This product earned the ENERGY STAR label by meeting strict energy efficiency guidelines set by the U.S. EPA. U.S. EPA does not endorse any manufacturer claims of more healthful indoor air from the use of this product.

The energy efficiency of this ENERGY STAR qualified model is measured based on a ratio between the model's CADR for dust and the electrical energy it consumes, or CADR/Watt.

Este producto obtuvo la designaci6n de ENERGY STAR al haber cumplido con los estrictos lineamientos de eficiencia de energfa establecidos por la Agencia de protecci6n del medioambiente (EPA) de los Estados Unidos. La Agencia de protecci6n del medioambiente (EPA) de EE.UU. no respalda ningun reclamo por parte del fabricante en el sentido de que el uso de este producto proporciona aire interior mas saludable.

La eficiencia de energfa de este modelo que reúne las condiciones de ENERGY STAR se mide segun la relaci6n entre el CADR (índice de emisi6n de aire limpio) para polvo del modelo y la energfa electrica que consume, es decir CADR/Watt (CADRNatios).

Ce produit a regu la certification ENERGY STAR en satisfaisant aux directives strictes de rendement energetique etablies par l'EPA aux E.-U. L'EPA aux E.-U. ne garantit pas l'engagement du fabricant relatif a un air plus sain du fait de l'utilisation de ce produit.

Le rendement energetique de ce modele certifie ENERGY STAR est mesure sur la base d'un ratio entre le debit d'air purifie (poussiere) du modele et l'electricite consommee, ou le ratio debit d'air purifie/ Watt.

AIR PURIFIER SAFETY

Your safety and the safety of others are very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol and either the word "DANGER" or "WARNING." These words mean:

DANGER

You can be killed or seriously injured if you don't immediately follow instructions.

WARNING

You can be killed or seriously injured if you don't follow instructions.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To Reduce The Risk Of Fire or Electrical Shock, Do Not Use The Air Purifier With Any Solid-State Speed Control Device.

WARNING: To Reduce The Risk Of Fire Or Electrical Shock And Injury To Persons, Do Not Use In A Window.

Unplug air purifier before servicing.

READ AND SAVE THESE INSTRUCTIONS

INSTALLATION REQUIREMENTS

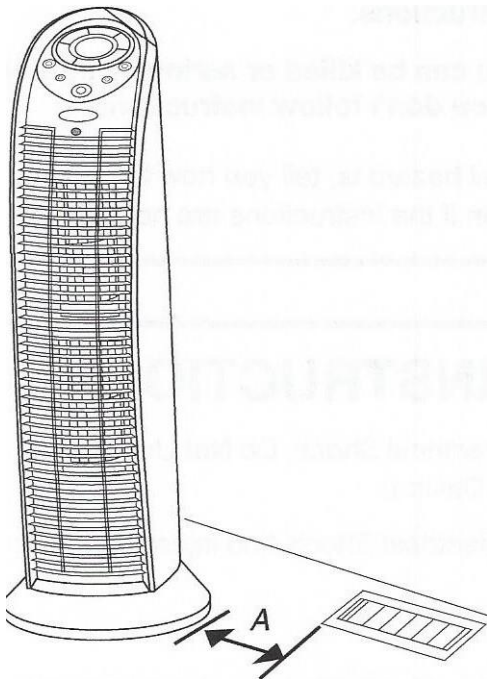

Electrical Requirements

Electrical Connection

- To properly install your air purifier, plug the 2 prong power cord into a grounded 120-volt outlet.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

Location Requirements

NOTE: Your model may differ from the one shown.

A. 6" (15.2 cm) minimum clearance

- You will need a level surface at least 6" (15.2 cm) from heat sources such as ranges or heaters.
- Do not block air openings or place air cleaner on a soft surface such as a bed or sofa.
- Operate indoors only.

