

UK PRICE LIST MAY 2010

# COMMERCIAL AUDIO PUBLIC ADDRESS

## COMPONENTS AND SYSTEMS

the rules of sound

ENG 2010

## Welcome to our 2010 edition Illustrated Price List / Short form Catalogue for Commercial Audio Public Address Systems.

The products within this listing are 'preferred stock' items held within our Central European Warehouse. Normally these are ex stock and delivery time is around 4 to 5 working days. For Engineered Sound System Products, delivery times are to quotation.

### RCF The Company:-

#### The sound of the future is based on solid roots

RCF was founded in 1949 in Reggio Emilia, an Italian city with excellent mechanical and electronic industries. Over the years the company has established itself as a world leader in design, production and marketing of high technology Professional and Commercial Audio products.

Throughout its history the company has continued to expand and diversify to satisfy every audio and musical amplification need: from single systems to big, complex projects.

For sixty years the main administrative and production facility has been in Reggio Emilia where the company has a highly professional and specialized personnel.

RCF markets its products through sales offices in the United Kingdom, Germany, France, Spain and United States. In the rest of the world the Company operates through a consolidated, capillary network of distributors.

Today RCF employs more than 250 people and sells its products in more than 100 countries worldwide.

Since 1995 the company has been ISO 9001 certified

### Contact

To contact us by telephone, we operate a really easy to use auto system. Simply Telephone 0844 745 1234  
If you require 'SALES' press button 1: If you require 'SERVICE & SPARES' press button 2: If you know the extension number of the person you wish to speak to just press 3:

#### PHIL PRICE

*UK Director of Sales*

Telephone: Option 3 - Extension 1001

Phil looks after the following sales divisions:-

Installed Sound: Commercial Audio:Acustica Speaker Systems: Forum Congress Solutions: Precision Transducers

#### GREG OLIVER

*Technical Sales Consultant*

Telephone:- Option 3 - Extension 1002

Greg's main task is to support RCF's dealer and distributor network, which includes on site demonstrations of the larger speaker ranges including Acustica, 4PRO and the newly launched Touring & Theatre,TT+

#### DEAN DAVOILE

*MI/PRO Sales division*

Telephone:- Option 3 - Extension 1004

Dean looks after our MI/PRO Sales division. Contact for Art Series Sales in the 'Music Industry' markets.

#### LINTON SMEETON

*Commercial Audio Sales*

Telephone:- Option 3 - Extension 1005

Linton is responsible for new business within our Commercial Audio and Installed Sound Sales Divisions.

#### MICK WILLIAMS

*Technical Manager*

Telephone: Option 3 - Extension 1003

For all technical support enquiries, including Commercial Audio System Design and Advice

#### SALES

Telephone: Option 1

Please contact 'Sales' for all stock inventory enquiries, placing and progressing orders etc. You can also talk to our Technical Support Team who will be pleased to assist with System Design and Full Integrated Quotations for all our product lines

#### SERVICE AND SPARES

Telephone:- Option 2

This will connect you through to our dedicated UK Spares and Service Centre Organisation which is operated by

<http://www.audio-workshop.co.uk>

**MONITOR Q Series - ARCHITECTURAL SPEAKER SOLUTIONS**

CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
----------	-------------------	-------------------------------

The Monitor Q Series is an additional family to add to the outstanding versatility of the RCF Monitor range of speakers that offers modern industrial design along with impeccable acoustic engineering in order to provide the Sound Contractor with an additional choice of fashion orientated compact installation speaker systems.

RCF Engineers have worked to create a true combination of design and acoustics with 'installation friendly' mounting and fixing systems to please both the Sound Contractor, architect and end customer. Available in different colours, all models can be easily re-painted to match any décor. A complete line of mounting accessories is also available to assist the contractor.

**MINIATURE TWO-WAY COAX 3,5" SPEAKER**

- Type of Speaker: two way coax.
- Speaker: woofer 3,5" tweeter 0,75" dome
- Sensitivity: 88 dB SPL 1W/1m
- Frequency response (-10dB): 160 - 20000 Hz
- SPL: 102 dB
- Power/RMS: 24/12 W Bypass
- Constant voltage: 70,7 - 100 V
- Impedance: [Bypass] 16 Ohm
- Line transformer [100V]: 12W - 6W - [70,7V]: 6W - 3W
- Crossover frequencies: 5400 Hz - High pass filter at 150 Hz Crossover: 6/6 dB/oct
- Angle of coverage: 120° horizontal x 120° vertical
- Cabinet: Hi-density polystyrene HB grade - Connectors: Euroblock
- Dimension (W x H x D): 100 x 100 x 186 mm - Weight: 1,1 Kg

