INTRODUCTION

Safety instructions

Safety information

General

Only use the power supply included with the product. Using an unauthorised power supply will invalidate your guarantee and may damage the telephone. Power supply number is M-GA35-095130F.

For the handset use only approved Nickel Metal Hydride (NiMH) rechargeable batteries. Never use other batteries or conventional alkaline batteries. They could lead to a short circuit or destroy the battery casing. Recommended batteries should have a power rating of at least 600mAh 1.2V. Batteries are available from the **Diverse Helpline 08457 908070**.

If the Keyguard is switched on, it is NOT possible to make calls, including emergency numbers (999/112).

Do not open the base station or handset (other than to change batteries). This could expose you to high voltages or other risks.

Radio signals transmitted between the handset and base may cause interference to hearing aids.

This product should not be used near emergency/intensive care medical equipment and should not be used by people with pacemakers.

Never dispose of batteries in a fire. There is a serious risk of explosion and/or the release of highly toxic chemicals.

Cleaning

Simply clean the handset and base station with a damp (not wet) cloth, or an anti-static wipe. Never use household polish as this will damage the product. Never use a dry cloth as this may cause a static shock.

Environmental

Do not expose to direct sunlight.

The product may heat up when the batteries are being recharged. This is normal. However, we recommend that you do not place the product on antique/veneered wood to avoid damage.

Do not stand your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces.

Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms.

Do not expose your product to fire, explosive or other hazardous conditions.

There is a slight chance that your phone could be damaged by an electrical storm. We recommend that you unplug the power and telephone line cord during an electrical storm.

SAFETY INSTRUCTIONS

Setting up

Please note that your handset is NOT registered. The Diverse 4000 handset will be easily registered once you complete the stops 1 to 3 below.

Plan the location

Situate your product close enough to the mains power socket so that the cable will reach.

Make sure it is at least 1 metre away from other electrical products to avoid interference.

Do not situate the product in the bathroom or other humid areas.

➊ Connect the charger

Plug the power supply cable into the power socket on the underside of your Diverse 4000 Executive charger.
➋ Plug the power adaptor into the wall socket and switch on
➌ Registering and charging the handset

The display is protected by a plastic film. Remove the protective plastic film from the display.

Menu

SETTING UP

Inserting the batteries

Insert the two batteries supplied, as indicated on the label inside the battery compartment and slide the battery compartment cover shut.
WARNING

Under no circumstances should non-rechargeable batteries be used. Only use the approved batteries. Using unapproved batteries will invalidate your guarantee and may damage the telephone.

To register your handset, place it in the main Diverse 4000 Base station with the display facing upward. After approx. one minute, the handset's internal number is displayed (eg: INT2). Successful registration is signalled by a confirmation tone.

Replace the newly registered handset into the Executive Charger Unit and leave to charge for approximately 16 hours. The charging status icon flashes on the handset to indicate that the batteries are being charged.
If the icons on the display flash continuously…

It means that the handset is not registered with the base station.

Ensure you have correctly carried out step 3 above.

All additional handsets you purchase will need to be individually registered with the base station before they will work.

SETTING UP

11

Battery level icons

When the batteries are almost flat a beep sounds and the display shows the empty battery icon. You will need to recharge your handset before you can use it. The various states of charge are shown below:

Batteries fully charged

Batteries at 66%

Batteries at 33%

Batteries empty

Out of range?

If you go out of range of a base station for a long time while your handset is switched ON, it may take more than 20 minutes to 'find' the base station again when you come back within range. However, by simply switching the handset OFF for a moment, then ON again, it will find the base station within a few seconds.

Battery performance

After charging your handset batteries for the first time, subsequent charging time is approximately 4–5 hours. Batteries and case may become warm during charging. This is normal.

Under ideal conditions, the handset batteries should give about 10 hours talktime or 150 hours standby time on a single charge. However, new NiMH batteries do not reach their full capacity until they have been in normal use for several days.

Fully discharging the batteries at least once a week will help them last as long as possible. However, the charge capacity of rechargeable batteries will reduce with time as they wear out, so reducing the talk/standby time of the handset. Eventually they will need to be replaced. New batteries can be obtained from any BT shop or from the Diverse Helpline **08457 908070**.

If you replace the handset batteries with ones that have been fully charged, the battery indicator will not show full until the next charge cycle has been completed. Charge the handset until the batteries register full again. From then on the display will be correct.

SETTING UP

12

Fit the belt clip onto the back of the handset.
Slot

Signal strength

The range of your Diverse base station is 300 metres outdoors and up to 50 metres indoors under ideal conditions. The signal strength indicator shows the quality of contact between the base station and handset.

