# Virtual Terminal Desktop Power Harnesses

## Overview:

- Allows the virtual terminal to be powered up in the office or home.
- Data can be easily transferred and updates installed without going to the machine.
- Training and demonstrations can be performed on virtual terminal functions.
- Each harness includes a 120V AC to 12V DC power supply that will plug right in to a wall outlet.
- A switch is also in the cable so that the display can be powered up and shut down properly.

## AFS® Pro 600/Pro 700 and IntelliView™ Universal Mapping Harness

### Overview:

- Allows you to do mapping with an ATV, UTV, Pickup, or any vehicle.
- Wired to connect to AFS®/Trimble® receivers with a 12 pin DTM Deutsch connector. **Built in CAN Bus compatibility for RTX applications.**
- Adapters are available for 3<sup>rd</sup> party receivers via RS232 communication. Call for details.

Description	Part Number	List Price
AFS®Pro 600/Pro 700 and IntelliView™ Mapping Harness	AE2871	220.00

## AFS®Pro 600/Pro 700 and IntelliView™ ISO Cab Harness

### Overview:

- Allows you to use your CIH implement and AFS®Pro 600/Pro 700 on any tractor.
- This harness will work on any make or model of tractor that does **not** have an ISO connection.
- Includes the stainless steel SMV mounting bracket and dust cap for the ISO implement connector.
- CANBus compatible for use with AFS®/Trimble® receivers with the addition of AE2782RX harness.
- Terminator is included with the harness.

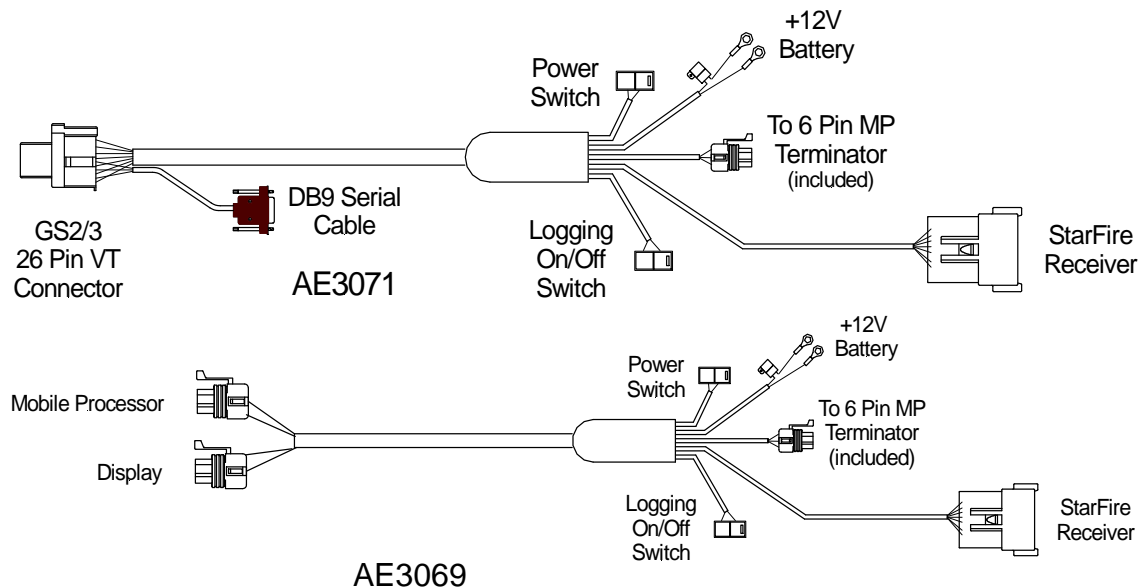

Description	Part Number	List Price
2WD ISO Harness for Non ISO tractors AFS® Pro 600/Pro 700&IntelliView™	AE2872	605.00
4WD ISO Harness for Non ISO tractors AFS®Pro 600/Pro 700&IntelliView™	AE2873	665.00
CANBus Adapter for AFS® and Trimble® Receiver	AE2872RX	85.00

# Universal Mobile Mapping Harnesses for GreenStar® Displays

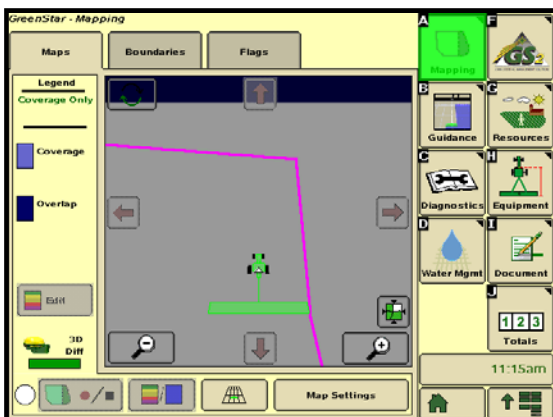

## Overview:

- Allows you to do mapping with an ATV, Gator®, pickup or any vehicle.
- AE3071 harness will work with the GreenStar® 2/3 displays.
- AE3071 hooks to any John Deere® receiver or you have the option of hooking to a 3<sup>rd</sup> party receiver via the included serial port.
- AE3069 harness allows the use of the original GreenStar® display and mobile processor.

Description	Part Number	List Price
GreenStar® 2/3 Mobile Mapping Harness*	AE3071	220.00
Original GreenStar® Mapping Harness*	AE3069	220.00

\*Includes the required 2.5V terminator.

# ISO Tractor Cab Harnesses for GreenStar® Displays

→ This harness is compatible with the GS2 & GS3 Display

## Overview:

With this robust harness, you can connect to an ISO compatible implement harness with minimal connections or hassle. As an example – you could use this harness to connect to an ISO compatible planter for seed monitoring.

- It will work on any make or model of tractor that does **not** have an ISO implement connection. (Harnesses are offered for both 2 wheel and 4 wheel drive tractors).
- Add the CAN expansion cable to allow hook up to the StarFire® receiver and ATU™ harnessing (AE30991).
- The harness has a serial port that will allow hooking to 3rd party GPS receivers (Trimble®, Raven™, etc) or rate controllers (Raven™, New Leader®, etc).
- Includes the stainless steel SMV mounting bracket and dust cap for the ISO implement connector shown on page 50.