AIR PURIFIER USE

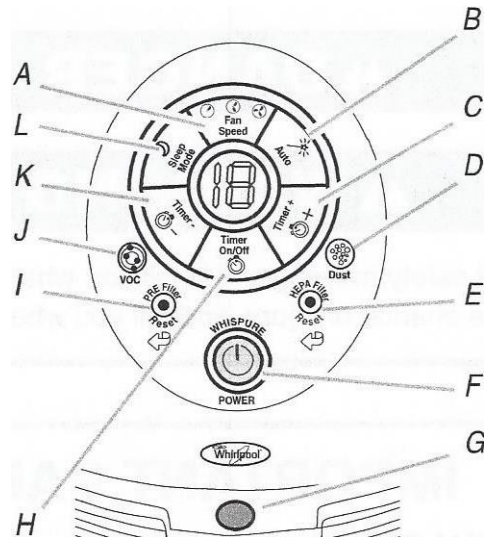

Starting/Stopping Your Air Purifier

NOTE: Before operating the air purifier, record the date of installation on the HEPA filter. Under normal conditions, the HEPA filter should be replaced annually, and the pre-filter should be replaced every 3 months. To remove and replace either filter, see "Filter Replacement" in "Air Purifier Care."

This manual covers several different models. The air purifier you have purchased may have some or all of the features listed.

NOTE: Your model may differ from the one shown.

Control Panel

- | | |
|-------------------------------------|----------------------------|
| A. Fan speed button | H. Timer on/off button |
| B. Auto fan speed button | I. Pre-filter reset button |
| C. Timer plus "+" button | J. VOC sensor LED |
| D. Dust sensor LED (on some models) | K. Timer minus "-" button |
| E. HEPA filter reset button | L. Sleep mode button |
| F. Power button | |
| G. Remote control receiver | |

Using the Control Panel

1. Plug the 2 prong polarized plug into a grounded outlet.
2. Press POWER to turn on the air purifier. All segments of the Timer Display will light, the fan speed will be set to Low speed, and the green LED indicator light will turn on.

3. Press FAN SPEED until the indicator light comes on for the desired speed. See "Fan Speed."
4. Press TIMER ON/OFF to set the timer. See "Timer."
5. Press POWER to turn off the air purifier.

Fan Speed

Press FAN SPEED until the indicator light comes on for the desired speed.

Fan Speed	Result
Low	Best product sound
Medium	Slower cleaning power
High	Maximum cleaning power

Sleep Mode

Press SLEEP MODE to set to Low fan speed for 8 hours. After 8 hours the fan speed will return to the previously selected setting. To exit Sleep Mode before 8 hours, press SLEEP MODE, FAN SPEED, TIMER ON/OFF or POWER.

Timer

1. Press TIMER ON/OFF to turn on the timer. The timer automatically sets to 8 hours.
2. Press TIMER "-" (minus) button to decrease the number of hours before air purifier turns off.
3. Press TIMER "+" (plus) button to increase the numbers of hours up to 18 hours before air purifier turns off.
4. Press TIMER ON/OFF or POWER to turn off the timer.

VOC and Dust Sensor (on some models)

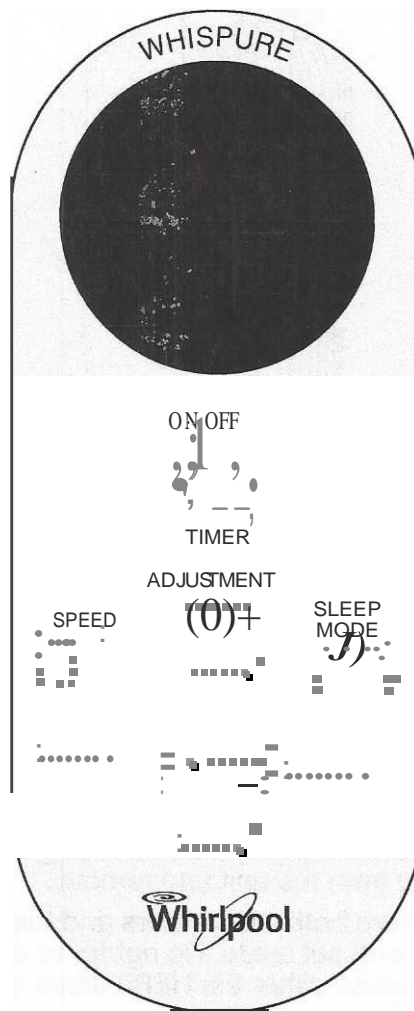

Press AUTO on the control panel to automatically set the fan speed based on the quality of the air detected by the Dust Sensor (on some models) or the Volatile Organic Compound (VOC) Sensor. The LED sensors will change from green (good air quality) to amber (dust, pollen or VOC gases detected).

