Maxtor OneTouch™ 4 Plus

An elegantly simple backup and storage solution, with Maxtor SafetyDrill™ software for full recovery of your PC hard drive's contents in case of a crash or virus.

FireWire® 400 and USB 2.0:
250GB, 500GB, 750GB

Provide a safe haven for your entire working environment. Don't back up and protect just your files any more. System crashes and virus attacks can happen, and it's difficult to get your computer back to just the way you like it. To prepare, should the unfortunate happen, Maxtor SafetyDrill automatically creates a snapshot of the entire contents of your PC's hard drive that can readily be booted for an easy and complete recovery.

With this elegantly simple full-featured backup solution, Maxtor's software makes automated backup scheduling, specific file restoration, sync, security, drive and power management a snap. Safeguarding against unauthorised use, Maxtor OneTouch 4 Plus comes with both data encryption and Maxtor DrivePass.™ To top it off, with up to 750GB, you have more than enough room for your important documents, videos, photos, graphics, and music in one safe, convenient location – over 12,495 hours of digital music or 240,000 digital photos or 750 hours of digital video or 187 two-hour DVD quality films or 375 games.

It's easy to install – just plug the external drive into an available USB or FireWire port on your PC or Mac, run the preloaded software, and presto, you're good to go.

HIGHLIGHTS

- Maxtor SafetyDrill prepares, boots, and recovers your PC's entire internal drive contents in case of system failure or virus/spyware infection*

- Back up all your files with one touch of a button or automated scheduling

- Two levels of data security
