The World's Finest Home Theater Products™

The DTV-992 ULTRA has all the features necessary for the true home theater experience. With its true 8-inch CRTs, fully color-corrected and filtered lenses, and accurate 25-point zone convergence system, this projector will precisely reproduce video from any source. Its scan rate capabilities and large CRTs make it the perfect choice for use with any High-Definition format, as well as any type of processor. Finally, this unit comes equipped with the Eye-Q™ auto-convergence system for easy touch-ups.

**FEATURES**

- 25 point zone convergence
- 230 ANSI lumens
- Color corrected and filtered HD-8 lenses
- Eye-Q™: The intelligent way to converge
- Impressive gamma correction
- RS232 controllable
- Multiple Aspect Ratios
- 110 KHz Horizontal scan rate
- 120 MHz Bandwidth
- Convergence on green for accurate linearity

**SPECIFICATIONS**

|                              |  |                               |  |
|------------------------------|--|-------------------------------|--|
| <b>Scan Frequency:</b>       | Horizontal: 15-110 KHz<br>Vertical: 37-200 Hz            | <b>Configurations:</b>        | Front or rear, floor, or ceiling mount   |