Description	Part Number	List Price
2WD ISO Harness for Non ISO Ready Tractors GS2/3	AE3073	470.00
4WD ISO Harness for Non ISO Ready Tractors GS2/3	AE3073L	530.00
Expansion Cable for StarFire® Receiver w/ Terminator	AE3073RX	180.00
Expansion Cable for ATU™ 10'	AE30991	135.00

→ Need a harness compatible with the Original GreenStar® Display?

- The AE3067 is the same harness as our AE3073(above) but with a connector for the Original Display. (Does not have a connection for the Mobile Processor)
- This harness includes a 6 pin MP terminator.
- Includes the stainless steel SMV mounting bracket and dust cap for the ISO implement connector shown on page 50.

Description	Part Number	List Price
2WD Tractor Harness for Original Brown Display only	AE3067	520.00
4WD Tractor Harness for Original Brown Display only	AE3067L	580.00

# Planter Frame Control Adapters

## →AE3067 Harness Planter Frame Control Adapters (Optional)

CAN Planter Frame Control Box

CAN L/R Clutch Disengage Box

- Used with the CAN Frame Control Box on JD® Front Fold Planters & AE3067 Cab Harness

  - \*Only required if **NOT** using an AE3073RX cable and you need to hook up a CAN Planter Frame Control Box or CAN Clutch Disengage Box.

Description	Part Number	List Price
2.5V Planter Frame Control Adapter w/terminator*	AE3073-25CAN	120.00

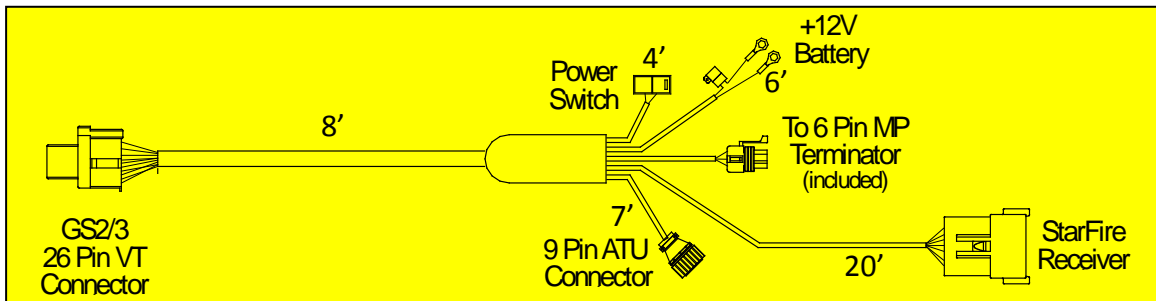

\*AE3073-25CAN

## ➔ Universal ATU™ Cab Harness for Any Vehicle

### Overview:

- Harness is designed to simplify the task of installing the ATU™ in different vehicles by providing an all-in-one cabling solution.

Description	Part Number	List Price
GS2/3 Universal ATU™ Cab Harness w/ Terminator	AE3183	315.00
GSD4 Universal ATU™ Cab Harness w/ Terminator	AE3192	335.00

## ➔ Corner Post Cables to GS2/3 and CommandCenter™

### Overview:

- AE3187, AE3181, and AE3027 harnesses allow the operator to turn off the GS2/3 without turning off the ignition switch. This makes it convenient to reboot the display without shutting off the engine, or to operate the tractor without the display running.
- AE3061 and AE30611 allow a touch screen CommandCenter™ to be used in place of a GS2/3 for auto steer or in an S Series combine.
- Stock cable lengths are shown. Custom lengths are available upon request.

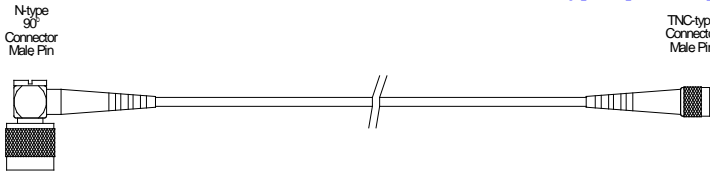

Description	Part Number	List Price
Corner Post Cable w/ Power Switch Only - 2'	AE3187	155.00
Corner Post Cable w/ Power Switch Only - 5'	AE3187-5	167.00
Corner Post Cable w/ all Connectors Shown - 2'	AE3181	195.00
Corner Post Cable w/ Power Switch and Video - 3'	AE3027	170.00
Round Corner Post Extension Cable 3'	AE2063	150.00
GS2/3 to CommandCenter™ Adapter* - 2'	AE3061	185.00
Round Corner Post to CommandCenter™ - 2'	AE30611	115.00

\*Note: Adapts 26 pin connector for GS2/3 display harness to the CommandCenter™ 10 pin connector

# StarFire® RTK Tower Extension Cable

## Overview:

Do you need an extension cable to complete an RTK tower site, but don't want to tie down a lot of excessive cable or piece several extensions together? Ag Express can fabricate RTK Receiver extensions to any custom length your project requires.

- AE3063 connects between StarFire® Receiver and harnessing at ground level.
- Heavy duty cable designed for use in rugged environments like ice, wind, and snow.
- Stock lengths available, or specify custom length up to 300'.
- AE3033 RTK radio extension includes protection diodes and ground strap.

Description	Part Number	List Price
RTK StarFire® Receiver Extension 10'	AE3063-10	105.00
RTK StarFire® Receiver Extension 200'	AE3063-200	580.00
<b>Custom Lengths - Add \$2.50 per foot above 10' - Use part number AE3063-XXX where XXX equals length in feet up to 300' long. Minimum price is \$105.00 for all cables under 10'.</b>		
RTK Radio 4 Pin Deutsch Extension 10'	AE3033-10	150.00
<b>Custom Lengths - Add \$1.50 per foot above 10' - Use part number AE3033-XXX where XXX equals length in feet up to 300' long. Minimum price is \$150.00 for all cables under 10'.</b>		

# StarFire® Receiver Output Cable for NMEA & Speed Signal

## Overview:

Plug this cable in between your StarFire® Receiver & your StarFire® Receiver harness to provide NMEA/Speed to various monitors, controllers, and display units.