⟫⟫⟫ *receive strength 100%*

⟫⟫⟫ *receive strength 75%*

⟫⟫⟫ *receive strength 50%*

⟫⟫⟫ *low receive strength*

⟫⟫⟫ *no reception (flashes)*

SETTING UP

Setting the date and time

Menu	Press the **Menu** options button.
⬆⬇	Press the **DOWN** navigation button until the display shows Calendar/Clock.
OK	Press the **OK** options button.
⬆⬇	Press the **DOWN** navigation button until the display shows Date/Time.
OK	Press the **OK** options button.

13

Enter the day/month/ year, e.g. **05 10 01** for 5th October 2001.

Press the **DOWN** navigation button.

Enter the time – hours/ minutes. e.g. **0925** for 9:25am.

am/pm Press the **am/pm** options button to choose between am or pm if in 12 hour mode.

Press the **DOWN** navigation button.

Enter the mode – 12hr is the default. If you want to keep as 12hr clock

Save Press the **Save** options button if you want to change to 24hr clock

Press the **LEFT** navigation button the option changes to 24 hr clock.

Save Press the **Save** options button.

Press the **RED PHONE** button until you reach the idle display.

Note

If you subscribe to a Caller Display service the time and date will be set with the first incoming call.

SETTING UP

Using the telephone

Note

To quit a menu at any time, press the **RED PHONE** *button. This will take you back one step. Keep pressing the* **RED PHONE** *button to get back to the idle screen.*

To switch the handset power off and on

Press *and hold* the **RED PHONE** button to switch the handset off.

Press *and hold* the **RED PHONE** button to switch the handset on again.

Making and ending calls

To make an external call

Ensure the handset is switched ON.

Press the **GREEN PHONE** button. You will hear the dial tone.

Dial the number.

Preparatory dialling

Enter the phone number first.

If you make a mistake, press the **DELETE** options button to remove any incorrect digits.

Press the **GREEN PHONE** button to dial the number.

To end a call

Press the **RED PHONE** button.

USING

15

Call timer

Your handset automatically times the duration of all external calls, showing it on the display during your call and for a few seconds after it is finished.

To receive an external call

When the phone rings the In use light on top of the handset will flash.

⌒ Press the **GREEN PHONE** button to answer the call.

Or

If the handset is on the base, simply lift it up and speak. You do not need to press the **GREEN PHONE** button.

This is called Autotalk. You can switch autotalk off so you always have to press the **GREEN PHONE** button to answer a call, *see page 57*.

Handsfree

Handsfree allows you to talk to your caller without holding the handset and allows other people in the room to listen to the conversation. Your hands are left free, for example to take notes.

To make a handsfree call

📻 Dial the number

◁) Press the **HANDSFREE** button. The loudspeaker is switched on and you hear the number being dialled.

⌒ To switch back to using the handset at any time, press the **GREEN PHONE** button.

To adjust the handsfree volume

Whilst in handsfree mode and you want to increase or decrease the handsfree volume press ◁) the **HANDSFREE** button.

Menu Press the **Menu** options button.

⊕ Press the **DOWN** navigation button to highlight Handsfree volume.

OK Press the **OK** options button.

⊕ Using the **RIGHT/LEFT** navigation buttons you can either increase or decrease the volume.

USING

16

To answer a call in handsfree

When the phone rings:

🔊 Press the **HANDSFREE** button. The call is transferred to the loudspeaker.

To switch to handsfree during a call

During a call you can switch to handsfree mode:

🔊 Press the **HANDSFREE** button. The call is transferred to the loudspeaker.

📞 Press the **GREEN PHONE** button to switch back to using the handset.

Note

If you need to replace the handset in the base station during a call, for example, because the battery is flat, hold down the **HANDSFREE** *button.*

Using the directory

You can store up to 200 numbers and names in the telephone directory. You can enter up to 32 digits and up to 16 characters. If you wish, you can also add a birthday or special date.

To store an entry in the directory

⬇ Press the **DOWN** navigation button until the display shows New Entry.

OK Press the **OK** options button.

▥ Enter the telephone number.

⬇ Press the **DOWN** navigation button to enter the name.

▥ Enter the name.

Entering names:

Enter the name using the letters on the keypad. For example, to enter the name TOM:

⑧ᵀᵁⱽ Press the **8** button, T appears on the display.

⑥ᴹᴺᴼ Press the **6** button three times until the display shows O.

⑥ᴹᴺᴼ Then press the **6** button to display M.

USING

17

For the full character map, *see below*.

If required, use the **DOWN** navigation button and keypad to enter birthday or special date information. (For more details *see page 39*.)

Menu — Press the **Menu** options button. Display shows Save Entry.

OK — Press the **OK** options button to confirm.

Press the **RED PHONE** button until you reach the idle display.

Note

The first letter of each name, and the first letter after a punctuation mark are automatically shown as capitals. Letters are always added to the left of the cursor.

Press to switch between capitals and lower case.

