Westinghouse has been helping Australian families for over 60 years. We've always put our energy and thinking into great features that will actually be useful, not 'bells and whistles' that you just don't need. That's why our new cooking range is loaded with practical features...

There's a pause button on cooktops so dinner needn't be ruined if there are interruptions, and cool touch doors that ensure a safe exterior on even the hottest oven. The steam assist oven offers a Steam Reheat function to help families get more mileage out of leftovers without compromising on taste, while the PyroClean ovens clean themselves without harsh chemicals, saving time and effort. Experience the incredible temperature control of induction cooking - it's so clever, chocolate can be melted right in the pan with no double boiler required! They are cool to the touch, easy to keep clean and so responsive.

If you want a reliable brand with good solid appliances and features that will actually be used, choose Westinghouse.

60cm cooking range

Cooking for the entire family can be stressful at the best of times. From fussy eaters to meal time distractions, sometimes you just want to get dinner on the table without all the fuss.

That is why Westinghouse has developed an even wider range of perfectly practical cooking solutions designed to ensure meal time runs as smoothly as possible. Our range includes 60cm ovens with a spacious 80 litre gross capacity. When it comes to cooking for the entire family, you'll be happy you chose a Westinghouse.

Model shown: Steam assist electric oven WVE617S.

Introducing the Ultimate Family Roast

Our large capacity oven features steam assisted cooking, which offers the unique combination of hot air with just the right amount of steam. (WVE617S/W only).

Steam Reheat

Our new Steam Assist oven offers a Steam Reheat option that effectively heats the food in a moist environment to deliver top quality results with a minimum of fuss.

FamilySafe™ cool doors

We've developed multi-layer glazed oven doors with an even cooler exterior that's easy on little hands. The full-width inner glass door also ensures a better oven seal, optimal temperature control and easier cleaning.

Room for everything with FamilySize™ ovens

Our huge 80-litre gross capacity ovens have room for everything. Low heat emissions and super quiet operation are the ingredients for the perfect oven.

Fingerprint resistant stainless steel

Fingerprints have met their match. Enjoy a family-friendly oven with stainless steel that really is stainless. Keep your oven looking like new with our easy-to-clean, fingerprint resistant stainless steel.

No-fuss PyroClean oven

The Westinghouse PyroClean ovens offer the latest in cleaning technology. Two pyrolytic functions safely heat the oven to a high temperature to turn different levels of grease and grime into ash. Then just quickly wipe the residue away. (Selected models only).

Ovens made in Australia

Proudly designed and created for
Australians by Australians, you can
trust our new built-in oven range to
cook all your favourite meals just
the way you like them.

Models shown: Side by side refrigerator WSE6070SF, electric oven WVE916SA, canopy rangehood WRC913S,
induction cooktop WHI954BA, dishwasher WSF6608X, electric duo oven WVE626S.

Steam assisted cooking

The results of cooking with steam are a taste sensation. You'll enjoy succulent roasting perfection that's crisp and caramelised on the outside and moistly tender on the inside. No wonder we call it the Ultimate Family Roast.

[#] For WVG613S/W, WVG615S/W, WVG655S/W and WVG665S/W models, it must be specified at time of purchase if LP gas is required as these models can not be converted. Gas rating for LP models is 9.0MJ/h.

NOTE: These gas products are only suitable for use on normal 240V AC mains supply. The use of inverters, UPS or generators must be checked to ensure the waveform is a pure sinusoidal output to confirm it is compatible with the electronics within this product. Connection to any power supply that does not meet the above requirements may result in failure of the product to operate and or permanent damage to electronics within the product and may void the product warranty. No flue is required for Westinghouse gas ovens.

[†] Refer to the product information on the back page of this brochure.

[‡] Catalytic liners and telescopic runners are available within our accessory range. Please see page 44 for details.

90cm built-in oven

Preparing large family feasts and entertaining friends has just become a whole lot easier thanks to our 90cm built-in oven.

With its hugely practical 125L gross capacity and super-quick heat up time, you'll enjoy perfect results no matter what you cook. Beautifully designed and made right here in Australia, this large, easy to clean oven is set to become the new family favourite.

Large oven capacity

With a spacious 125L gross capacity*, you can cook large meals with minimum fuss and maximum results. Our ovens have been tested to evenly bake up to 72 mini cupcakes in one go, so they're perfect for those last-minute school fundraisers!

* Based on International Standard IEC 60350-1

Fast heat-up time

Every moment counts at meal times, so while your oven heats up fast you can save time and get on with cooking the dishes you and your family love.

Twin fan system for even cooking

Cook each dish to perfection with the Twin Fan System. Fans rotate in opposite directions, distributing heat evenly throughout the oven, so you enjoy great results every time.

FamilySafe™ cool doors

For added safety and confidence in the kitchen, our cool touch door is beautifully designed with a large window, so you can keep a close eye on your cooking.