# GPS and Speed Output Adapter Cables

## Overview:

These adapter cables are used to output a radar signal or GPS/NMEA data to a Third-party Guidance System, Planter Monitor, Spray Control, or anything needing a radar signal or GPS/NMEA data. ***In addition to the harnesses shown, Ag Express can build custom adapters to suit most applications. Give us a call at any Ag Express location for more information.***

## AFS® Pro 700/Trimble®/Ag Leader® Camera Cables

### Overview:

These cables allow either CabCAM™ or AgCam™ cameras to be utilized with a AFS® Pro 700, Trimble® FMX®, Trimble® CFX-750™, Ag Leader® Integra™ or Versa™ display units.

- Designed for easy installation and minimum cab clutter.
- Cables are constructed to be very robust and use heavy gauge wire.

Description	Part Number	List Price
AFS® Pro 700 to AgCam™ Adapter Cable	AE5704	135.00
AFS® Pro 700 to CabCAM™ Adapter Cable	AE5705	115.00
Trimble® CFX-750™/FMX® to AgCam™	AE5676	50.00
Trimble® CFX-750™/FMX® to CabCAM™	AE5674	45.00
AgCam™ Harness to CabCAM™ Camera Adapter	AE5703	50.00

## ➔ Ag Leader® Integra™/Versa™ Camera Cables

### Overview:

These cables allow up to four CabCam™ or AgCam™ cameras to be utilized with an Ag Leader® Integra™ or Versa™ display.

Description	Part Number	List Price
Integra™/Versa™ to AgCam™ (4 Cameras)	AE5702	185.00
Integra™/Versa™ to CabCAM™ (4 Cameras)	AE5701	165.00

The diagram section shows schematic drawings for the Ag Leader Integra/Versa camera cables. Both cables (AE5701 and AE5702) have a 60" main cable from the Integra Connector that branches into four 12" cables to video cameras and a 72" cable to power.

**Note:** If you need a complete camera system or part of a system, let us know. Ag Express can supply whatever you need. Voyager™ and RV Cam adapters are also available.

## GreenStar® 2630 Display and 'S' Series Combine & 'R' Series Tractor Camera Cables

### Overview:

These cables allow either CabCAM™ or AgCam™ cameras to be utilized with a 2630 display, 'S' Series Combines or 'R' Series Tractors with a **Touch Screen CommandCenter™** (Lower section).

- Designed for easy installation and minimum cab clutter.
- Cables connect to the John Deere® terminal strip to power up to three cameras.
- Installation in combine cabs is kept clean with cables made specifically for the display and power strip being far away from one another.
- Cables are constructed to be very robust and use heavy gauge wire.

Description	Part Number	List Price
CabCAM™ Adapter Cable for Tractors	AE5697	115.00
CabCAM™ Adapter Cable for Combines	AE5697C	115.00
AgCam™ Adapter Cable for Tractors	AE5698	135.00
AgCam™ Adapter Cable for Combines	AE5698C	135.00

**Tractor**

AE5697 & AE5698

**Combine**

AE5697C & AE5698C

CabCAM™  
Connector

AgCam™  
Connector

### Overview:

These adapters provide a quick and easy solution to use AgCam™ or CabCAM™ cameras with the **Touch Screen CommandCenter™** armrest display on John Deere® 'R' Series Tractors and 'S' Series Combines.

Description	Part Number	List Price
6R Series CommandCenter™ to CabCAM™	AE5664	70.00
6R Series CommandCenter™ to AgCam™	AE5663	70.00
7-8-9R Series CommandCenter™ and 'S' Series Combine to CabCAM™	AE5670	45.00
7-8-9R Series CommandCenter™ and 'S' Series Combine to AgCam™	AE5672	50.00

AE5663 & AE5664

AE5670 & AE5672

**Note:** If you need a complete camera system or part of a system, let us know. Ag Express can supply whatever you need. Voyager™ and RV Cam adapters are also available.

# TopCon™ Adapter Cables

## Overview:

Listed below, you will find the most common cables designed for TopCon's various controllers. Some of the features of these cables include:

- Designed for easy installation
- Cables are constructed to be robust and use heavy gauge wire
- Use the AE2893 to hook up the New TopCon™ X30 display to your existing tractor harness (see Notes \*)
- The AE2894 adapter will allow you to hook up your TruCount™ Air controlled clutches to the ASC10 controller
- Remove more clutter from your cab by using our AE2895 adapter cable to replace a Raven™ 440 or 450 controller or our AE2896 adapter cable to replace a TeeJet™ 844E or 854 controller.

TopCon™ X30  
AGCO® C3000 or  
DICKEY-john® AI-120

Description	Part Number	List Price
TopCon™ New VT to old display harness Adapter *	AE2893	185.00
TopCon™ ASC10 to TruCount™ Adapter	AE2894	205.00
TopCon™ ASC10 to Raven™ 4xx Adapter	AE2895	230.00
TopCon™ ASC10 to TeeJet® 844E/854 Adapter	AE2896	195.00

<p align="center"><b>AE2893</b></p>	<p align="center"><b>AE2894</b></p>
<p align="center"><b>AE2895</b></p>	<p align="center"><b>AE2896</b></p>
<p align="center"><b>Note: Video Camera cables and PAL cameras are available upon request.</b></p>	

## Notes:

- \* The AE2893 will also work with an AGCO® C3000 & DICKEY-john® AI-120 display
- If there isn't an adapter listed that you require, please contact Ag Express and we will customize one for you.

# John Deere® Rate Controller Harnessing

## Overview:

Ag Express can supply the harnessing needed to connect the John Deere® Rate Controller to the tractor or machine. These cables can be made to custom lengths to fit your exact application and placement of the controller. We stock normal lengths of these cables for immediate delivery during times of high demand.

Description	Part Number	List Price
JDRC Front Extension Cable - 10' (Stock Length)	AE3174	295.00
JDRC Front Extension Cable - 30' (Stock Length)	AE3173	375.00
→ Custom Lengths - Add \$4.00 per foot above 10' - Use part number AE3174-XX where XX equals length in feet up to 90' long. Minimum price is \$295.00 for all cables under 10'.		