Press to move the cursor

Press to delete from left to right,

*Press **1** to enter a blank space.*

Character map

These are the characters you can use when storing a directory entry.

	1x	2x	3x	4x	5x	6x	7x	8x	9x	10x	11x	12x	13x	14x

0 +	.	,	?	!	0	+	-	:	¿	¡	"	'	;	–
#	#	@	\	&	§									

USING

To dial a name and number in the directory

Press the **DOWN** navigation button to open the directory.

(3 DEF)
(3 DEF) Enter the first letter of the name you want, e.g. for Emma, press **3** twice to search for names beginning with E.

Or

Press the **DOWN** navigation button to scroll through the names which are listed in alphabetical order.

Press the **GREEN PHONE** button. The number is dialled.

To view directory entry

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to scroll through the entries.

Or

Press the first letter of the name you are looking for.

View Press **View** to display all the details stored in the entry.

Press the **RED PHONE** button until you reach the idle display.

USING

19

To edit a directory entry

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to scroll to the entry you want.

View Press **View**. The number is displayed.

Change Press the **Change** options button to amend the details in that entry.

Enter the changes you want.

Press the **DOWN** navigation button to move to the name.

Enter the changes you want.

Press the **DOWN** navigation button to move to the birthday details.

Enter the changes you want.

OK Press the **OK** options button.

Display shows Save Entry.

Press **RED PHONE** button until you reach the idle display

To copy an entry to another handset

You can copy individual entries to another Diverse 4000 Executive handset.

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to scroll to the entry you want to copy.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Copy Entry.

OK Press the **OK** options button to confirm. You hear a confirmation beep.

Press the **DOWN** navigation button to display the number of the handset you want to copy the entry to.

OK Press the **OK** options button to confirm. The entry is copied. You hear a beep from the receiving handset to confirm.

You can now copy another entry.

USING

20

Yes Press the **Yes** options button.

Press the **DOWN** navigation button to scroll to the next entry you want to copy.

Copy Press the **Copy** options button. The entry is copied. You can now repeat these steps until you have copied all the entries you want.

When you have finished copying

No Press the **No** options button.

Press the **RED PHONE** button until you reach the idle display.

To copy the entire directory

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to highlight the first entry in the directory.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Send List.

OK Press the **OK** options button to confirm. The numbers of all other registered handsets are displayed.

Press the **DOWN** navigation button to select the handset you want to copy the directory to.

OK Press the **OK** options button to confirm. The directory is copied. You hear a beep from the receiving handset to confirm.

The directory will be added to any existing entries already stored on the receiving handset.

The receiving handset displays how many entries have been received. Any entries with the same number are duplicated so the number of stored entries may be different from the number of entries sent.

Press the **RED PHONE** button until you reach the idle display.

USING

21

Note

Copying is stopped:

- *if the directory of the receiving handset becomes full. If so, the last entry is displayed.*

- *if you receive a call. The entry currently being copied will be completed.*

To delete an entry

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to scroll to the entry you want to delete.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Delete Entry.

OK Press the **OK** options button to confirm. You hear a confirmation beep.

Press the **RED PHONE** button until you reach the idle display.

To delete the entire directory

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to highlight the first entry in the directory.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Delete List.

OK Press the **OK** options button.

Yes Press the **Yes** options button to confirm. Or press the **No** options button to cancel.

Press the **RED PHONE** button until you reach the idle display.

USING

22

To display the available memory

You can see how much directory memory is still unused.

Press the **DOWN** navigation button to open the directory.

Press the **DOWN** navigation button to highlight the first entry in the directory.

Menu   Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Available Memory.

OK   Press the **OK** options button. The amount of memory available is displayed.

Press the **RED PHONE** button until you reach the idle display.

Redial

Your handset automatically saves the last five telephone numbers dialled into a redial list.

To dial a number in the redial list

Press the **REDIAL** options button. The last number dialled will be displayed.

Press the **DOWN** navigation button to scroll through the redial list.

Press the **GREEN PHONE** button to dial the number.

To copy numbers shown in the redial list to the directory

Press the **REDIAL** options button.

Press the **DOWN** navigation button to highlight the number you want to copy.

Menu   Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Copy to Directory.

USING

23

OK   Press the **OK** options button.

      If necessary, you can edit the number.

⊕   Press the **DOWN** navigation button.

      Enter the name (for details, *see page 17*. You can also enter a birthday reminder, *see page 39*).

Menu Press the **Menu** options button. Display shows Save Entry.

OK   Press the **OK** options button to confirm.

☎   Press the **RED PHONE** button until you reach the idle display.

Note

To cancel any procedure, press the **RED PHONE** *button until the display returns to idle.*

To delete a number from the redial list

⬤   Press the **REDIAL** options button.

⊕   Press the **DOWN** navigation button.

Menu Press the **Menu** options button.

⊕   Press the **DOWN** navigation button until the display shows Delete Entry.