Gas cooktops

Our new range of Gas cooktops are built to give you the ultimate combination of peace of mind and flexibility. With FamilySafe™ trivets that enhance pot stability, and a FamilySafe™ Flame Failure Device that will immediately shut off the gas supply if a cooktop flame is unexpectedly extinguished, you can always cook without worry. There's also a high-powered wok burner so you can easily whip up tasty stir-fries and more. You'll get the high heat you need to unleash the wok star you always knew you had in you!

Model shown: Gas cooktop WHG646SA.

FamilySafe™ Trivets

Designed to cover the large flat surface area and enhance pot stability for added safety. Plus, being dishwasher friendly means less time cleaning.

FamilySafe™ Flame failure device

Created with safety in mind, the flame failure safety device will immediately shut off the gas supply if the flame on the cooktop is unexpectedly extinguished. (Selected models only).

Efficient two-piece burners

Designed to make cleaning easy, the two-piece burners lift straight off for fast and efficient cleaning. (Excludes wok burner).

High-powered wok burner

You can whip up tasty stir-fries and more with our high-powered 14MJ wok burner.

Bladed knob controls

Our cooktop knobs for maximum practicality. The bladed design makes them easy to grip plus the unique shape means you can tell at a glance if the cooktop's been left on. Talk about handy!

Fingerprint resistant stainless steel

Fingerprints have met their match. Keep your cooktop looking like new with our easy-to-clean, fingerprint resistant stainless steel.

Chic white appliances as a design choice

Offering a timeless style statement, the white range of Westinghouse appliances has been designed for those people who value a clean, fresh look in their kitchen.

Model shown: Gas cooktop WHG646WA.

Function
Pyro

Induction cooktops

Enjoy the safety and efficiency of induction cooking with Westinghouse. Almost twice as fast as gas or electric in transforming energy into heat, you'll save not only time but money too. What's more, induction cooking only generates heat in the cookware, so surfaces around the pot are cool to touch, making the cooking environment safer. The surface is also easy to clean, as any spills are simply wiped away – now that's practical.

When you're busy getting food on the table, flexibility is key. That's why Westinghouse offers an array of practical design features to make your life easier.

Model shown: Induction cooktop WHI645BA.

Pause when you need to

Just press the Pause icon on our induction cooktop and all operating zones will drop to a keep warm mode. And when ready to resume, touch the Pause icon again and all zones will return to their previous setting.

FamilyFlex™ Induction for versatile cooking

FamilyFlex™ allows you to use two individual induction zones as well as link together two zones to provide a space for larger or irregularly shaped pots.

(Selected models only).

QuickCook™ Timer

This nifty timer counts down and even turns the zone off to cook the perfect steak or boiled eggs or any other meal exactly to your liking.

Boost up the power

Boost up power to cooking zones by more than 25% for maximum speed and cooking performance.

Touch on glass controls

With flat easy-clean touch on glass controls at your fingertips, you can easily control the heat. So all you need to do is concentrate on preparing the perfect meal.

Complete control

Enjoy the safety, efficiency and unparalleled control of induction cooking. It's so easy to control, you can even melt chocolate right in the pan.

Frameless ceramic glass adds style

Frameless ceramic glass is
stylish and so easy to clean.

Models shown: Electric ceramic cooktop WHC644BA.

Electric ceramic cooktops

The new range of Westinghouse Ceramic cooktops have been designed to showcase smart and practical features that will help you handle the little knocks of every day life. Our durable glass surface offers up to six multi-heat zones, hot surface indicators and provides a stylish yet practical solution to meet all your cooking demands.

Model shown: Electric ceramic cooktop WHC644BA.

Touch-on-glass controls

The flat touch-on-glass controls not only look great, but with no buttons, they're also easy to wipe clean. (Selected models only).

Practical features

The touch-on-glass models offer helpful functions for busy lives. Pause the cooktop if there are interruptions and the nifty QuickCook™ Timer counts down turns the zone off when finished. (Selected models only).

FamilySafe™ Child lock

Thanks to the practical inclusion of a handy child lock, You'll know the family is safe even if you need to walk away from the cooktop. (Selected models only).

More versatility with variable zones

Every recipe is different and so is every cook. That's why we designed not only four cooking positions, but also one hotplate as a triple zone. You'll gain the unrivalled flexibility of having three variable zones in one. (Selected models only).

Hot surface indicator

Avoid unnecessary accidents in the kitchen with hot surface indicators that clearly show if the hotplates are activated or still hot.

(Selected models only).

Easy clean ceramic glass surface

Not only aesthetically pleasing, the durable glass surface is easy to clean and maintain ensuring the kitchen is always looking at its best.

Rangehoods

Canopy rangehoods

Westinghouse canopy rangehoods provide a stunning visual statement and capture the grease, steam and heat build-up when cooking, drawing smells and residue away from your cooktop - proving that practical can be beautiful as well. The high performance canopy rangehood brings your kitchen appliances together whilst clearing the air with minimal noise.

Slide-out and integrated rangehoods

Now you see them, now you don't. Westinghouse slide-out rangehoods are designed to discreetly and conveniently slide away when not in use. Suitable for ducting or recirculating, they remove residue and smells from your cooking, ensuring a well-ventilated kitchen. An integrated rangehood works the same way, with the advantage of being able to design your kitchen cabinetry to house it - effectively hiding it from view and allowing greater flexibility for unique kitchen installations, where a clean, integrated look is required.