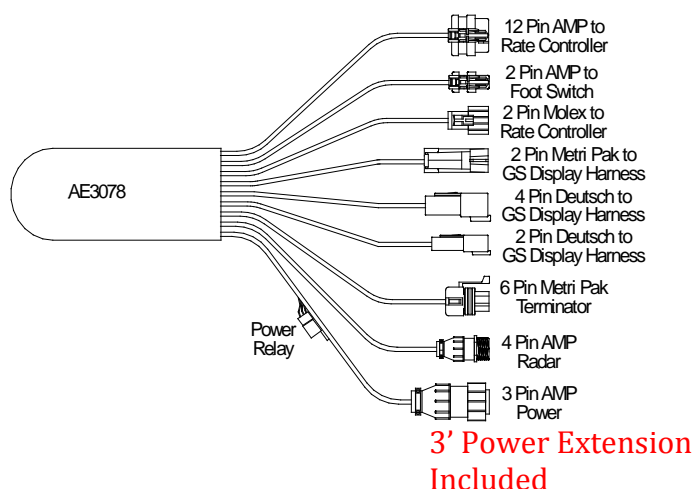

Description	Part Number	≤10' List Price
Center ISO Extension - 10'	AE3161-10	189.00
Foot Switch Power Harness Row Crop	AE3163	135.00
Foot Switch Power Harness 4x4	AE31631	165.00
JDRC 37 Pin Amp Extension Harness- 10'	AE3053	325.00
→ Custom Lengths - Add \$4.00 per foot above 10' - Use part number AE3161-XX where XX equals length in feet up to 90' long. Minimum price is \$189.00 for all cables under 10'.		

## Rate Controller ISO Bypass Kit

### Overview:

The ISO Bypass Cable is used in conjunction with a customer supplied GreenStar® 2/3 Display and Liquid or Dry Rate Controller. This enables you to install the rate controller harness (PF81113) directly to the customer's existing display harness (PF80802 or RE158190).

By using the Ag Express® ISO Bypass Kit(pictured), you can eliminate the following 3 harnesses:  
**#1 The ISO implement harness (RE174725) - #2 the ISO front extension harness (PF81130 or PF81131) - #3 the foot switch power cable (PF81073).**

- ***This custom 18" harness allows you to hook the rate controller harness DIRECTLY to the display harness or 9 pin AMP ISO connection in "R Series" tractor cabs.***
- ***Eliminates 3 OEM harnesses to save space & expense.***

Description	Part Number	List Price
John Deere® Rate Controller ISO Bypass Kit	AE3078	450.00
The AE3078 ISO Bypass kit includes a 3' long adapter to plug in to the 9 pin AMP ISO connection inside the cab of "R Series" John Deere® tractors. It also comes with a 3ft. extension for the power connector so that this harness can be placed in a convenient location.		

## Rate Controller Harness for Back Panel Installation

### Overview:

The AE3065 harness allows the Rate Controller to be installed under the cab and provides an all-in-one cabling solution.

Description	Part Number	List Price
Rate Controller Back Panel Installation Harness	AE3065	395.00
10' CAN Splitter Extension for 4WD Tractor	AE3065SPLIT	85.00
<div style="display: flex; align-items: flex-start;"> <div style="flex: 1;"> <p>The diagram shows the AE3065 harness connected to the following components with specified lengths:</p> <ul style="list-style-type: none"> <li>12 Pin AMP to Rate Controller (24")</li> <li>2 Pin AMP to Foot Switch (24")</li> <li>2 Pin Molex to Rate Controller (24")</li> <li>CAN Splitter (30")</li> <li>4 Pin Deutsch to GS Display Harness (30")</li> <li>Power Relay (66")</li> <li>3 Pin AMP Power (66")</li> </ul> </div> <div style="flex: 1;"> <ul style="list-style-type: none"> <li>▪ Allows for a clean &amp; hidden installation of the Rate Controller and provides a connection for the foot switch.</li> <li>▪ CAN Splitter connector Y's into the back side of the IBBC ISO Connector.</li> <li>▪ Power connection supplies the Rate Controller and all connected components.</li> </ul> </div> </div>		

## ISO Implement Connector → Splitter Cables

### Overview:

Need to run two or more ISO controllers into your ISO implement connector on the back of your tractor? Ag Express has the splitter cables you need.

Description	Part Number	List Price
ISO Y Cable for JD® Rate Controller	AE3096	345.00
ISO Y Cable	AE2738Y	500.00
ISO Double Y Cable	AE2738W	600.00

## ISO Implement Connector → Extension Cables

### Overview:

These ISO implement connector extension cables can be made to any length desired. They are made of high quality jacketed cable for a clean installation.

Description	Part Number	List Price
ISO Extension Cable – 10'	AE2738	315.00
ISO Extension Cable – 20'	AE2738-20	355.00
ISO Extension Cable – 30'	AE2738-30	395.00
<b>Custom Lengths – Add \$4.00 per foot above 10' – Use part number AE2738-XX where XX equals length in feet. Minimum price is \$315.00 for all cables under 10'.</b>		

# Rate Controller Full Cab Harness to GreenStar®2/3

## Overview:

The AE3099 harness is used in conjunction with a customer supplied GreenStar® 2 or 3 Display and John Deere® liquid or dry rate controller. This is a **Complete Cab Harness** which enables you to install either rate controller harness directly to your display without any additional harnessing. This cable is ideally suited for use in self-propelled sprayers or spreader trucks where no GreenStar® harnessing is present.

- *Use this custom harness to add your rate controller and display to any existing vehicle that does not have a display harness.*
- *Connection is available for easy ATU™ hookup with AE30991 cable.*

Description	Part Number	List Price
Rate Controller Full Cab Harness w/ Terminator	AE3099	765.00
ATU™ Adapter Cable 10'	AE30991	135.00

## Installation Kits for Hagie™ STS Row Crop Sprayers

### Overview:

When the simple and quick (**plug & play**) installation is complete, the Display will be able to provide Rate Control, Section Control and Mapping for applications with the Hagie™ sprayer. (Note)

### →Kit for customers **WITH** Existing Display Harness:

This kit includes 3 wiring harnesses – An **ISO Bypass Cable**, a **Cab Control Interface Cable**, and a **Power Y Cable**.

