Congratulations and thank you for purchasing the XJ-300R amplifier. The XJ series are stand alone compact amplifiers that allow custom home installation to have a powerful high efficiency amplification while fitting into small places. The XJ-300R comes with a set of standard ears that allows the user to install it in a standard single rack mount. Whether you are looking to power a subwoofer or a tactile transducer, the XJ-300R is guaranteed to deliver.

Powered by a switching regulated power supply, the XJ delivers a steady and regulated output which delivers a linear amplification to your load. Only through linear amplification do you get the chance to deliver accuracy in amplification.

What is class J?

Class J is a monitoring circuit that optimizes class D amplifiers. The class J is a class D amplifier which has a microprocessor algorithm that trades in high efficiency for high quality throughout the audio spectrum. In simple terms, the class J gives you the highest efficiency possible without compromising quality.

The XJ amplifiers possess an oversized power supply: 8 ohms, 4 ohms, and even 2 ohms. These amplifiers will deliver clean, accurate sound with massive damping factor.

Enjoy!

XJ-300R PHASE SETTING

If you are using the XJ-300R to power a subwoofer, you will need to set the time of arrival of your subwoofer frequencies with that of your tower speakers. To do that with high accuracy, you will need to have an SPL meter.

There are many suppliers with such device. RadioShack has one that works just fine.

To set the phase, you will need to send a continuous tone signal through the front speakers and the subwoofer at the same time, rotate the phase to zero setting and place the meter in the listening position. While the system is playing white noise or 50-Hz tone, have someone read the meter. Then, rotate the phase knob until the meter reads the highest reading. This will conclude the setting.

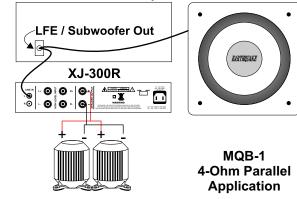

Document the position of your optimum phase and save it for future references.

WARRANTY

Limited 5-Year Warranty

Earthquake warrants the original purchaser that all Factory Sealed New Audio Products to be free from defects in material and workmanship under normal and proper use for a period of five (5) years from the date of purchase (as shown on the original bill of sale with serial number affixed/written on it). The five (5) year warranty period is valid only if an authorized Earthquake dealer properly installs the product and the warranty registration card is properly filled out and sent to Earthquake Sound Corporation. If a non-authorized party installs the product, a ninety (90) day warranty period will be applied.

(A) Five (5) years limited warranty plan coverage guidelines:

- **First year:** Earthquake pays for labor, parts, and ground freight (only in US mainland, not including Alaska and Hawaii. Shipping to us is not covered).
- Second year: Earthquake pays for labor only, customer must pay freight both ways.
- Third, fourth & fifth year: Earthquake pays labor only. Customer must pay for parts and freight both ways.

(B) Warning:

Products (sent for repair) that are tested by Earthquake technicians and deemed to have no problem(s) will not be covered by the five (5) year limited warranty. Customer will be charged a minimum of one (1) hour of labor (at the ongoing rates) plus shipping charges back to customer.

(C) <u>Earthquake will repair or replace at our option all defective</u> products/parts subject to the following provisions:

- Defective products/parts have not been altered or repaired by other than an Earthquake factory-approved technicians.
- Products/parts are not subjected to negligence, misuse, improper use or accident, damaged by improper line voltage, used with incompatible products or have its serial number or any part of it altered, defaced or removed, or have been used in any way that is contrary to Earthquake's written instructions.

WARRANTY

(D) Warranty Limitations:

Warranty does not cover products that have been modified or abused, including but not limited to the following:

• Damages to speaker cabinet and cabinet finish due to misuse, abuse or improper use of cleaning materials/methods.

- Bent speaker frame, broken speaker connectors, holes in speaker cone, surround & dust cap, burnt speaker voice coil.
- Fading and/or deterioration of speaker components & finish due to improper exposure to elements.
- Bent amplifier casing, damaged finish on the casing due to abuse, misuse or improper use of cleaning material.
- Burnt tracers on PCB.
- Product/part damaged due to poor packaging or abusive shipping conditions.
- Subsequent damage to other products.

A warranty claim will not be valid if the warranty registration card is not properly filled & returned to Earthquake with a copy of the sales invoice. Warranty card is located on the last page of this manual.

(E) Service Request:

To receive product service, contact Earthquake Service Department at (510) 732-1000 and request an RMA number (Return Material Authorization). Items shipped without a valid RMA number will be refused. Make sure you provide us with your complete/correct shipping address, a valid phone number, and a brief description of the problem you are experiencing with the product. In most cases, our technicians might be able to resolve the problem over the phone; Thus, eliminating the need to ship the product.

(F) Shipping Instructions:

Product(s) must be packaged in its original protective box(es) to minimize transport damage and prevent repackaging cost (at the ongoing rates). Shipper claims regarding items damaged in transit must be presented to carrier. Earthquake Sound Corporation reserves the right to refuse improperly packed product. Original bill of sale must accompany product returned to service. We encourage you to include with the package a written description of the problem. Ship product to: Earthquake Sound Corp. 2727 McCone Avenue, Hayward, CA 94545. Ph: (510) 732-1000. You are responsible for the cost of shipping the product to Earthquake Sound Corporation.

(G) **Disputes Resolution:**

All disputes between clients and Earthquake Sound Corporation resulting from the five (5) year limited warranty policy must be resolved according to the laws & registration of the county of Alameda California.