Fixed rangehoods

Westinghouse fixed rangehoods bring everyday practicality to your cooking. Eliminating steam, grease and unsavoury smells, they are also easy to install, with just four screws. The choice is yours - fix your rangehood to a wall or beneath the cupboard above your cooktop. The sleek, modern lines are flexible enough to suit any style of kitchen.

Installation

You can never be too careful when it comes to installation. When installing your rangehood there are two ways to direct the airflow. If you are able to move the air outside, through a flue or chimney, a ducted system is ideal. If clear exterior access is not an option, you simply install your rangehood to recirculate* (carbon filter required).

*Some models can only be recirculated through the cupboard.

See westinghouse.com.au or phone 1300 363 640 for more information on ducting kit accessories.

Model shown: Canopy rangehood WRFG943S.

Superior air movement

The powerful 3 speed fan efficiently removes fumes, smoke and vapour from the kitchen.

Light up your cooking

Two long life high out-put LED lights to enhance the lighting of your cooking space without adding heat or higher energy cost to the process.

Timed cleaning

When the cooking is finished the AutoOff fan delay will ensure that all kitchen odours and residual smoke are removed, automatically switching itself off after 5 minutes while you enjoy your meal straight away.

Quiet Operation

Superior air flow without the noise. Designed to operate at low noise levels even in the higher fan settings ensuring you and your family can enjoy conversation while cooking together.

Fresh air for cleaning

The Westinghouse rangehood is designed for easy maintenance with multi-layered micromesh filters to make catching the grease and residue more effective.

Easy to clean

Removable filters are dishwasher safe for easy cleaning with a filter saturation indicator on the control panel to notify you when cleaning is recommended. The resilient stainless steel construction also ensures that cleaning the body of the hood is as easy as possible.

Microwave ovens

Surprisingly, one in four people are not satisfied with their microwave and one of the main reasons is because it doesn't complement other kitchen appliances as well as the overall kitchen decor.

Recognising this frustration and making a distinct move away from the 'white box on the benchtop', Our range of countertop and built-in microwaves designed to complement modern kitchens. With either white or fingerprint resistant stainless steel finishes and electronic touch controls, the stylish appliances integrate easily into your kitchen, creating a visually harmonised space.

New combi microwave
Our latest compact combination microwave features six cooking functions.

Hard wearing, stylish and easy to clean
Full fingerprint resistant stainless steel fascia on the oven is hard-wearing yet attractive and the seamless interior will be a breeze for your customers to clean.

Crispy bacon is possible!
Our latest grill function can be used in isolation or combined with microwave power to give crispier results when cooking all kinds of dishes.

FamilySafe™ touch control
An easy to use, easy to clean touch control with a FamilySafe™ child lock to keep small fingers from accidentally operating the oven.

Seamless design integration

The design perfectly integrates with the entire Westinghouse kitchen collection, allowing you to perfectly co-ordinate your kitchen design.

Model shown: Combination microwave WMB4425SA.

Accessories & Upgrade Packs

**Roasters Pack:
for all roasting essentials (ACC121)**

With the tailor-made roasting dish, rack and telescopic runners, getting a family roast on the table might be the easiest thing you'll do all day.

**Oven Runners Kit:
telescopic runners (ACC123)**

With three additional sets of telescopic runners, you can safely pull the oven racks and trays all the way out of the oven. So not only is loading and unloading the oven more efficient, but it's also easier to check food.

**Catalytic oven liners
(ACC041, ACC042, ACC043, ACC044)**

The innovative catalytic oven liners absorb any grease produced during the cooking process. The grease is then vapourised by the heat of the oven to make cleaning a breeze.

(WVE626S, WVE626W, WVE636S and WVE636W come standard with catalytic liners).
Visit westinghouse.com.au or phone 1300 363 640 to confirm which set of catalytic liners are best suited for your oven.

**Party Pack: multi-purpose
baking trays (ACC124)**

The Party Pack includes three extra baking trays designed especially for the built-in ovens, providing you with additional cooking surfaces for entertaining.

Your oven, your way

You can have an oven with everything to suit your preferred cooking style. Thanks to Westinghouse's incredibly versatile upgrade packs, you can furnish your oven exactly the way you like with a range of must-have accessories.

Models shown: Electric oven WVE613S, gas cooktop WHG642SA, party pack ACC124.

The popular choice

White has always been a popular design choice for Australian kitchens. The striking new range of our white ovens and cooktops are timeless and comfortably classic, but don't compromise on practical yet surprisingly clever features.

White appliances create a feeling of space in your kitchen and will never look outdated. They are also extremely durable and clean effortlessly - those little fingerprint marks will be a thing of the past!

Stylish and clean, these appliances will complement your kitchen design and since they are also choc-full of practical features, this range is sure to please.

Models shown: Induction cooktop WHI634BA, pyrolytic electric oven WVEP615W, slide-out rangehood WRH605IW, french door fridge WHE5100WA.
