International Color Coding

Matrix® Veterinary Anesthesia Machines are manufactured in the United States for a variety of countries according to several domestic and international gas color coding standards. All products pictured in this catalog are of standard ANSI (USA) color coding with the appropriate part numbers of your country or ISO standard listed for your convenience. All products shipped will be manufactured according to the part number specified at the time of purchase.

Color Coding Chart

Country	N ₂ O	O ₂
United States/Japan	Blue	Green
Canada	Blue	White
Standard ISO	Blue	White

Pricing and product availability in this catalog supersede information in all other catalogs. Products and prices are subject to change or discontinuation without prior notice. Midmark prices that are in effect when your order is received will be honored even if the items are temporarily out of stock.

Small Animal Anesthesia Machines

Matrx VMS® Plus

The Matrx VMS® Plus provides more functionality with two shelves for convenient placement of monitors and equipment. Its dual vaporizer mounting capability allows you to easily switch from one vaporizer to another.

- Includes occlusion valve and starter pack of Sodasorb® LF
- Dual view oxygen flowmeter – glass tube with a scale reading from 0.2 to 4LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Automatic air intake valve – opens to provide room air to patient if contents of breathing bag are depleted
- Oxygen flush
- 1500cc CO₂ absorber with “Quick Release” lever feature for easy absorbent replacement (accepts prepack canisters or 1350gm loose absorbent)
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One and two liter breathing bags
- Chrome portable stand with 5-leg spider base and casters
- Convenient monitor shelves
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (one mounting kit included)
- Dual vaporizer mount capability
- Oxygen low-flow flowmeter add-on capability

Matrx VME2®

The Matrx VME2® places all your anesthesia equipment on one sleek, compact post. Optional add-on components allow you to add shelves, second flowmeter, second vaporizer, occlusion valve with safety relief and/or an emergency air intake valve.

- Dual view oxygen flowmeter – glass tube with a scale reading from 0.2 to 4LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Oxygen flush
- 1100cc CO₂ absorber and starter pack of Sodasorb® LF
- Dome-type inhalation and exhalation valves – no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60cm H₂O pressure gauge
- 15mm and 22mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Portable stand with 5-leg spider base and casters
- Convenient accessory shelf
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (single mounting kit included)

Wall/Tabletop Systems

91800042 (Vaporizer sold separately)

Matrix VMS® Wall Mount

Our most popular anesthesia machine is available in a wall mount configuration.

- Includes occlusion valve and starter pack of Sodasorb® LF
- Simple to install
- Small surface area design
- Pivot arm rotates 130 degrees and extends to 8" from wall
- Accepts Matrix VIP 3000® or TEC 3 vaporizers (mounting kit included)

Matrix VME2® Tabletop/Wall Mount System

Flexibility and performance at a low price.

- Light weight – 16 lb
- Compact design: 18 1/8" x 16 1/4" x 7 1/2" (HxWxD)
- Convenient carry handle with soft vinyl grip
- Accepts VIP 3000® or TEC 3 vaporizers (mounting kit included)
- 0.2 to 4 LPM dual view oxygen flowmeter with standard and magnified views
- 1100cc CO₂ absorber and starter pack of Sodasorb® LF
- Rubber foot pads help prevent scratching of countertop
- Breathing circuit package included
- Optional wall mount kit is available
- Low flow model replaces the 0.2 to 4LPM flowmeter with a 0-1000cc oxygen flowmeter

Large Animal Anesthesia Machines

Matrx VML®

The Matrx VML® is designed for use in equine, bovine and other large animal anesthesia procedures. When outfitted with the optional Small Animal Breathing Circuit, the Matrx VML® is the machine of choice for practices involving both large and small animals.

- Dual view oxygen flowmeter – glass tube with a scale reading from 1 to 10LPM – quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Oxygen flush
- 5200cc CO₂ absorber and starter pack of Sodasorb® LF
- Scavenging/adjustable pressure limiting valve
- 30 liter breathing bag
- 2" (5 cm) diameter semi-translucent breathing circuit
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (mounting kit included)

91802004	Matrx VML® (USA)	\$6,887.00

Non-rebreathing Anesthetic Delivery Systems

91800218

Matrix VMR™ Low-flow Non-rebreathing Systems

Designed for safe, simple and controllable inhalation anesthesia for rats, small rodents, exotics and patients weighing less than 5 lb (2.27 kg). The Matrix VMR™ provides rapid control of anesthetic depth with little resistance to respiration.

- Non-rebreathing anesthetic delivery system
- Dual-view oxygen flowmeter – glass tube with a scale that reads from 0-1000cc/min – quickly switch from standard to magnified view at the touch of a finger
- Includes Isoflurane or Sevoflurane Matrix VIP 3000® vaporizer, well-fill or key-fill style
- Tabletop models feature a built-in handle and rubber feet
- Standard flow (.2-4LPM) and Wall Mount models also available

Vaporizers

Matrx VIP 3000® Vaporizer

The choice of veterinary professionals for accurate anesthesia delivery under all conditions, the Matrx VIP 3000® Veterinary Vaporizer uses proven design principles to ensure output concentration is virtually unaffected by flow rate, temperature variations, duration of use, liquid level or back pressure fluctuation within its clinical range.

