

Wireless Headset

Congratulations on your purchase of the **RF-GPS31104** wireless headset. This headset represents the state of the art in wireless headset design and is designed for reliable and trouble-free performance.

Package contents

- Wireless headset
- Charger
- *Quick Setup Guide*

Product features

Charging the battery

Peel off the protective plastic film on the front of the headset, then charge the headset before using.

- Connect the smaller end of the micro USB cable (included) to the opening on the end of the headset. To connect the cable to a power source, either connect the larger end of the cable to a USB port on your computer, or to the included wall adapter, which you then plug into a wall outlet. If you charge with your computer, make sure the computer is powered on. While the battery is charging, the indicator lights red. When the battery is fully charged, the indicator lights yellow-green.

Note: Charge the headset with attached USB cable and provided wall charger only.

Turning the headset on and off

- 1 To turn on the headset, press and hold the power button for about two seconds. The headset beeps and the indicator blinks yellow-green.
- 2 To turn off the headset, press and hold the power button for about four seconds. The headset beeps and the indicator briefly lights red.

“Pairing” Your headset

Your new Rocketfish Bluetooth wireless headset needs to be paired to your PS3. Turn your PS3 off on the back for about 10 seconds and then back on. Power on your PS3 console with the touch power button on the front of the PS3.

Find the *Settings* menu and press **X** on *Accessory Settings*. Press **X** on the icon labeled: *Register Bluetooth® Device*.

Scroll down and press **X** on the icon labeled *Manage Bluetooth Devices*. Select **Yes** to register a new device (if this is the first time registering a Bluetooth device) then press **X** on *Start Scanning*.

Now prepare your Rocketfish Bluetooth wireless headset to be paired with the PS3 by holding down the **Power/Send/End button** (the entire top area) on the Rocketfish Bluetooth wireless headset for about 8 seconds. The LED on the device will start flashing a continuous green. Once scan is complete, the PS3 will recognize all Bluetooth devices within

range. This device will be recognized as **RF-QX3**.

When prompted for a pass key, enter **0000** (four zeros) as the Pass Key and press **X** on *OK*.

You should then be taken to a new screen stating *Register completed*. Press **O** and go to *Audio Device Settings*. Within Input Device find your new paired Rocketfish Bluetooth wireless headset device identified as **RF-QX3**. Then set your microphone input levels to the desired settings (We suggest level 3). The headset will now be connected. This will complete the pairing process.

Wear it how you like it

The **RF-GPS1104** is ready to wear on your right ear. If you prefer the left, gently remove and flip over the ear loop. Gently snap the ear loop back on to the headset and rotate into position.

FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
