Connect USB nano receiver

connect to a
USB port on
your computer

start using your mouse!

Troubleshooting

1. My Mouse does not work.

Ensure the USB nano receiver is connected.

Connect the USB nano receiver to a different USB port.

Check that the battery is inserted correctly.

Install a fresh battery.

Move the mouse closer to the USB nano receiver.

Ensure the laser sensor on the bottom of the mouse is clean.

Product tips

- The scroll wheel is also a button. Press the scroll wheel (without rolling it) to automatically scroll a document or web page, then move your mouse up or down to set the automatic scroll speed.

- Your mouse has two sensitivity settings, standard mode and high-performance mode. High-performance mode allows the cursor to move very quickly, and is useful for activities such as gaming. Press the DPI button (on the bottom of the mouse) to switch from standard mode to high-performance mode and back.

- Store the USB nano receiver in the storage slot in the bottom of the mouse.

- Switch off your mouse when traveling or to conserve battery life.
