**Slider
Bluetooth® Headset**

MOTOSTART
H800
Get connected in 4 quick steps.

BEFORE YOU BEGIN

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

Take a moment before you get started to familiarize yourself with your new H800 Headset.

1

CHARGE

Your Headset's Battery

- 1 Open charger port cover and plug the Motorola charger into the charging port on the headset.

Note: Your headset has a micro USB charging port. If using a mini USB charger, utilize the included micro USB adapter when charging (shown on right).

With Micro USB Charger With Mini USB Charger and Micro USB Adapter

The indicator light turns red when the battery is charging. It may take up to 1 minute for the indicator light to turn on. When the headset's battery is 80% charged, the indicator light turns yellow. When charging is complete (about 2 hours), the indicator light turns green.

- 2 Disconnect charger and close charger port cover.

Note: Headset is not functional while charging.

2

START BLUETOOTH FEATURE

Your Phone

Your phone's Bluetooth feature is off by default. To use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (at the main menu):

- 1 Press **[Menu]** > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.
- 2 Scroll to **Power**.
- 3 Select **Change**.
- 4 Scroll to **On**.
- 5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn the feature off.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

3

PAIR

Your Headset

Before you can use your headset, you must pair (link) it with your phone.

Step A - ENSURE HEADSET IS IN PAIRING MODE

Power on headset by pressing the Call button to initiate easy pairing. After a few moments, the indicator light will be steadily lit in blue to indicate headset is in pairing mode.

If the headset does not enter pairing mode, see **TROUBLESHOOTING** for help.

3

PAIR CONTINUED

Your Phone

Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADSET

For most Motorola phones:

- 1 On your Motorola phone, press **[Menu]** > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > **Look for Devices**.
- 2 Select **Motorola H800**.
- 3 Select **OK** or **Yes** to pair your headset with your phone.
- 4 Enter the passkey: **0000**
- 5 Select **OK**.

When your headset successfully pairs with your phone, the indicator light flashes purple and blue.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

4

TEST AND USE

Your phone and headset are now paired and ready to make and receive calls. To make a call:

- 1 Place the headset over your ear.
- 2 On the phone, dial the number you want to call and press **SEND** key on your phone.
- 3 If your phone and headset are successfully paired, you will hear ringing on the headset.

After you have successfully paired your phone and headset, you don't need to repeat these steps. For daily use, ensure that your headset is turned ON and that your phone's Bluetooth feature is ON.

To save battery power, turn OFF the headset when you don't use it for an extended time by closing the slider.

USING YOUR H800

See **Features and Functions Guide** on the reverse side for information on using your H800

TROUBLESHOOTING

My headset will not enter pairing mode.

Make sure that any devices previously paired with the headset are turned off. If the indicator light is flashing in blue, first turn off the other device, then turn your headset off and on. The indicator light becomes steadily lit in blue indicating the headset is now in pairing mode.

My phone doesn't find my headset.

Make sure the indicator light on your headset is on (lit in blue) and steady when your phone is searching for devices (see step 3).

My headset worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature was turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2) and pair your phone and headset again (see step 3).

Features and Functions Guide

H800 Slider Bluetooth® Headset

IMPORTANT: Be sure to first follow the **MOTOSTART Quick Start Guide** on the reverse side of this guide to complete initial setup of your H800.

TURNING HEADSET ON AND OFF

To turn your headset on, press the Call button to extend the slider. The indicator light flashes blue (if paired with another device), or is steadily blue (if ready to be paired).

To turn your headset off, push the slider closed. The indicator light flashes blue three times.

To prevent accidental headset operation, slide the slider lock switch to the locked position.

EARHOOKS AND YOUR HEADSET

Your H800 headset is supplied with multiple size earhooks. The earhook is attached onto a hinge pin, and is placed onto your ear when using your headset. To install an earhook on your headset:

- 1 Open the attached earhook 90 degrees from the headset.
- 2 Gently lift and pull the top of the earhook up and off the upper hinge pin. Then, pull it away to remove it.
- 3 Position the headset for right or left ear use (right ear use is displayed).
- 4 Hook the bottom of the earhook onto the lower hinge pin, then lift and pull the top of the earhook over the upper hinge pin.

WEARING THE HEADSET

Once you have attached your desired earhook, follow these steps to wear your headset on your ear:

- 1 Open the attached earhook 45 degrees from the headset.
- 2 Loop the earhook over your ear.
- 3 Press earhook to your ear.

When worn, your headset will look like this on your head:

CHANGING VOLUME BUTTON ORIENTATION

You can also change the orientation of the volume buttons on your headset.

- 1 Turn the headset power off.
- 2 Press the Volume button you want to assign as the "volume up" button and press the Call button to extend the slider (to power on the headset). The indicator light flashes three times in blue.

European Union Directives Conformance Statement

CE Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC.
- All other relevant EU Directives.

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the web site.

MAKING CALLS

Function	Action
Make a voice dial call	Tap the Call button and speak the name after the tone
End a call	Tap the Call button
Answer a call	Tap the Call button
Ignore a call	Press and hold either Volume button until incoming call stops ringing
Redial last call	Press and hold the Call button for at least 2 seconds until you hear a beep
Mute or unmute a call	Tap both Volume buttons

Note: Some features are phone/network dependent.

Note: Your H800 supports both Handsfree and Headset Profiles. Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.

MAKING CALLS CONTINUED

Disable/Enable the indicator light	Press and hold both Volume buttons at the same time while powering on headset
Answer a second incoming call	Tap the Call button
End active call and resume call on hold	Tap the Call button

Note: Resuming a call on hold is a phone-dependent feature. If tapping the Call button does not execute action, revert to the phone controls to resume call on hold.

Note: When indicator light is disabled, light does not display for any headset function. Re-enable indicator light by pressing and holding both Volume buttons at the same time while powering on headset.

INDICATOR LIGHTS

With the Charger Plugged In

Headset Indicator	Headset Status
Red	Charging
Yellow	Charging 80% done
Green	Charging complete

With No Charger Plugged In

Headset Indicator	Headset Status
Off	Power off
Three blue flashes	Powering on/off
Steady blue	Pairing mode
Rapid blue/purple flashes	Pairing successful
Quick blue flash	Incoming/outgoing call
Slow blue pulse	Connected (on a call)
Slow blue flash	Standby (not on a call)
Slow red flash	Idle (not connected to phone)
Slow purple pulse	Connected call muted
Quick red flash	Low battery

Note: After 20 minutes on a call or of inactivity, the light stops flashing to conserve power, but the headset remains on.

AUDIO TONES

Audio Tone	Headset Status
Ascending tone	Powering on
Descending tone	Powering off
Two ascending tones	Pairing successful/ Initiate voice dial
Ring tone	Incoming call
Two short tones when pressing Volume button	Volume at minimum or maximum
High/low tones repeated every 60 sec.	Low battery
No audio indications; deteriorating quality	Out of range
Three ascending tones	Connected call/ Redial last number
Three descending tones	Ended call
Two rapid ascending tones	Mute enabled
Two rapid descending tones	Mute disabled
