What makes a cabriolet unique? The fact that it makes every summer an adventure. That it re-defines freedom. And that it does not just drive like a cabriolet. But rather with virtually the same agility as a pure-bred sports car. Then this means it can do more. Then it is:

The S5 Cabriolet.

Can do more. If that is what you want.

The fuel consumption and CO₂ emissions figures can be found on page 48.

Every day you get a choice with the S5 Cabriolet: How do you want to have fun? Is today a day for enjoying the scenery to the sound of the optional Bang & Olufsen Sound System? The S5 Cabriolet is the ideal partner if you do. Or is it a day for using the 245 kW of power to the full, for feeling how excellently the S sports suspension understands your favourite stretch of road? If so, then increase the revs and make acquaintances with the athletic genes of the S5 Cabriolet. Whatever type of fun you feel like having, you will get lots of it.

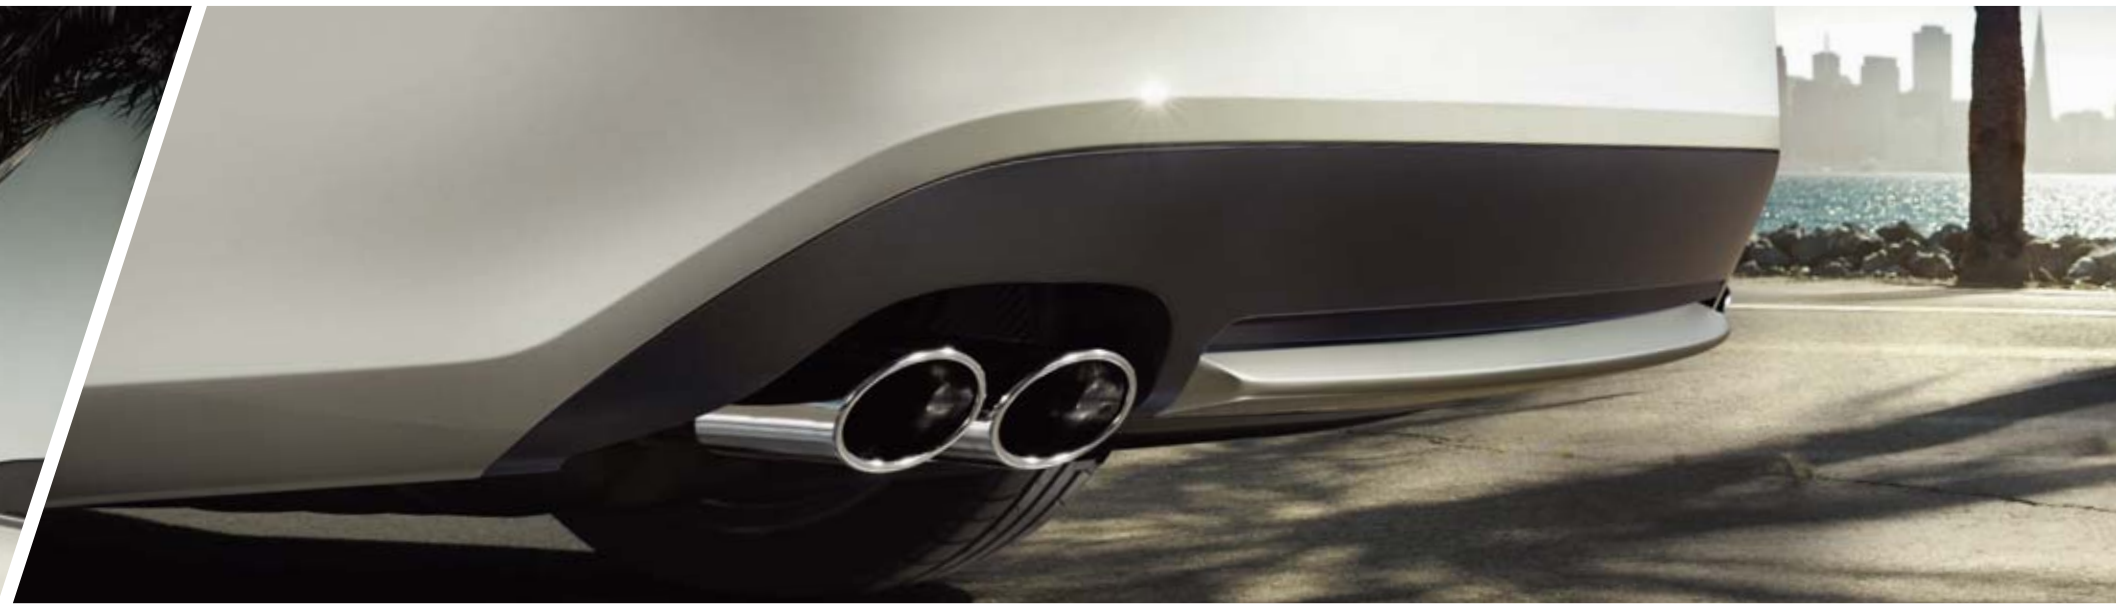

The fuel consumption and CO₂ emissions figures can be found on page 48.

A man in a dark suit is seen from the back, looking out at the ocean. He is sitting in a car, with the car's interior and the ocean visible. The scene is bathed in the warm, golden light of a sunset or sunrise, creating a serene and calm atmosphere.

Radiates calm.

A white Audi RS5 convertible is parked on a paved area near a beach. The car is facing towards the left of the frame. In the background, there is a lifeguard stand on the beach, the ocean, and a rocky cliff under a dramatic, cloudy sky with a bright light source, possibly the sun or moon, creating a high-contrast scene.

If that is what you want.

Even when the S5 Cabriolet is stationary, its sporty credentials are very much in evidence. Twin oval tailpipes and LED rear lights catch the eye. The athletic stance with long wheelbase and short overhangs signal a readiness to perform, whilst the high-quality fabric hood completes the aerodynamic silhouette. The red S emblem acts as a stimulus for enthusiasts of sporty corners and endless straights.

A composite image for an Audi advertisement. The left side shows a white Audi A5 convertible with a red top driving on a city street, with tall buildings and palm trees in the background. The right side is a close-up of a man driving the car, with the sun creating a strong lens flare. Both sides have a dark banner with white text.

Almost as quiet as a saloon.

If that is what you want.

For a cabriolet, the most beautiful roof of all is still the sky. The only alternative worthy of consideration is a fabric hood: the standard acoustic hood of the S5 Cabriolet. An electrohydraulic system closes the hood in just 17 seconds. Ensuring that weather and driving noise remain outside. Insulation maintains the interior climate, a climate that you yourself control with the automatic air conditioner. Options such as headroom heating and sports seats in leather with a function to prevent excessive build-up of heat make the cabriolet season almost infinite. You can operate the acoustic hood with the optional comfort key by remote control as well, or while you are driving at speeds of up to 50 km/h, to reveal the view above you in a sporty 15 seconds. Only one question remains: are the clouds really moving so fast across the sky? Or is it that the S5 Cabriolet is leaving them behind so quickly?