- Automatic flow rate and temperature compensation
- Large, easy-to-read dial
- Integrated safety lock to prevent unintentional engagement
- Large sight glass for at-a-glance liquid level monitoring
- Choice of agent-specific models for isoflurane or sevoflurane

91305430	Isoflurane VIP 3000® – Well-Fill	\$1,380.00

Vaporizer Service

Factory Service for Accurate, Reliable Operation

To assure continued accuracy and reliability, every Matrx VIP 3000® and TEC 3 vaporizer should be serviced and calibrated annually. Service includes:

- Complete disassembly and cleaning
- Ultrasonic bath to clean internal metal parts
- Calibration and adjustment of Thermo Control
- Reassembly with new seals and wick*
- Cleaning/polishing of exterior parts

Vaporizers ARE NOT field serviceable. Disassembly or service by anyone other than an authorized Factory Service Technician may result in damage or subsequent unsafe operation of the vaporizer.

* If additional parts are required, you will be contacted with an estimate.

Our Vaporizer Service Center is staffed with highly qualified service technicians using state-of-the-art equipment. The Matrx VIP 3000® Vaporizer is a sophisticated device and under no circumstance should be tampered with or disassembled by anyone other than an authorized vaporizer service technician. These units ARE NOT field serviceable.

Matrx VXP™ Vaporizer Exchange Program

1 YEAR
WARRANTY

Simple, convenient and effective

If your vaporizer has been manufactured or serviced in the last 5 years, contact your dealer and request a Matrx VXP™ vaporizer. You will receive a TEC 3 type vaporizer for the agent you specify (Isoflurane or Sevoflurane). Simply exchange your TEC 3 vaporizer with the Matrx VXP™ vaporizer and return it to the Midmark Vaporizer Service Center in the shipping carton in which you received your Matrx VXP™ unit.

When you receive your Matrx VXP™ vaporizer, mount it on your machine and you're ready to go. Enjoy no down time and the confidence of a cleaned, calibrated and tested vaporizer.

The Matrx VXP™ Vaporizer you receive has undergone the complete Midmark Vaporizer Service Center protocol.

Scavengers/CO₂ Absorbent

Matrx[®] Veterinary Anesthetic Gas Scavenger

The Matrx[®] Veterinary Anesthetic Gas Scavenger offers reliable active scavenging of waste anesthetic gas. It is designed to meet current ASTM and ANSI standards and is available in a post mount or wall mount configuration. Each wall or post mount scavenger unit will scavenge the waste anesthetic gas from one anesthesia machine.

Portable – post mount scavenger comes complete with 20 ft. (6m) of 32mm tubing, 5 ft. (1.5m) of 19mm tubing and post mount hardware.

Wall mount scavenger comes complete with 2 ft. (.6m) of 32mm tubing, 18 ft. (5.5m) of 19mm tubing and wall mount hardware.

- Designed to meet current ASTM and ANSI standards
- Available in post mount or wall mount configurations
- Quiet operation
- Can be used with a ventilator or oxygenator
- Easy to install, compact design with few parts
- Standard 19mm inlet connection
- Power on/off switch with indicator light
- Low voltage (12V DC) operation

Matrix® Central Scavenger

Keep your mind free to focus on caring for your patients, not on scavenging excess anesthetic gas. The Matrix® Central Scavenger safely removes waste gas from your clinic without the cost or hassle of charcoal canister replacement.

- Replace charcoal canisters forever with an active gas scavenging system that quietly and consistently keeps you safe
- Scavenge waste gas from up to 4 anesthesia machines
- Easily expand the system to cover up to 12 anesthesia machines without significant expense
- Keep your clinic neat and tidy without bulky interface devices attached to the anesthesia machines
- Simple installation process and flexible design ensures your scavenging system will be successfully installed
- Unparalleled service and support to give you peace of mind

40162800 Matrix® Central Scavenger \$1,942.00
(for up to four anesthesia machines)

20236000 Expansion Kit \$419.00
(for up to four additional anesthesia machines)

Sodasorb® CO₂ Absorbent

The next generation of CO₂ absorbent with safety you can see, Sodasorb® LF is reliable, safe and user friendly. It's specifically formulated to safely absorb CO₂ while inhibiting the production of compound A, carbon monoxide and heat from desiccation. Unlike traditional absorbents, the Sodasorb® LF color change is permanent once exhausted and it does not revert back to its original color.

- Unique, pellet shape reduces caustic dust making for cleaner equipment and faster change-outs
- Minimal resistance to gas flow
- May be used in conjunction with all commonly utilized anesthetic agents including Isoflurane, Sevoflurane, Desflurane, Enflurane and Halothane
- Proven safety record ensures the comfort and well-being of both patients and staff
- Sodasorb® LF is available in convenient pre-pak cartridges, canister-pak bags, and jugs; standard sodasorb is available in pre-pak cartridges, canister-pak bags, and five gallon pails.

002-1761-00	Sodasorb® LF Canister-pak Bag, Case of 12	\$113.00
002-1763-00	Sodasorb® LF Pre-pak Cartridge, Case of 12	\$154.00

002-1909-00	Sodasorb® LF Jug, Case of 3	\$102.00

Ventilators

Matrx® Model 3000 Small Animal Anesthesia Ventilator

An electronically controlled, time-cycled, pressure-limited ventilator, the Matrx® Model 3000 replaces the breathing bag, providing smooth, even delivery of anesthesia. Designed specifically for veterinary practice, the Model 3000 assures a constant volume for each delivered breath, regardless of patient compliance and airway resistance. Easy-to-use controls make operation simple and convenient.