130.00.056	<b>MQ 50-W White</b>	<b>113,00</b>
130.00.070	<b>MQ 50-B Black</b>	<b>113,00</b>
130.00.069	<b>MQ 50-S Silver</b>	<b>113,00</b>

**MONITOR SPEAKER AT CONSTANT DIRECTIVITY**

- Type of Speaker: Two way Bass reflex
- Speaker: woofer 5" - tweeter 0,75" dome
- Sensitivity: 89 dB SPL 1W/1m
- Frequency response (-10dB): 100 - 20000 Hz
- SPL: 110 dB
- Power/RMS: 120/60 W Bypass
- Constant voltage: 70,7 - 100 V
- Impedance: [Bypass] 16 Ohm
- Line transformer [100V]: 30W - 20W - 10W - 5W - [70,7V]: 15W - 10W - 5W - 2,5W
- Crossover frequencies: 4500 Hz
- Crossover: 12/12 dB/oct
- Angle of coverage: 120° horizontal x 90° vertical
- Protection: Dynamic on woofer and tweeter
- Cabinet: Hi-density polystyrene HB grade - Connectors: Euroblock
- Dimension (W x H x D): 165 x 245 x 175 mm - Weight: 2,6 Kg

130.00.060	<b>MQ 60H-W White</b>	<b>145,00</b>
130.00.072	<b>MQ 60H-B Black</b>	<b>145,00</b>
130.00.071	<b>MQ 60H-S Silver</b>	<b>145,00</b>

**WIDE DISPERSION MONITOR SPEAKER AT CONSTANT DIRECTIVITY**

- Type of Speaker: Two way Bass reflex
- Speaker: woofer 5" - tweeter 2 x 1" dome
- Sensitivity: 85 dB SPL 1W/1m
- Frequency response (-10dB): 100 - 19000 Hz
- SPL: 106 dB
- Power/RMS: 120/60 W Bypass
- Constant voltage: 70,7 - 100 V
- Impedance: [Bypass] 16 Ohm
- Line transformer [100V]: 30W - 20W - 10W - 5W - [70,7V]: 15W - 10W - 5W - 2,5W
- Crossover frequencies: 2600 Hz
- Crossover: 12/12 dB/oct
- Angle of coverage: 180° horizontal x 120° vertical
- Protection: Dynamic on woofer and tweeter
- Cabinet: Hi-density polystyrene HB grade - Connectors: Euroblock
- Dimension (W x H x D): 198 x 297 x 125 mm - Weight: 2,8 Kg

**ACTIVE ART i Series FOR INSTALLATION**

CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
----------	-------------------	-------------------------------

During the last ten years RCF transitioned into the fore front of active loudspeaker technology, from the introduction of the original ART series to many prominent active products conceived and designed in our laboratories.

We have over the years grown to understand the best ways to use the extra degree of freedom that an active system offers and in interpreting how this technology affects the transducer design. Our research and engineering faculty can today offer innovative projects with finite control of each detail, from the loudspeaker voice coil wire to the highly efficient extended dynamic amplifier topology. There are many different ingredients that go into creating quality products and systems. These include computer aided simulation software to assist the understanding of transducer behaviour and amplifier operation and the relationship of dynamics and transient response. RCF utilise over thirty state of the art software packages to identify magnetic circuits, voice coil dynamics, suspension linearity, horn dispersion simulation, crossover filters, amplifier thermal behaviour etc.

However it is the vast technical and practical experience that our Research and Engineering team posses that ensures the quality of our products plus placing RCF as the market leaders in True Active Loudspeaker Technology and transducer development.

**130.00.079**

**ART 310-Ai**

**449,00**

**TWO-WAY ACTIVE SPEAKER LF 10" - HF 1"**

- 350 watt Monolithic bi-amplification, 300 watt low frequency and 50 watt high frequency power
- 127 dB max SPL
- Wide dispersion, 90° x 70° low distortion, constant directivity horn
- 10" high power woofer, 64mm in/out aluminium coil
- 1" neodymium, high frequency driver
- Electronic equalization, phase alignment, limiter and protection
- Mic/Line XLR input, XLR signal output
- 1 comfortable top handle for easy transportation and positioning
- Two M10 fly points and built in pole mount adaptor
- Dimensions: (H x W x D): 537x337x315 mm

