Main Menu

- Turn on the digital frame by pressing and holding the power button until the Aluratek startup screen is displayed.

- The On-screen Display (OSD) will show the Main Menu. Each icon represents the various functions available on the device: My Favorite, Explorer, Photo, Video, Music, Calendar, Others, Setup and User's Guide.

- Browse the different functions using the ◄ or ► arrow buttons and select a function by pressing the ►‖ button.

Transferring Files from your PC/Mac to the Frame's Internal Memory

• A USB cable is included with your digital frame to connect it to your PC/Mac. Connect the small connector to your digital frame and the larger connector to your PC/Mac.

• Once connected, the frame will display "Connecting with PC!". On a PC, the frame's internal memory will appear as a removable drive when viewed in "My Computer". On a Mac, the frame will appear as a drive icon on the desktop.

• Copy your photo, video and music files from your PC/Mac into the icon representing the frame's internal memory. When finished disconnect the USB cable from the PC Mac. (Note: For a Mac, eject the drive icon before disconnecting the USB cable.)

• The frame will return to normal operation once it is disconnected from your PC / Mac.

Managing Files in the Digital Frame's Internal Memory

• Determine the source of the photo, video and music files you wish to copy to the digital frame's internal memory by highlighting either the SD or USB storage options from the Explorer.

• A list of the files or folders contained on the storage source will be displayed. Browse the files using the ▲ or ▼ arrow buttons. If photos are contained in a folder, press the ►‖ button to open the folder.

• You may copy an individual file or a folder to the internal memory by press and hold the ►‖ arrow button and select "Copy". Select "OK" when the "Copy to…" dialog box appears.

• To delete a file or folder, simply browse to it and press and hold the ►‖ arrow button and select "Delete". Select "Yes" when the "Delete Files?" dialog box appears.

Photo Function

Setup a Photo Slideshow

• Navigate to the Photo function using the ◄ or ►arrow buttons and press the Play Pause button.

• Select the source of the photos you wish to present in the slideshow by selecting MEMORY (Internal Memory), SD and USB storage options and pressing the ►‖ button.

• To begin your slideshow, press the Slideshow button on the remote control. You can also start the slideshow by press the ►‖ button in the thumb nail view.

• During slideshow, press and hold the ►‖ button. This will provide you with the various options to customize your slideshow. Browse the options using the ▲ or ▼ arrow buttons. You may browse the features of each option using the ◄ or ►arrow buttons.

Photo Function

Browse Mode

- Browse mode is a feature that allows you to view a single photo and adjust how it is displayed on the screen.

- While a slideshow is playing, press the ►‖ button to enter Browse mode. This will freeze the photo currently displayed and allow you to adjust it.

- To exit Browse mode, press the Menu button.

Photo Setup

- In either Browse or Slideshow mode, you can enter the Photo Setup menu by pressing and holding the ►‖ button.

- To exit, press the Menu button.

Playing Videos

• Navigate to the Video function using the ◄ or ►arrow buttons and press the Play
  Pause button.

• Select the source of the photos you wish to present in the slideshow by selecting
  MEMORY (Internal Memory), SD and USB storage options and pressing the ►‖ button.

• Select the video that you wish to view and press the ►‖ button.

• To skip to the next video, press the ▼ arrow button. To skip to the previous video, press the
  ▲ arrow button. Adjust the volume of the video playing using the ◄ or ► arrow buttons.

• To exit, press the Menu button

Video Setup

• To customize how videos are played back, press & hold the ►‖ button while a video is playing until you get the Video Setup menu. You may also access the Video Setup menu by selecting Setup in the Main Menu. Browse the options using the ▲ or ▼ arrow buttons. You may browse the features of each option using the ◄ or ►arrow buttons.

• To exit, press the Menu button

Music Function

Playing Music

• Navigate to the Music function using the ◄ or ►arrow buttons and press the Play
  Pause button.

• Select the source of the photos you wish to present in the slideshow by selecting
  MEMORY (Internal Memory), SD and USB storage options and pressing the ►∥ button.

• Select the song that you wish to view and press the ►∥ button.

• To skip to the next song, press the ▼ arrow button. To skip to the previous song, press
  the ▲ arrow button.

• Adjust the volume of the song playing using the ◄ or ►arrow buttons.

• To exit, press the Menu button

Music Setup

• To customize how music played back, press & hold the ►‖ button while a song is playing until you get the Music Setup menu. You may also access the Music Setup menu by selecting Setup in the Main Menu. Browse the Music Setup options using the ▲ or ▼ arrow buttons. You may browse the features of each option using the ◄ or ►arrow buttons.

• To exit, press the Menu button

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.

Warranty

Aluratek warrants this product against defect in material or workmanship for **120 Days** from the date of purchase.

This warranty becomes invalid if the factory-supplied serial number or "warranty void" sticker has been removed or altered on the product.

This warranty does not cover:
A) Cosmetic damage or damage due to acts of God
B) Accident, misuse, abuse, negligence or modification of any part of the product.
C) Damage due to improper operation or maintenance, connection to improper equipment, or attempted repair by anyone other than Aluratek.
D) Products sold AS IS or WITH FAULTS.

IN NO EVENT SHALL ALURATEK'S LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, IT'S ACCOMPANYING SOFTWARE, OR IT'S DOCUMENTATION.

Aluratek makes no warranty or representation, expressed, implied, or statutory, with respect to it's products, contents or use of this documentation and all accompanying software, and specifically disclaims it's quality, performance, merchantability, or fitness for any particular purpose. Aluratek reserves the right to revise or update it's product, software or documentation without obligation to notify any individual or entity.