- Replaces the breathing bag
- Precise control of anesthetic state allows lower levels of anesthesia for more responsive patients, more economical operation with blood CO₂ and pH levels closer to normal
- More economical use of supply gas (oxygen, nitrogen or clean dry air)
- Interchangeable bellows adapt to animals from 1 kg to 300 kg – no tools required
- Maximum working pressure limit (MWPL) adjustable from 10-60 cm H₂O
- Dual airway pressure alarms signal any breath exceeding preset maximum or minimum
- Optional low supply gas alarm signals supply gas pressure below 35 psi
- Adapts easily to all anesthesia circuits with out of circuit vaporizers
- Respiratory rates from 6-40 breaths per minute at inspiratory flow rates from 0-100 LPM
- Tidal volumes (TV) from 20-3,000cc
- Built-in scavenging port

91806001	Model 3000 with 300-1600 ml bellows and bellows housing <i>Approximate Patient Weight Range 30-264 lb (14-120 kg)</i>	\$4,095.00
91806002	Model 3000 with 0-300 ml bellows, bellows housing and adapter <i>Approximate Patient Weight Range Up to 66 lb (30 kg)</i>	\$4,300.00
91806003	Model 3000 with 1600-3000 ml bellows and bellows housing only <i>Approximate Patient Weight Range 154-660 lb (70-300 kg)</i>	\$4,505.00

Note: All versions of the Matrx® Model 3000 Anesthesia Ventilator include Model 3000 controller, bellows base assembly, pressure sensing tube and tee, driving gas tube, power cord, spare fuse and operating manual.

NOTE:

For ease of installation, use an existing gas supply as the driving gas. Please order one demand wye and supply hose.

Small Animal Induction Chambers

An excellent addition to conventional inhalation anesthesia procedures, the Small Animal Induction Chambers are available in four sizes to accommodate cats, small dogs, birds, mice and other small patients.

- Available in 45 liter, 18 liter, 5.25 liter and 1.5 liter sizes
- Constructed of .22" (5.6mm) impact resistant acrylic
- Inlet port accepts standard 22mm breathing tube or 15mm connector
- Outlet port accepts standard 19mm scavenging tube or 15mm connector
- Sliding, self-locking top has stops to prevent unintentional removal of lid
- Scratch-resistant feet
- Includes a hook-up kit to connect vaporizer to inlet port

Uncuffed

Cuffed

09900282

Sterile Endotracheal Tubes

Superior cuff design helps you prepare for correct intubations every time. The thin, large diameter cuff conforms to uneven tracheal surfaces and maintains proper low pressure seal. A high-compliance cuff lies close to the tube, improving visualization prior to inflation.

Uncuffed Endotracheal Tubes

91315601

Occlusion Valve with Safety Relief attaches easily between the Matrix® Exhalation Valve Dome and APL Valve as shown.

Matrix® Occlusion Valve With Safety Relief

The Matrix® Occlusion Valve with Safety Relief Assembly allows you to simply and quickly close the breathing circuit to allow you to bag (sigh) the patient.

- Easily attaches to your Matrix® anesthesia machine, no tools required
- Constructed of long-lasting anodized aluminum
- Safety relief feature (25-30cm H₂O) prevents unsafe pressure build-up in the anesthesia circuit/patient
- Simply operated by the push of a single silicone activation button
- Included with each Matrix VMS® and VMS® Plus Anesthesia Machine

93805114 Occlusion Valve with Safety Relief \$132.00

Go from a thumb nut style absorber (left), to a quick release absorber (right).

Absorber Quick Release Conversion Kit

Easily convert a thumb nut version absorber to a convenient quick release absorber. Simple flip lever locking mechanism allows you to easily seal the absorber canister. Compatible with anesthesia machines manufactured by Fraser Harlake, Ohmeda and Matrix Medical.

91800138 Quick Release Conversion Kit \$158.00

91303015

Maintenance Kit

All the parts you need for routine anesthesia machine maintenance in one part number – easy and affordable. Save money versus purchasing each item separately.

91303015	Maintenance Kit for Matrix VMS®, VMS® Plus, VMC	\$128.00
91303016	Maintenance Kit for Matrix VME-Stand Mount	\$202.00
91303017	Maintenance Kit for Matrix VME2®, VME-Tabletop	\$97.00

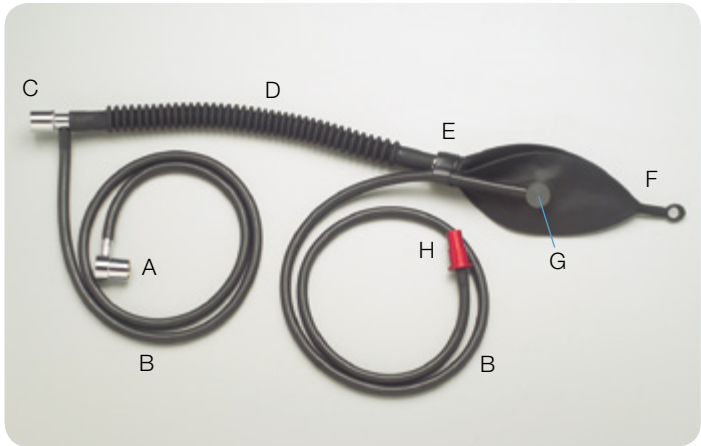

Ayres Non-rebreathing System with Scavenger Adapter

Connects in seconds to any Matrix® anesthesia machine. Designed especially for the small animal patient with less than 15 lb (6.8 kg) body weight, it provides minimal dead space and less resistance to flow as compared to a full-circle system.

94515185 Ayres System Complete \$202.00

Resuscitation/Fluid Warming

Revive-A-Pet®

Revive-A-Pet® is just what you need for emergency response situations. Kits are available in two sizes and contain a Disposable Resuscitator, Animal Mask Kit, Oxygen Supply Tubing, Physiological Parameter List and Carry Case.