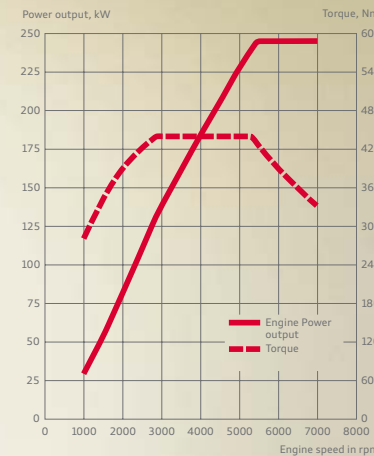

An aerial photograph of a narrow, winding asphalt road that hugs the edge of a steep, green cliff. The road curves down towards a rocky coastline where waves are crashing. The sun is low in the sky, creating a warm, golden light over the scene.

From 0 to 100 in 3 minutes.

A white Audi S5 convertible is shown from a front-three-quarter perspective, driving rapidly on a two-lane coastal road. The car's top is down, and a driver wearing sunglasses is visible. The background features a steep, grassy hillside and the ocean in the distance. Motion blur is applied to the background and the road surface to convey a sense of high speed.

If that is what you want.

The fuel consumption and CO₂ emission figures can be found on page 48.

Whether you accelerate in a matter of seconds or take your time just depends on your mood. Because the tremendously torquey 3.0 litre TFSI engine is ready at any time to give virtually its all. Its all in this case means 245 kW of power with a regulated top speed of 250 km/h. The combination of quattro® with six cylinders and mechanical supercharging offers outstanding power delivery over the entire engine speed range, with plentiful power left in reserve. Peak torque occurs early in the speed range, ensuring that 90 % of the maximum torque of 440 Nm is already available from a speed of 2,200 rpm. And that you are smiling broadly as you drive away. The Vorsprung durch Technik of the S5 Cabriolet is consolidated not just by its impressive performance, but by its efficiency too. The engine complies with the EU 5 emissions standard. Petrol direct injection with mechanical supercharging and charge air cooling burns the fuel more quickly and more economically. So feel free to take a detour to enjoy the scenery.

The fuel consumption and CO₂ emissions figures can be found on page 48.

No matter how beautiful the scenery is – the prospect of a sporty driving experience is even more enticing. The S5 Cabriolet does not need to be asked twice. In the acceleration phase, the standard-fitted S tronic dual-clutch gearbox pre-selects the next gear up, whilst the quattro® permanent all-wheel drive distributes the power to all four wheels. The six-cylinder engine does not allow itself any pauses in gearshifting. There is no time for that when you are accelerating from 0 to 100 km/h in 5.6 seconds. As speed increases, servotronic regulates the amount of power steering assistance, thereby facilitating precise steering and outstanding agility. At the same time, the special S sports suspension ensures optimum directional stability. The optimised axle load distribution and its wide track put you in direct contact with the road. Corner after corner, until you reduce the tempo again because you realise that, with an S5 Cabriolet, you yourself are part of the view. For others.

A full-size four-seater.

If that is what you want.

Share your driving adventure with others, even if there is a risk that your travel companions will never want to get out again: Superb comfort and excellent finish ensure that the occupants of the four full-size seats get maximum enjoyment from their cabriolet experience. The luggage compartment has a capacity of 320 l when the hood is open and 380 l when it is closed. A folding rear seat backrest and the load-through facility increase the capacity still further to 750 l. Despite all this practicality, there is no shortage of fun either, particularly if you decide on the optional Bang & Olufsen Sound System. As with the communication and navigation system, this is controlled via the optional MMI® control concept. The Alcantara/Leather combination, the multifunction sports leather steering wheel and the special S design instrument cluster ensure that the vehicle's dynamism is reflected in the interior too. If ever being seated could be sporty, it would be in the S5 Cabriolet.