**130.00.010**

**ART 322-Ai**

**765,00**

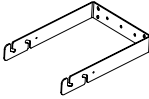

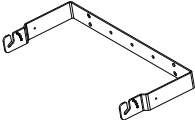

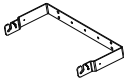

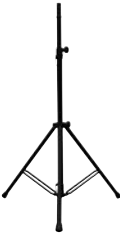

**TWO-WAY ACTIVE SPEAKER LF 12" - HF 2"**

- 420 watt Monolithic bi-amplification, 350 watt low frequency and 70 watt high frequency power
- 128 dB SPL peak
- Wide dispersion, 90° x 60° low distortion, constant directivity horn
- 12" high power woofer, 75mm inside/outside aluminium coil
- 2" neodymium, titanium dome, high frequency driver
- Electronic equalization, phase alignment, limiter and protection
- Mic/Line XLR/Jack input, XLR signal output
- 2 side handles and 1 ergonomic top handle for easy transportation and positioning
- Four M10 fly points and built in pole mount adaptor
- Optional Infrared remote control for volume, mute and Eq adjustment.
- Dimensions: (H x W x D): 680x405x345 mm

CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
121.35.071	UP 2081	265,00
121.35.060	UP 2161	330,00
121.35.061	UP 2321	560,00

**POWER AMPLIFIERS**

- Power Amplifier designed for the transmission of announcements and / or musical programmes
- Three models with identical features, but the nominal power:  
UP 2081 is a 80 W amplifier; UP 2161 is a 160 W amplifier;  
UP 2321 is a 320 W amplifier
- Main input on either removable connector or XLR or RJ 45 (for quick connection of an RCF BM 3001 paging microphone through CAT5 cable)
- AUX Input for music sources (e.g. CD players, tuners, etc.) on dual RCA connector
- Controls for treble, bass and Gain on the AUX Input
- Main Input can have priority over the Aux Input (by means of an external command linked to the removable connector)
- Main Input has a 'presence' control and a separate high-pass filter which are useful for improving speech intelligibility
- Output speaker available either for low impedance loudspeakers (min. 4 Ω) or 100 - 70 V constant voltage line (for loudspeakers having 100 - 70 V transformers)
- Front panel LEDs indicate the device state (ON, PROT), the priority activation (PRIOR) and the signal/peak level (SIG/PK)

121.35.065

**UP 2162**

**160 W DUAL CHANNEL POWER AMPLIFIER**

- UP 2162 is a dual channel power amplifier, each amplifier has two inputs on removable screw terminals.
- A priority system can be activated to get one input priority on the other one.
- Each amplifier has a master volume control and in BASS-TREBLE tone controls.
- Front panel LEDs indicate the device state (ON, PROT), the priority activation (PRIOR) and the signal / peak level (SIG/PK).
- Nominal power is 2 x 160 W; each amplifier output is available either for low impedance loudspeakers (min. 4 Ω) or 100 - 70 V constant voltage line (for loudspeakers having 100 - 70 V transformers).

620,00

121.30.007

121.30.005

**UP 4482**

**480W POWER AMPLIFIER**

- Amplifier 480W RMS with constant voltage outputs

1.071,00

- Electronic protection circuits on voltage-current-temperature active on the final stages and for fan stop
- 1 balanced input on XLR and on terminal strip, priority circuit
- 1 balanced/unbalanced input on RCA connector and on terminal strip, adjustable gain
- Master volume control on front panel, removable knob
- 3-band tone control, semi-parametric on the mid tones (selectable on 6 octaves), on the rear panel
- Cooling by thermostat controlled side fan.
- Power supply 230Vac and emergency power supply in direct current (24Vdc)
- Rack mount using optional AR 1052-N accessory

CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
----------	-------------------	-------------------------------

**RCF***Ambiente*

**DIGITALLY CONTROLLED INTEGRATED MULTI-ZONE MUSIC/PAGING SYSTEM**

**121.35.043**

**MS 520**

**878.00**

**AMPLIFICATION AND CONTROL UNIT**

- MS 520 contains all the functions required by a system for distributing different musical programmes in homes and commercial premises.
- Three different musical programmes and one for paging can be transmitted in five mono zones, or alternatively 3 mono zones and one stereo zone, one of which is in stereo.
- It is also possible to extend the number of zones to ten using a simple connector to interlink two systems.
- Five amplified 20 W / 4 ohm outputs, each also available as full-range or low-pass signal at line level on RCA connectors for driving external final power stages when the areas to be covered are particularly large.
- For each of the five zones, a direct auxiliary input is available for connecting sources such as CD players, wireless microphones, or mixers to be used exclusively for one zone/room.
- The back-lit display and function keys make it possible to access all the menus for configuring and adjusting the system: Volume, Tone, Loudness, Output settings, VOX. The display also provides information by means of LED indicators.
- The universal MIC-LINE input can be used for paging selectively or in general mode, with the possibility to have an acoustic signal precede the announcement.
- The VOX function can be associated with one zone configuration to work without the need for pressing keys or closing contacts (e.g. from a suitable private telephone exchange).
- One music source input can be given priority over the other sources: when activated, this source automatically overrides the current ones being played in each zone.
- A pre-announcement signal controlled by an intercom system, for example, can be sent to the active zones.
- For each zone, an RJ 45 connector enables the connection of remote controls (3 per zone) via CAT5 cable for volume control, changing the musical programme, and activating the direct input or switching off the sources. Installable in any electrical mounting box using the original local country supports and cover-plates.
- Power outlet controlled by the system for switching the sound sources on/off by remote control.
- Black label provided for front panel.

