1 BECAUSE WE CARE

Thank you for purchasing this product. This product has been designed and assembled with utmost care for you and the environment. This is why we supply this product with a quick installation guide to reduce the number of paper (pages) and therefor save trees to be cut for making this paper.

A full and detailed user guide with all the features descripted can be found on our website **www.aegtelephones.eu**. Please download the full user guide in case you want to make use of all the advanced features of your product. To save the environment we ask you not to print this full user guide. Thank you for supporting us to protect our environment.

2 IMPORTANT SAFETY INSTRUCTIONS

When using your telephone, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1. Read and understand all the instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug the power adapter from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
4. Keep your phone away from hot, humid conditions or strong sunlight and don't let it get wet or use this product near water (for example, near a bath tub , kitchen sink, swimming pool).
5. Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
6. Unplug this product from the wall outlet under the following conditions:
• When the power supply cord or plug is damaged.
• If the product does not operate normally by following the operating instructions.
• If the product has been dropped and the cabinet has been damaged.
• If the product exhibits a distinct change in performance.
7. NEVER use your phone outdoors during a thunderstorm-unplug the base from the telephone line and the mains socket when there are storms in your area. Damage caused by lightning is not covered by the guarantee.
8. Do not use the telephone to report a gas leak in the vicinity of the leak.

9. Use only the supplied NiMH (Nickel Metal Hydride) batteries! The operation periods for the handsets are only applicable with the default battery capacities.
10. The use of other battery types or non-rechargeable batteries/primary cells can be dangerous. These may cause interference and/or damage to the unit or surroundings. The manufacturer will not be held liable for damage arising from such non-compliance.
11. Do not use third party charging bays. Damage may be caused to the batteries.
12. Please ensure the batteries are inserted in the correct polarity.
13. Dispose of batteries safely. Do not immerse them in water, burn them, or put them where they could get punctured.

3   Intended use

This telephone is intended to be connected to a public analogue telephone network or to an analogue extension of a compatible PBX system.

4   UNPACKING YOUR PHONE

In the box you will find:
- 1 Handset
- 1 Base station
- 1 Mains power adapter
- 1 Telephone line cord
- 2 Rechargeable batteries
- 1 User guide

Keep the packing materials in a safe place in case you later need to transport the device.

5   GETTING TO KNOW YOUR PHONE

5.5 Text and digit entry

The following tables show you where each letter and punctuation character can be found, by using repeated presses of the alphanumeric keypad. This will be helpful when storing a name in the phonebook and renaming your handset.

In editing mode, a cursor is displayed to indicate the current text entry position. It is positioned at the right of the last character entered.

Writing tips:
- Once a character is selected, the cursor will move to the next position after a short pause.
- You can move the cursor within the text with the ▲/▼ keys to amend the text entry.
- Press ↻/⊠ to delete the last character.
- Press and hold ↻/⊠ to delete the entire text string.

5.5.1 Latin character set

6 INSTALLING YOUR PHONE

6.1 Connecting the base station (see P5)

- Plug the power adapter and line cord into the base station.
- Plug the power adapter into a 210 - 240 V ac, 50/60 Hz mains socket and the other end of the line cord into your telephone line socket.

Warning:
- Always use the line cord provided in the box. Other line cords may not be compatible and may not work.
- Only use the power adapter supplied.
- The base unit needs mains power for normal operation, not just for charging the handset batteries.

6.2 Installing and charging the batteries (see P3)

- Slide open the battery compartment cover.
- Place the 2 batteries with the correct polarity, as shown.
- Slide the battery compartment cover back.
- Put the handset on the base and charge for 14 hours before first time use. A beep indicates that the handset is properly placed on the base or charger.

Warning:
- Only use AAA size NiMH rechargeable batteries.
- If the handset will not be used for a long time, disconnect and remove the batteries to prevent possible leakage.