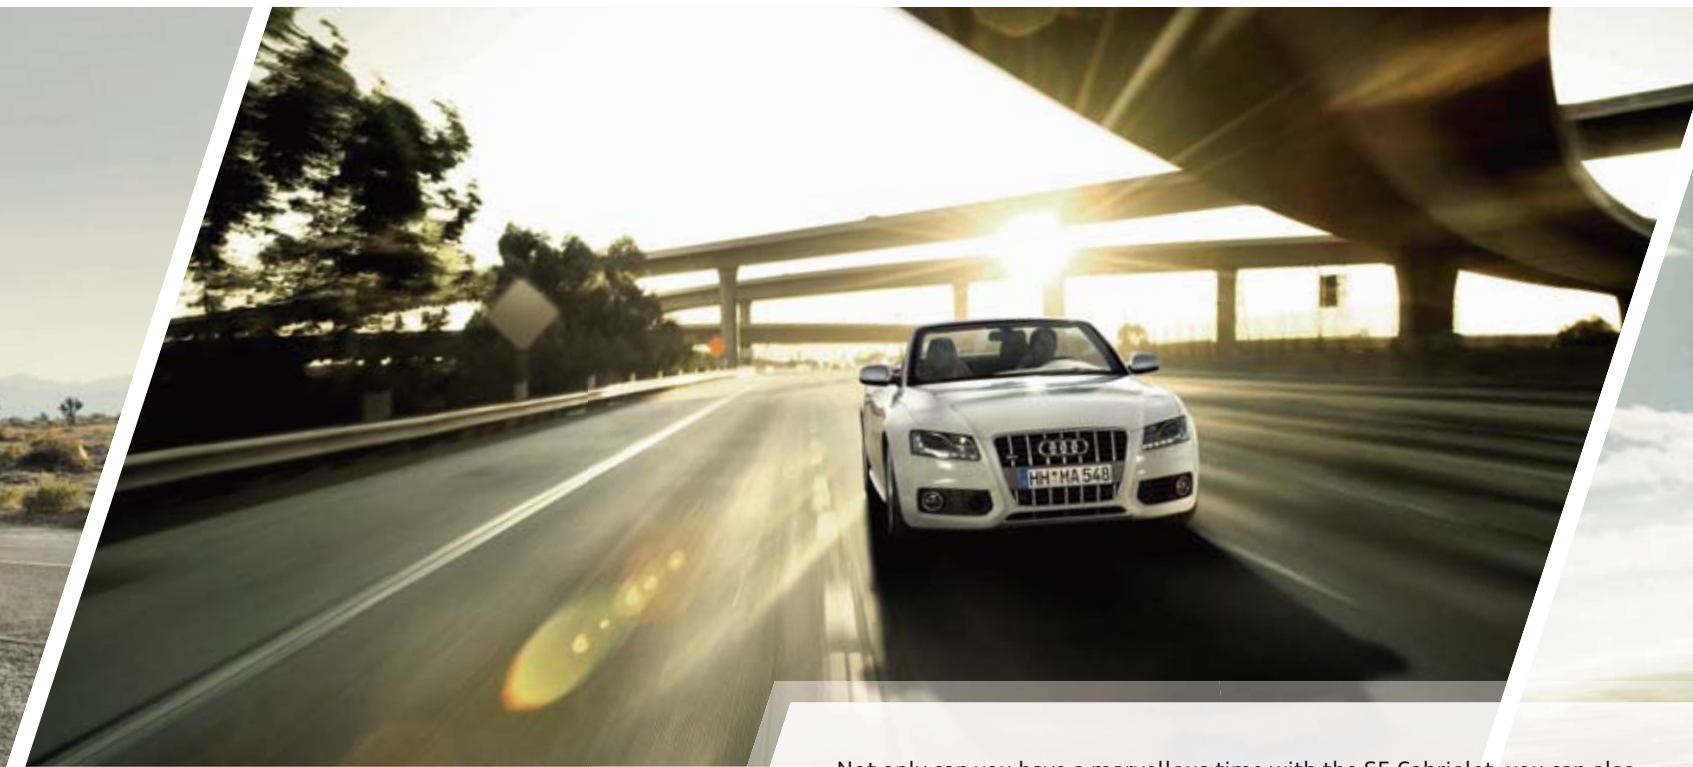

Relaxed into every corner.

If that is what you want.

One in every four Audi customers now chooses quattro® all-wheel drive, thereby consciously opting for even more driving enjoyment and agility. For even better handling, choose the option quattro® with sports differential. This system steplessly distributes variable amounts of driving forces to each rear wheel. Particularly when the car is steered into and accelerated out of the corner, power is purposely directed to the rear wheel on the outside of the bend. The result is more agility and joyous anticipation of the next corner. Furthermore, virtually none of the dynamics is lost as the car is steered into the corner, ensuring greater stability and greater willingness of both car and driver to tackle bends.

Not only can you have a marvellous time with the S5 Cabriolet, you can also effortlessly make up time. The natural dynamism of the S5 Cabriolet can be adapted to your own personal driving style with the optional Audi drive select which is only available in combination with the dynamic steering and/or suspension with damper regulation and/or quattro® with sports differential. From the “auto” default setting, you can switch to “comfort” mode to enjoy a perceptibly softer vehicle set-up. By contrast, “dynamic” mode gives the car a very agile edge: the steering is more direct, the shock absorbers are stiffer and the corners are more exciting than ever before. So that you not only have a marvellous time with the S5 Cabriolet, you can also effortlessly make up time.

Your destination at last.

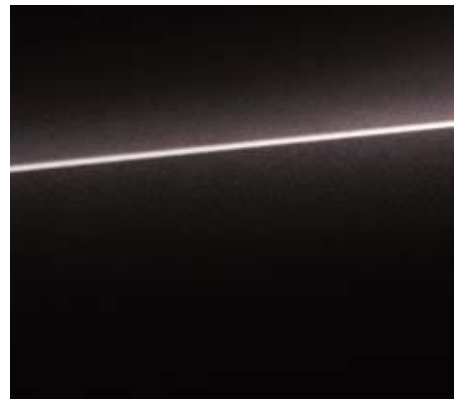

If that is what you want.

Audi exclusive – individually means manually.

Exterior and interior – combined to suit your wishes. Selected, individual colours for the paintwork of the vehicle; fine leather, elegant Alcantara and top quality woods and inlays for the interior trim of your Audi. It is exactly this combination, your personal choice from the versatility of high quality materials and equipment elements that turns an Audi into your Audi, making it something really special. You can find information on your customisation options from your Audi partner or from the customisation studio at the Audi Forum in Neckarsulm.

Audi exclusive leather upholstery and trim in Valcona leather (package 2) in sand beige with contrasting seams.

S sports seats

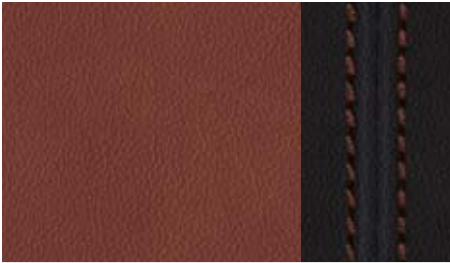

Silk Nappa leather, black with contrasting seams

Silk Nappa leather, magma red/black with contrasting seams

Silk Nappa leather, spectral silver/black with contrasting seams

Silk Nappa leather, mustang brown/black with contrasting seams

Audi exclusive leather upholstery and trim. From quattro GmbH

Sports seats, front, with shaped side bolsters for better lateral support when cornering; including electrically adjustable front seats with electric 4-way lumbar support, with extendable thigh support, comfort entry feature, an enhanced front-seat folding function to facilitate easy access to the rear compartment. (Can only be ordered in conjunction with the Alcantara/Leather combination)

S sports seats, front, with integral head restraints, S5 emblem and contrasting seams, including electrically adjustable front seats, electric 4-way lumbar support, adjustable seat height, fore/aft position and seat and back angle, with extendable thigh supports; comfort entry feature. (Can only be ordered with Silk Nappa leather upholstery and trim)

Climate-controlled comfort seats, front, exclusive seat option with shaped side bolsters and soft-feel design for luxurious comfort; actively ventilated and heated, automatic heating to prevent cold seats with 3-stage adjustable headroom heating. Perforated leather on the ventilated seat areas of the front seats and on the non-ventilated seat areas of the 2 rear seats, comfort entry feature. (Can only be ordered in conjunction with perforated Milano leather, seat heaters, 3-zone deluxe automatic air conditioner and headroom heating at the front)

Alcantara/Leather combination, seat centre sections in Alcantara, seat side bolsters and head restraint centre sections in leather, door and rear side panel inserts in Alcantara, includes heat guard for the front seat cushions and backrests. (Can only be ordered in conjunction with sports seats)

Silk Nappa leather upholstery and trim, seat covers, head restraints and door and side trim inserts in Silk Nappa leather, with S5 emblem and contrasting seams on the seats, includes heat guard for the front seat cushions and backrests. (Can only be ordered in conjunction with front S sports seats and front seat heaters)

Perforated Milano leather upholstery and trim, seat/side bolster surface and head restraint centre sections in Milano leather, ventilated seat areas of the front seats and non-ventilated seat areas of the 2 rear seats in perforated Milano leather, includes heat guard for the front seat cushions and backrests. (Can only be ordered in conjunction with climate-controlled front comfort seats)