OK   Press **OK** to confirm deletion.

☎   Press the **RED PHONE** button until you reach the idle display.

Secrecy

When on a call you can talk to someone in the same room, without your caller hearing.

To switch secrecy on/off

      During a call:

⊕   Press the **LEFT** navigation button. The microphone is switched off. The caller hears musical tones.

↰   Press the **RETURN** options button to talk to your caller again.

USING

Paging and internal calls

You can alert handset users that they are wanted, or locate a missing handset.

If you have multiple handsets registered to the base you can make internal calls between handsets.

Press the **LEFT** navigation button.

A list of all the handsets that are registered to the base are listed, you can select any of them.

Your handset is identified by a $<$.

Highlight the handset you want to call and press the **GREEN PHONE** button to call or page.

Or

Call All Press the **Call All** options button to page all the handsets registered to the base.

Press the **RED PHONE** button on the handset you are paging or calling, to end the call or page.

To transfer an external call between handsets

You can forward an external call to another handset registered to the base.

During an external call:

Press the **LEFT** navigation button to display the list of handsets. Your caller hears musical tones.

Press the **UP** or **DOWN** navigation button to select the handset you want to call.

Press the **GREEN PHONE** button to call. When the other handset answers you can announce the call.

Press the **RED PHONE** button to put the call through.

Note

You can also put the call through without announcing it by immediately by pressing the **RED PHONE** *button after dialling the other handset.*

USING

25

To put an external call on hold and speak to another handset

This enables you to ask another handset user a question and then get straight back to your caller.

During a call:

Press the **LEFT** navigation button to display the list of handsets. Your caller hears musical tones.

Press the **UP** or **DOWN** navigation button to select the handset you want to call.

Press the **GREEN PHONE** button to call.

End   Press the **End** options button

Or

Press the **RED PHONE** button to end the internal call and talk to your external caller again.

To answer a waiting call during an internal call

If you are making an internal call and hear the Call Waiting tone you can immediately take the incoming call.

Accept   Press the **Accept** options button to speak to the external caller and end the internal call.

To switch 3-way conversation function on or off

Your Diverse 4000 Executive handset can hold 3-way calls between handsets (assuming more than 2 handsets are registered to the base station).

Menu   Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Base Settings.

OK   Press the **OK** options button.

Press the **DOWN** navigation button until the display shows Add. Features.

USING

26

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows Listening In.

Press the **OK** options button. A ✔ indicates the feature is on. Press the

OK **OK** options button again to switch it off.

Press the **RED PHONE** button until you reach the idle display.

To hold a 3-way conversation

Providing the feature is switched on:

Your handset display shows the line is In Use.

Press the **GREEN PHONE** button, the other two callers will hear a beep announcing your entry into the conversation and the display will show Listening In.

Press the **RED PHONE** button to leave the conversation, the other two callers will hear a beep announcing that you have left the call.

USING

27

Caller Display and other Select Services

CALLER DISPLAY

IMPORTANT

To use Caller Display and Call Waiting you must first subscribe to the Services from your Network Provider. For more information on BT's Select Services call BT free on **0800 800 150**.

If you subscribe to a Caller Display Service you can see who is calling you on your handset display, as well as the date and time of their call (unless the number has been withheld).

If you have stored a name to go with the number in your handset directory, the name will be displayed instead.

Please ensure that you have stored the full telephone number, including the area code, otherwise the name will not match the number stored in the directory.

If the caller has withheld their number, the display will show WITHHELD.

If you call from another handset, the display shows the handset number and INT.

Note

If you have a new call in your Calls list, the ✉ icon and the In use light will flash.

Note

Calls that are 'withheld', 'unavailable' or 'international' are not stored in the Calls list, as there is no telephone number sent via the Network.

Calls list

The Calls list contains the telephone numbers of your last 30 callers.

Whether you take a call or not, the caller's details are stored in the Calls list. You can display, scroll through and dial numbers in the list and copy them into the directory.

If a call is received when the Calls list is full then the oldest entry will be deleted automatically.

To set the list to contain all calls or missed calls

✉   Press the **ENVELOPE** button.

  Press the **DOWN** navigation button until Calls List is highlighted.

OK   Press the **OK** options button.

  The most recently received call is displayed.

Menu   Press the **Menu** options button.

  Press the **DOWN** navigation button until Caller List is highlighted.

OK   Press the **OK** options button.

OK   Highlight and press the **OK** options button for which ever list you require. Either All Calls or Missed Calls will have a tick by the side to tell you which is the current setting.

  Press the **RED PHONE** button until you reach the idle display.

Call Waiting

If you also subscribe to a Call Waiting Service, when you are on a call and another person tries to call you, the second caller's number will appear on the handset display and you will hear an intermittent beep through the handset. This is to alert you to the other caller waiting to speak to you.