7 USING YOUR PHONE

7.1 Make a call

7.1.1 Preparatory dialling
- Enter the phone number and press ζ to dial the number, press it again to turn on the speakerphone.
  >When entering the number, if you make a mistake, press ↺/⊠ to delete digits.

7.1.2 Direct dialling
- Press ζ to connect to the line and then enter the phone number.
- Press ζ again to turn on the speakerphone.

7.1.3 Call from the contacts list
- Press ☰ to access the contacts list and press ▲/▼ to select the desired contacts entry.
- Press ζ to dial out the selected entry. Press it again to turn on the speakerphone.

7.1.4　　Call from the call log
- Press ♟ to access the call log and press ▲/▼ to select the desired call log entry.
- Press (to dial out the selected call log entry. Press it again to turn on the speakerphone.
- Alternatively, press ☰ and ▲/▼ to access the call log from the main menu.

7.1.5　　Call from the redial list
- Press ◖● to access the redial list and press ▲/▼ to select the desired redial number.
- Press (to dial out the selected redial number. Press it again to turn on the speakerphone.

7.1.6　　Call timer
Your handset automatically times the duration of every call.
The call timer will display a few seconds after the call has made. It is shown in hours, minutes and seconds format (HH:MM:SS).

7.2　　Make a call from direct access memory
Using the handset:
- In idle, press and hold M1/M2/M3 to dial the number pre-stored into the keys respectively.

OR
- Press (, and then press and hold M1/M2/M3 to dial the number pre-stored into the keys respectively.

Note:
You need to set the direct access number first.
　>If no number is stored, you will hear double beeps tone.

Using the base:
- In idle, press M1/M2/M3/M4 to dial the number pre-stored into the keys respectively.

Note:
You need to set the direct access number first.

7.3　　Answer a call
Using the handset:

If the handset is not on the charging cradle:
- When the phone rings, press (to answer a call, press it again to turn on the speakerphone.

Note:
If the handset is on the charging cradle and if "AUTO ANS" is set to "ON": when the phone rings, pick up the handset to answer a call auto matically, without having to press any button.

Using the base:
- When the phone rings, the base speaker LED will flash. Press ◀ to answer the call.

7.4 Audio boost feature

The audio boost feature allows you to amplify the handset earpiece volume to compensate for the ear's limited sensitivity.

- To turn on the audio boost feature, press 🔊 at any time during a call.
  > The handset top indicator turns on.
- When the audio boost feature is activated, press ▲/▼ to increase or decrease the handset volume within the specific frequency range set in equalizer.
- To turn off the audio boost feature and return the earpiece volume back to normal, press 🔊 again and the handset top indicator light turns off.
  > The audio boost feature will be turned off automatically when the call is ended.

7.5 End a call
Using the handset:
- During a call connection on handset, press ⌒ to end the call.
OR
- Put the handset on the base station to end the call.

Using the base:
- During a call connection on base, press ◀ to end the call.

7.6 Adjust earpiece and handsfree volume

There are 5 levels ("VOLUME 1" to "VOLUME 5") to choose from for each of the earpiece and handsfree volumes.

<u>Using the base:</u>

During a call:

• Press ▲/▼ to select volume 1-8.

> The current setting is shown.

> When you end the call, the setting will remain at the last selected level.

<u>Using the handset:</u>

During a call:

• Press ◢✚/◢➖ to select volume 1-5.

> When you end the call, the setting will remain at the last selected level.

7.7 Mute a call

You can talk to someone nearby without letting the caller hear you during a call.

During a call:

• Press ⊗ to mute the microphone and "MUTED" will display on the screen.

> Your caller cannot hear you.

• Press ⊗ again to unmute the microphone.

7.8 Set the silent mode

• In idle mode, press and hold # to turn off the handset ringer. The 🔔 icon is displayed on the screen.

• In silent mode, press and hold # to turn on the handset ringer. The 🔔 icon will disappear.

7.9 To turn the handset ringer off

• In idle mode, press and hold **#** to turn off the handset ringer.

> The ringer off 🔔 icon will be displayed.