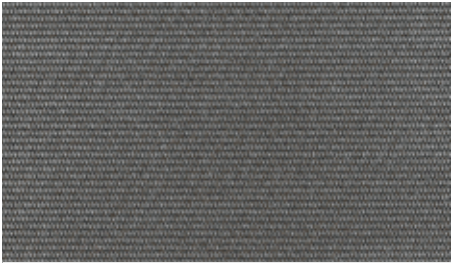

Audi exclusive leather upholstery and trim in Alcantara/Leather, seat centre sections and door trim inserts in Alcantara, seat side bolsters, head restraints, centre armrest, backrest cover, door armrests in Fine Nappa leather, including heat guard for the front seat cushions and backrests; optional: coloured seams on the side seat bolsters, head restraints and armrests; attachments are colour-matched to the leather. (Only in conjunction with electrically adjustable front seats.) From quattro GmbH

Audi exclusive leather upholstery and trim in Fine Nappa leather, seat covers, head restraints, door trim inserts and centre armrest, backrest cover, door armrests in Fine Nappa leather, including heat guard for the front seat cushions and backrests; optional: coloured seams on the side seat bolsters, head restraints and armrests; attachments are colour-matched to the leather. (Only in conjunction with electrically adjustable front seats.) From quattro GmbH

Inlays

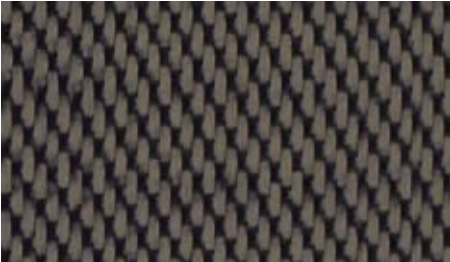

Matt brushed aluminium

Stainless steel mesh (Piano finish black in the centre console)

Fine grain birch wood grey

Carbon Atlas

Audi exclusive inlays. From quattro GmbH

Inlays, for door trim and rear side panel trim and in the centre console
Audi exclusive inlays, available in a choice of Audi exclusive woods. From quattro GmbH

Wheels/tyres

Cast aluminium wheels,
5-parallel-spoke S design,
size 8.5 J x 18 with 245/40 R 18 tyres

Cast aluminium wheels,
5-parallel-spoke star design,
size 8.5 J x 19 with 255/35 R 19 tyres

Audi exclusive wheels/tyres

Audi exclusive cast aluminium wheels,
5-segment spoke design,
size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels,
20-spoke design, two-piece,
size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 5-arm-rotor
design in titanium look, high-gloss turned finish,
size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Winter wheels

Audi exclusive cast aluminium wheels,
7-double-spoke design,
size 9 J x 20 with 265/30 R 20 tyres.
From quattro GmbH

Cast aluminium winter wheels, 5-parallel-spoke
S design, size 8 J x 18 with 245/40 R 18 tyres,
permissible top speed 240 km/h, can be fitted with
snow chains

Wheel bolts, anti-theft, can only be loosened using adapter provided
Tyre repair kit, with 12 volt compressor and tyre sealant; permissible top speed 80 km/h
Spare wheel, space-saving, can only be ordered with the jack
Tyre pressure monitoring system, provides a visual and acoustic warning of any loss in pressure in one or more tyres; display in the driver information system
Vehicle tool kit, in luggage compartment
Jack, in the luggage compartment

Lights

xenon plus, the headlights with durable gas discharge technology for dipped and main beam enable an intensive illumination of the road with excellent homogeneity and range, both close-up and in the distance, in a colour resembling daylight. The automatic dynamic headlight beam control prevents oncoming traffic from being dazzled; daytime running lights and rear lights in LED technology with low power consumption

Daytime running lights, in LED technology with low power consumption, integrated into the headlights

adaptive light, the dynamic cornering light identifies the course of the road from the movement of the steering wheel. The headlights swivel – depending on the steering angle – into the curve, providing variable illumination for the course of the curve. The adaptive light works in a speed range of between approx. 10 km/h and 110 km/h

Main beam assist, working within system limits, automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the main beam is automatically switched on or off. The system thereby improves the driver’s visibility and safety and ensures a more relaxed drive thanks to the extra comfort and convenience. (Can only be ordered in conjunction with automatically dimming interior mirror)

Interior lighting, with delayed switch-off and contact switches on all doors; lights for luggage compartment, driver, front-passenger and rear compartment, 2 reading lights at front, make-up mirror illumination, ambient lighting

Lighting package, comprises illuminated vent controls and inside door handles, active door reflectors, entry lights, front and rear footwell lights, illuminated glove compartment, LED technology for the front interior lighting and make-up mirror illumination

LED rear lights, brake and tail lights LED; reversing lights, rear fog lights and indicator lights have bulbs

Front fog lights integrated in the bumper, with ring trim in aluminium look

Headlight cleaning system, uses water and high pressure, for improved illumination and good visibility

Light/rain sensor, to control the automatic headlights, the coming home/leaving home function and the automatic windscreen wiper function; includes windscreen with grey-coloured strip along the top edge

Mirrors

Exterior mirrors with integral LED indicators, electrically adjustable and heated, windscreen washer jets heated, convex, flat or aspherical mirror glass

Exterior mirror, choice of:

electrically folding

electrically folding and automatically dimming. (Can only be ordered in conjunction with automatically dimming interior mirror)

electrically folding and automatically dimming with memory function. (Can only be ordered with automatically dimming interior mirror and driver’s seat with memory function)

Exterior mirror housing in aluminium look

Interior mirror, can be dimmed

Interior mirror automatically dimming. (Can only be ordered with light/rain sensor)

Roof systems

Acoustic hood, fully automatic, made from insulated 3-ply fabric with improved noise levels, hood can be actuated at vehicle speeds of up to 50 km/h, includes make-up mirror illumination, LED front interior light and rear compartment light

Wind deflector, can be stowed away in the luggage compartment in the spare wheel well, as long as the space-saving spare wheel is not ordered

Closing systems

Central locking with autolock function and radio-operated remote control integrated into the vehicle key

Radio-operated remote control for central locking with interior switch incorporated into the vehicle key; including glove compartment lock, with one touch of the button the system opens and locks doors, windows, luggage compartment and the fuel cap – with variable code, radio controlled key with S5 emblem

Comfort key, access and authorisation system; the key only needs to be carried with you; the engine is started and switched off via the engine start/stop button on the centre console, the vehicle is locked from outside via buttons on both door handles; the vehicle can also be opened from the luggage compartment lid, convenience closing/opening of the hood via the radio-operated remote control within a radius of approx. 4 m around the vehicle

Immobiliser, electronic, integrated in the engine control unit, automatically activated by the vehicle key

Garage door opener (HomeLink), programmable radio-operated remote control, operating buttons incorporated in the internal light module; can be used to open garage doors and exterior gates; allows control of security and lighting systems; please contact your Audi partner for further information