**133.60.039**

**REMOTE CONTROL UNIT FOR RCF AMBIENTE MS 520**

- Designed to be simply inserted into any 503 flush-mount box using original standard supports and cover-plates that can be found on the market.
- Unit of keys with functions of volume, mute, programme change, and remote switch-off of sources that can be connected to the MS 520 system using CAT5 cables and RJ 45 connectors.

MUSIC SOURCES AND COMBINATION MUSIC SOURCE AMPLIFIERS

PAGING MICROPHONES

	CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
	143.20.135	<b>BM 3014</b> <b>PAGING CONSOLE</b> - Cardioid dynamic microphone on 320mm gooseneck - Pushbutton for momentary microphone activation - Factory set for direct connection to the E.L.I.S.A 2126 Tuner CD amplifier. AM 1000 series and AM 4000 series amplifiers - 5-metre cable with XLR connector and two auxiliary conductors for controlling priority function and acoustic pre-announcement signal, where present - Body in plastic, RAL 7021 grey, heavy metal bottom closure - Dimensions "132 x 200 x 70mm (excluding gooseneck)	82,00
	141.15.005	<b>MC 5030</b> <b>COMPACT TABLE-TOP MINIATURE MICROPHONE UNIT</b> - Excellent speech intelligibility - Electret cardioid microphone on 300 mm gooseneck - Pushbutton with LED indicator for locking microphone activation (ON /OFF) - Phantom power supply 9-48V - 3-metre cable with XLR connector and two auxiliary conductors for controlling priority function and acoustic pre-announcement signal, where present - Colour: RAL 9005 black - Dimensions (Ø x H): Ø160 x 340mm	124,00
	143.22.008	<b>BM 3001</b> <b>PAGING CONSOLE</b> - Compact single zone paging microphone - Electret high quality gooseneck microphone - Powered through Phantom or ES 3160 - PTT button with LED indicator, smart-touch facility when connected to ES 3160 & all 2000 Series Mixer Amplifiers - CAT 5 FTP connection, 5 m cable provided	78,00
	143.22.012	<b>BM 3003</b> <b>MICROPHONE BASE FOR ES 3323</b> - Microphone console with 3 zones selective facility - Three zone buttons with LED indicators - One PTT button with "smart" function and a LED, indicating when microphone is active. - One bi-color LED shows when microphone is correctly powered and when system is busy since other inputs or other paging consoles are engaging it. - All connection to ES 3323 and to next BM 3003 (up to 3 per line) are made with CAT 5 type cable and RJ 45 connectors - The BM 3003 can be also connected at long distance since they have the possibility to be supplied locally by using a simple 24VDC power adapter F - For use with the ES3323	212,00
	143.20.125	<b>BM 3002</b> <b>PREAMPLIFIED PAGING CONSOLE WITH PRE-ANNOUNCEMENT CHIME GENERATOR</b> - Electret cardioid microphone on 320 mm gooseneck - Pushbuttons for momentary and locking microphone activation, LED indicators - Auxiliary input for series connection of thirty BM 3002 consoles, priority/interlocking circuit available on each console - Built-in pre-announcement chime generator - Line level output, connections on screw terminals inside the console - Mains power supply 230Vac or with external batteries 24VDC - Body in plastic, RAL 7021 grey, heavy metal bottom closure - Dimensions: 132 x 200 x 70 mm (excluding gooseneck)	234,00
	143.20.013	<b>BM 3013 XLR</b> <b>PAGING CONSOLE WITH PRE-ANNOUNCEMENT CHIME GENERATOR</b> - Cardioid dynamic microphone on 320 mm gooseneck - Pushbutton for momentary microphone activation, LED indicator - Built-in pre-announcement chime generator - Factory set for direct connection to amplifiers of the AM 1000 series and ELISA 2126 - 5-metre cable with XLR connector and two auxiliary conductors for controlling priority function and acoustic pre-announcement signal, where present - Power supply 230Vac or 24VDC - Body in plastic, RAL 7021 grey, heavy metal bottom closure - Dimensions: 132 x 200 x 70 mm (excluding gooseneck)	185,00

