Owner's Manual

IMPORTANT SAFEGUARDS

For your protection, please read these safety Instructions completely before operating the appliance, and keep this manual for future reference Carefully observe all warnings, precautions and instructions on the appliance and described in the operating instructions supplied with the appliance.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE CHASSIS, NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNE!

Keep Away From Children: In households with small children, an adult should provide supervision until the child is capable of following all the rules essential for the safe operation of the unit. All cords and cables should be placed so they are out of reach of children.

Water and Moisture: Do not use this product near water, such as in or near a bathtub, sink, wet basement, swimming pool or in the rain. Never handle the AC adaptor with wet hands.

Heat: Do not use this product in areas subject to temperature extremes, such as in direct sunlight in an enclosed space, near a heat source or on top of heat generating equipment.

Ventilation: This product and any AC adaptor should be located so their location does not interfere with proper ventilation.

Power Source: Connect this product to a power supply only of the type described in the operation instructions or as marked on the unit. When using batteries, carefully follow the installation instructions and make sure you observe the proper polarity. If used improperly, batteries

may explode or leak and cause damage or injury. Check to make sure that the AC receptacle holds the power cord plug securely. If the power cord plug is loose or damaged, contact your electrician to replace the defective and unsafe power cord.

Power Cord Protection: Place the power cord so that it is not likely to be walked on or pinched by having objects placed on it. Prevent cords and cables from becoming entangled. Do not use the power supply cord in an outlet with an unreasonable number of other devices. Excessive loads can cause the insulation on the cord to heat up and eventually melt.

Grounding or Polarization: Do not defeat the grounding or polarization feature of the AC power cord. If your AC receptacle will not accept the power cord plug, contact your electrician to install a proper AC receptacle.

When Not In Use: Unplug the power cord from the outlet and remove the batteries when left unused for an extended period of time. To disconnect the power cord, pull it out by grasping the plug. Never pull the plug out by the cord.

CONTROLS AND CONNECTIONS

- Input Connect your instrument to input jack. The circuit is turned on when a cable is inserted.
- 2. **Time** Adjusts speed of echo repeats.
- 3. **Repeats** Adjusts how many times the echoes are heard.
- 4. Level Adjusts the amount of effect heard.
- 5. True Bypass Switch Engages and disengages the effect.
- LED indicator Indicator is on when effect is engaged. If LED is dim or does not light when effect is engaged, replace the battery.
- 7. Out A (Mono) Provides a single effected signal output.
- 8. Out B Provides a second effected signal for stereo output with Out A.
- 9. **External DC power jack** Plug an external 9 Volt wall adapter here. When using an external adapter, the battery is switched off.

NOTES

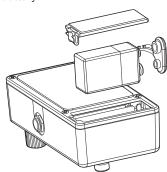

- To avoid damage to electronics and speakers, always turn down the amplifier when connecting or disconnecting effects or an instrument.
- 2. Disconnect the battery when storing the unit for long periods of time.
- 3. A loss of delay signal will occur when the battery is running low. If so, replace the 9 Volt battery.

BATTERY REPLACEMENT

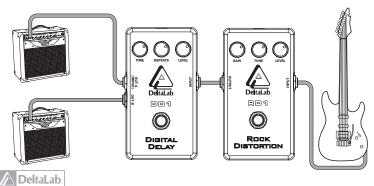

- 1. Push the tab on the battery cover and lift.
- 2. Carefully unplug battery.
- 3. Replace battery with standard 9 Volt battery.
- 4. Close cover.

Unplugging cables from input of DD1 when not in use will turn the unit off and prolong battery life.

APPLICATION

We recommend placing the DeltaLab Digital Delay before your amplifier and after other effects such as DeltaLab SC1 Stereo Chorus or RD1 Rock Distortion. Feel free to experiment with placement in the effects chain. Different placements will result in different tones.