Anti-theft alarm, including interior monitoring and tow-away protection via angle of inclination sensor; can be deactivated; signal horn for monitoring the doors, bonnet and luggage compartment lid independent of vehicle electrical system

Fitting for Tracking Assistant, fitting for connecting a Tracking Assistant (available from Audi Genuine Accessories) that enables a stolen vehicle to be located

Ignition lock, electronic, ignition key features integral chip, automatically stores relevant vehicle service data (mileage, chassis number and much more)

Glazing

Heat-insulating glass, green tinted, windscreen made of laminated glass

Rear window made of glass, heated, with timer switch

Windscreen cleaning system, 2 speeds, 4-speed adjustable intermittent wipe, touch-wipe function, automatic wash/wipe function

Further exterior equipment

Provision for trailer towing hitch, includes the wiring to the spare wheel well, a prepared ABS control unit and adapted engine cooling. The set of parts for retrofitting is available from Audi Genuine Accessories

Trailer towing hitch, removable and lockable, sphere bar and ball head made from forged steel, the 13-pin socket can be swivelled out of sight behind the bumper skirt; when removed, the towing device can be stored in the spare wheel well; trailer stabilisation system via ESP

Aluminium trim exterior , surface of windscreen frame, window capping trim and cover strip in anodised aluminium
Bumpers , front and rear, with distinctive sporty design, body-coloured, S rear diffuser, with front and rear blade in aluminium look
Audi Singleframe , radiator grille, Platinum Grey with chrome struts
Exhaust tailpipes , visible, dual-branch design, 2 oval tailpipes on both left and right
Model name/logo , S5 model name on the tailgate and the radiator grille, on the sports leather steering wheel and in the rev counter, quattro logo on the passenger's side of the dashboard, V6 T emblem on the front wings
Door sill strip body-coloured
Seats/seating comfort
4-way lumbar support , electric, for driver and front-passenger seats, with horizontal and vertical adjustment
Front seats electrically adjustable , electric adjustment for seat height, front/back adjustment, seat and backrest angles, with electric 4-way lumbar support; additional electric head restraint height adjustment for front sports and climate-controlled comfort seats
Memory function for the driver's seat , 2 different presets for the electrically adjustable driver's seat and exterior mirrors
Folding rear seat backrest , can be split and 50:50 or fully folding, with remote backrest release in luggage compartment
Seat heater, front , heated seat cushions, backrests and side bolsters, individually adjustable with 6 settings for driver and front-passenger seats
Seat heating front and rear , equipment as front seat heating, additionally also for the rear seats
Heat guard (for sunlight exposure) for front seat cushions and backrests in Alcantara/Leather combination, Milano leather upholstery and trim and Silk Nappa leather upholstery and trim. The special colour pigmentation of the leather prevents excessive build-up of heat. The infrared radiation in sunlight is reflected. The surface temperature can be reduced by up to 20 °C by the heat guard
Centre armrest at front , adjustable lengthways; with fold-open storage compartment and two 12 volt sockets in the centre console
Leather-covered armrests in the door trims in Fine Nappa leather, includes rear side panel trims in Fine Nappa leather to create an exclusive look for the interior
Head restraints , front and rear, adjustable at the front; integral head restraints on optional S sports seats for the front are not adjustable
ISOFIX child seat mounting for the rear seats
ISOFIX child seat mounting for front passenger seat and rear seats , with deactivation switch for the front-passenger airbag

Steering wheels/gear levers/controls

Multifunction sports leather steering wheel in 3-spoke design , with S5 emblem, decorative seams in a contrasting colour and full-size airbag, adjustable for height and reach, for operating basic functions of the Audi navigation systems, radios, Bluetooth interface, mobile phone fitting or car phone; with shift paddles behind the steering wheel
Steering wheel rim customised with Audi exclusive leather , available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH
Leather gear/selector lever knob , includes selector lever gaiter in leather with decorative seams in contrasting colour
Controls customised with Audi exclusive leather , steering wheel rim, gear lever and gear lever gaiter leather-covered; available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH

Climate control

Automatic air conditioner , with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, with ram air control and manual recirculation mode, dust and pollen filter, defroster vents for the windscreen and the side windows, key-coded settings; storage of 2 temperatures for when the hood is open and closed, retrieved as a key-coded setting
3-zone deluxe automatic air conditioning , with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, separate temperature distribution for driver, front-passenger and rear compartment, temperature and air distribution adjustable left and right in the front, control panel for setting the temperature in the rear compartment in the rear centre console, automatic recirculation mode by means of air quality sensor, front control panel with digital display, includes rain, light and humidity sensor, combined filter, indirect ventilation
Headroom heating at front, adjustable in 3 stages, vents on the front-seat backrests. (Can only be ordered in conjunction with climate-controlled comfort seats at the front or front sports seats)

Luggage securing and storage systems

Storage compartments , in the front door trims with storage for drink bottles, storage compartments in the right and left side trim (on right-hand side only if Audi sound system or Bang & Olufsen Sound System is fitted), storage nets on the front seat backrests
Glove compartment , lockable
Drinks holder , in the centre console
Drinks holder incorporated into rear bench seat for 2 drinks, includes cover and additional storage compartment underneath the front-passenger seat
Lashing points , 4 in the luggage compartment, for securing luggage and other objects
Ski/snowboard bag , for the practical transportation of long items, e.g. up to 4 pairs of skis up to 200 cm in length, or 2 snowboards
Hood compartment, variable , with lowering hood tray. The hood tray lowers automatically when the hood is opened, if sufficient room is available in the luggage compartment. For loading, the hood tray can be lifted when the hood is closed

Further interior equipment

Floor mats front and rear , in velour, coordinated with the carpet colour
Audi exclusive floor mats , with leather piping. Individual choice of colour for piping from a selection of various Audi exclusive colours. Your Audi partner will be happy to offer you advice. From quattro GmbH
Audi exclusive carpet and floor mats , carpet and floor mats with leather piping. Individual choice of colour combinations for carpet/piping from a selection of various Audi exclusive colours. Your Audi partner will be happy to offer you advice. From quattro GmbH
Door sill trims , with aluminium inlays and S5 logo on door sills
Electric windows , front and rear, with safety system to limit closing force, one-touch opening/closing function with central window control switch in the centre console
Cigarette lighter and ashtray , ashtray in the centre console front, cigarette lighter incorporated into the front ashtray
12 volt socket in the side trim of the luggage compartment on the right-hand side at the rear
Aluminium trim on the interior , on light switches, air conditioning system, MMI rotary/push-button control, vents and around the selection lever gaiter