NOTE: Auto can be set on the control panel

Filter Status Lights

The Pre-filter and HEPA filter LEDs will change to red when it is time to replace the filters. See "Filter Replacement" in the "Air Purifier Care" section.

Using the Remote Control (on some models)

NOTE: Install 2 AAA batteries (not included) into the remote control before use.

1. Press ON • OFF to turn on the air purifier.
2. Press SLEEP MODE to choose Sleep only. Fan speed is set automatically, depending on air quality.

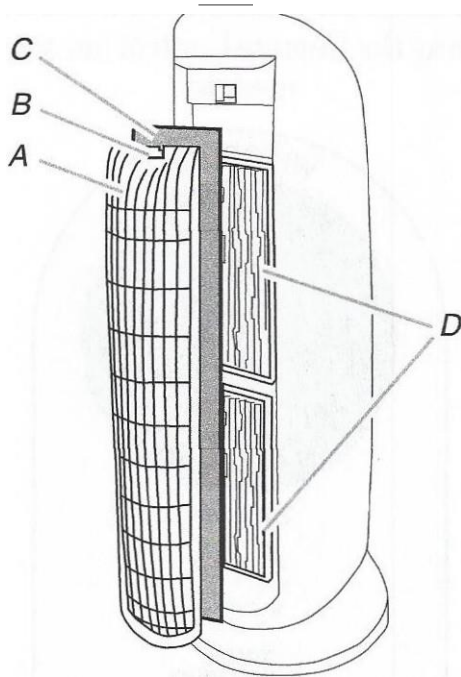

mode.

3. Press SPEED to choose the desired fan speed.
4. Press the Timer Adjustment plus "+" or minus "-" button to set the timer from 1 to 18 hours.

AIR PURIFIER CARE

Cleaning

Filter Locations

A. Rear grille C. Pre-filter
B. Release tab D. HEPA filters

1. Press POWER to turn off the air purifier.
2. Unplug air purifier or disconnect power.
3. Press the release tab on the rear of the air purifier. Gently pull the rear grille away from the unit and remove.
4. Remove both HEPA filters and the pre-filter and set aside. Do not try to wash and reuse either the HEPA filters or the pre-filter.
5. Clean the air purifier with a soft, damp cloth.
6. Gently wash the rear grille in soapy water.
NOTE: The grille is not dishwasher safe.
7. Insert the 2 HEPA filters into the air purifier. Insert the pre-filter under the tabs on the rear grille. See the "Filter Replacement" section.
8. Place the tabs on the bottom of the rear grille into the slots in the air purifier. Gently close the grille until the grille locks into place.
9. Plug in air purifier or reconnect power.
10. Press POWER to turn on the air purifier.

Filter Care

NOTE: The pre-filter and HEPA filter LEDs will change to red when it is time to replace the filters. For the most efficient operation of the air purifier, under normal conditions it is recommended that you replace the pre-filter every 3 months and the HEPA filter every year. See "Replacement Filters" in the "Assistance or Service" section.

1. Press POWER to turn off the air purifier.
2. Unplug air purifier or disconnect power.
3. Press the release tab on the rear of the air purifier. Gently pull the rear grille away from the unit and remove.
4. Remove and replace the indicated filter. Install the new HEPA filters in the same direction shown by the arrow located on the filter frame. Install the new pre-filter by placing it under the tabs on the rear grille. See the "Filter Locations" illustration.

NOTE: Do not try to wash and reuse either the HEPA filters or the pre-filter.

5. Place the tabs on the bottom of the rear grille into the slots in the air purifier. Gently close the grille until the grille locks into place.
6. Plug in air purifier or reconnect power.
7. Press POWER to turn on the air purifier.
8. To reset the HEPA filter status, press the HEPA Filter Reset button and hold for 5 seconds. The HEPA filter timer will reset.
9. To reset the pre-filter status, press the Pre-Filter Reset button and hold for 5 seconds. The pre-filter timer will reset.

NOTES:

- Pressing the filter reset buttons before either filter LED changes to red will not reset the filter timer.
- Use of a non-Whirlpool filter or failure to replace the filter regularly will invalidate this warranty.

TROUBLESHOOTING

First try the solutions suggested here and possibly avoid the cost of a service call.