• When the ringer is off, press and hold the # key to turn on the handset ringer.

> The ringer off icon 🔔 will turn off.

7.10 Turn on the keypad lock

• In idle mode, press and hold ***** to turn on the keypad lock.

> The keypad lock icon 🔒 will be displayed.

Note:

You can still use (to answer a call when the handset is ringing.

- In keypad lock mode, press and hold ***** to turn off the keypad lock.
  > The keypad lock icon 🔒 will turn off.

7.11   Redial the last number

You can redial any of the 5 last numbers called. If you have stored a name in the contacts list to go with the number, the name will be displayed instead.

The most recent last number will display at the top of the redial list.

7.11.1   Redial a number from the redial list

- In idle mode, press ◑ to access the redial list.

Note:

If the redial list entry shows a name, press # to view the number of this entry.

- Press ▲/▼ to browse the redial list.
- Press (to dial to the selected redial number.

Note:

If there are no numbers in the redial list, the display shows "EMPTY ".

7.11.2   Store a redial number into the phonebook

- Follow Steps 1 and 2 in section 7.11.1.
- Press 目 and ▲/▼ to select "STORE".
- Press OK to enter the name.
- Press OK to store the redial number into the phonebook.
- Press OK to select phonebook melody.
- Press ▲/▼ to browse the melody list. The respective melody will be played when browsing the melody list.
- Press OK to confirm.

7.11.3   Delete a redial number

- Follow Steps 1 and 2 in section 7.11.1.
- Press 目 and ▲/▼ to select "DELETE".
- Press OK to confirm.

7.11.4   Delete the entire redial list

- Follow Steps 1 and 2 in section 7.11.1.

- Press ▤ and ▲/▼ to select "DEL ALL".
- Press OK to confirm.
- Press OK to confirm again.

7.12   Find the handset

You can locate the handset by pressing the find key •⟩⟩ on the base station. All the handsets registered to the base will produce the paging tone and show "PAGING" on the screen.
You can stop the paging by pressing (, ⟩ or ↺/⊠ on any handset or •⟩⟩ on the base again.

Note:
If there is an incoming call during paging, the phone will ring with the incoming call instead of paging.

7.13   Make an internal call

This feature is only applicable when there are at least two registered handsets. It allows you to make internal calls, transfer external calls from one handset to another handset and make conference calls. If the called handset is not answered within 60 seconds, the called handset will stop ringing and the calling handset will return to standby mode.

Note:
If only one handset is registered to the base station, press ↺/⊠ will display "FAILED".

7.13.1   Intercom another handset
- In idle mode, press ↺/⊠ and the registered handsets will display except the calling handset.
- Enter the desired handset number to intercom with.
- The called handset rings. Press (on the called handset to establish the internal call.

Note:
If two handsets are registered to the base station, press ↺/⊠ will connect to another handset immediately.

7.13.2   Call all handsets
- In idle mode, press ↺/⊠ and the registered handsets will display.
- Press 9 to ring to all registered handsets.

7.13.3 Transfer an external call from handset to handset
During an external call:
• Press ▤ and ▲/▼ to select "INTERCOM".
• Press OK to select the desired handset to intercom with.
• The external call is put on hold automatically and the called handset rings.
• Press ⌣ on the called handset to establish an internal call.
• Press ⌣ on the calling handset or put the calling handset on the charging cradle to end the current call with the external party.
• The external call is transferred to the called handset.

7.13.4 Transfer an external call from base to handset
During an external call on base:
• Grab off the handset from base cradle, the external call on base will be transferred to handset automatically, and base will go to idle.

Note:
Before lifting up the handset, please ensure the handset is in line use status (shows the ▌ icon). If you lift up the handset before it showing the ▌ icon, call transfer will be failed, you need to put back the handset on cradle and try again.

7.13.5 Make a 3-way conference call
The conference call feature allows one external call to be shared with base and handset or between two handsets (in intercom). The three parties can share the conversation and no network subscription is required.