MMI® and navigation systems

MMI® navigation , with navigation data (DVD), 6.5-inch colour display with high-quality map representation and numerous detailed display options, dynamic route guidance with TMC (where available), MP3 and WMA-compatible DVD player for navigation data (DVD), can also be used for music CDs, additional arrow display in the driver information system, radio with triple tuner, phase diversity, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts
Navigation data (DVD) , contains navigation data for the following countries (where digitised): Andorra, Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Great Britain, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, the Netherlands, Norway, Poland, Portugal, San Marino, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, the Vatican City
MMI® navigation plus , with navigation data (hard drive), high-resolution 7-inch colour display with high-quality map display, choice of 3 alternative routes provided, map displays have topographical map colouring and show sightseeing information and 3D city models, scrolling along the route, joystick map manoeuvring function in the control button, split-screen route information (manoeuvring points, points of interest on motorways, TMC on route), detailed junction map and lane recommendations, dynamic route guidance with TMC (where available), additional arrow display in the driver information system with colour display, radio with triple tuner, phase diversity, hard drive can also be used to store music (10 GB), MP3, WMA and AAC-compatible DVD player can also be used for music and video DVDs, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts
Navigation data (hard drive) , contains navigation data for countries (where digitised) named under navigation data (DVD); also for Albania, Belarus, Bosnia-Herzegovina, Bulgaria, Macedonia, Moldova, Montenegro, Romania, Russia, Serbia and Ukraine

Driver information system with colour display , provides you with information from the trip computer, auto check system, MMI system display items, brake wear indicator at the front as well as a digital speed display; the outside temperature display shows an ice crystal at temperatures under +5°C to warn of possible black ice; the integrated efficiency program provides assistance in the form of consumption data overviews, a display of additional consumers and fuel-saving tips for adopting an economical driving style
Screen , 6.5-inch, monochrome, in the dashboard, for displaying radio, climate control and Car menu functions as well as the time

Radio and TV systems

chorus radio , with CD player, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch monochrome screen, speed-dependent volume control, phase diversity, 4 passive loudspeakers, total output 40 watts
concert radio , with CD player and SDHC memory card reader (up to 32 GB), both MP3, AAC and WMA-compatible, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts
symphony radio , with integrated 6-disc CD-changer and SDHC memory card reader (up to 32 GB), both with MP3, AAC and WMA-capability, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts
Digital radio reception (DAB) , for concert and symphony radios and for navigation systems; reception of digital stations in accordance with the DAB standard in addition to analogue stations; in connection with MMI navigation or MMI navigation plus includes reception of DAB+ and DMB audio. With the DAB twin tuner (only available in conjunction with MMI navigation and MMI navigation plus) a second DAB tuner permanently searches for alternative reception frequencies of the set radio station; at the same time the station list is updated. Please note: reception depends on local digital network availability
TV reception for MMI navigation plus, reception of analogue and digitally-broadcast (DVB-T) uncoded television stations (MPEG-2 standard) TV picture, teletext and EPG (Electronic Programme Guide). Facility to connect 2 external AV sources via the optional adapter cable. Please note: reception depends on local analogue and digital network availability. No AV or TV output whilst the car is being driven (audio output also available while the car is being driven)
Audi sound system , 6-channel amplifier, 10 loudspeakers including centre speaker in the dashboard and subwoofer in the left side trim, total output 180 watts. (Cannot be ordered with chorus radio)

Bang & Olufsen Sound System, surround sound reproduction via 12 high-performance speakers, 1 centre speaker and 2 midrange speakers in the dashboard; 1 tweeter in each mirror quadrant; 1 woofer in each front door; 2 tweeters and 2 low/midrange units in the side trims; 1 subwoofer in the left side trim, exclusive speaker covers with aluminium trim, dynamic driving noise compensation, 10-channel amplifier, total output 505 watts. The reproduction of 5.1 Surround Sound is possible in conjunction with MMI navigation plus and the integrated DVD drive. (Cannot be ordered with chorus radio)

CD changer, in the glove compartment, for 6 CDs (MP3 and WMA-compatible), shock-resistant, easily accessible, no cartridge, each CD can be loaded or changed separately. Music files with digital rights management (DRM) cannot be played. (Can only be ordered with MMI navigation or MMI navigation plus)

Audi music interface, for generation 4 and higher Apple iPods, an Apple iPhone (music functionality) as well as USB storage media and MP3 players. The Audi music interface is located in the glove compartment and operated via MMI navigation plus, MMI navigation, symphony radio, concert radio or a multifunction leather steering wheel. Note: can only be used in conjunction with a special adapter cable (Audi Genuine Accessories). Please contact your Audi partner for information on other compatible MP3 players. (The separate AUX-IN connection is omitted in conjunction with Audi music interface)

Adapter cable set for Audi music interface, consisting of 2 connection cables for the connection of iPod/iPhone or data carrier/media player with USB connection (Type A); further adapter cables available from Audi Genuine Accessories

Telephone and communication
Bluetooth interface , Bluetooth-compatible mobile phones can be connected to the vehicle via the interface. Hands-free calls are possible in the vehicle via the microphone. (Cannot be ordered with chorus radio)
Mobile phone fitting (Bluetooth) in the centre armrest, front , comprises a hands-free facility and fitting for optional mobile-specific charger; operation via MMI navigation plus, MMI navigation, concert radio, symphony radio, multifunction leather steering wheel; please contact your Audi partner for adapters and information about compatible mobile phones. (Cannot be ordered with chorus radio)
Bluetooth car phone , your Bluetooth-capable mobile phone can be conveniently connected to the GSM module inside the vehicle (provided that your mobile has SIM Access Profile), additional SIM card reader located in the surround of the MMI navigation/MMI navigation plus. Transfer of phone book entries to the vehicle and management of call lists; simple operation using MMI navigation/MMI navigation plus or multifunction leather steering wheel. (Can only be ordered with MMI navigation or MMI navigation plus)
Bluetooth car phone with wireless handset , in addition to the Bluetooth car phone the set includes a handset with colour display and integrated SIM card reader, for discreet phone calls, easy writing of text messages thanks to automatic word recognition. The headset is accommodated in the front centre armrest
Assistance systems
adaptive cruise control , automatic speed and distance regulation; working within system limits, it assists with detecting and maintaining the distance from the vehicle in front by braking and accelerating (Cannot be ordered with chorus radio)
Audi side assist , lane changing assistant, working within system limits, at speeds of 30 km/h and above, this system uses radar technology to monitor the area at the side behind the vehicle as it drives along, and informs the driver via an LED display in the exterior mirror if the system has detected another vehicle in the adjacent lane. (Cannot be ordered with chorus radio)
Hold assist , holds the vehicle stationary for unlimited periods after stopping, including on uphill and downhill gradients. The system is activated by push-button and allows the driver to drive away smoothly without having to operate the handbrake
Parking system, rear , makes reverse parking easier by indicating acoustically how far away the vehicle is from a detected object; measurement is by ultrasonic sensors concealed in the bumpers
Parking system plus , acoustic and visual parking aid for front and rear with display on MMI screen
Parking system plus with reversing camera , acoustic and visual parking aid for front and rear, image of area behind the vehicle shown on the MMI display, with 2 dynamic display modes for the path of the vehicle, calculated as a function of steer angle; also includes parking guidelines; reversing camera concealed in the luggage compartment lid handle strip (Can only be ordered in conjunction with a MMI navigation system)
Cruise control system , at speeds of 30 km/h and above, the system keeps the set speed constant, provided that engine power and engine braking effect permit it; also features active braking intervention, e.g. when driving downhill; operated via separate steering column stalk; set speed displayed in the driver information system