- The **ISO Bypass Cable** was designed to interface the GreenStar® Universal Cab Harness to the GreenStar® Rate Controller Harness.
- The **Cab Control** harness interfaces the Rate Controller to the Sprayer's Flow Meter, Rate Control Valve and Boom Section valves.
- The **Power Y Cable** is designed to provide all power required to both the Cab harness and the Rate Controller via the power connection in the Hagie™ Arm Rest.

Description	Part Number	List Price
Kit for Hagie™ Model <b>STS</b> . (Year 2007 – 2009)	AE3068K	795.00
Kit for Hagie™ Model <b>STS</b> . (Year 2010 - 2013)	AE3069K	795.00

### →Kit for customers **WITHOUT** Existing Display Harness:

This kit also includes the **Cab Control Interface Cable**, and the **Power Y Cable**, but if there is not an existing Display Harness, the **Rate Controller Full Cab Harness (page 25, AE3099)** integrates the Display Harness and ISO Harnessing into one cable.

- Cab Harness connects directly between the Display and the Rate Controller harness for easy setup.
- The Rate Controller Full Cab Harness eliminates the “nest” of excess cabling typical to conventional wiring of the system.

Description	Part Number	List Price
Kit for Hagie™ Model <b>STS</b> (Year 2007 – 2009) <b>w/ Display Harness</b>	AE3180K	1110.00
Kit for Hagie™ Model <b>STS</b> (Year 2010 - 2013) <b>w/ Display Harness</b>	AE3181K	1110.00

**Note: Kit pricing does not include John Deere® Display or Rate Controller—these items should be purchased separately from an authorized dealer.**

# Rate Controller Adapters

## Overview:

These adapter cables are used to adapt various brands of sprayers & NH3 systems to the John Deere® Rate Controller.

Change  
these units to:

# GreenStar® Rate Controller Harnesses

## Overview:

These harnesses are designed to interface the John Deere® Rate Controller (JDRC) to Application Rate/Shutoff Control Components used on NH<sub>3</sub> Applicators or Sprayers. These harnesses will have the correct connectors to fit the application without the use of adapter cables or other troublesome connector solutions. If you have a cabling issue that is not shown on this page, give Ag Express Electronics a call and we will discuss and design a cable that will fit and function properly for you!

**EXAMPLE: JDRC 3 Section Liquid**

## GreenStar®/Raven™ Liquid Components

Number of Sections	Part Number	List Price
1 - Section Liquid	AE30881	125.00
2 - Section Liquid	AE30882	165.00
3 - Section Liquid	AE30883	205.00
4 - Section Liquid	AE30884	245.00
5 - Section Liquid	AE30885	285.00
6 - Section Liquid	AE30886	325.00
7 - Section Liquid	AE30887	365.00
8 - Section Liquid	AE30888	405.00
9 - Section Liquid	AE30889	445.00
10 - Section Liquid	AE30890	485.00

**Please Note:** These rate controller harnesses show Raven™ components as an example. In addition, we can provide harnesses for DICKEY-john® and Hiniker™ for your GreenStar® systems. Give us a call for additional information or questions.

**EXAMPLE: JDRC 10 Section NH<sub>3</sub>**

## GreenStar®/Raven™ NH<sub>3</sub> Components

Number of Sections	Part Number	List Price
1 - Section NH <sub>3</sub>	AE3082	225.00
2 - Section NH <sub>3</sub>	AE30821	265.00
3 - Section NH <sub>3</sub>	AE30822	305.00
4 - Section NH <sub>3</sub>	AE30823	365.00
5 - Section NH <sub>3</sub>	AE30824	405.00
6 - Section NH <sub>3</sub>	AE30825	445.00
7 - Section NH <sub>3</sub>	AE30826	485.00
8 - Section NH <sub>3</sub>	AE30827	525.00
9 - Section NH <sub>3</sub>	AE30828	565.00
10 - Section NH <sub>3</sub>	AE30829	600.00

**Please Note:** These rate controller harnesses show Raven™ components as an example. In addition we can provide harnesses for DICKEY-john® and Hiniker™ for your GreenStar® systems. Give us a call for additional information or questions.

# Trimble® Field-IQ™ (80540 Harness) Adapters

## Overview:

These adapter cables are used to adapt the Trimble® Field-IQ™ module 80540 harness to various brands of sprayers & NH3 systems.

Adapt this unit:

To these units:

Description	Part Number	List Price
Field-IQ™ (80540 Harness) to DICKEY-john® CCS100 NH3 Imp Harness (14 Pin)	AE2931	140.00
Field-IQ™ (80540 Harness) to DICKEY-john® CCS100 Main Harness (16 Pin)	AE2932	140.00
Field-IQ™ (80540 Harness) to Raven™ 115-0159-405 Flow Cable Adapter	AE2933	140.00
Field-IQ™ (80540 Harness) to Raven™ New Style Flow Harness (16 Pin)	AE2934	140.00
Field-IQ™ (80540 Harness) to Raven™ 440/450 Console Harness (Reverse 16 Pin)	AE2935	140.00
Field-IQ™ (80540 Harness) to Raven™ 115-0171-195 Manure Harness (22 Pin)	AE2936	140.00
Field-IQ™ (80540 Harness) to TeeJet® 844 Classic (5 Boom) Adapter Cable	AE2937	185.00
Field-IQ™ (80540 Harness) to TeeJet® 844E Adapter Cable (3 Pin & 28 Pin)	AE2938	185.00

Please Note: If you need any kind of Adapter, Y Cable or Extension, give us a call – Ag Express® can Help You!

