## Safety Precautions

### Operate Safely:

- Make sure to charge the battery full for the first time usage.
- Keep the mobile phone at least an inch away from your body while dialling / answering calls.
- Do not use the mobile phone if the screen is cracked or broken. Cracked and / or broken screens could cause injury to hands and / or face.
- To reduce the risk of motion injuries:
  - While using your mobile phone, hold it with a relaxed grip and press the keys lightly.
  - Do not handle the mobile phone with wet hands.
  - Use of special keys / features reduce the number of keys presses
  - Take regular breaks in between calls.
  - Use hands-free accessories.
  - Switch off the mobile phone before cleaning it.
  - Switch off the Mobile Phone and external power sources before any attempt to change batteries, SIM Cards or any other accessories.
  - Keep your mobile phone and all accessories out of reach of small children and animals.

### Careful handling:

- Avoid potential damage to your mobile phones as under:
  - Keep away from liquids.
  - Avoid using and / or storing in dusty and / or dirty places / environments.
  - Do not drop, knock, throw or otherwise handle the mobile phone roughly.
  - Avoid exposing your mobile phone and / or batteries to extreme temperatures. Extreme temperatures reduce the charging capacity and life of batteries and mobile phone.
  - Never use damaged chargers or batteries.

- Do not use chemicals or other cleaning solutions to clean the mobile phone.
- Use moist or anti-static cloth.
- Avoid using mobile phone with camera flash or light close to the eyes.
- Do not dismantle the mobile phone and / or accessories without permission.
- Handling by unauthorised personnel.

### **Turn Off In Restricted Areas**

Use of mobile phones in certain areas / places / conditions can be hazardous.

- Switch off your mobile phone:
  - Inside aircrafts;
  - In Medical hospitals / clinics;
  - Areas where chemicals are used and / or stored;
  - Fuel and gas stations;
  - In and around areas having electrical / electronic equipments;
  - Areas where any kind of blasting activity is being carried out.
- Removing, installing or charging mobile phone batteries in such areas is hazardous as potential sparks may result in explosion and / or fire and may cause damage to property and / or life and can also prove fatal.

### **Drive Safety**

Avoid using your mobile phone while driving and respect and obey all regulations that restrict the use of mobile phones while driving. Primary consideration while driving should be safety.

### **Interference with Electronic Devices**

Mobile phones emit Radio Frequency (RF) signals that may interfere with unshielded or improperly shielded electronic equipments, such as pace makers, hearing aids, other medical devices and other electronic devices in homes and / or vehicles and may prove to be hazardous.

### **Protect Your Hearing**

Excessive exposure to high volumes may cause hearing problems. Maintain proper volume levels for conversations and / or music.

**Use and Dispose of Batteries and Chargers**

- Use only iBall accessories and batteries. Using incompatible batteries and / or accessories may damage your mobile phone or cause injury.
- Never dispose the battery or mobile phone in fire.
- Never crush or puncture the battery.
- Avoid exposing the battery to high external pressure, which can lead to an internal short circuit.
- Never place batteries or mobile phone in or on heating devices, such as microwave ovens, stoves or radiators. Battery may explode when overheated.

**SAR (Specific Absorption Rate) Information**

Telecommunications standard prevent the sale of mobile phones that exceed a maximum exposure level known as SAR of 2.0 W/kg. During testing, the maximum SAR recorded for this model is below 2.0 W/kg.

In order to use mobile phone correctly, please read the following statement of the user manual carefully before using the mobile phone.