Make a 3-way conference call with two handsets:
During an external call:
• Follow Steps 1 to 4 in section 7.13.3.
• Press and hold * on the calling handset to establish the conference call.

Note:
Any handset hangs up during a conference call will leave the other handset still in connection with the external call.

7.13.6   Make a 3-way conference call with Barge In

If you turn on the Barge in function (see section 11.7.6 for details to turn on/off barge in), you can conduct a conference call between handsets or handset and base easily as following.

During an external call:
- Press ◀ on the base to establish the conference call if any handset has answered the call.

OR
- Press (on the handset to establish the conference call if another handset or the base has answered the call.

Note:
Any party (base or handset) hangs up during a conference call will leave the other party still in connection with the external call.

8   PRIVATE PHONEBOOK

You can store up to 20 private phonebook entries with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 12 characters for the name. You can also select different ringtones for your phonebook entries. (Note: the different ringtones only play if you subscribe to caller display and the incoming number matches the stored number.)
Phonebook entries are stored alphabetically by name.

8.1   Add a new contacts entry
- From idle model, press ▤ to show "CONTACTS" and then press OK to enter the contacts list.
- Press OK to show "ADD".
- Press OK and then enter the name.
- Press OK and then enter the number.
- Press OK and ▲/▼ to select the desired ringtone for your contacts entry.
- Press OK to store the contacts entry.

8.2   Search for a contacts entry
- From idle mode, press ▤ to show "CONTACTS" and then press OK to enter the contacts list.

• Enter the first letter of the name using the alphanumeric keys (e.g. if it begins with C, press the 2 key three times) and then ▲/▼ to scroll to the entry you want.

8.3　　View a contacts entry

In idle:
• Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.
• Press ▲/▼ to select the desired contact entry.
• Press OK and ▲/▼ to select "VIEW".
• Press OK and ▲/▼ to review the name, number and melody of the selected phonebook entry.

Note:
If number is more than 12 digits, press ▤/OK or ↺/⊠ to view the remaining digits.

8.4　　Edit a contacts entry

In idle:
• Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.
• Press ▲/▼ to select the desired phonebook entry.
• Press OK and ▲/▼ to select "EDIT".
• Press OK and the current contents of the selected phonebook entry displays.
• Edit the name and press OK
• Edit the number and press OK
• Press ▲/▼ to select the ringtone and press OK to confirm.

8.5　　Delete a contacts entry

In idle:
• Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.
• Press ▲/▼ to select the desired phonebook entry.
• Press OK and ▲/▼ to select "DELETE".
• Press OK to confirm.

8.6　　Delete the entire private phonebook

• Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.

- Press OK and ▲/▼ to select "DEL ALL".
- Press OK to confirm.
- Press OK to re-confirm.

8.7 Check the phonebook usage

You can check how many phonebook entries have been occupied in your phone and how many phonebook entries are available for you to store in the phonebook.

- Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.
- Press OK and ▲/▼ to select "CAPACITY".
- Press OK to confirm.

8.8 Set the fast dial numbers

After setting the fast dial numbers, you can dial to the pre-set numbers by pressing and holding the respective digit keys from idle mode.

8.8.1 Add or edit the fast dial number
- Press ▤ to select "CONTACTS" main menu item and then press OK to access the contacts list.
- Press OK and ▲/▼ to select "FASTDIAL".
- Press ▲/▼ and OK to select one digit key from 2 to 9.

If there is no number stored in the selected key:
- Press ▲/▼ to select an entry from the contacts list.
- Press OK to confirm.

If there is already a number stored in the selected key:
- Press OK to select "EDIT".
- Press OK to select an entry from the contacts list.
- Press OK to confirm.

8.8.2 Delete the fast dial number
- Repeat the steps 1 to 3 in section 8.8.1.
- Press ▲/▼ to select an entry from the contacts list.
- Press OK and ▲/▼ to select "DELETE".
- Press OK to confirm.