## Miscellaneous Pressure Sensor & Flow Controller Extensions/Adapters

### → Various Liquid Pressure Sensor Extensions

Description	Part Number	≤10' List Price
Pressure Sensor Extension cable	AE2737-xx	30.00*
xx = length in feet      *Add 1.75/ft over 10'		

### → Raven™ Flow, Speed & NH3 Valve Extensions

Description	Part Number	≤10' List Price
Flowmeter Extension Cable (3 pin Conxall)	AE2730-xx	50.00*
Speed Extension Cable (3 pin Conxall)	AE2732-xx	50.00*
Servo Valve Extension Cable (4 pin Conxall)	AE2728-xx	50.00*
Shutoff Valve Extension Cable (4 pin Conxall)	AE2727-xx	50.00*
xx = length in feet      *Add 1.75/ft over 10'		

### → Raven™ NH3 Valve Adapters

Description	Part Number	List Price
Old NH3 Servo to New Harness (115-0171-836) Adapter	AE2726	71.00
Old Harness (115-0159-859) to New NH3 Servo Valve Adapter	AE27261	61.00
Old On/Off Valve to New Harness (115-0171-836) Adapter	AE27262	65.00
Old Harness (115-0159-859) to New On/Off Valve Adapter (Pictured)	AE27263	61.00
Raven™ to DICKEY-john® Harness Adapter	AE2662	45.00

### → Raven™ Flowmeter to DICKEY-john® Control Adapter

Description	Part Number	List Price
Raven™ Flowmeter (4.5 to 16V only) to DICKEY-john® Controller adapter	AE2733	45.00
Raven™ Flowmeter to DICKEY-john® Controller adapter with 5 Volt regulator	AE2733-5V	65.00

## → Shutoff Valves for *Spray Applications*

### Overview:

Get individual section control via on/off manifold valves. These valves can be used for brand new setups, or as a reliable replacement for solenoid type shutoffs. In addition - with response times of 1 second, they are ideal for use with automatic section control applications!

### Features:

- End fed manifolds for easy plumbing
- Hairpin design for ease of output change
- Choose hose barb size to fit your needs
- Valves use std. 3 pin weather pack connector
- Valves require 12vdc & ground and they only draw power when closing or opening

Description	Part Number	List Price
5 Stack Manifold Assembly with ¾" & 90° hose barbs	AE3931-C5EL	1375.00
3 Stack Manifold Assembly with ¾" & 90° hose barbs	AE3931-C3EL	750.00
1 Single Manifold Assembly with ¾" & 90° hose barbs	AE3931-C1EL	343.00
Other stack manifold combinations are available, call for pricing.	CALL	CALL

### Additional information:

Available hose barb sizes are ½" - ¾" - 1" just specify what size you need for your application.

In addition, hose barbs are available in either 90° or straight versions, just specify your preference.

## → Regulating Valves for *Spray Applications*

### Overview:

Ag Express also offers regulating valves for sprayer applications from several different manufacturers such as: **KZCO®**, **RAVEN™**, **TeeJet®**, **MICRO-TRAK®**, **DICKEY-john®**, and many others. Shown below are just a few examples, so if you don't see what you need, please give your nearest Ag Express location a call!

Standard Raven™ butterfly valves operate with original Raven™ controls and also with ISO rate controllers.  
 1" Part# RV0630172125 \$256.00  
 1 ½" Part # RV0630171896 \$286.00

1" (3 way) diverter fast valve allows for smooth regulation while returning bypass directly to the tank.

Part # KZF3F2310D20-P01 \$385.00

This valve actuator works with DICKEY-john® CCS 100 controller and replaces the original 1" actuator or large butterfly actuator.  
 Part # DJ467095060 \$515.00

## →Regulating & Shutoff Valves *for NH3*

### Overview:

These valves can be used for new setups or as replacements. They come complete with the power head assembly and stainless steel ball valve. Available in a variety of sizes, the regulating valves range from ¾" to 1½" and shutoff valves come in sizes from ¼" to 1½". This allows for the proper sizing of the valve to match the NH3 application.

### Features:

- All stainless steel valve construction & hardware
- Quick **1.5** second on/off for shutoff valves
- Available in a wide variety of sizes for NH3
- NH3 ball is vented for safety

Shutoff Valves	Part Number	List Price
¼ " On/Off Valve (shutoff of vapor lines )	AE3933M-B67	450.00
1" On/Off Valve (individual section shutoff)	AE3923Y-F67	563.00
1 ¼ " On/Off Valve (total applicator shutoff)	AE3923Y-G67	612.00
1 ½" On/Off Valve (total applicator shutoff)	AE3923Y-H67	671.00
<b>Fast Response Regulating Valves</b>		
¾" Ball Valve with Power Head	AE3924Y-E67	570.00
1" Ball Valve with Power Head	AE3924Y-F67	580.00
1 ¼" Ball Valve with Power Head	AE3924Y-G67	629.00
1 ½" Ball Valve with Power Head	AE3924Y-H67	689.00
<b>Standard Response Regulating Valves</b>		
¾" Ball Valve with Power Head	AE3924U-E67	588.00
1" Ball Valve with Power Head	AE3924U-F67	598.00
1 ¼" Ball Valve with Power Head	AE3924U-G67	646.00
1 ½" Ball Valve with Power Head	AE3924U-H67	695.00

## → Convert Hiniker™ Anhydrous Controllers to the GreenStar® Rate Controller

### Overview:

For your customers who want to convert their Hiniker™ anhydrous systems to a John Deere GreenStar® Rate Controller - Ag Express has a solution for you. By replacing the servo valve with a suitable replacement from Ag Express and using one of the harnesses pictured below, you have a simple answer to using the GreenStar® rate controller. Please call for assistance.

# Custom Harnesses for the GreenStar® Rate Controller Dry

## Overview:

Ag Express would welcome the chance to work with you on your specific applications for the GreenStar® **Rate Controller Dry**. We possess a broad base of knowledge in working and interfacing with Control Systems companies such as DICKY-john®, New Leader®, Raven™ and TeeJet®. In addition, we have experience building Rate Controller Dry harnessing for spreaders manufactured by BBI™ - Chandler™ – New Leader® - Montag™ – Newton Crouch® and many others.

--	--

Note: All Ag Express locations can design and build the harnessing for your specific application.