To accept a waiting call

During a call when you hear the Call Waiting beeps:

The number (or name if stored in the directory) of the second caller will flash on the display.

Menu   Press the **Menu** options button. Display shows Accept.

Recall   Press the **Recall** button to toggle between callers.

  Press the **RED PHONE** button until you reach the idle display.

SELECT SERVICES

32

Other Select Services

Your Diverse 4000 Executive handset helps you use your Network's special services. For full details ask your Network provider.

Options before you make a call

Before making a call you can:

- Withhold your number from being sent for one call.
- Switch Call Waiting on/off.
- Switch off Ringback.
- Divert all calls to another number (must be subscribed to).

To withhold your number from being sent

Your number appears on the display of the person you call. You can withhold it from the next call.

Menu   Press the **Menu** options button.

🔄   Press the **DOWN** navigation button until the display shows Select Services highlighted.

OK   Press the **OK** options button.

🔄   Press the **DOWN** navigation button until the display shows Withhold No highlighted.

OK   Press the **OK** options button.

📱   Enter the telephone number you want.

Menu   Press the **Menu** options button. Display shows Send.

OK   Press the **OK** options button to dial.

Or

☎   Press the **GREEN PHONE** button to dial.

The number is dialled and your number is withheld for this call.

☎   Press the **RED PHONE** button until you reach the idle display.

To switch Call Waiting on/off

You can choose whether to have your Call Waiting service switched on or off depending on what you are doing i.e. if you are using the Internet via your PC and do not want Call Waiting to interrupt you.

Menu   Press the **Menu** options button.

SELECT SERVICES

33

⊕ Press the **DOWN**
navigation button until
the display shows Select
Services.

OK Press the **OK** options
button.

⊕ Press the **DOWN**
navigation button until the
display shows Call Waiting.

OK Press the **OK** options
button.

⊕ Press the **DOWN**

Additional features

Voice mail

If you have Call Minder or a
Network Messaging Service on
your telephone line you can set
the **1** button to access your
messages directory via one button.

**To set one-touch access to
your messages**

Menu Press the **Menu** options
button.

Press the **DOWN**
navigation button until the
display shows Voice Mail.

OK Press the **OK** options
button.

Press the **DOWN**
navigation button. The
display shows Set Key 1.

OK Press the **OK** options
button.

Press the **DOWN**
navigation button. The
display shows Mailbox.

OK Press the **OK** options
button.

Enter the telephone
number of your messaging
service. For example,
1571 to access 'BT
Answer' voice mail
service.

Menu Press the **Menu** options
button. Display shows
Save Entry.

OK Press the **OK** options
button.

Press the **RED PHONE**
button until you reach the
idle display.

**To set up quick access to
your Voice Mail service
when behind a switchboard
e.g. Meridian Mail**

Follow the steps
previously given, but when
you come to enter the
telephone number of your
messaging service, you
will need to follow the
example on the next page:

ADDITIONAL FEATURES

e.g.. 7000

Enter the access number for your messaging service.

P

Press the **RECALL** button to enter a pause in the dialling sequence.

e.g.. 1234 #

Enter your extension number, followed by a hash.

P

Press the **RECALL** button to enter a another pause in the dialling sequence.

e.g.. 000000 #

Enter your PIN followed by a hash.

The entire number should look like this:

7000P1234nP000000n

Press the **RED PHONE** button until you reach the idle display.

Note

If you store your security PIN as part of the quick access number, anyone with access to the handset will be able to retrieve your messages.

To retrieve messages from your Voice Mail service

Press and *hold down* the **1** button.

When set up it will take you into your message service. If during the set up you entered your security PIN as well as the telephone number you will be taken quickly into your messages. If the security PIN was not included you will have to enter this number now.

OK   Press the **OK** button.

You will be taken into your messages.

Press the **RED PHONE** button until you reach the idle display.

Note

If your handset is registered to an answering machine base i.e. Diverse 4016 you will be given the choice of accessing your answering machine messages or Network Messaging Service. See your Diverse 4016 user guide for further information.

⏣ Press the **UP/DOWN** navigation button to display Missed Appointment.

OK Press the **OK** options button.

Menu Press the **Menu** options button.

⏣ Press the **DOWN** navigation button until the display shows Calendar/Clock.

OK Press the **OK** options button.

⏣ Press the **DOWN** navigation button until the display shows Missed Dates.

OK Press the **OK** options button.

⏣ Press the **DOWN** navigation button to select a missed appointment.

ADDITIONAL FEATURES

OK Press the **OK** options button. The information about the appointment is displayed.

A missed appointment is indicated by ☺.

A missed anniversary is indicated by ⛪.

← Press the **DELETE** options button to delete the appointment/anniversary from the list.

OK Press the **OK** options button to return to the list.

Or

📞 Press the **RED PHONE** button until you reach the idle display.