Suspension/brakes
Audi drive select , vehicle settings can be changed by selecting 1 of 3 modes (comfort, auto and dynamic), or an additional “individual” mode can be set up using MMI navigation system. (Can only be ordered with dynamic steering and/or suspension with damper regulation and/or quattro® with sports differential)
Dynamic steering , when changing lanes, parking and cornering, this system improves comfort and handling by dynamically regulating steering according to the driving situation. In addition to adaptation of the steering effort (as with servotronic), the steering angle is also adapted (steering ratio). The system is also supported further by vehicle stabilisation through ESP. (Can only be ordered with Audi drive select)
Suspension with damper regulation , on the basis of the S sports suspension with electronically controlled adaptation to different driving situations; dynamic or comfort-oriented characteristic of the damper coordination can be adapted over Audi drive select. (Can only be ordered with Audi drive select)
S sports suspension , with stiffer spring and damper tuning for more direct contact with the road and sporty handling; includes suspension brace, five-link lightweight front suspension with virtual steering axis, tubular anti-roll bar, trapezoidal-link rear suspension with independent wheel suspension; twin-tube gas-filled shock absorbers and coil springs, rebound buffer springs, flexibly mounted rear subframe, front subframe rigidly fixed to bodywork
Brake system , dual-circuit, diagonally split braking system, anti-lock braking system (ABS) with electronic brake force distribution (EBD), Electronic Stabilization Programme (ESP) with brake assist, tandem brake booster, high-performance brake system with internally ventilated brake discs on front and rear axles
Brake callipers , painted black, front callipers with S5 emblem
Electro-mechanical parking brake , includes parking brake function when stationary, drive-off assistance function through automatic release when driving away and emergency braking function whilst driving acting on all 4 wheels
Technology/safety
Body , galvanised (fully-galvanised in areas at risk from corrosion), unitary construction, welded to the floor pan, front and rear areas with defined crumple zones, aluminium wings. (12 year warranty against corrosion)
Rollover protection, active , automatically-triggered protective system behind the rear head restraints
Airbags , full-size airbag for driver and front-seat passenger with seating position detection
Side airbags at the front , to supplement side impact protection in the doors (head/thorax airbag)
Integral head restraint system , in the event of a rear-end collision, the design of the seats stabilises the upper torso and supports the head. This increases the level of protection and reduces the risk of a whiplash injury
Steering column lock , electric
Instrument cluster , special S design with grey dials, white needles and S5 emblem in the rev counter and automatic ready-check feature when engine starts, with adjustable lighting, electronic speedometer with odometer and trip odometer, rev counter, clock, coolant temperature display and fuel gauge
Safety steering column , includes a shunt mechanism with damping function, to supplement the protection offered by the seatbelts and airbags
Seat belts , 3-point inertia reel seat belts for all 4 seats; colour-coordinated with the interior, with seat belt reminder function and belt force limiters at the front and belt tensioners at the front and rear
Belt presenter, automatic , with 2 positions for people of different heights. The belt is automatically moved forward upon activation of the ignition and moved back again after the seat belt has been fastened

Warning triangle , with bracket on the inside of the luggage compartment lid
First-aid kit in the storage compartment under the driver’s seat
Traction control (ASR) , for excellent traction, reduces drive wheel spin
Electronic Differential Lock (EDL) , on surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on the surface that is too slippery, thereby enabling powerful progress; operates at speeds up to approx. 100 km/h
Electronic Stabilization Programme (ESP) , networks the ABS, EBD, ASR and EDL with its own sensors and compares the driving data with reference data; provides better stability at all speeds by targeted braking of individual wheels and intervention in the engine management system
servotronic , speed-sensitive power steering
S tronic , the 7-speed, electrohydraulically actuated dual-clutch gearbox facilitates shorter shift paddle times and gearshifting with virtually no perceptible interruption in the power flow: can be operated via the shift paddles behind the steering wheel (optional) or the selector lever; in automatic mode, the driver can choose between programs D (normal) and S (sport)
quattro® , permanent all-wheel drive with asymmetric/dynamic torque distribution, self-locking centre differential, electronic differential lock (EDL) via braking intervention on all driven wheels
quattro® with sports differential , the electronically regulated sports differential distributes variable amounts of driving force to each rear wheel. The sports differential can provide different amounts of torque at each rear wheel in every driving situation, ensures agile handling and outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also ensures better direct steering characteristics and, thanks to less steering effort, more agile handling. (Can only be ordered with Audi drive select)
Recuperation , increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is used to assist the generator during a subsequent acceleration, saving up to 3% fuel

Model		S5 Cabriolet
Engine type		6-cylinder petrol engine with direct fuel injection and mechanical charger module
Displacement in cc (valves per cylinder)		2995 (4)
Max. output ¹ in kW at rpm ⁻¹		245/5500–7000
Max. torque in Nm at rpm ⁻¹		440/2900–5300
Power transmission/wheels		
Type of drive		quattro® permanent all-wheel drive
Transmission		[7-speed S tronic]
Wheels		Cast aluminium wheels, 8.5 J x 18
Tyres		245/40 R 18
Weights/capacities		
Unladen weight ² in kg		[1950]
Gross vehicle weight in kg		[2375]
Permissible trailer nose weight in kg		80
Trailer load limit ³ in kg	unbraked	750
	12% gradient	1900
	8% gradient	2100
Fuel tank capacity, approx. in l		64
Performance/consumption ⁴		
Top speed in km/h		[250] ⁷
Acceleration 0–100 km/h in s		[5.6]
Fuel grade		Regular sulphur-free RON 95 ⁵
Fuel consumption ⁶ in l/100 km	urban	[13.8]
	extra-urban	[7.3]
	combined	[9.7]
CO ₂ emissions ⁶ in g/km	urban	[320]
	extra-urban	[169]
	combined	[224]
Emissions standard		EU 5

