

Air Purification System

Congratulations on your purchase of a Cli~Mate Air Purification System

This Air Purifier improves the quality of the air in your home by helping to eliminate airborne matter such as allergens, microbes and unpleasant odours.

Note: Please read through the instructions carefully before using or installing the product and ensure that the manual is kept in a safe place for future reference.

The system must be properly installed and located in accordance with the installation instructions before it is used.

SAFETY PRECAUTIONS

Read all instructions carefully.

- All components need to be installed in accordance with the user manual instructions for correct performance of unit.
- This appliance should be used in conjunction with a safety switch.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not use appliance for other than intended use.
- Do not disassemble, repair or re-form the unit, it may cause injury, fire or other malfunctions. A qualified service agent must make all service adjustments. Removing any part or attempting to service the dryer will void the warranty.
- Unplug from outlet when not in use and before cleaning. Never plug in or unplug unit with wet hands.
- Do not use unit outdoors or expose to greasy or damp environments.
- Keep the rear air inlet and outlet is free from air blocking materials such as clothing, plastic bags or papers. Air flow is required for the unit to operate effectively.
- Place unit on a flat location at least 30cm from wall or other appliances.
- When the unit is in operation, keep all body parts, jewellery, hair and loose clothing away from the openings
- Unit must be placed on a stable flat surface to reduce possible excessive vibration and noise.
- Keep the dryer away from fire, flammable gas, combustible products or vapours, and corrosive substances.
- Do not operate the unit without filters
- When transporting the air purifier, always hold the handles on the side of the unit
- Do not remove the lid of the unit when it is in operation.
- To protect against fire, electric shock and personal injury, do not immerse cord, plugs, or appliance in water or other liquid.
- Do not place on or near a hot gas, electric burner or heating appliance.
- Check voltage to be sure that the voltage indicated on the nameplate agrees with your voltage.

PRODUCT FEATURES

Filters

The 3 layer filter contains a pre-filter, a HEPA filter and an activated carbon filter.

- The pre-filter traps larger particles such as dust, pet hair and large-sized allergens.
- The HEPA filter (Grade H12) removes 99.5% of particles as small as 0.3 microns and greater from the air. It is capable of removing smoke, dust, pollen, pet dander, mold spores, bacteria and allergens in the air.
- The Activated carbon filter absorbs common household odours, VOCs, cigarette odours, chemical fumes and smoke.

Ionizer

In addition to the filters, this air purifier generates negatively charged oxygen molecules (different than ozone) which attach to particles in the air which makes it easier for the air purifier to trap. Airborne particles are attracted to the negative ions in an effect similar to static electricity.

UV TiO2 Photocatalyst

This air purifier also utilises safe and advanced UV TiO₂ Photocatalyst technology as a way of sterilising the air.

This air purification method involves a broad-spectrum UV-C light reacting with a thin film of Titanium Dioxide which produces highly reactive electrons. These combine with airborne microbes. Once combined, a chemical reaction takes place between the super-charged ion and the pollutant which effectively breaks down the microbes.

COMPONENT IDENTIFICATION

1. Display panel
2. Control buttons
3. Air outlet cover
4. Hidden handles
5. Remote control
6. Air inlet
7. Ionizer
8. Pre-filter, HEPA and active carbon filter
9. UV TiO₂ photocatalyst filter
10. Back cover

CONTROL PANEL/BUTTONS

1. Speed options

Allows selection for desired speed setting- turbo, high, low and sleep. Default setting at low speed

Filter timer reset button

Press and hold for 3 seconds to reset filter timer

2. Power button

Turns unit on/off

3. Timer options

To set automatic off timer at 1, 4 or 8 hour settings

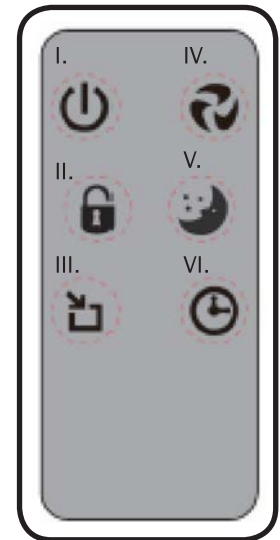

REMOTE CONTROL

- I. On/off
- II. Child-safety lock
- III. Auto-mode
- IV. Speed options
- V. Sleep mode
- VI. Off timer options

Note:

- Avoid storing the remote control in direct sunlight
- The battery for this remote control is for initial use only and will need to be changed
- When replacing battery, always use a 3V lithium coin battery
- When the unit will not be used for an extended period, remove the battery from the remote to prevent battery fluid leakage

DISPLAY PANEL

- 1. Power Indicator** Illuminates blue when power is ON
Filter Change Indicator Light will flash blue when filter needs to be changed
Child-Lock Function Indicator Illuminates Green when Child Safety Lock is ON
- 2. Fan Speed Indicator**
 - a. Turbo speed
 - b. High speed
 - c. Low speed
 - d. Sleep (Ultra-quiet mode)
- 3. Timer Indicator**
 - e. 1 hour
 - f. 4 hours
 - g. 8 hours
- 4. Automatic Mode Indicator**
Red - Poor air quality
Purple - Moderate air quality
Blue - Good air quality
- 5. Remote Control Signal Receiver**

PRODUCT SPECIFICATIONS

	Air Purifier
Model Code	CLI-AP30
Dimensions (mm)	H679 x W394 x D153
Coverage area	Up to 25m ²
Power consumption	55 watts
Net weight	7.2 kg
Gross weight	8.4 kg
Germicidal UV-C light	8W/253.7nm
Air flow	176m ³ /h
Air change per hour	30m ³ x 6
Clean air delivery rate	105cfm (smoke)
Ozone release rate	Less than 0.05PPM
Noise level in Turbo Mode	<58dB
Noise level in Sleep Mode	<28dB
Replacement filter	CLI-RF-AP30

OPERATION INSTRUCTIONS

1. Plug unit into power socket, unit will beep and control panel lights will illuminate blue before extinguishing. POWER light  will be lit green. Unit is now in standby mode.
2. Press POWER button  to turn unit on. The unit will beep and the fan will start running. The air outlet cover will automatically open and display panel lights will illuminate indicating current settings.

Note: The purification default setting is at LOW speed mode.

3. To select speed,  press until LED Light is on desired speed- LOW, HIGH, TURBO, SLEEP.

Note: To select SLEEP mode on the remote control, press  button.

4. To set automatic off timer, press  until LED light is on desired time 1/4/8 hours. Unit will automatically switch off once selected time duration has lapsed.
5. To select AUTO-MODE, press  on the remote control. The auto-mode icon  on the display panel will light up. The icon colour will change indicating the current air quality. The fan speed of the unit will change automatically depending on the air quality as detected by the dust and odour sensors.

	Good air quality	Moderate air quality	Poor air quality
Indicator light	Blue	Purple	Red
Operating speed	Sleep	Low	High

6. To activate CHILD-LOCK function, press  on the remote control. 'CHILD LOCK' light on the unit will be lit when this feature is activated. This function will lock the control buttons on the unit and remote control

Note: To deactivate the CHILD LOCK function, hold the  button on the remote control for 3 seconds until the CHILD LOCK LED light on the unit extinguishes.

During the set up of this product if you have any questions / comments / issues DO NOT RETURN TO STORE FOR SERVICE AND TECHNICAL ADVICE ON THIS PRODUCT FREE CALL 1300 764 325

CLEANING AND MAINTENANCE

Before carrying out any maintenance or cleaning of the unit, make sure that the power to the unit is turned off and power cord is unplugged from the power socket.

External cleaning of unit:

- Do not clean unit with any abrasive cleaning agents or solvents
- Do not apply any water directly to the unit of cleaning
- Only use a soft clean cloth for all cleaning purposes
- Clean the air inlet and outlet with a dry cloth, soft brush or vacuum cleaner

CLEANING THE PRE-FILTER

It is recommended that the Pre-filters (the removable white layer) are cleaned every 1-2 weeks of unit operation, depending on the air quality of the room

To clean the Pre-filter:

1. The removable Pre-filter is attached by Velcro. Gently peel away the Pre-filter.
2. Fill the sink with lukewarm water and gently hand wash the Pre-filter under the water for 2-3 minutes or until it is completely clean.
3. Rinse the Pre-Filter with clean tap water.
4. Use a towel to remove any excess water from the Pre-Filter
5. Allow the Pre-filter to dry for 12-24 hours
6. When the Pre-filter is completely dry, re-attach and place back into the air purifier. Note: When placing the filters back into the air purifier, ensure that the white belts are facing outwards and that the Pre-filters are facing towards the air inlet

CLEANING THE HEPA AND ACTIVATED CARBON FILTER

It is recommended that the HEPA and activated carbon filters are cleaned every 100-500 hours of unit operation, depending on the air quality of the room.