Walk and Talk

Diverse 4000 Executive handsets can communicate with each other outside the range of the base station. When they are out of range, however, they cannot receive external calls.

Communication between two handsets is possible when:

• Diverse 4000 Executive handsets are registered at the same base station and have currently selected that base station.

Or

• Diverse 4000 Executive handsets have set Best Base station as their base station setting.

Or

• Diverse 4000 Executive handsets are not registered with any base station.

Range

The maximum range between two handsets whilst in Walk and Talk mode is up to 300 metres. Please note that batteries are used more quickly in Walk and Talk mode.

To switch Walk and Talk mode on and off

Menu Press the **Menu** button.

⊕ Press the **DOWN** navigation button to display Additional Features.

OK Press the **OK** button.

⊕ Press the **DOWN** navigation button until the display shows Walk and Talk.

OK Press the **OK** options button to switch Walk and Talk on.

Or

Off Press the **Off** options button to switch Walk and Talk off.

ADDITIONAL FEATURES

41

To use Walk and Talk

Walk and Talk mode must be switched on for at least two handsets.

Call a handset:

Call   Press the **Call** options button. The called handset receives a Walk and Talk message on the display.

Answer a call:

⌒   Press the **GREEN PHONE** button to take the call.

Room monitor

You can use a handset as a room monitor. If a certain noise level is reached, the handset will automatically dial an internal or external number which you have set.

Note

To use the room monitor:

The answering machine must be switched off.

Make sure that the call bar has not been set.

The battery power is used more quickly.

Any incoming calls on the handset which is being used as the room monitor will not ring at the handset. The keypad and display are not backlit.

ADDITIONAL FEATURES

42

To store the internal number for your room monitor

Menu Press the **Menu** options button.

⊕ Press the **DOWN** navigation button until the display shows Additional Features.

OK Press the **OK** options button.

⊕ Press the **DOWN** navigation button until the display shows Room Monitor.

OK Press the **OK** options button.

⊕ Press the **LEFT** or **RIGHT** navigation button to select On or Off.

⊕ Press the **DOWN** navigation button to move the cursor to the next line.

Change Press the **Change** options button to enter the number.

⬅ If an external number has already been entered, your can delete it by pressing the **DELETE** button.

Yes If an internal number has been entered, delete it by pressing the **Yes** options button.

Enter the internal number you want the room monitor to call.

Or

⊕ Press the **LEFT** navigation button to display handset numbers.

⊕ Press the **UP** or **DOWN** navigation button to select the handset you want the room monitor to call.

Save Press the **Save** options button to save the number.

⊕ Press the **DOWN** navigation button to move the cursor to the next line.

⊕ Press the **LEFT** or **RIGHT** navigation button to select the noise sensitivity High or Low.

Save Press the **Save** button to save the setting.

☎ Press the **RED PHONE** button until you reach the idle display.

Display language	**English**
Redial list	**deleted**

⊚ Press the **RED PHONE** button until you reach the idle display.

To switch keyguard on and off

You can lock the keypad so that it cannot be used accidentally while carrying it around.

⊞ Press *and hold* the **#** button. When the keyguard is switched on, the display will show the ⊶ icon.

⊞ Press *and hold* the **#** button to switch the keyguard off.

HANDSET SETTINGS

51

To give a handset a name rather than a number

The handsets when registered are assigned numbers e.g. INT 1. You can give the handset a name instead of a number to match the user or location, e.g. Anne or Office. The name can be up to 10 characters long.

⊕ Press the **LEFT** navigation button to display the list of handsets.

⊕ Press the **UP** or **DOWN** navigation button to select the handset you you want to change the name or number of.

Edit Press the **Edit** options button.

▦ Enter the name you want.

Save Press the **Save** options button to confirm.

☎ Press the **RED PHONE** button until you reach the idle display.

To change the internal number of a handset

Your handsets are automatically assigned internal numbers between 1-6. You can change these numbers.

⊕ Press the **LEFT** navigation button to display the list of handsets.

⊕ Press the **UP** or **DOWN** navigation button to select the handset you want.

Edit Press the **Edit** options button.

▦ Enter an available number. If the number is already assigned to another handset you hear a beep. Select another number.

⊕ If required, press the **UP** or **DOWN** navigation button to select another handset and use the Keypad to change the number.

OK Press the **OK** options button to confirm.

☎ Press the **RED PHONE** button until you reach the idle display.

HANDSET SETTINGS

To de-register a handset

Press the **LEFT** navigation button to display the list of internal handsets registered to the base.

Press the **UP** or **DOWN** navigation button to select the handset you want to de-register.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows De-reg. H/Set No.

OK Press the **OK** options button.

Enter the base station PIN (original setting = 0000).

OK Press the **OK** options button.

Yes Press the **Yes** options button.

Press the **RED PHONE** button to confirm de-registration.