MICROPHONES

	CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
	141.15.014	<b>MD 7600</b> <b>UNIDIRECTIONAL DYNAMIC MICROPHONE</b> - 3-pole XLR connection - Anti-pop filter - ON/OFF switch with safety block insert - Enhanced voice intelligibility - 5 metre balanced and shielded cable included	56,00
	141.15.013	<b>MD 7800</b> <b>UNIDIRECTIONAL DYNAMIC MICROPHONES</b> - Recommended for professional systems - Microphone wire (balanced and enclosed), 5 m, with XLR connections - Internal anti-pop filter - Excellent reproduction of speech and live vocals	82,00
	141.15.020	<b>MC 4040</b> <b>GOOSENECK ELECTRET MICROPHONE</b> - Double joint gooseneck, 670 mm long - Installation on desks (with or without hole), lecterns, mic. floor stands - It has two switches (PUSH, LOCK), a red ring lamp that is lit when the microphone is activated, a high-pass filter with a switch to cut frequencies below 100 Hz. - Phantom power supply (12 ÷ 52 V) - 3 m screened and balanced cable with XLR connectors for linking to a mixer / amplifier, with 2 additional wires for command - Polyurethane foam wind screen - Dimensions (Ø x H): Ø21 x 672mm	160,00
	141.10.079	<b>MT 3100</b> <b>LOW PROFILE TABLE-TOP PANORAMIC MICROPHONE</b> - Particularly suitable for picking up or recording speakers seated at the same table - Electret omnidirectional microphone on elastic suspension - Electronic filter for suppressing noise caused by vibrations transmitted from the support surface - Multistandard phantom power supply, LED indicator for microphone ON - 5-metre cable with three-pole male XLR connector - Plastic body, metal mesh and base - Colour: RAL 7021 anthracite grey - Dimensions (Ø x H): Ø120 x 27mm	94,00
	141.10.080	<b>MT 3200</b> <b>LOW PROFILE TABLE-TOP SEMICARDIOID MICROPHONE</b> - Gives the speaker a broad range of movement on a very wide angle - Electret semi-cardioid microphone - Microphone on elastic suspension - Electronic filter for suppressing noise caused by vibrations transmitted from the support surface - Multistandard phantom power supply, LED indicator for microphone on - 5-metre cable with three-pole male XLR connector - Plastic body, metal mesh and base - Colour: RAL 9003 white - Dimensions (Ø x H): Ø120 x 27mm	131,00
	143.40.017	<b>CA 5XX</b> - Microphone cable with XLR connectors. Length 5 metres	19,00

FLEXA SYSTEM POWER AMPLIFIERS AND ACCESSORIES

121.35.022	<b>UP 6081</b> 80W MODULAR POWER UNIT - 80W (1 FLEXA slot)	154,00
121.35.021	<b>UP 6241</b> 240W MODULAR POWER UNIT - 240W (2 FLEXA slots)	234,00
121.35.036	<b>UP 6481</b> 480W MODULAR POWER UNIT - 480W (3 FLEXA slots)	433,00

- High quality audio
- High efficiency topology
- Automatic cut-out system that isolates a faulty amplifier from the rest of the system so as not to affect the other devices
- 2 balanced/unbalanced inputs on terminal strip
- Two input circuits with priority (for alarm circuits)
- Volume control and mono-stereo connection on input 2
- Volume and equalisation controls on the front panel (the volume knob is removable; the tone controls have a cut off switch)
- LED indicators for volume/peak and status (OVERLOAD, OVERHEAT, FAULT)
- Removable Euro-block connectors
- Connector for audio and diagnostics interface

121.35.023	<b>PS 6320</b> 320W POWER SUPPLY (2 FLEXA SLOTS)	271,00
121.35.037	<b>PS 6640</b> 640W POWER SUPPLY (3 FLEXA SLOTS)	463,00

- Synchronisation to prevent interference with other power suppliers installed close to each other
- Total protection with auto cut-out
- LED indicators for OVERLOAD and OVERHEAT
- Switch and indicators for ON – Stand-By
- Master switch on rear panel
- Factory-set to work with 24VDC adapter/battery charger/tester module (1 slot)
- Connector for diagnostics interface

121.35.035	<b>PB 6024</b> 24V ADAPTER - 24VDC adapter module (1 FLEXA slots) - Dedicated to be interfaced with FLEXA power supply units PS 6320 or PS 6640 - Allows 24VDC back-up operation according to BS 5839-8 and EN 60849 - Full Battery Charging facility - Full Battery Diagnosis System - Connector for diagnostics interface	262,00

