Nature 2 Mineral Sanitizer

Using a Nature2 Purifier means you can significantly reduce the use of harsh chemicals like chlorine in your pool. Continuous use of Nature2 in your pool means less suspended matter and a more consistent pH balance. Just think-no more red, stinging eyes, bleached hair or harsh chemical odors. Maintaining a pool with Nature2 is much simpler than using traditional chemical treatments. The Nature2 Purifier works automatically and requires no electricity. Pool owners who have switched from chemical programs happily report that they are now spending considerably less time maintaining their pools with Nature2. This means more time for you to enjoy your pool and its fresh, clean water.

EZ Vac

The EZ Vac has only one moving part for long, dependable service. It works in virtually all aboveground pools. Some aboveground pool cleaners work only on flat pool bottoms. The E-Z Vac works flawlessly in both flat and dish-shaped bottom pools with a banked or radius cove. It cleans using a true random-pattern coverage that ensures that every inch of your pool's floor is vacuumed thoroughly.

Polaris 65

Our best above ground pool cleaner is powered by the pressure of clean water returning to your pool. The Polaris 65 vacuums the bottom and sweeps the sides of any aboveground pool in three hours or less, even if you have an uneven-bottom pool up to five feet deep. The 65 can be installed in minutes and is designed to operate with the pumps and filtration systems normally found in aboveground pools. It loosens debris in hard to reach places and traps large debris, like pebbles and leaves, in its own filter bag. The Polaris 65 includes 24' of hose, enough for a 27'rd pool. The Polaris 65 comes complete with a 1 yr manufacture warranty.

Mosquito Magnet®

How Does the Mosquito Magnet® Work?

Female mosquitoes and other biting insects bite humans in order to get blood to lay their eggs. They are attracted to humans by the carbon dioxide (CO2) we exhale. The Mosquito Magnet® mimics a human by catalytically converting propane to CO2, heat and moisture. As the mosquitoes are drawn to the trap thinking it's a human, they get vacuumed into the trap where they dehydrate and die within about 24 hours. The Mosquito Magnet® doesn't use lights or sticky tape to catch mosquitoes, just science.

When properly placed in your yard, the trap begins catching mosquitoes and other biting insects immediately. Noticeable results are achieved in 7 to 10 days. To greatly reduce your biting insect population, allow 4-6 weeks of continuous use.

EZ Spa All in 1 Spa Chemical

Why settle for traditional non-chlorine shock when just ounces of E-Z Spa OM™ only "once-a-week" also clarifies and softens water, relieves balance anxiety, eliminates chemical odors and foaming, and inhibits hardness scaling ... all with the economy of monopersulfate!

Benefits: Use only ounces "once-a-week" to provide clarity, balance stability and soothing water for bathing. Replaces need for monopersulfate (non-chlorine shock), foam out, clarifier, scale preventative, and pH lock (pH perfect), and chemical filter cleaners.

Advantages: Economical, balanced, dependable ... "once-a-week" simple. Keeps water beautifully clear. Eliminates chemical odor and foaming. Inhibits hardness scaling on equipment and spa surface.

Solar Blankets

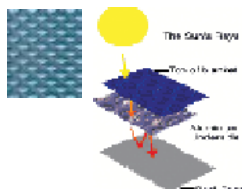

Above Ground Solar Blankets

Blue/Blue

Our blue/blue blanket material works with the sun to catch and retain heat. Include a white protective cover.

Blue/Silver Diamond

Our Diamond Space Age blanket with aluminum heat shield collects heat from the sun's rays similar to a traditional solar blanket. With the silver bottom, heat is reflected back into the pool. With its diamond shaped bubbles the blanket will retain up to 23% more heat than a standard blanket.

How Solar Pool Heating Works

- Using the pool pump, water is automatically pumped through the solar collectors
- The water is then heated as it moves through the collectors.
- The heated water is returned back to the pool, through the return lines.

ChlorEase Salt Chlorine Generator for Above Ground Pools

FINALLY. An economical way to make chlorine for above ground pools! ChlorEase Saltwater Chlorinator For Above-Ground Pools uses the same saltwater chlorination technology as all other salt chlorine generators in the market. Chlorine is produced on-site by the electrolytic breakdown of salt in the water. The ChlorEase unit is submerged in the pool water rather than plumbed in-line with the filtration system and is designed for above-ground pools only. ChlorEase saltwater chlorinator is a stand-alone sanitizing system that attaches conveniently beneath the top rail of both new and existing pools, and hangs down along the inner pool wall. It plugs into any 110 Volt GFI protected outlet.

Features:

- Produces chlorine right in the pool - automatically & continuously
- Can be used with all chemicals used in chlorine-maintained pools
- Affordably priced for the aboveground pool owner
- Treats aboveground pools up to 18,000 gallons
- Easily installs on new and existing pools - no plumbing required
- Uses any 110V GFI protected outlet
- Limited 3-year warranty
- ETL Listed