9 CALLER DISPLAY (NETWORK DEPENDENT)

This feature is available if you have subscribed the Caller Line Identification service with your telephone service provider. Your phone can store up to 10 received calls with date/time information in the call log. The number will be shown on the screen when the phone is ringing. If the number matches with one of the entries in your Private Phonebook, the caller's name stored in the private phonebook will be displayed alternatively with the number. The handset will ring with the melody associated with that phonebook entry.

If the call is from someone who withheld their number, "WITHHELD" will display.
In standby, if three unanswered calls are received, "3 CALLS" will be displayed.

9.1 View the call log

All received calls are saved in the call log with the latest call at the top of the list. When the call log is full, the oldest call will be replaced by a new call. Any unanswered calls which have not been viewed are marked with a ⭐ at the top of the display.

- Press 👤 to access the call log.

OR

- Press ▤ and ▲/▼ to show "CALL LOG", then press OK to select it.
- Press ▲/▼ to select the desired entry.
- Press **#** to view the caller's number if applicable.

9.2 Store a call log number into the phonebook

- Follow Steps 1 and 2 in Section 9.1.
- Press OK and ▲/▼ to select "STORE".
- Press OK to enter the name.
- Press OK and the selected call list number is displayed.
- Edit the number if necessary.
- Press OK and ▲/▼ to select the melody.
- Press OK to confirm.

9.3 Delete an entry in the call log

- Follow Steps 1 and 2 in Section 9.1.
- Press OK and ▲/▼ to select "DELETE".
- Press OK to confirm.

9.4   Delete the entire list of the call log

• Follow Steps 1 and 2 in Section 9.1.
• Press OK and ▲/▼ to select "DEL ALL".
• Press OK to confirm.
• Press OK to re-confirm.

9.5   View the details of the call list entry

• Follow Steps 1 and 2 in Section 9.1.
• Press OK and ▲/▼ to select "DETAILS".
• Press OK to display the date and time of the selected call list entry.
• Press OK to go back to previous screen.

9.6   Set the category of call log (Optional)

• Follow Steps 1 and 2 in Section 9.1.
• Press OK and ▲/▼ to select "CATEGORY".
• Press OK and ▲/▼ to select the category ("ALL" or "MISSED").
• Press OK to confirm.

Note:
"ALL" means all received calls will be shown in the call log, while "MISSED" means only the missed calls will be shown.

10   PHONE SETTINGS

Your phone comes with a selection of settings that you can change to personalise your phone the way you like it to work.

10.1   Clock settings

You will need to set the correct time and date so that you know when you received call list entries.

10.1.1   Change the date format (Optional)

• Press ▤ and ▲/▼ to select "CLOCK".
• Press OK and ▲/▼ to select "DATE FMT".
• Press ▲/▼ to select your desired date format (DDMMYY or MMDDYY).
• Press OK to confirm.

10.1.2   Change the time format (Optional)

• Press ▤ and ▲/▼ to select "CLOCK".
• Press OK and ▲/▼ to select "TIME FMT".

- Press ▲/▼ to select your desired time format (12 HR or 24 HR).
- Press OK to confirm.

10.1.3   Set the time
- Press 目 and ▲/▼ to select "CLOCK".
- Press OK and ▲/▼ to select "SET TIME".
- Press OK to enter the time information. The time entered will be in the format you set in section 11.1.2
- Press OK to confirm.

Note:
If time has been set before, the current time will display, otherwise, "HH:MM" will display.

10.1.4   Set the date
- Press 目 and ▲/▼ to select "CLOCK".
- Press OK and ▲/▼ to select "SET DATE".
- Press OK to enter the date information. The date entered will be in the format you set in section 11.1.2.
- Press OK to confirm.

Note:
If date has been set before, the current date will display, otherwise, "DDMMYY" will display.

10.2   Alarm settings (Optional)
You can use this phone to set an alarm clock. When an alarm is set, the 🔔 displays on the screen. When the alarm time is reached, the 🔔 and "ALARM ON" flash on the screen ringing with the alarm melody for a duration of 45 seconds. You can press any key to disable the alarm. If snooze function is activated, the alarm will sound again at the end of the snooze period of 7 minutes.