**Custom Adapter cables** to existing granular control systems can also be built.

# ISO Granular Spreader Control

*Accurate precision control for Fertilizer, Lime or Litter*

## Overview:

This controller can be used with ISO compatible virtual terminals. It can utilize most existing hydraulic valves and chain sensors when retrofitting your current systems, or we can supply a complete system when starting with a new spreader. For pull type spreaders simply attach the controller to the Tractor ISO Implement Connector - or for self propelled spreaders attach the system directly to a cab harness. **Dual product control is also available.**

Kit Description	Base List Price
Kit for existing PWM Valve	1750.00
Kit for existing Servo Valve	2100.00
Includes: module, terminator, <b>amplifier*</b> , and all harnessing (price may change if additional components are needed)	

**\* required for a servo valve only**

## Strip Till Granular Application

### Overview:

Would you like to utilize your ISO compatible virtual terminal for strip tilling granular fertilizer? Ag Express has a solution that not only controls the application rate but also monitors the flow in each run. We can interface with most existing hydraulic valves and rate sensors. If you do not have a hydraulic valve/motor or rate sensor, we can provide these as well.

This simple system hooks to the tractor ISO – it communicates with a module that controls your pounds per acre, while simultaneously monitoring the flow of fertilizer to each row. You can control your rate either by prescription or by a preset rate from the display. The flow blockage sensors are designed to work with granular fertilizer, and they have a stainless steel insert to protect the electronic sensor. The sensor is typically mounted after the air release so that any blockage is detected quickly. This prevents the whole run from filling with fertilizer and preventing downtime cleaning out the run.

### Features:

- Application rate readout
- 10 preset rate choices
- Ground speed readout
- Acre counters
- User selected screen configuration
- Fertilizer flow monitoring
- Row failure alarm
- Dual box control available

Description	List Price
12 Row Strip Till System	3950.00*
16 Row Strip Till System	4350.00*
24 Row Strip Till System	5900.00*
<i>Includes: Control module, flow sensors, application rate sensor, amplifier, terminator, and all required harnessing. (DOES NOT – include Hydraulic Valve. Valves available at extra cost).</i>	

\* These prices are approximate. Call for more information.

## Air Seeder, Fertilizer & NH3 Application

### Overview:

Would you like to utilize your ISO Virtual Terminal to control your air seeder, granular fertilizer & NH3 system? Ag Express has a solution that not only controls up to four different product applications but also monitors the flow in each run. We can interface with most existing hydraulic valves, rate sensors and NH3 systems. If you do not have a hydraulic valve/motor, rate sensor or NH3 controller, we can provide these as well.

This simple system hooks to the tractor ISO – it communicates with a module that controls your pounds per acre, while simultaneously monitoring the flow of fertilizer to each row. You can control your rate either by prescription or by a preset rate from the display. The flow blockage sensors are designed to work with granular fertilizer, and they have a stainless steel insert to protect the electronic sensor. The sensor is typically mounted after the air release so that any blockage is detected quickly. This prevents the whole run from filling with fertilizer and preventing downtime cleaning out the run.

### Features:

## Convert an Older Planter Monitor System to Work on an ISO Virtual Terminal Display!

### Overview:

If you have a planter that uses a John Deere®, CNH®, Kinze® KM series, AGCO®, or DICKEY-john® planter monitor, you can retro fit these planters to your ISO VT Display. Utilize your existing planter harness & seed sensors, with ***no modification*** to your planter. Once you have completed the simple installation of our kit, just attach the connector to your tractor's **ISO Connector**. Your display will be instantaneously transformed into a high end planter monitor with ***Mapping Capabilities*** (average planter populations can be mapped with the addition of a feedback sensor). Variable rate capability can be added even if the planter has never been equipped with these components. It is also capable of running current Orthman® ADJUST-A-RATE™ II proportional valves.

### Features:

- Automatic row scanning for seed population or seed spacing
- Population average/Spacing average
- Min/Max Population spacing
- Ground Speed
- Total area/Field area/Area per hour
- Planter row bar graphs
- Hi/Lo Population alarms
- User configurable screen layout

Kit Description	List Price
Up to 16 rows	1700.00
17-34 rows	2300.00
35-52 rows	2900.00

### Add Variable Rate Capability:

Hydraulic valve/motor kit	See page 43
<b>This Kit Includes:</b> HD4180 motor /PWM hydraulic valve, planter mounting hardware, application rate sensor and harnessing.

# Planter and Drill Seed Sensor Wiring Harnesses

## Overview:

Are you upgrading an older planter with a new ISO monitoring system or utilizing a Planter/Drill Control kit from Ag Express to get rid of an outdated monitor? Are you setting up a new planter for delivery, but the factory harness and sensors will not work with your customer's existing system? Call us and we will build you a wiring harness designed to work with your exact set-up. It doesn't matter if you're working with a 4 row planter that has been around for 30 years or a brand new 48 row planter.

**Ag Express can "Hook You Up"!**

## Planter and Drill Harness Adapters

### Overview:

Is the harness on the planter you are setting up still in good shape? Using one of the adapters below will add significant cost savings when compared to replacing an entire harness. Ag Express offers several adapters to interface existing harnessing to a new monitor system. This allows quick and easy installation for you and a reduced cost for your customer. If you don't see what you need or if you have any questions, please give us a call!

## Planter Section Clutch Harnesses and Adapters

### Overview:

These harnesses are designed to interface **Implement Section Controllers** from different manufacturers with your customer's third-party planter clutches for automatic swath control. ***These cables can be designed to retrofit any planter with air or electric clutches.*** If you do not see the harness that you need here, give us a call and Ag Express will design a custom harness for your application.

***These complete harnesses would be compatible with controllers manufactured by:***

**John Deere® • Trimble® • Raven™ • Outback® • Ag Leader® • Rinex® • Others**

# Hydraulic PWM Valve/Motor Assembly for Planters or Seeders

## Overview:

Do you need to add Hydraulic Control to your planter for Variable Rate Planting or Seeding? With the addition of an HD4180 HydraDrive, you can control your planter seeding rate with any controller that uses PWM Control.

