2.4 GHz Wireless A/V Transmitter and Receiver  
 Imagine having your A/V components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires. Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that.
