ANALOG GUESTROOM PHONES

TELEDEX

INDUSTRY LEADING INNOVATION

As the innovator of every new technology to hit the marketplace in the last twenty years, you'd expect Teledex to have a solution for every situation, and we do. Whether it's our one-of-a-kind cordless phones, our cost-effective high-speed Internet solutions, or familiar time-honored designs, Teledex is uniquely qualified to be your one source for all your guest-room telecom needs.

EXCLUSIVE LIFETIME WARRANTY

Virtually every new Teledex guestroom phone comes with the exclusive Teledex Lifetime Warranty, which very simply states that if your Teledex phone ever fails to perform as advertised, we'll fix it or replace it for free. No one else can make that claim. That's because we build our phones to the highest quality standards in the industry.

UNMATCHED CUSTOMER CARE

Only Teledex commits the substantial resources necessary to ensure our customer service and technical support personnel are there when you need them. These dedicated professionals help make your job easier, from ordering replacement phones, to customizing your faceplate designs, to helping you handle any little issue that may crop up. There's no one more important to us than our customers, and we treat you that way every time.

MORE FACEPLATE OPTIONS

Only Teledex provides such a variety of options for faceplates, allowing you to choose what's right for you.

1. Work with your personal Teledex associate to design your custom faceplate, and let us handle the high-quality commercial printing.
2. Design your faceplates online and send them to Teledex to print.
3. Use our convenient and economical FaceplateMaker kit to design and print custom faceplates for as little as 50 cents each, using your own computer and printer.

AWARD-WINNING DESIGNS

Only Teledex has a talented, experienced engineering team that designs and oversees the manufacture and quality control of all our telephones. Other companies use contract manufacturers, or even use off the-shelf generic phones that have been "rebranded" or modified for use in hotels and motels. Not Teledex. We hold more technology and design patents than any other hospitality phone manufacturer. Teledex phones are designed and built from the ground up to endure whatever abuse your guests can dish out.

ExpressNet®

Award-Winning high speed solutions that deliver real value to you and your guests.

Teledex ExpressNet® and ExpressNet® Airlink™ deliver a blazing fast Internet experience for your guests and a cost effective, flexible solution for you. Your guests have what they need to stay productive while on the road, and that keeps them coming back!

Using your existing phone cabling, ExpressNet solutions allow you to deploy wireless and wired broadband connectivity across your whole property, including guestrooms and common areas, at substantial cost savings to alternative solutions.