To clean the HEPA and Activated Carbon Filter:

1. Turn off unit and disconnect the power.
2. Place both hands at the bottom corners of the rear cover, and pull out.
3. Pull out the 4 filters by the white belt attached
4. Gently peel away the Pre-filter layers
5. Run a vacuum cleaner with a nozzle or brush attachment on low power setting along the HEPA (white side) and Activated Carbon (black side) filters to pick up the dust and various particles.
6. Re-attach Pre-filter layers and place back into the air purifier.
Note: When placing the filters back into the air purifier, ensure that the white belts are facing outwards and that the Pre-Filters are facing towards the air inlet

REPLACING FILTER

When the lifespan of the 3-layer filter reaches its end, the POWER  light will flash blue, indicating that it needs to be changed. Discard the old filter and replace with a new one. It is not reusable.

The lifespan and duration of the filter depends on the air quality and surrounding environment. The higher level of pollutants, the shorter the filter lifespan. It is advisable to change the filter at least every 8 months or 1500 hours of unit operation.

Cli~Mate Replacement Filter Product Code: CLI-RF-AP30.

HOW TO REPLACE THE FILTER

1. Turn off unit and disconnect the power.
2. OPEN THE REAR COVER: Place both hands at the bottom corners of the rear cover, and pull out.
3. REMOVE THE FILTER: Pull out the filters by the white belt attached and discard.
4. INSTALL NEW FILTER: Replace with new filters. Ensure that the white belt is facing outwards and that the Pre-Filter is facing towards the air inlet.
5. Reattach the rear cover.
6. Hold down Speed  button on the unit to reset the unit.

TROUBLE SHOOTING

BEFORE YOU CALL FOR SERVICE PLEASE REVIEW THE TROUBLE SHOOTING TIPS FIRST.

Problem	Possible Causes	What To Do
No Power	1. Unit is not plugged into wall socket.	1. Check connection to wall socket.
Unit overheating	1. Air ventilation around unit not sufficient 2. Air inlet or air outlet is being obstructed or blocked by foreign objects 3. Internal malfunction	1. There must be at least 30cm between unit and wall or other appliances 2. Ensure there are no object obstructing the air inlet or air outlet 3. Return unit to service agent. Call customer care
The unit is not effective	1. Filters may be heavily soiled and due for replacement	1. Replace filter
Excessive/loud noise	1. Unit is on an uneven surface 2. Foreign objects have fallen into the unit 3. Faulty internals	1. Ensure the unit is placed on a level surface 2. Ensure that no foreign objects have fallen into the unit via the air outlet. 3. Call customer care

Problem	Possible Causes	What To Do
The remote control does not work	<ol style="list-style-type: none"> 1. Battery could be dead, depleted or not correctly installed 2. Remote is not pointed directly at the unit 3. Remote control distance is out of range 	<ol style="list-style-type: none"> 1. Replace battery. Ensure the battery is correctly installed 2. Aim the remote at the small square in the middle of the control display 3. Remote effective distance approx. 5m
Odour coming from the air outlet	<ol style="list-style-type: none"> 1. Filter may be heavily soiled and due for replacement 	<ol style="list-style-type: none"> 1. Replace filter

Your Aquaport 12 Month Repair or Replacement Warranty

Aquaport warrants this appliance to the first purchaser and subject to the stated conditions:

Warranty covers any defects in material or workmanship in the manufactured product within the first twelve months from the date of purchase.

To make a warranty claim you must call Aquaport on toll free number 1300 764 325 for instructions. If a product is found to be faulty there is a 90 day return policy from the date of purchase.

For warranty claims outside of 90 days from date of purchase, product will be repaired or replaced at our discretion. Repair or replacement costs of the product will be covered under warranty by Aquaport.

Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

Warranty does not cover filters which are consumable unless proven to have defects in material or workmanship in the manufactured product.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure.

Conditions of this Warranty:

1. This product has been fully installed in accordance with the user manual installation instructions.
2. The warranty extends only to repairing or replacing any component that proves to be defective in material or workmanship.
3. The warranty does not cover defects occasioned by misuse, alterations, accidents, or used for other than the intended purpose.
4. The warranty does not cover damage to the product caused by accident, fire, or floods.
5. Proof of purchase is required for warranty claims.

Please keep purchase receipt in a safe place.

To enable us to register your warranty and provide service should a problem occur, we recommend you register your warranty online at:
