The R&TTE Directive

We, the manufacturer hereby declare that this equipment, model RCK-T07 is in compliance with the essential requirements and other relevant provisions of Directive 1995/5/EC.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could

void the user's authority to operate the equipment.

RF exposure warning

The equipment complies with FCC RF exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

Congratulation on purchasing a Dukane AirSlate3 Wireless Tablet

The AS3 is a wireless slate operating at 2.4 Ghz. It is easy to operate. Just install the latest drivers from the Dukane, AS3 web site at www.dukcorp.com/av.

Vista Users can operate the slate without the driver but will have only the basic mouse control and not the hot key, volume control and Macro Key functions. Fox XP or older Windows Users, the "macro Key Manager & USB Driver" must be installed prior to slate operation. This is found on the CD or the Dukane web site. The dongle, pen and battery are all stored on the slate itself in compartments on the back side of the tablet

1. Package contents

▲ Tablet 1

▲ Pen 1

▲ Receiver Dongle 1

▲ Li-ion battery 1

▲ Pen tip 2

▲ Pen Tweezers 1

▲ CD

Pen

How to change battery

How to change pen tip

3. LCD Window Icons

 Power on: Press the power button for 3 seconds, this icon will appear.

 Battery Indicator : There are four levels on the battery indicator.

 Active: Tablet is active. the pen is on or near the active surface. The table will go into power-saving mode if the pen is off for more than 3 seconds, this icon will then disappear.

 Connecting: After you bind the slate to the computer, the icon is visible. It means that your Tablet is connected to PC.

 Token right: It means that your tablet is authorized by the receiver dongle to send the commands.

The interaction between the pen and the tablet:

- Blanking: Pen is near the active area.
- Still: Pen tip is on the active area.

 Volume adjustment indicator : you can use the pen in the volume adjustment circle to adjust the computer volume.

-  Clockwise: adjusts volume louder
-  Anticlockwise: adjusts volume down

 Tablet number : One receiver dongle can connect to over 30 wireless tablets. The tablet connection number is indicated.

4. Installation

- Windows Vista Home Premium above
The wireless Tablet is a Windows Vista plug and Play device. You can use the basic tablet function without installing any driver, just plug- n- play. However, the macro key function provides added adjustments. Also, the hot key of Page up/Page down and volume adjustment circle will require a driver (included in Macro Key Manager). Therefore, you need to install the Macro Key Manager to make the macro keys and these hot keys work.
- Windows 2000 / XP / Vista Home basic
Under Windows 2000 / XP / Vista Home basic, you must install the driver (included in Macro Key Manager). Therefore, please install the Macro Key Manager before the dongle is plugged to your PC. Then plug the dongle into the computer USB port. The dongle is located in a compartment on the back side of the slate.

5. Operation

1. Plug receiver dongle into your PC's USB port.
2. Press the slate power button at least 3 seconds to power on the Wireless Tablet
3. Press the binding button on the back side of the tablet and binding button of the receiver dongle at the same time.
4. The LCD of Tablet will blink and the blue LED of receiver dongle will also blink.
5. Once the binding is successful, the number on the LCD will show 001 or higher (if binding more than one Wireless Tablet).
6. Since the pen has a power saving design, always bring the pen tip to the active area of the tablet before use.
7. Check if the information in the LCD indicator is displayed correctly.
8. If yes, use the slate.
9. If battery indicator is low, use the USB cable to charge the slate. Connect to the USB port on an active computer to the USB port on top of the slate. A blue LED located below the pen holder will become visible during the charging.