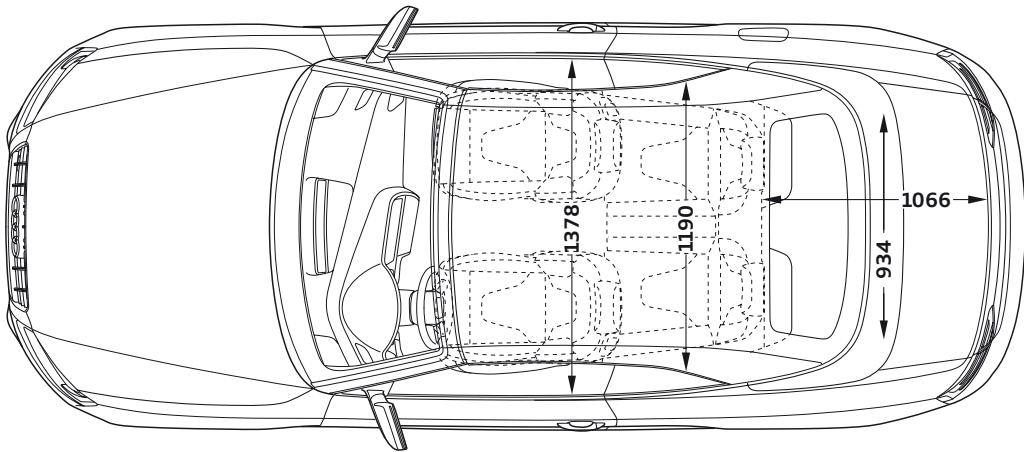

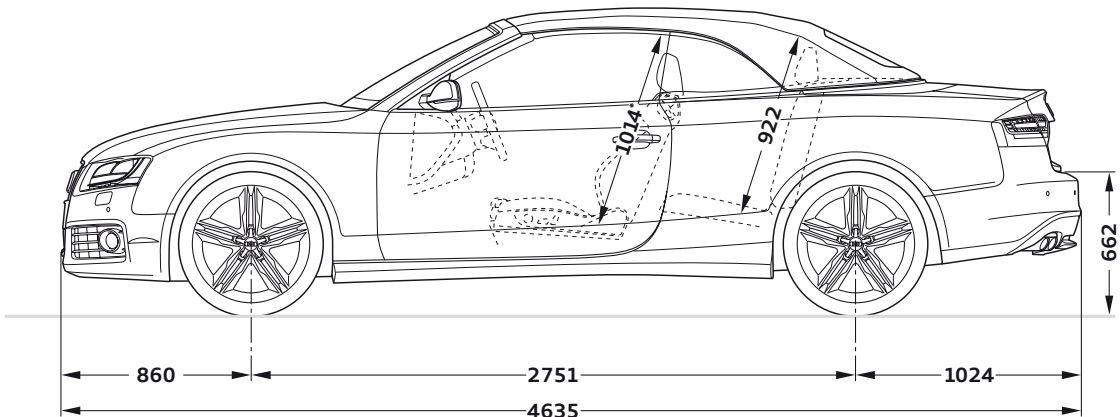

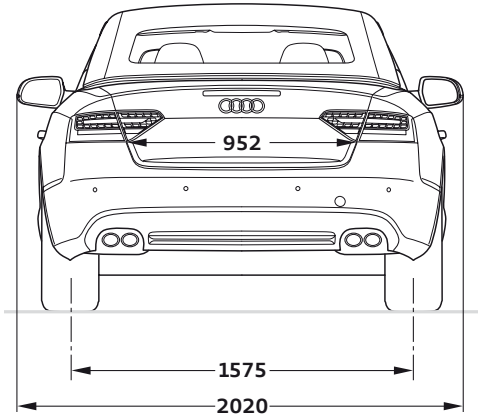

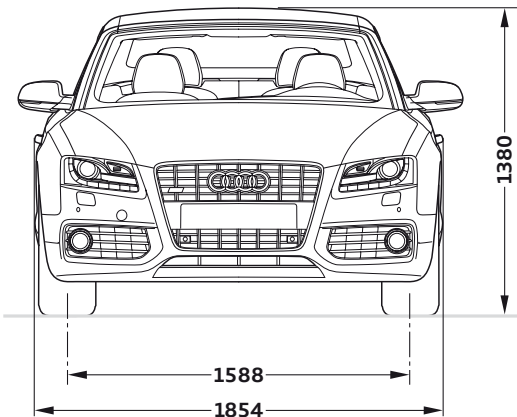

Notes

- ¹ The figure stated was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).
- ² Weight of car, unladen, with driver (68 kg), luggage (7 kg) and fuel tank 90 % full, calculated in accordance with the current version of EC Directive 92/21/EEC. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- ³ The engine’s power output always reduces with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.
- ⁴ A vehicle’s fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.
- ⁵ We recommend using “sulphur-free super unleaded RON 95” in accordance with DIN EN 228. If not available: “sulphur-free regular unleaded RON 91” fuel in accordance with DIN EN 228, power output will be slightly reduced.
- ⁶ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.
- ⁷ Regulated.

Important note

Inspections are due as shown by the service display.

S5 Cabriolet

Dimensions in millimetres.

Dimensions are for vehicle at unladen weight. Luggage compartment volume 320 l with open hood, 380 l with closed hood, 750 l with the rear seat back folded down (measured by the VDA method, using 200 x 100 x 50 mm blocks). Turning circle approx. 11.4 m.

*Maximum headroom.

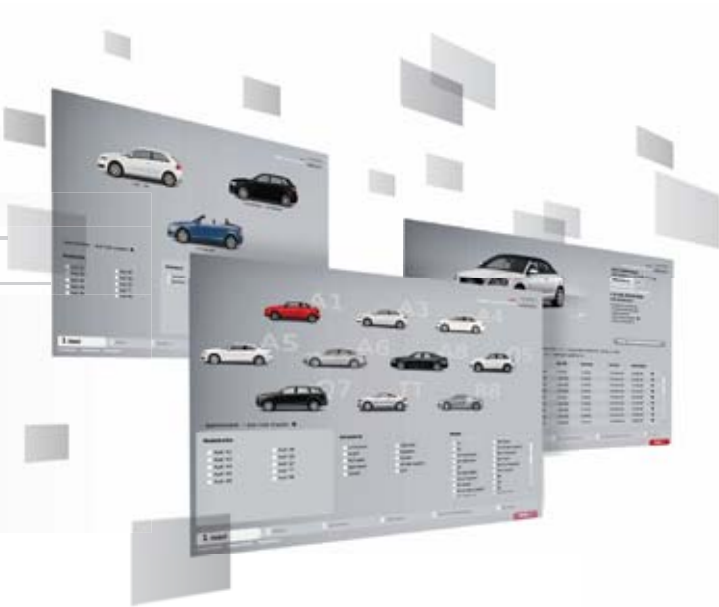

At Audi, you get much more than an Audi.

Anyone who chooses an Audi chooses a brand that offers its customers more. More individuality. More exclusivity. And more fascination.

Audi configurator

Create your own personal Audi using the Audi configurator. All current models, engines, colours and equipment options are available for you to choose from.
