.LINK is a trademark of Sony used only to designate that a product contains an IEEE 1394 connector. All products with an i.LINK connector may not communicate with each other.

5 Due to FCC limitations, speeds of 53kbps are the maximum permissible transmit power levels during download transmissions. Actual data speeds will vary depending on line conditions.

6 Estimated battery life. Actual battery life may vary on usage.

7 Certain restrictions apply to Express Repair Service.

8 From date of purchase upon registration.

9 Requires payment of additional fees or subscription for use.
