

TwistPlex

UTP Product Line

UTP 4X1500

4 Camera Passive Hub

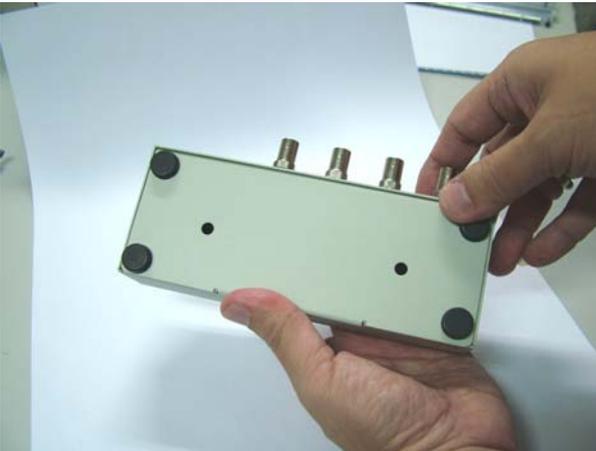

Installation Manual

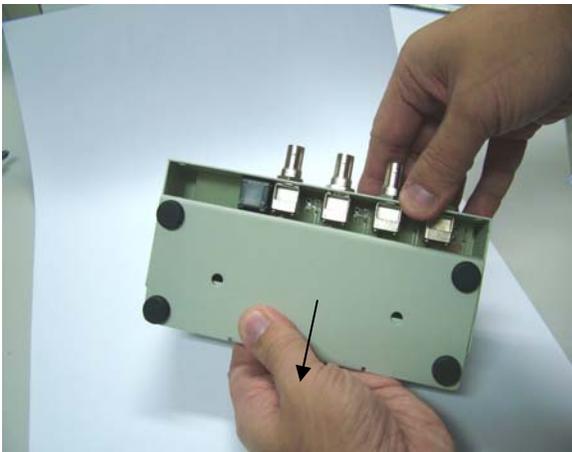

Step 1 Remove the two countersunk screws from the rear of the metal case using a cross head screwdriver.

Step 2 Hold onto the main case assembly with one hand supporting the top cover.

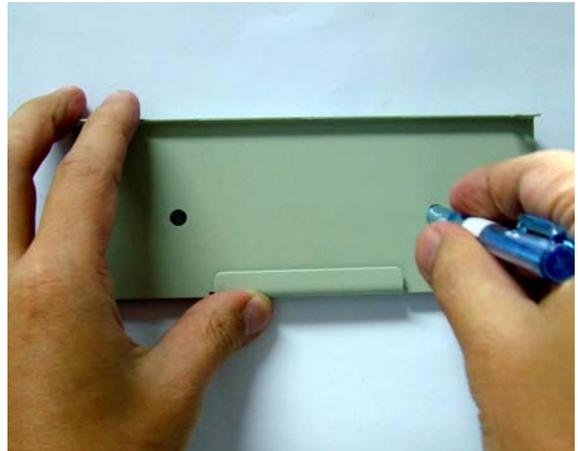

Step 3 Press slightly on the back cover using the left hand thumb and slide the back cover using the right hand.

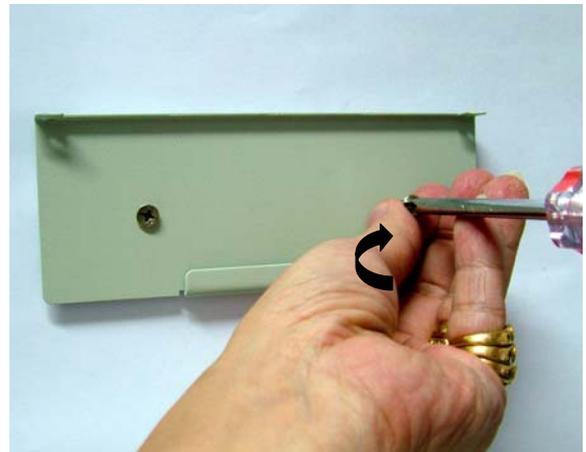

Step 4 Top and back cover are separated as shown below.

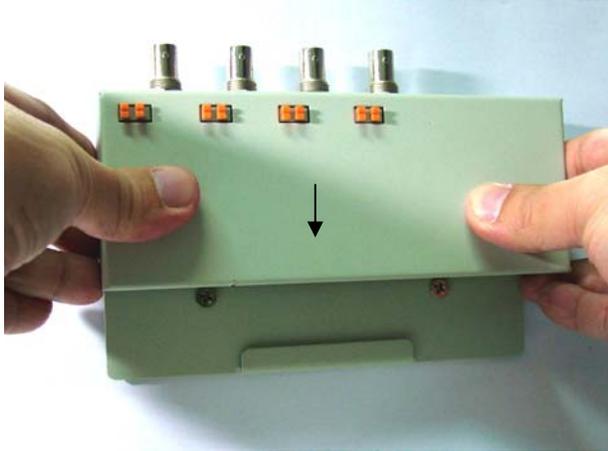

Step 5 Use the back cover as a template to mark the holes at the location required to mount the hubs.

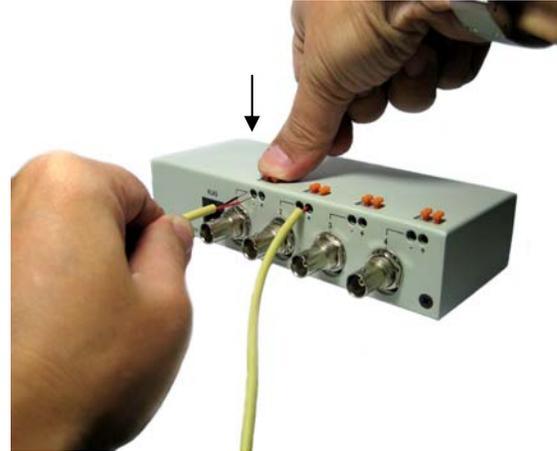

Step 6 Prefer to drill a small hole on the location mark for easy mounting of the screws.

Step 7 Slide the top cover onto the back cover with the slot on the top cover hook on the catch of the back cover.

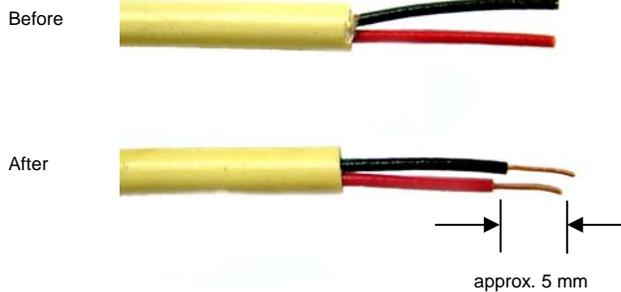

Step 10 Use the thumb to press the orange terminal and insert the UTP cable.

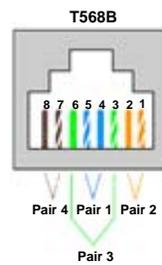

Step 8 Screw back the two countersunk screw to secure the top cover on to the back cover. Installation complete.

Step 9 Strip the UTP cable with 5 mm copper exposed. Please take note on the polarity during installation.