90000	Small Revive-A-Pet® <i>for animals weighing less than 66 lb (30kg)</i>	\$293.00
90001	Large Revive-A-Pet® <i>for animals weighing more than 66 lb (30kg)</i>	\$293.00
91351400	Replacement Mask Set <i>Includes 1 each: small feline, medium feline, large feline, small canine and large canine mask</i>	\$255.00
91150010	Oxygen Supply Tubing (7 feet)	\$2.00

LSP Disposable Resuscitator

Reliable, efficient ventilation with patient protection. Features latex-free non-deforming bag, pressure relief valve on small and X-small models, and connector for optional pressure manometer or PEEP valve. Includes mask, oxygen supply tubing and oxygen reservoir. Large – patients over 55 lb (25kg.), Small – patients between 16 and 55 lb (7.3-25kg.) and X-Small – patients less than 16 lb (7.3kg.).

91350666	Large Disposable BVM w/Bag Reservoir	\$43.00
91350667	Small Disposable BVM w/Bag Reservoir	\$43.00
91350668	X-Small Disposable BVM w/Bag Reservoir	\$43.00

i-Warm™ IV Fluid Warmer

An economical fluid warmer with temperature display for standard IV sets. Safely infuse fluids at body temperature rather than room temperature to reduce risk of hypothermia.

- Portable and lightweight
- Convenient hanging strap to hang unit on IV pole
- Current temperature displayed in Fahrenheit or Celsius
- Temperature overheating protection
- Indicators for warming (orange), power (green) and overheating (red)
- Reduces prep time to warm fluid
- Can monitor temperature second to second
- Reduces patients' discomfort due to cold fluid
- Compatible with standard IV sets
- Not recommended for use with blood products
- Warranty - 1 Year

VF-4	i-Warm IV Fluid Warmer	\$449.00

Midmark Casework

Midmark casework is the right choice for your clinic. Whether you're remodeling or building a new clinic, our casework not only improves clinic efficiency, it also enhances the look of your clinic for years to come. Midmark also offers casework design services.

Contact Casework Project Coordinators at
1-800-MIDMARK, ext. 88914

Veterinary Treatment Chase

Our space-saving casework chase design allows you to have the equipment you need, where you need it, without sacrificing floor space. Let us help you create the most efficient, effective space possible.

Seamless Polystyrene Drawers

Steel Frame Construction

Adjustable, Self-Cleaning
Ball Bearing Glides

Seamless Panels

Anti-microbial Pulls
and Countertops

Midmark Modular Casework is well-suited to withstand the rigors of animal healthcare environments.

- Seamless polystyrene drawers with rounded corners and one-piece construction allow drawers to contain spills and are easy to clean
- Steel frame construction delivers long life and consistent door and drawer performance along with a flexible shell design to allow for changing configurations
- Hidden, German-engineered, 110-degree steel hinges give a distinct, clean look to the casework
- Adjustable, self-cleaning ball bearing glides allow the drawers to slide in and out smoothly every time
- EPA-registered* anti-microbial pulls and surfaces help complement your current asepsis procedures.
- Seamless, polymer-covered panels provide a durable surface that resists spilled fluids and chemicals and can be cleaned with no surface degradation

*EPA Registration Numbers 84542-7 and 087753-CT-001

Exam Room Casework Solutions

Midmark Casework can be designed especially for your clinic by our in-house project coordinators. We will design an efficient exam room workflow with your choice of how you want to interact with your patients and clients.

Midmark has a wide range of exam table solutions including our popular Canis Major® Lift Table. We also offer fixed-height island and peninsula tables, with and without overhang, in 48" and 60" lengths plus our new fold down exam table.

See pages 34-36 for details.

Treatment Room Casework Solutions

Create the perfect solution for your treatment room with our wide range of options. We can help you design a practical, efficient space that's specific to your needs.

Midmark casework is more durable than wood and laminate casework and is warmer in appearance than stainless steel. Plus, Midmark Casework is designed to integrate seamlessly with other Midmark equipment.

Midmark Mobile Cabinets

Midmark mobile treatment cabinets have all of the same safe, efficient features as our casework with the ability to move them where you need them.

Dual wheel casters provide easy maneuverability, providing the flexibility to position the cabinet where needed.

Specially designed Kydex® top makes cleaning of spills and dirt easier.

Midmark Treatment Tables

Wet Treatment Table

This table features a standard 36" height that easily integrates with Midmark Casework, giving your treatment area a uniform and aesthetically pleasing look. The table leverages our best-in-class casework designs. The wet tub is excellent for all treatment and dental procedures. The removable hair trap and easy clean drain make maintenance a breeze.

- Wall mount capability
- 18-gauge steel, more durable than wood laminates, withstand the most rigorous clinical work
- Load capacity is 300 lb
- Internal modular design allows you to customize door and drawer configurations to suit your needs
- Casework features all the benefits of Midmark design such as steel hinges, seamless drawers and adjustable ball bearing glides
- Baked-on epoxy finish means no rusting due to water exposure
- The perpendicular orientation allows for access to both long sides
- Optional goose-neck faucet and sprayer attachment makes post procedure clean up a cinch
- Available in Midmark casework colors including woodgrain option (additional charge)
- 48" or 60"L x 25"W x 36"H
- One end open for plumbing

Prep and Exam Tables

Island Exam or Treatment Table

The Midmark Fixed Height Island Exam/Treatment Table is perfect for your exam or treatment room. The table features a toe-kick base panel that wraps around the entire table, allowing you to approach your patient without obstruction. Choose from 44" and 59" lengths, a variety of tops in stainless steel or laminate and many door and drawer combinations, including custom designs to meet your needs.