Air purifier will not run

- **Check the following:**
 - Is the air purifier turned on?
 - Is the 2 prong power cord plugged into a grounded outlet?
- Has a household fuse blown, or has a circuit breaker tripped? Replace the fuse or reset the circuit breaker. If the problem continues, call an electrician.
- Was a regular fuse used? Use a time-delay fuse or time-delay circuit breaker.
-

ASSISTANCE OR SERVICE

Before calling for assistance or service, please check "Troubleshooting." It may save you the cost of a service call. If you still need help, follow the instructions below.

When calling, please know the purchase date and the complete model and serial number of your appliance. This information will help us to better respond to your request.

United States and Canada

Call the Customer Service Center toll free:
1-866-990-7365.

To locate the designated service company in your area, you can also look in your telephone directory Yellow Pages.

Our consultants provide assistance with:

- Features and specifications on our full line of appliances.
- Installation information.
- Use and maintenance procedures.
- Accessory and repair parts sales.
- Specialized customer assistance (Spanish speaking, hearing impaired, limited vision, etc.).
- Referrals to local dealers, repair parts distributors and service companies. Designated service technicians are trained to fulfill the product warranty and provide after-warranty service, anywhere in the United States and Canada.

For further assistance

If you need further assistance, you can write to Master Brands HK Limited with any questions or concerns at:

Master Brands HK Limited
c/o CCRG Teleservices
4240 Ridge Lea Road, Suite 29
Amherst, NY 14226

Please include a daytime phone number in your correspondence.

Replacement Filters

Replacement filters may be ordered by calling our Customer Service Center at **1-866-990-7365.**

You may also visit our website www.whirlpoolairpurifiers.com.

NOTE: This information is also located on the HEPA filter for your convenience.

MANUFACTURERS FIVE YEAR LIMITED WARRANTY

ONE YEAR LIMITED WARRANTY

For one year from the date of purchase, if the air purifier fails when operated and maintained according to instructions attached to or furnished with the product, Master Brands HK Limited will repair or, at our option, replace your air purifier. Your replacement unit is covered by our one year limited warranty. This warranty does not cover the replacement HEPA (High Efficiency Particulate Air) filter or pre-filter. Use of a non-Whirlpool filter or failure to replace the filter regularly will invalidate this warranty. Keep this book and your sales receipt together for future reference. You must provide proof of purchase or installation date for in-warranty service.

SECOND THROUGH FIFTH YEAR LIMITED WARRANTY ON AIR PURIFIER MOTOR

For five years from the date of purchase, if the air purifier motor fails when operated and maintained according to instructions attached to or furnished with the product, Master Brands HK Limited will repair or, at our option, replace your air purifier.

Master Brands HK Limited will not pay for:

1. Service calls to instruct you on how to use your air purifier, to replace house fuses or correct house wiring or reset circuit breakers, or to replace owner accessible air filters.
 2. Replacement when your air purifier is used in other than normal, single-family household use.
 3. Damage resulting from accident, alteration, misuse, abuse, fire, floods, acts of God, improper installation, installation not in accordance with local electrical codes, or use of products not approved by Master Brands HK Limited.
 4. Replacement parts, repair labor costs and/or replacement of a "failed" air purifier for units operated outside the United States and Canada.
 5. Repairs to parts or systems resulting from unauthorized modifications made to the appliance.
 6. Shipping or freight charges to return products for warranty service to Master Brands HK Limited.
 7. Damage resulting from improper packing of products returned for warranty service.
-

If you reside in the United States or Canada and your Whirlpool® air purifier should fail within the first year of ownership or the motor fails in the second through fifth year:

1. Call our Customer Service Center **1-866-990-7365** (toll-free).
 2. Give the consultant your complete model and serial numbers.
 3. The consultant will identify the designated service center nearest your location.
 4. You will be responsible for insurance and freight or other transportation to our service center. Please include your name and address on a piece of paper along with a copy of the proof of purchase (register receipt, credit card charge slip, etc.). The air purifier should be properly packaged to avoid damage in transit since we will not be responsible for any such damage.
 5. Master Brands HK Limited will return the repaired unit, or at our option, an identical or comparable air purifier to your door free of charge.
-

MASTER BRANDS HK LIMITED SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion or limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state and province to province.