	<ul style="list-style-type: none"><li>▪ 0-4 gpm hydraulic flow, delivers 4 – 180 rpm at 1,400 inch pounds of torque.</li><li>▪ 1" motor shaft</li><li>▪ Uses PWM valve for universal fit</li><li>▪ **Available Mounting bracket kit for easy mounting on 7x7 bar</li><li>▪ Very dependable operation and high quality motor</li><li>▪ Manual override capability</li></ul>
<ul style="list-style-type: none"><li>▪ Already own Hydraulic Motors or need to control a hydraulic Pump? Use one of these Proportional valves to control oil flow for excellent rate control.</li></ul>	
<ul style="list-style-type: none"><li>▪ Proportional Valve Assemblies</li><li>▪ 4 gpm rating</li><li>▪ 8 gpm rating</li></ul>	

Description	Part Number	Price
HD4180 HydraDrive	DJ46709-2200S1	1706.25
HydraDrive Bracket & Hardware Kit**	DJ46709-2219S1	393.75
4 gpm PWM Valve	DJ46709-2004S1	440.18
8 gpm PWM Valve	DJ46709-2008S1	486.68
360 pulse Application Rate Sensor 1' cable	DJ46436-0178S1	224.70

\*\*Bracket Kit is designed for easy installation of the HD4180 HydraValve. It consists of a Mounting Bracket, 1 – 7x7 U Bolt, 18 tooth #40 Drive Sprocket, idler sprocket, coupler for Application Rate Sensor (encoder) and misc. hardware.

**Note: Other size, dual and servo hydraulic valves available...Please call for more information.**

## Inexpensive Receiver Kits for Yield Mapping

**→ These Receiver Kits will allow you to do Mapping with your Yield Monitor**

### Overview:

If you have a Yield Monitor in your combine, but no Receiver – you can add a low priced Receiver Kit to add mapping capabilities to almost any Brand or Model of Combine Yield Monitor.

- The kit comes with a 16 Channel Receiver that provides the same maps that receivers costing several thousand dollars provide.
- Each receiver kit is programmed to the specific yield monitor and combine.
- The kit includes:
  - Programmed 16 Channel High Accuracy Receiver with mounting plate.
  - Any required harness adapters or interface cable.

**Here are some Examples:** We have a kit for most brands and models of Yield Monitors & Combines.

## Accessories and Specialized Products

**Hydraulic Switch**

This **Hydraulic Switch** can be used as a replacement for a variety of implement status switches. It has a female 1/4" NPT hydraulic hookup and a 2 pin Weather Pack shroud electrical connection. The switch can be adjusted to activate at different pressures if desired. It can also be wired to operate in a normally closed or normally open configuration.

**AE6615 - \$120.00**

**Whisker Lift Switch Kit**

Our universal **Whisker Lift Switch Kit** offers a reliable implement lift indicator that is very easy to mount and adjust. The whisker switch can be wired either normally open or normally closed. It mounts with a strong 3" magnet and has a 2 pin Weather Pack shroud connector.

**AE6613K - \$85.00**

**Clutch Indicator Light**

The **Clutch Status Indicator Light** provides a simple, low cost solution for knowing when planter row clutches are activated. It aids in the setup of section control times. The light features highly visible LEDs and plugs in – line with the row clutch. (Please specify row clutch brand when ordering)

**AE6619 - \$95.00**

**TBC Terminator**

This **Terminator** is used by John Deere®, DICKY-john®, and in all ISO applications. It is made for use with standard 2.5V CAN systems.

**AE2327 - \$50.00**

**Radar Simulator**

The **Radar Simulator** aids in the troubleshooting of radars or other speed sensor problems. It can also be used to calibrate and test all types of rate controllers and monitors while stationary. The simulator comes standard with a four pin round AMP connector. Now features a built in Voltmeter to test incoming voltage.

**AE6608 - \$125.00**

**Flow Meter Simulator**

The **Flow Meter Simulator** makes troubleshooting flow meter problems a much simpler task. One person can now be in front of the spray controller and watch for flow meter input during a test. It takes the guesswork out of troubleshooting a flow meter and will quickly identify the problem.

**AE6608F - \$125.00**

## Accessories and Specialized Products

**Power Bar**

The **Power Bar** provides multiple power hookups in a slender, mountable package. It features three standard AMP power connectors as well as two cigarette lighter receptacles. The power bar has an on/off switch for switched power and is fused to 30 amps.

**AE6601 - \$160.00**

**Power Y & Pigtail Cables**

**Power Y Cables** use three pin AMP power connectors and are available in single Y, and double Y, configurations. Power pigtails are also available for installing on monitor power cables. Ag Express also offers a pigtail for the John Deere® power strip. These pigtails are available in 1-4ft lengths.

**AE2528 - \$70.00 (single Y cable)**

**AE25281 - \$90.00 (double Y cable)**

**AE3007K - \$10.00 (John Deere® power pigtail)**

**GreenStar® Power Remote**

The **GPR** acts as a power switch allowing GreenStar® displays to be turned on or off without using the key switch on the machine. It also allows displays to be turned off during transport or any other time it is desired. The unit needed depends on the connectors that are on the corner post of the machine. ↓

**AE6685 - \$210.00 (19 pin round Amphenol connector)**

**AE6686 - \$210.00 (10 pin rectangular gry/blk connectors)**

**GVS**

The **Ag Express® GVS** is a GPS based velocity sensor that produces true ground speed pulses for equipment designed to interface with radar or wheel speed sensors. The GVS can be quickly transferred from vehicle to vehicle, provides high accuracy, and is easy to install and use. It features a 7Hz update frequency, magnetic base, LED indication of GPS lock, and 0.1 mph accuracy from 2-50 mph.

**AE5633 - \$398.00**

**SMV Mount Connector Bracket**

The **SMV Mount Connector Bracket** is designed to hold 37 pin panel mount AMP connectors or Deutsch ISO implement connectors. This bracket allows these connectors to be mounted in a sturdy and convenient place on the back of a tractor. It is made of stainless steel, so it will never rust or corrode.

**AE6623 - \$10.00**

**Other Products Available at [www.agexpress.com](http://www.agexpress.com)**

Notes:

[illegible]

Notes:

This image shows a full page of blank, lined paper. It features approximately 20 evenly spaced horizontal grey lines across its entire width, providing a guide for handwriting or typing. The paper itself is a clean, off-white color. There are no margins, text, or other markings present on the page.