- Wrap around toe-kick provides unobstructed access to your patient
- Add efficiency and style to your practice with your choice of multiple door/drawer configurations, 2 lengths, 15 casework colors and woodgrain selections, and 3 countertop options (laminate, stainless steel and Corian®) with 46 color options
- Sturdy 18-gauge steel construction with baked-on epoxy finish gives your treatment center a long lasting, professional and aesthetically pleasing look

Fold Down Table

The unique fold down design of our wall-mounted folding exam table features a stationary stainless steel work surface perfect for charts, instruments and client education materials. Plus, a special "gas-assist" lifting mechanism makes raising and lowering the table a breeze. Midmark tables are designed to enhance your workflow and make you, your patients and clients as comfortable as possible.

- Overall length: 42", length with tabletop folded down: 16"
- Width: 24"
- Patient Weight Capacity: 150 lb
- Optional Traction Mat is also available

8012-00-001	Fold Down Exam Table	\$1,025.00
9A549001	Traction Mat Accessory	\$124.00

Note: All Prep/Exam Table prices include stainless steel tops. Call for pricing on other top options.

Canis Major® Lift Tables

Canis Major® Dry

Canis Major® Exam Lift Tables are the finest veterinary lift devices on the market. Ask anyone who owns one.

- Table lowers completely to the floor and rises to 44" high
- Load capacity is 300 lb
- The perpendicular orientation allows for access to both long sides allowing you to be eye-to-eye with your client
- Only the tabletop moves, unlike other units where the tabletop and back move as one piece, so the Canis Major® scale display remains at the same level no matter the position of the table
- Includes safety features that disable the down switches (of which you have three, two hand toggles and a foot switch) if anything is encountered under the table
- Freestanding, requires no bolting to floor or wall and is completely finished including the back
- Extremely sturdy and well balanced
- Includes a warm, non-skid Stat-Mat so pets have a less-stressful experience than with slick, cold stainless steel alone
- Both hand and foot operated motion controls
- Delivered fully assembled and ready for immediate use
- Plug-and-play technology – no messy wires
- The completely sealed units ensure a remarkably quiet actuator operation and require no internal maintenance
- Optional, automatic weight averaging scale is accurate to 50 grams at the lowest level so it's excellent not only for dogs and cats but kittens, exotics and other small species too
- 115V AC, 60 Hz, 10 AMP
- 55-1/2"L x 25-1/2"W x 60"H

CMWO	Canis Major® Dry Table without Scale	\$6,294.00
CMWS	Canis Major® Dry Table with Scale	\$7,288.00

Canis Major® Wet

The Canis Major® Wet Dental/Treatment table is the first adjustable-height lifting wet table. It incorporates many of the design features of our Canis Major® Exam Lift Tables with the benefit of a shallow treatment tub and grate.

- Table lowers to within 9.5" of the floor and rises to 44" high
- Load capacity is 300 lb
- Tabletop moves independently of the back
- Freestanding, requires no bolting to floor or wall and is completely finished including the back
- Extremely sturdy and well balanced
- Convenient two piece grate with optional filler grate available
- The completely sealed units ensure a remarkably quiet actuator operation and require no internal maintenance
- Perpendicular cantilever design allows for access to both long sides so staff may sit with legs and feet directly under the tabletop to reduce fatigue, especially when performing ergonomically challenging dental prophylaxis
- An internal sensor and diaphragm pump automatically drain the treatment tub. A unique, easily-accessible hair trap located under the tabletop eliminates clogging
- Includes an 8-foot lightweight water temperature controlled sprayer for easy cleanup
- Fully assembled and ready for hook-up and immediate use
- Optional, automatic weight averaging scale is accurate to 50 grams at the lowest level so it's excellent not only for dogs and cats but kittens, exotics and other small species too
- 115V AC, 60 Hz, 10 AMP
- 45" Model is 62"L x 30"W x 60"H
- 60" Model is 77"L x 30"W x 60"H

Note - shown with Canis Major® Anesthesia Mount and Matrix VMS® (also available for Matrix VME2®). See pages 3 and 4 for pricing.

Dental Delivery Systems and Accessories

VetPro® 5000

The VetPro® 5000 Wall, Cabinet and Table Mount Dental Delivery Systems from Midmark feature a unique whip-style delivery head that automatically activates the appropriate handpiece during the dental procedure, eliminating the problem of tangled hoses... a Midmark exclusive in veterinary dental equipment! The VetPro® 5000 was designed to support wall mount, table mount and cabinet installations, saving valuable floor space in a crowded clinical environment.

- Whip-style head design provides unprecedented positioning possibilities, ensuring lower user fatigue and improving efficiency during the procedure
- Handpieces automatically activate when pulled forward for use, allowing you to focus on the patient
- Standard high and low speed handpieces as well as integrated Acteon Satelec® Piezo Scaler saves valuable space and further improves efficiency during the procedure
- Standard Midwest 4-Hole connection type
- Fiber optics enable proper lighting
- Integrates with facility's centrally plumbed compressor system and city water
- Maximum distance of head from wall is 76" (193.04 cm)
- Delivery head can be raised or lowered 12.5" (31.75 cm)
- Minimum distance from wall to outermost point when fully collapsed is 31" (78.74 cm)
- 115V AC

VetPro® Solo Dental Compressor System

The VetPro® Solo is a unique, space-saving, oil-less compressor designed to provide air to the VetPro® 5000 wall, cabinet or table mounted dental delivery systems. The footprint of the unit is designed to fit in most fixed height wet tables and includes a quick connect umbilical harness to easily attach to the VetPro® 5000.

- Quiet Operation
- Maintenance-free oil-less compressor means no messy oil changes
- Light weight and easily installed
- Includes external 15 amp 125 VAC outlet
- 2-year warranty
- Dimensions: 12.75 W (32.4 cm) x 20.89 L (53cm) x 11.40 H (29 cm)

8006-001 VetPro® Solo

\$2,700.00

VetPro® 1000

The VetPro® 1000 Mobile Dental Delivery System from Midmark uses our exclusive, oil-free technology. That means there is no oil to contaminate your handpieces, providing a clean, dry, aseptic work environment for you, your staff and your patients. And best of all . . . No more oil changes! That's better for your staff and better for the environment.

- Integrated oil-free compressor means no worries because it eliminates potential oil exposure to patients and messy changes! You will also have to replace your handpieces less often because there is no degradation from oil contamination.
- Handpieces automatically activate when removed from holders allowing you to focus on the patient.
- High and low speed handpieces included.
- Integrated Acteon Satelec® Piezo Scaler saves valuable space and improves efficiency during the procedure.
- Standard Midwest 4-Hole connection type
- Optional fiber optics enables proper lighting
- Quickly toggle between the dual 1-liter water bottles with a flick of a switch without de-pressurizing the system.
- External quick connects for water and air make setup easy.
- Medical grade casters allow you to position the cart where you need it.
- 115V AC
- 10' hospital grade powercord
- 18.5"D x 23"W x 36.5"H

Acteon Satelec® Scaling Tips

Made from the best alloys, exclusive to Satelec®, using patented procedures.

- Corrosion resistant
- Autoclavable
- Calibration: each tip is individually tested and “tuned” using the latest in ultrasonic calibration techniques.
- Spray Control System (SCS): more powerful cavitation, better spray control and perfectly-controlled vibration energy at the end of the instrument.
- Color Coding System (CCS tips): inserts are color coded to show their recommended power range.

VetPro® DR Digital Sensor System

The durable VetPro® DR delivers fast, clean images for diagnosis and client education. 19 µm x 19 µm pixel size, 26 lp/mm theoretical resolution and 4,096 levels of grey give you superior soft-tissue visualization, crown and root definition, and low noise.

No-Hassle installation: VetPro® DR uses the latest USB 2.0 technology. Simply connect the USB cable to your PC, use the quick calibration flash drive to prepare your sensor, and your system is ready to take high quality digital images.

- Cable is Kevlar® reinforced for exceptional durability
- Hermetically sealed, waterproof design means no problems during routine cleaning
- Advanced CMOS technology delivers outstanding image quality
- High speed USB 2.0 connection captures images 37% faster
- Rounded corners means easier positioning in tight spaces for better capture of roots
- 2-year warranty
- Optional Sensor Safe™ Extended Care Program protects your sensor investment against damage not covered by the manufacturer's warranty, for five years
- Integrates with Avimark® Practice Management Software

Imaging Software

Our imaging software makes image capture simple. Select a tooth or tooth set to be imaged, and then click Acquire. Simple!

- Powerful, no-hassle software
- Intuitive and logical interface
- Simplified acquisition
- DICOM formatted images
- Back Up and Restore feature
- 22 practical and useful tools
- Create your own custom templates
- Bridges with most major practice management programs
- Store any digital image
- Integrates with Avimark® Practice Management Software

Use your VetPro® DR System with our own easy to use imaging software. Look and formatting are familiar and easy to learn. Acquire, enhance and store images with ease. Our software features canine and feline tooth templates organized using the Triadan System, is DICOM compliant, and able to work with leading practice management systems and PACS servers.

Feline

Dental Training and Education Network

4 CE Credit Hours!*

Comprehensive, hands-on, half-day training performed in your clinic by a member of the Midmark Animal Health Training and Education Network.

Dental X-ray Positioning Training

This dental X-ray training will get you up and running with your new VetPro® equipment faster than you ever thought possible.

Training topics include:

- VetPro® X-ray generator usage
- Digital imaging software training
- X-ray positioning techniques for both canine and feline patients
- How to overcome common positioning errors
- Proper maintenance and storage techniques

Veterinary Technicians who complete this session will earn 4 hours of CE credits for Dental Radiography Positioning Training.

VI-CSP Dental X-ray Positioning Training

\$1,150**

4 CE Credit Hours!*

Cleaning, Probing and Charting Training

This training will help participants become familiar with best practices for dental cleaning, probing and charting.

Training topics include:

- Preparation - including rinse, before and after photos, proper attire and safety
- Execution - including tools, sub/supra gingival scaling, polishing, probing and charting
- Instrument cleanup, maintenance and care
- Common pathology
- Anatomy review and Triadan numbering system
- Probing technique
- Hands-on practice of prep, scaling and polishing, probing and charting
- Proper use and maintenance of your VetPro® high-speed system

Veterinary Technicians who complete this session will earn 4 hours of CE credits* for Dental Cleaning, Probing and Charting Training.

VI-CPC Cleaning, Probing and Charting Training

\$1,150**

**Pricing for Continental U.S. only.

*These programs were reviewed and approved by the AAVSB RACE program for 4 hours of continuing education in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program if you have any comments/concerns regarding a program's validity or relevancy to the veterinary profession. Provider #436.