FLEXA SYSTEM CONFIGURATION EXAMPLES

OPERATING VOLTAGE

Basic configurations	NECESSARY FLEXA COMPONENTS (230 V ac)							230 V ac + 24 V dc (with battery check and recharging)	NOTE				
	PS 6320	PS 6640	UP 6081	UP 6241	UP 6481	MF 6000	BP 6010	PB 6024	Available power for additional amplifiers	Free slots ----- PB 6024 no    yes	Configuration price 230 Vac	Configuration price 230 Vac + 24 V dc	
1x 480 W		1			1	1	1	1	160 W	4	3	1.100,00	1.362,00
1x 240 W	1			1		1	1	1	80 W	6	5	709,00	971,00
1x 160 W	1			1 <sup>1</sup>		1	1	1	160 W	6	5	709,00	971,00
2x 240 W		1		2		1	1	1	160 W	3	2	1.135,00	1.397,00
2x 160 W	1			2 <sup>2</sup>		1	1	1	-	4	3	943,00	1.205,00
4x 80 W	1		4			1	1	1	-	4	3	1.091,00	1.353,00
6x 80 W		1	6			1	1	1	160 W	1	-	1.591,00	1.853,00

<sup>1</sup>max. delivered power considered in this example: 160 W

<sup>2</sup>max. delivered power: 160 W per module

The configurations shown above are just a few out of many possible combinations. We suggest to choose the amplifier modules first, then the power supply modules according to the effective power needed by loudspeakers, in order to take advantage of flexa system.

<b>DXT 5000 SYSTEM</b>		
171.70.122	<p><b>MU 5100</b></p> <p><b>MAIN UNIT DXT 5000 WITH 4 PAGING INPUTS AND EVAC EXTENSION</b></p> <p>The completely digital DXT system can monitor connected devices, analogue and digital inputs and outputs in accordance with EN60849 standards. It can run in "active speaker" mode, activating the loudspeakers with a SC 5926 card, or operate in "100V mode" using the special MT 5708 interface. It is a system that can be configured with a front panel that has 6 buttons and a LCD display or, even easier, with its graphic interface that can be installed on every PC (requires Windows 2000 or XP). The system is designed to satisfy the needs of PA systems of any size, thanks to the modules and devices that can be implemented. The sound performance features professional quality frequency, dynamics and latency.</p>	4.946,00
		
171.70.123	<p><b>MT 5708</b></p> <p><b>AMPLIFIER AND SPEAKER LINE MANAGEMENT UNIT FOR THE DXT SYSTEM</b></p> <p>The amplifier and line control unit is a fundamental part of the DXT system when used in 100V configuration. The MT 5708 can manage up to 8 power amplifiers as well as 2 directly connected reserve amplifiers and another 2 reserve amplifiers that are shared with other MT 5708 units. When running on 100V, any reserve amplifiers can be inserted in the same rack or shared with the adjacent rack. The main functions of the MT 5708 are</p> <ul style="list-style-type: none"> <li>- Convert digital audio signals to analogue signals</li> <li>- Distribute analogue signals, at 0dB, converted to constant voltage amplifiers</li> <li>- Verify if there are any errors in the amplifiers</li> <li>- Verify that the constant voltage lines (70/100V) are integrated</li> <li>- Insert local or remote reserve amplifiers if active amplifiers malfunction</li> </ul>	3.876,00
		
171.70.132	<p><b>PI 5114</b></p> <p><b>ADDITIONAL PAGING INPUT BOARD</b></p> <p>It provides 4 additional input lines for the connection of master paging microphones model BM 5802 and BM 5804. The power supply of the microphone console is carried out via the same bus within a certain distance.</p>	353,00
		
171.70.133	<p><b>AO 5104</b></p> <p><b>ADDITIONAL ACTIBUS OUTPUT BOARD</b></p> <p>It provides 4 ActiBus outputs for the connection of amplifier management units or, through an additional 500W power supply device PU 5218 for extending the number of speaker boards SC 5926 connected to the system.</p>	320,00
		
171.70.135	<p><b>PU 5218</b></p> <p><b>500 W ACTIBUS POWER SUPPLY UNIT</b></p> <p>Provide 500 W power supply for AO 5104, Actibus output board. To be used for powering 4 lines 125W each, for the connection of additional SC 5926 boards on MU 5100. The module is equipped with external 48 VDC input for back-up purpose.</p>	1.432,00
		
171.70.43	<p><b>DR 5301</b></p> <p><b>ACTIBUS LINE DATA REPEATER</b></p> <p>It can be used to regenerate the digital signal when long connections are used, for instance to connect active items such as MT 5708, in the far distance from the MU 5100. Two or more distributed units can be connected in daisy chain to reach great distances. Mounting accessory and stand provided.</p>	810,00
		