Note:
> Key press is still applicable if handset keypad is locked and when the alarm time is reached.
> The alarm volume level is the same as the settings of the handset ringer volume. If the handset ringer is set to "OFF", the alarm still sounds at VOLUME 1 level.
> During an external call or internal call, if an alarm is set and when the alarm time is reached, the 🔔 and "ALARM ON" will still flash.

An alarm tone will be emitted from the earpiece to notify user the alarm time is reached. Once user press any key or press and hold ↻ to disable the alarm, it will revert to the call duration screen.

> During paging or ringing, the alarm will not sound when the alarm time is reached. However, if snooze function is enabled, the alarm will sound again at the end of the snooze period provided that it's not ringing or in paging mode at the end of the snooze period.

10.2.1   Turn on/off the alarm
• Press ▤ and ▲/▼ to select "ALARM".
• Press OK and ▲/▼ to select "ON/OFF".
• Press OK to confirm.

Note:
If "ON" is selected, you will be asked to set the alarm time.

10.2.2   Set the alarm time (if the alarm is set to be "ON")
• Follow Steps 1 to 4 in Section 11.2.1.
• Enter the alarm time.
• Press OK to set the snooze function.
• Press OK and ▲/▼ to select "ON" or "OFF".
• Press OK to confirm.

10.3   Set the direct memory keys
There are four direct access memory buttons (from M1 to M4) on the corded base and three direct access memory buttons (M1 to M3) on the handset.The memory numbers on base and handset are linked, M1 to M3 share same number on handset and base. M4 can only be dialled from the base.
• Press ▤ and ▲/▼ to select "MEM KEY".
• Press OK and ▲/▼ to select the desired memory key.
• Press OK to enter the number you want to store.

Note:
If a number has been saved into the selected memory key before, the last saved settings will be shown. You can use the dial keys to edit the number.

• Press OK to confirm.

10.4 Care Voice

You can record voice messages. The voice message will be played automatically through the base speaker when the time reaches.

10.4.1 Play the Care Voice Message

• Press ▤ and ▲/▼ to select "CARE VOICE".
• Press OK and ▲/▼ to select "C VOICE 1" or "C VOICE 2".
• Press OK and ▲/▼ to select "PLAYBACK".
• Press OK to play the desired voice message.

Note:
If no message recorded before, display will show "EMPTY".

10.4.2 Record a Care Voice Message

• Press ▤ and ▲/▼ to select "CARE VOICE".
• Press OK and ▲/▼ to select "C VOICE 1" or "C VOICE 2".
• Press OK and ▲/▼ to select "RECORD".
• Press OK and speak to the phone after a beep to record the message.

Note:
If there is already a message recorded before, display will show "REPLACE?". Press OK to record the new message.

• Press OK to save and the recorded message will be played automatically.
OR
• Press ↰/⊠ to cancel, then the current message will not be recorded and the previous message will be removed as well.

10.4.3 Turn the Care Voice Message ON / OFF

• Press ▤ and ▲/▼ to select "CARE VOICE".
• Press OK and ▲/▼ to select "C VOICE 1" or "C VOICE 2".
• Press OK and ▲/▼ to select "ON/OFF".
• Press OK and ▲/▼ to select "DAILY", "ONCE" or "OFF".
• Press OK to confirm.
If you selected "DAILY" or "ONCE", enter the time in 24 HR format to set the alert time.
Note:
If you selected "OFF" and if there is a message preset by user, the date/time setting will be removed, but the recorded message will be kept. You can turn it on for next use.

• Press OK to confirm.

Note:
You can also activate the Care Voice even if you have not recorded any message for it before. In this case, base will play the heading music without voice announcement when the set time arrives.