Call Barring

To set call barring

You can stop individual handsets from dialling specific external numbers.

You can set the following options:

- No barring (this is the original setting)

- Outgoing – handset can make internal calls and receive external calls but cannot make external calls.

- Internal only – handset can only make internal calls.

Press the **LEFT** navigation button to display a list of handsets.

Press the **UP** or **DOWN** navigation button to select the handset you want.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Call Barring.

HANDSET SETTINGS

53

OK Press the **OK** options button.

Enter the PIN (original setting = 0000)

OK Press the **OK** options button.

Press the **DOWN** navigation button to display the setting you want, No barring, Outgoing or Internal only.

OK Press the **OK** options button. A ✔ will appear next to your selection.

Press the **RED PHONE** button to cancel at any time during these steps.

Help

Problem	Possible cause	Solution
Handset not registering.	The base is not powered. There are no batteries in the handset.	Make sure that the power supply is plugged in at the base and switched on. Make sure that the rechargeable batteries (included) are fitted in the handset correctly. Switch the handset off and then back on again, place the handset on to the base again and leave for approx. 1 minute to try registering again.
You have forgotten your base station PIN number.	You have changed the PIN.	Try entering the default PIN (0000). If you have changed the PIN and cannot remember the number you will need to contact the BT Diverse Helpline on 08457 908070.
No display.	The handset not switched off.	Hold down **RED PHONE** for 1 second. Charge or replace batteries.
Nothing happens when you press any button.	Keyguard may be switched on.	Hold down the **#** button for 1 second.
No connection between handset and base station.	Are you out of range of the base station. Handset is not registered. Base station is not switched on.	Move closer to the base station. Register the handset. Check the mains power is connected correctly.

HELP

55

Handset on the base does not charge.	Is another handset using the line for a long time?	Maximum charging power is only possible when no calls are being made.
	Is the handset placed on the base properly?	Make sure that the handset is placed on the base or in the charger correctly. You will hear a confirmation tone.
	Are the batteries in correctly?	Check that you have put the batteries in the right way, you will hear a confirmation tone.
Handset does not ring.	The handset ringer may be switched off.	Hold down ✳ to switch the ringer back on.
You cannot dial external numbers.	Call barring may be set.	Switch off call barring *(see page 53)*.
Your cannot hear your caller.	The **LEFT** navigation button has been pressed and the microphone is muted.	Press ⬛ to switch the microphone back on.
The incoming caller's number is not displayed even though you have Caller Display.	The caller's number has been withheld.	Caller has to allow their number to be sent.
You cannot hear the ringer or dialling tone.	You have changed the telephone line cord on your Diverse base.	Check that the cord has the correct 3-4 pin assignment of the telephone leads/ EURO CTR37.
You keep hearing the error beep (a descending tone)	You have pressed the wrong button in a sequence.	Check the prompts in the display or refer to instructions in the user guide.

HELP

Compatibility
The tables below give you a quick reference guide to compatibility when registering different handsets to bases within the Diverse 3000 and 4000 range.

4000 Classic handset	4010/4016 Executive	3010 Executive
Caller Display/Call Waiting	Yes	Yes
Time displayed in idle mode	Yes	No
Language selection	No	No
SMS	No	No
Loudspeaker via the base	No	Yes
Room monitor	No	No
Walk and Talk mode	No	No

4000 Executive handset	4010/4016 Classic	3010/3016 Classic
Caller Display/Call Waiting	Yes	Yes*
Time/date displayed in idle mode	Yes	Yes
Language selection	No	No
SMS	No	No
Loudspeaker via the base	Yes	Yes
Directory transfer	Yes	No
Room monitor	Yes	Yes
Walk and Talk mode	Yes	Yes
Call Barring	No	Yes

It is possible for Diverse 4000 and Diverse 3000 Executive Handsets to transfer directory entries.

*With the Diverse 3016, although you will hear the beeps when a call is waiting, the number or name of the waiting caller will not be shown on the handset display.

HELP

General information

Guarantee

Your Diverse 4000 Executive is guaranteed for a period of 12 months from the date of purchase.

Subject to the terms listed below the guarantee will provide for the repair of, or at BT's or its agent's discretion the option to replace the Diverse 4000 Executive, or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished product.

The conditions of this guarantee are:
- The guarantee shall only apply to defects that occur within the 12 month guarantee period.
- Proof of purchase is provided.
- The equipment is returned to point of purchase.
- This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than

through approved agents.
- This guarantee does not affect your statutory rights.

Within the 12-month guarantee period:
If you experience difficulty using the product, prior to returning your product, please read the Help section beginning on page 55, or contact the Diverse Helpline on **08457 908070** for assistance.

In the unlikely event of a defect occurring, please follow the Helpline's instructions for replacement or repair.