171.70.142	<p><b>PB 5310</b></p> <p><b>ACTIBUS LINE POWER BRIDGE</b></p> <p>It can be used to regenerate the digital signal and the power supply when the power absorption in the ActiBus line exceeds the 100 W generated by the MU 5100, or for the connection in the far distance of ActiBus power items such as the SC 5926. Two or more distributed units can be connected in daisy chain. Power supply, stands and mounting accessories provided.</p>	1.460,00

143.22.007	<b>BE 5808</b> <b>8 ZONE/DXT SYSTEM GROUP EXTENSION MODULE</b>  The BM 5802 and BM 5804 are bases that are equipped with a microphone and can be directly connected to the MU 5100 central unit; the BE 5808, on the other hand, supports models BM 5802 and 5804, extending the number of buttons, thus increasing potential. Up to 8 modules can support a console for a total of 64 added buttons to the ones found on the microphone base. You can send announcements and calls through the console to the different pre-configured zones or groups of zones, recall matrix configurations, intervene on sound levels, select music sources in different areas, send routine messages or alarms stored in the system memory or other possibilities still. Each button can be programmed by the system according to the client's needs. The microphone insert button and the general call button are always available. The base can be fed by a digital bus line as well as an external 24 Vdc feed. Up to 8 microphone consoles can operate on each connection line setting the means of access to the system.	421,00

**RACK MONITORING AND POWER SUPPLY UNIT**

- Allows centralised switch-on of the equipment installed in the rack enclosure and directly connected to the 230 Vac 8A output.
- 6 unbalanced inputs on terminal strip 775mV for pre-listening to sound sources, selection switch
- Balanced inputs on terminal strip for 100/70/50V power amplifier for audio monitoring of six amplifiers at constant voltage, selection switch
- Internal monitor loudspeaker with volume control, VU Meter
- 1U 19" rack
- Power supply 230Vac

**171.20.055**

**VR 1004**

**402,00**

**ATTENUATION UNIT, 4 ZONES**

- Operates on four lines of speakers at 100V constant voltage
- Can control up to 60W per line
- By-pass control on attenuation by front panel pushbutton or by closing controls
- Reset of maximum level in case of absence of power supply
- 1U 19" rack
- Power supply 230Vac and emergency power supply in direct current (24Vdc)

	<b>MICROPHONE SET</b>	
	<p>The size of the back-lit graphic display makes it easy to read. Icons and text associated with the keys make the system easy to use even for non-expert users. Multiple languages can be displayed, including those with ideograms. The two main keys for talk/book and cancel (or priority-mix for president) and loudspeaker volume are easy to reach and relevant LED indicators, additional to the display, giving you an immediate feedback of the status while you are seated/relaxed. The screen can also be used for displaying messages originated from the PC interface. The delegate units can display information regarding voting, time lapse for conference and voting, booking queue, date and time, and so on. The delegate unit features a professional cardioid microphone with LED ring on a gooseneck designed for speakers who are standing or seated. A high quality loudspeaker provides clear sound making listening a pleasure while reducing the feedback issues. The use of the chip-card is fully supported by the display that interacts with the user for wrong card and incorrect insertion. Headphone and external microphone connectors are available for tie-pin lavalier microphone and to listen to translated languages or for "hard of hearing". The President has a warning-button on the console to alert delegates who are 'disrupting' the normal conference meeting. Several pre-sets involving conference mode, voting mode, room set-up etc. can be stored and then recalled very easily using chip-cards on the main unit, so that even a non-skilled person can set-up a meeting quickly just inserting a chip-card in a slot... Three of the pre-sets can be recalled through switches connected to dry closing contacts. Two additional universal inputs are provided on the main unit as extension outlets for wireless microphones and or lectern microphones. A priority program relationship with the system units can also be set.</p> <ul style="list-style-type: none"> <li>- 1 x chip-card included</li> <li>- FMS 9411 SL is equipped with a 60 cm gooseneck</li> </ul>	
	<p>Main system unit allows access to all the basic system functions and set-up thanks to graphic display and interactive keys. Connecting a PC to the system opens a gateway to a more friendly and powerful interactive dimension allowing the conference manager to control a meeting with mouse pointing and clicks.</p>

FORUM 2000

CODE NO.	MODEL DESCRIPTION	UK £ List VAT NOT INCLUDED
171.80.021	<b>STU 2200</b> <b>RADIO TRANSMITTING UNIT</b> STU 2200 is the digital radio transmitting unit of the Forum 2000 system. It has to be connected to the system main unit FMU 9100, able to directly manage the Forum 9000 microphone sets or to interface any analogue system like RCF Forum 6000 or even a simple mixer-preamplifier, through one CAT 5 UTP cable. STU 2200 sends "by UHF radio frequencies" the floor language and the translated languages with proper data encryption, in order to guarantee privacy and total safety. It has a graphic display with related keys to simply select among the 99 available channels, in case two or more FORUM 2000 systems work together in close environments like a congress centre. The STU 2200 has four built-in digital transmitter modules; one or two 3-channel extension kits STM 2203 can be plugged-in to manage up to 10 channels if more languages are needed. The transmitter has a USB port to allow an intuitive configuration through a PC. High performance antennas are provided to easily and quickly cover an area of up to 6.000 to 10.000 sq. metres.	5.400,00
		