10.4.4 Change the Care Voice PIN
When you access the Care Voice line remote mode, you will need to enter the Care Voice PIN. You can change the PIN by menu.
• Press ▤ and ▲/▼ to select "CARE VOICE".
• Press OK and ▲/▼ to select "CHG PIN".
• Press OK and display will show "OLD PIN?".

• Press OK to confirm.

10.5.4 Set alert tones
A single beep is emitted when you press a key. You can turn on or off the key tone. You can also turn on the alert tones when low battery and out of range are detected. Low battery tone will be emitted while you are talking with the phone to alert you that you need to charge up your battery.

• Press 目 and ▲/▼ to select "HS SET".
• Press OK and ▲/▼ to select "TONE".

- Press OK and ▲/▼ to select "KEY TONE" / "LOW BATT" / "OUTRANGE".
- Press OK and ▲/▼ to turn on or off these tones.
- Press OK to confirm.

10.5.5 Set the equalizer

The phone has three different frequency range filters to compensate for the ear's limited sensitivity in these ranges.

For more details about the amplify feature, please refer to section 7.4.

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "EQLIZER".
- Press OK and ▲/▼ to select the desired frequency range filter.
- Press OK to confirm.

10.5.6 Select base

If you have registered the handset to more than one base, you can select any one of them to use with your handset.

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "SEL BASE".
- Press OK and ▲/▼ to select the desired base.
- Press OK to confirm.

10.5.7 Set the handset language

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "LANGUAGE".
- Press OK and ▲/▼ to select the desired language.
- Press OK to confirm.

10.5.8 Rename the handset

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "HS NAME".
- Press OK and enter the name of your handset.
- Press OK to confirm.

10.5.9 Choose the information to be displayed in idle

You can choose to display time or handset name in your idle screen.

- Press ▤ and ▲/▼ to select "HS SET".

- Press OK and ▲/▼ to select "DISPLAY".
- Press OK and ▲/▼ to select "HS NAME" or "TIME".
- Press OK to confirm.

10.5.10   Set the auto answer

If you turn on the Auto Answer, you can pick up the call from the cradle without pressing any key.

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "AUTO ANS".
- Press OK and ▲/▼ to turn on or off the auto answer feature.
- Press OK to confirm.

10.5.11   Set the mailbox number

You can set the mailbox number manually if necessary. After saving the mailbox number, press and hold Key 1 in idle will dial out directly to the number stored in the mailbox.

- Press ▤ and ▲/▼ to select "HS SET".
- Press OK and ▲/▼ to select "MAILBOX".
- Press OK and edit the mailbox number.
- Press OK to confirm.

10.6   Base settings

The current settings are marked an asterisk which is displayed at the rightmost of the menu item.

10.6.1   Set the base ringer melody

- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "RINGER".
- Press OK and ▲/▼ to select the desired ringer melody (a total of 5 melodies for your selection)

Note:
The respective ringer melody will be played while browsing the melody list.

- Press OK to confirm.

10.6.2 Set the ringer volume
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "RING VOL".
- Press OK and ▲/▼ to select the desired ringer volume (a total of 6 ringer volume levels including "OFF").

Note:
The respective ringer volume will be played during your selection.

- Press OK to confirm.

10.6.3 De-register a handset
You are requested to enter the 4-digit PIN in order to de-register a handset from the base station. The antenna icon on the de-registered handset will be off.

Note:
You cannot de-register the handset that you are currently using.

- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "DEL HS".
- Press OK and you are requested to enter the 4-digit system PIN.
- Enter the 4-digit system PIN.
- Press OK and a list of registered handsets is displayed. The handset used in your hands will not be included. (Optional)
- Press ▲/▼ to select one of the handsets that you want to de-register.
- Press OK to confirm.

10.6.4 Change the flash time
The flash time setting is country dependent. Please contact your local telephone service provider for the correct settings.

- Press ▤ and ▲/▼ to select "BS SET."
- Press OK and ▲/▼ to select "FLASH.
- Press OK and ▲/▼ to select your desired flash time ("SHORT", "MEDIUM", "LONG").
- Press OK to confirm.