Outside the 12-month guarantee period:
If your product needs repair after the guarantee period has ended, the repair must meet the approval requirements for connection to the telephone network. We recommend that you call the Helpline on **08457 908070** and ask for details of our recommended repair agents.

GENERAL INFORMATION

Technical information

How many telephones can you have?

All items of telephone equipment have a Ringer Equivalence Number (REN), which is used to calculate the number of items that may be connected to any one telephone line. The Diverse 4000 Executive has a REN of 1. Any other instrument provided by BT may be assumed to have a REN of 1 unless stated otherwise. A total REN of 4 is allowed. (For example: if Diverse 4000 Executive is used in conjunction with three extension telephones, each with a REN of 1, the total REN is 4.)

Only use approved power supply item code: C39 280-Z4-C478.

R&TTE

This product is intended for use within the UK for connection to the public telephone network and compatible switchboards.

This equipment complies with the essential requirements for the Radio Equipment and Telecommunications Terminal Equipment Directive (1999/5/EC).

Note

If you are experiencing difficulty, please call the BT Diverse Helpline on **08457 908070**.

Switchboard compatibility

Generally this telephone may be connected to switchboards which support tone signalling and timed break recall. In the event of any difficulties please consult your switchboard service provider.

To set the dialling mode

You need only adjust this setting if your switchboard does not operate with the pre-set tone dialling. You can change the dial mode to pulse dialling.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Base Set.

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows Add Features.

GENERAL INFORMATION

59

OK Press the **OK** options button.

Display shows Dial Mode.

OK Press the **OK** options button.

Press the **DOWN** navigation button to select:
– tone (with TBR)
– pulse (with Earth Recall)
– DTMF-Earth (tone with Earth loop recall)

OK Press the **OK** options button to confirm. The display shows Saved.

Press the **RED PHONE** button until you reach the idle display.

To set the recall time

You need only adjust this setting if your switchboard requires a different recall time to the pre-set recall time of 100ms .

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Base Set.

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows Add Features.

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows TBR.

OK Press the **OK** options button.

Press the **DOWN** navigation button to select the flash time 80, 100, 120, 180, 250 or 300ms.

OK Press the **OK** options button to confirm. The display shows Saved.

Press the **RED PHONE** button until you reach the idle display.

Note

100 MS is the standard setting for most UK switchboards.

To switch temporarily from pulse to tone dialling

If you are using pulse dialling with your switchboard but need tone dialling to use certain functions on your Diverse 4000 you can switch to tone dialling during the call.

During your call:

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Temp.Tone.

OK Press the **OK** options button. Tone dialling is now active.

Press the **RED PHONE** button until you reach the idle display.

Note

This setting is only for the duration of the call.

To set the pause length

You can set the length of the pause that is automatically inserted after you press the **GREEN PHONE** button and before the telephone number is sent from your phone.

OK Press the **OK** options button.

Enter the code **8 9 1 6**.

Enter the pause length:

1 = 1 second, **2** = 3 seconds, **3** = 7 seconds, **4** = 3.2 seconds.

OK Press the **OK** options button to confirm the setting.

Press the **RED PHONE** button until you reach the idle display.

GENERAL INFORMATION

61

To switch temporarily from pulse to tone dialling

If your switchboard uses pulse dialling but tone dialling is required during a call, you can switch the call to tone dialling.

During your call:

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Temp.Tone.

OK Press the **OK** options button. Tone dialling is set for the duration of the call.

Press the **DOWN** navigation button until the display shows Add. Features.

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows TBR.

OK Press the **OK** options button.

Press the **UP** or **DOWN** navigation button to select the flash time you want. Options are 80ms. 100ms, 120ms, 180ms, 250ms, 300ms, 600ms.

OK Press the **OK** options button to confirm the setting.

Press the **RED PHONE** button until you reach the idle display.

To store the switchboard access code

If your switchboard requires a prefix, e.g. 9, before a number is dialled, your Diverse 4010 Executive can store it so it is dialled automatically for external numbers.

Menu Press the **Menu** options button.

Press the **DOWN** navigation button until the display shows Base Settings.

OK Press the **OK** options button.

Press the **DOWN** navigation button until the display shows Add. Features.

OK Press the **OK** options button.

GENERAL INFORMATION

62

⊕ Press the **DOWN**
    navigation button until
    the display shows Access
    code.

OK Press the **OK** options
    button.

▦ Enter the access code,
    e.g. **9**.

Menu Press the **Menu** options
    button. Display shows
    Save Entry.

OK Press the **OK** options
    button to confirm the
    setting.

☎ Press the **RED PHONE**
    button until you reach the
    idle display.

GENERAL INFORMATION

Important

*When storing numbers in the
Directory, you still need to enter
the switchboard access code first.*

*The code you store here is
always dialled automatically
before telephone numbers in the
caller list and the emergency
numbers.*