171.80.017	<b>SIS 2411 X</b> <b>INTERPRETER CONSOLE TRANSLATOR</b> The SIS 2411X interpreter set is intuitive to use and it has been designed into a strong metal die-cast construction, with detachable gooseneck microphone on XLR5 connector. Wiring to FMU 9100 main unit is quick and simple through category 5 UTP cable and RJ45 connectors. Up to three SIS 2411X sets can be used in every interpreter booth. The two LCD graphic displays respectively for input and output languages and the related encoder allow the quick configuration of input and output presets. The accurate construction permits semi-flush-mounting installation as well. SIS 2411X has a built in monitor speaker, double headphone connector (Jack 6,3 mm and jack 3,5 mm) and all controls and features required to meet the international standard ISO 2603.	1.221,00
		
171.80.020	<b>STM 2203</b> <b>PLUG IN KIT FOR 3 ADDITIONAL LANGUAGES</b>	1.879,00
		
171.80.023	<b>SDR 2599</b> <b>PORTABLE RECEIVER</b> The SDR 2599 receiver is a robust compact lightweight construction, intuitive to use and fitted with just the essential push-button commands for channel and volume selection.	233,00
		
171.80.018	<b>SRC 2756</b> <b>RECHARGING CASE</b> The SRC 2756 is a strong and practical recharging and transport case, allowing the smart charging of 56 receivers and the programmability/ implementation of the double encrypting facility through a dedicated POD present inside the case. Recharging process is independent for each receiver and it is conveniently indicated. A dedicated USB connection is available to upload the unique code. The SRC 2756 has a main socket to link a second case and the charging can be done with the cover positioned.	3.052,00
		
171.80.022	<b>SAI 2855</b> <b>ANALOG INTERFACE</b> SAI 2855 is a rack unit interface able to manage 5 analogue inputs and 5 analogue outputs to and from the language channels digital system bus. It is equipped with XLR and RCA connectors to permit the recording of 5 translated languages and to send 5 audio channels into 5 slots of the simultaneous translation system; this is important, for instance, when is needed to send to the delegates (having SDR 2599 wireless receivers or the Forum 9000 series FMS 9411 microphone consoles) pre-translated contributions alternative to the ones processed by the interpreters.	1.879,00

		-40	1.00	0.01	99.99

For 70 Volt systems, halve the load impedance.

**Terms & Conditions (abridged)**

A full copy of our conditions of sale is available upon request.

**Account Approvals:**

RCF Installed Sound Division Sales in the United Kingdom are made through approved Regional Distributors and Specialist Approved 'System Integrator' Installation companies.

**Terms of Payment:**

Within 30 days from date of invoice for full account customers only. Otherwise sales are directed through our nationwide Regional Distributor and Dealer Network.

**Carriage:-**

A carriage charge of £20.00 will be levied on all orders under £750.00 in value. Over £750.00 orders are delivered carriage free. (UK and Ireland). We aim to deliver within 4 working days all orders providing the goods are available within our Central European Warehouse. (Ireland & Northern Ireland 5 working days) Large Pallet Deliveries – Please add one extra working day to the delivery time. Otherwise we will provide estimated delivery dates at the time of enquiry. RCF Spa cannot be held responsible for any delays caused by our shipping and freight vendors.

**Damage in Transit:**

Notice of damage or shortage MUST be made within three days of receipt and goods must be returned in original packaging. Failure to notify RCF Spa Shipping Dept. of any damage within this period will void any subsequent claim and any cost incurred may be chargeable.

**Returns:**

No goods will be accepted without prior authorisation.

Credit or replacement will only be issued upon satisfactory inspection by RCF Spa shipping dept, or our UK Service Company Organisation.

(Goods returned without authorisation will be returned to sender and all carriage charged forward)

Our UK Service Organisation will issue 'RA' Returns Authorisation procedures and forwarding address details for any service work whether it be for warranty claim or normal product service. To contact our Service Organisation telephone 0844 745 1234 then option 2 for Service & Spares.

**VAT:**

RCF Spa can only supply fully VAT registered companies. Goods and Invoices are issued directly from RCF Spa. Italy and therefore are issued VAT exempt.

**Prices & Specifications:**

RCF Spa reserves the right to alter, change or modify prices, terms, product and specifications without prior notification.