Procedure Lights

255 LED Procedure Light Single Ceiling Mount

- Significantly more light intensity than similar products at 7,500 footcandles, an excellent color rendering index of 95 out of 100, and a color temperature of 4,400 K.
- Easily position the light precisely where you want it, and it stays there – no drifting!
- 16 LEDs reflecting evenly off of 1,040 reflective facets will reduce the disruption of shadows while you work, producing an even distribution of light for uninterrupted illumination.
- Turn the light on/off and adjust light intensity from controls on each side of the light head.
- LEDs have 100-times longer life than most halogen lamps while consuming less energy, resulting in significant savings year after year.
- Sleek contours, a sealed light head and an autoclavable handle help to save maintenance time and increase product life.
- IEC/ES 60601-1, CAN/CSA C22.2 60601-1, 60601-2-41, CE Medical Device Directive, RoHS European Directive

255-001	255 Single Mount, 8' (2.4m) ceiling	\$2,950

Multiparameter Monitoring

Cardell® Touch

Accuracy and reliability at your fingertips. Midmark has designed the precision and consistency you expect from the Cardell® name into a fast, light, and intuitive touch screen vital signs monitor.

Above all, an anesthesia monitor should be safe, reliable, and user-friendly. The Cardell® Touch is highly advanced, yet easy to use. With veterinary specific algorithms and exclusive Cardell® Blood Pressure Technology, the Touch is the latest innovation from the most trusted name in veterinary vital signs monitoring.

- 10.5" touch screen makes patient set up faster and easier or use the traditional-style buttons located below the screen
- Redesigned menus and improved controls allow for intuitive navigation
- Smaller, lighter form factor allows for easy transportation without sacrificing visibility
- World Class Cardell® BP, Nellcor™ SpO₂, and upgrade to CO₂ monitoring at any time by adding a Masimo sidestream or mainstream CO₂ module
- Masimo Multigas available
- Enhanced ECG data export capabilities
- USB port for downloading patient data
- Customizable alarm settings for up to three users
- Optional integrated 3-channel graphical printer
- 2-year warranty

The Midmark Soniclean® uses an industrial type ultrasonic stack transducer that allows the unit to perform quietly. Tiny cavitation bubbles are produced with the higher frequency, allowing the bubbles to penetrate smaller crevices. This results in a powerfully quiet ultrasonic cleaner.

The Midmark Soniclean® is extremely easy to operate - simply load your instruments and set the timer.

- The side-mounted external drain is accessible and easy to use
- Three size options
- Chemical resistant plastic body

Soniclean® M150 Ultrasonic Cleaner

- Tank Capacity: 1.5 gal. (5.7 L)
- Tank Size: 11.5" x 6" x 6" (29.21 x 15.24 x 15.24 cm)

Midmark Animal Health Limited Warranty

SCOPE OF WARRANTY

Midmark Corporation ("Midmark") warrants to the original retail purchaser that it will repair or replace components of the animal health products manufactured by Midmark (except for products and components not warranted under "Exclusions") that are defective in material or workmanship under normal use and service. The sole remedy under this limited warranty is the repair or replacement, at Midmark's option, of the applicable products or components. This limited warranty shall only apply to defects that: (i) are reported to Midmark within the applicable warranty period; and (ii) are determined to exist upon examination by Midmark. This limited warranty extends only to the original retail purchaser of a product, and is not transferable or assignable.

APPLICABLE WARRANTY PERIOD

The applicable warranty period for each Midmark product commences on the date of delivery to the original retail purchaser of the product and shall continue for the period specified in the attached Warranty Guide, which Warranty Guide is expressly incorporated herein. References in the Warranty Guide to specific component warranty periods are in place of and supersede the generally applicable warranty period for the product under which the component is listed.

OBTAINING WARRANTY SERVICE

Warranty service must be obtained through either Midmark or an authorized dealer in the Midmark product line for which warranty service is requested. Midmark may be contacted for warranty service inquiries or issues via email at www.midmark.com, by mail to Midmark Corporation, 60 Vista Drive, Versailles, Ohio 45380, or by phone at: 1-800-MIDMARK.

It is the retail purchaser's obligation to arrange for delivery of a product to Midmark or one of its authorized dealers for warranty service, which delivery shall be at retail purchaser's expense. It is also the retail purchaser's obligation to comply with the warranty service instructions provided either by Midmark or its authorized dealer. The retail purchaser must provide Midmark with completed warranty registration information within thirty (30) days after purchase in order to obtain the benefits of this limited warranty.

EXCLUSIONS

This limited warranty does not cover and Midmark shall not be liable for the following:

- (1) defects, damage, or other conditions caused, in whole or in part, by misuse, abuse, negligence, alteration, accident (including animal acts of any kind), freight damage, tampering, or failure to seek and obtain repair or replacement in a timely manner;
- (2) matching of color, grain, or texture except to commercially acceptable standards;
- (3) changes in color caused by natural or artificial light;
- (4) products which are not installed, used, and properly cleaned and maintained as required in the installation and operation manuals for the applicable product (imaging product must be installed by a certified Midmark installer);
- (5) products considered to be of a consumable nature;

- (6) accessories or parts not manufactured by Midmark;
- (7) specially manufactured products;
- (8) charges by anyone (including Midmark's authorized dealers) for adjustments, repairs, replacement parts, installation, or other work performed upon or in connection with such products which are not expressly authorized in writing in advance by Midmark;
- (9) costs and expenses of routine maintenance and cleaning;
- (10) all sinks, faucets, and plumbing accessories;
- (11) representations and warranties made by any person or entity other than Midmark; and
- (12) with respect to software that is a product or a component thereof, that the software will be error free, can be used without problems or interruptions, or will be free from vulnerability to intrusion or attack by viruses or other methods.