10.6.5 Barge In

Barge in allows two handsets or one handset and base to share the same external call conveniently, instead of setting up a conference call by complex call transfer. Please refer to section 7.13.6 for the operation details.

- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "BARGE IN".
- Press OK and ▲/▼ to select "ON" or "OFF".
- Press OK to confirm.

10.6.6 Change the system PIN Code

A 4-digit system PIN code is used for changing the system settings of the base station. It is used to protect your phone against unauthorized use. The default system PIN code is 0000.

- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "CHG PIN".
- Press OK and you are requested to enter the 4-digit system PIN.
- Enter the old system PIN.
- Press OK and enter the new system PIN.
- Press OK and enter the new system PIN again.

Note:
If the new PIN entered in Step 6 is not matched with the new system PIN entered in Step 5, user is requested to enter the valid system PIN again in Step 5.

- Press OK to confirm.

10.6.7 RCID settings (Optional)

10.6.7.1 Turn On/Off the RCID
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "RCID".
- Press OK and ▲/▼ to select "ON" or "OFF".
- Press ▲/▼ to select "ON" or "OFF".
- Press OK to confirm.

10.6.7.2 Set the number length
- Press ▤ and ▲/▼ to select "BS SET".

- Press OK and ▲/▼ to select "RCID".
- Press OK and ▲/▼ to select "NUM LEN".
- Press ▲/▼ to select among 5, 6 and 7.
- Press OK to confirm.

10.6.7.3 Set the ring delay
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "RCID".
- Press OK and ▲/▼ to select "RINGS".
- Press ▲/▼ to select among "0 RING", 2" RINGS", "3 RINGS", to "9 RINGS", nine options are available in total.

Note:
If 0 RING is selected, the manual mode will be enabled.

10.6.8   Set the PBX access code (Optional)
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "PBX CODE."
- Press OK and then enter the PBX access code. Only one digit can be entered.
- Press OK to confirm.

10.6.9   Set the area code (Optional)
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "AREA COD".
- Press OK and then enter the area code. Only three digits in maximum can be entered.
- Press OK to confirm.

10.6.10   Set the carrier code (Optional)
- Press ▤ and ▲/▼ to select "BS SET".
- Press OK and ▲/▼ to select "CARR COD".
- Press OK and then enter the carrier code. Only three digits in maximum can be entered.
- Press OK to confirm.

10.7   Registration
Your handset and base station is pre-registered. Up to five handsets can be registered to a single base station.

If for some reason, the handset is not registered to the base station (📶 flashes even when the handset is near the base station), register your handset according to the following procedure.

- Press and hold 🔊 on the base station for more than five seconds, to put the base station into registration mode. It will stay in registration mode for about 1 minute, so the following handset sequence must be completed within this time.
- Press ▤ and ▲/▼ to select "REGISTER".
- Press OK and select the destination base you would like to register to.
- Press OK and you are requested to enter the 4-digit system PIN.
- Enter the 4-digit system PIN.
- Press OK to confirm.

If the handset registration is successful, you will hear a confirmation tone and the 📶 will stop flashing. The handset will automatically be allocated the next available handset number. This handset number is shown in the handset display in standby mode. If the handset registration is unsuccessful, the 📶 will still flash.

10.8 Reset Your Phone

You can reset your phone to the default settings. After reset, all you personal settings and call log entries will be deleted, but your phonebook remains unchanged.

- Press ▤ and ▲/▼ to select "DEFAULT".
- Press OK and you are requested to enter the 4-digit pin (default 0000).
- Enter the 4-digit system PIN.
- Press OK to confirm.
- Press OK to re-confirm.

11   TROUBLESHOOTING

Problem	Cause	Solutions
No dialing tone when pressing ⌒ key	• The connection cord of the base station is not plugged in. • The adapter cord is not plugged in correctly in the base station. • The line is busy, as another handset is used. • Wrong connection cord.	• Check the connections. Unplug and plug back in the mains.