EXCLUSIVE REMEDY; CONSEQUENTIAL DAMAGES DISCLAIMER

Midmark's only obligation under this limited warranty is the repair or replacement of defective parts. Midmark shall not be liable for and hereby disclaims any direct, special, indirect, incidental, exemplary or consequential damages or delays including, but not limited to, damages for loss of profits or income, loss of use, downtime, cover, and employee or independent contractor wages, payments, and benefits. This disclaimer shall survive any failure or asserted failure of the essential purpose of this limited warranty or its remedies specified herein.

NO AUTHORIZATION

No person or firm is authorized to create or approve for Midmark any other obligation or liability in connection with Midmark products.

WARRANTY DISCLAIMER

THIS LIMITED WARRANTY IS MIDMARK'S ONLY WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. MIDMARK MAKES NO IMPLIED WARRANTIES OF ANY KIND INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

STATUTE OF LIMITATIONS

No action may be brought against Midmark for breach of this limited warranty, an implied warranty, if any, or for any other claim arising out of or relating to the products, more than ninety (90) days following expiration of the warranty period. In the event multiple warranty periods exist with respect to a product, the ninety (90) day period provided for herein shall begin to run from expiration of the warranty period for the component to which the claim relates.

SEVERABILITY

In the event any provision of this limited warranty is determined to be invalid or otherwise unenforceable: (i) the provision shall be enforced in a manner that closest holds to its intent, while at the same time curing the invalidity or unenforceability, and (ii) the balance of this limited warranty, being severable, shall not be affected in the event the provision that is invalid or unenforceable cannot be enforced in any respect.

Animal Health Products Warranty Guide

This Warranty Guide is not the entire warranty. Please see the applicable Limited Warranty for all other terms, conditions, and limitations.

Ordering Information

Midmark Product Ordering Notes

1. ORDERING

Please include the following with your order:

- Quantity
- Part number
- Description
- Signature of person placing the order
- Approximate shipping date required
- Method of transportation
- Purchase order number

Model number and name of item must be specified on purchase order.

Minimum Order - \$25.

2. SPECIAL DESIGN

Orders for equipment of special design, construction, finish or upholstery are not subject to cancellation after your acceptance of our acknowledgement. Special design products, custom design cabinets and special upholstery WILL NOT be accepted for credit.

3. RETURN OF MERCHANDISE

Authorization must be obtained for the return of any item. If return is authorized, transportation charges must be prepaid. Items returned for credit are subject to a charge of 25% or more to cover inspection, reconditioning and repackaging. Anesthesia accessory returns are not accepted for rubber goods over 30 days old, rubber goods not in original, sealed package and all hoses. Goods without a Return Goods Authorization (RA) and merchandise more than 90 days old (from Midmark invoice date) are also not accepted for return.

Note: Certain items are non-refundable: Specials, Midmark Casework, Ritter Casework, Care Exchange™ Workstations, Discontinued Items or Parts, Custom or Non-standard Colors, Service Upholstery and Service Parts if value is less than \$50.

4. FREIGHT DAMAGE

It is the consignee's responsibility to count and inspect upon receiving. Merchandise arriving with external damage should be described on Proof of Delivery, Delivery Receipt or Bill of Lading. In case of concealed damage, consignee must contact the carrier within 15 days after receipt and claims for damage instituted.

5. IMPROVE PRODUCT QUALITY

Midmark Corporation reserves the right to change design and construction without notice.

6. ORDER CHANGES

Any requested changes to an order within 5 days of the scheduled/acknowledged ship date will result in an extension to the scheduled ship date. The new ship date will be re-scheduled/acknowledged based on the extent of the changes requested.

7. CASEWORK ORDER CHANGES

Any order changed within 3 weeks prior to the scheduled ship date will result in a change of ship date and may incur additional costs. Any order cancelled within ten days before the scheduled shipping date will be charged a 20% cancellation charge.

8. SPECIAL ORDER REQUIREMENTS

Any order requiring special deviation from standard products will carry the following disclaimer:

We hereby accept and acknowledge the above captioned order provided, however, because of the special nature of this order in that this equipment is being supplied upon special design specifications, special materials, and/or field modification, as per your request, the standard warranties of Midmark on its products are not applicable to the order, and this acceptance and acknowledgement is conditioned upon your indemnification and promise to hold Midmark, its officers, employees and agents, harmless in respect to any and all warranty claims, damages, both direct and consequential, expenses, costs, and any liability arising from the use of or relating to this special equipment.

9. ANESTHESIA SERVICE AND REPAIR POLICY

Midmark offers evaluation and repair service on Matrix® anesthesia equipment including Ohmeda, Faser Harlake, Fraser Sweatman and Cyprane TEC 3. Products returned for repair require a return authorization (RA). Contact Customer Experience at 1-800-643-6275, ext. 8951, to obtain an RA number. Send the product freight prepaid.

Vaporizers returned for servicing also require an RA. A purchase order number must accompany the vaporizer. Subsequent to servicing, each vaporizer has a separate service and performance record established which is placed on file in the Midmark Vaporizer Service Center in Versailles, Ohio. Should the need arise to verify that your equipment has been maintained to manufacturer's specifications, we will be happy to supply this information.

10. IMAGING ORDER INFORMATION

Imaging products are not available through all Midmark authorized dealers. Please contact Midmark Animal Health Customer Experience if you need assistance locating an authorized dealer in your area.
