With full HD 1080p resolution and 1080p upscaling, the BD370 provides the ultimate in picture quality. Plus, it offers more than you can possibly imagine in a player. Stream movies, TV shows, music and videos to your TV directly using Netflix, YouTube and Pandora without a computer. Simply connect a broadband source through the built-in Ethernet port and grab your LG remote.

- Quick-opening tray and ready to play before you hit the couch
- Full HD 1080p with Cinema mode for highly accurate 1080p at 24 or 60 frames per second
- Music, photos and video from your digital library via USB 2.0
- Exceptional image quality from standard DVDs with 1080p up-scaling via HDMI output.

LGBD370 **195.00**

Blu-ray Disc Players

ONKYO**DV-BD507** Blu-ray Disc Player

Raising the bar for home theater playback, the DV-BD507 accepts any Blu-ray Disc and sends a full high-definition 1080p signal—via HDMI 1.3a—to a compatible display or A/V receiver. It also can also upscale standard-resolution DVD sources to 1080p.

Along with various flavors of DVD and CD, the DV-BD507 handles AVCHD video clips stored on an SD/SDHC Card or DVD±R/RW. The unsurpassed video quality of Blu-ray Disc on the DV-BD507 is accompanied by studio-quality lossless surround sound from Dolby and DTS. Meanwhile, BD-Live functionality ups the engagement factor by letting you connect to the internet in real time and access a load of exciting new interactive content.

- Playback of Blu-ray discs with Full HD 1080p video resolution
- Delivers a pure data bitstream from Dolby TrueHD and DTS-HD master audio codecs
- Supports Deep Color for over one billion colors
- Bonus View for Picture-in-Picture video and audio
- User-friendly on-screen display (OSD) for settings and playback

ONDVBD507.....**Call or Log-on**

BD-SP807 Blu-ray Disc Player

The THX-certified BD-SP807 provides a robust and versatile playback solution for Blu-ray, DVD, and CD. With the BD-SP807, the focus is on build quality. Harmful vibrations are minimized thanks to the highly rigid chassis construction and center-mounted drive mechanism.

An Ethernet port enables interactive Profile 2.0 BD-Live features, such as picture-in-picture, while an SD card slot lets you play back downloaded web content or stills and video from a digital camera. Stellar high-def video with NSV® processing is accompanied by advanced 1080p upconversion and scaling of standard-definition video. In HDMI Source Direct mode, the player can output the video signal in its native resolution, for processing on your A/V receiver. On the audio side, the BD-SP807 handles the studio-master quality of Dolby® TrueHD and DTS-HD Master Audio™ Essential. With all this and more, the BD-SP807 is well set to integrate with today's most advanced home entertainment systems.

- To achieve THX certification, the BD-SP807 meets the world's most demanding standards for home theater playback, and guarantees superior performance and accurate reproduction of the movie theater experience in the home.
- Standard DVD sources at various resolutions—480p, 720p, or 1080i—can be upscaled to 1080p for playback on a compatible high-definition display. Interlaced-to-progressive conversion and scaling are performed by a high-quality video processing chip
- The drive mechanism sits low in the chassis to reduce vibration and provide optimal weight balance.
- An independent digital and analog block design reduces electromagnetic interference from the system power, drive mechanism, and signal-processing circuits.
- Features NSV (Noise Shaped Video) technology to reduce aliasing and noise in high-definition video signals. This high-speed DAC excels at reproducing details in high-resolution images, ensuring a video output that is as faithful as possible to the input source.
- Gold-plated audio and video outputs and 11/16" (18mm)-pitch audio outputs for connection to high-grade cable.
- Has an aluminum front panel, a display dimmer (Auto/Bright/Dimmer) and includes remote control.

Call or Log-on

DMP-BD45, DMP-BD65 • DMP-BD85 • DMP-BD70V Blu-ray Disc Players

Panasonic's DMP-BD45, DMP-BD65, DMP-BD85 and DMP-BD70V feature Full-HD playback, bringing movies in all their original quality right into your living room. The DMP-BD65 and DMP-BD85 combine high quality images with enhanced networking functions,

including VIERA CAST's internet functionality and VIERA Link, which allows users to operate their VIERA Link capable audio/video components via HDMI, with one remote. The DMP-BD85 includes a Wi-Fi adapter, while the DMP-BD65 features Wi-Fi capability with the optional DY-WL10 adapter.

The DMP-BD65 and DMP-BD85 feature a high definition audio decoder (Dolby Digital Plus, Dolby TrueHD, DTS-HD Master Audio Essential) for 7.1 channel surround sound. The DMP-BD85 adds an HDMI Jitter Purifier which affords robust bass sounds faithful to the original, and utilizes a Digital Tube Sound Simulator to produce the warm, realistic sounds associated with a tube amplifier. Last, it uses gold plated terminals and has a 192kHz-24 bit D/A converter. Complementing the HD audio codecs, the DMP-BD65 and DMP-BD85 feature 96kHz surround re-master, a function that enhances the sound quality of CDs and other sources, and even improves the quality of the multi-channel audio data on Blu-ray Discs and DVDs. The BD85 further enhances the audio experience with 7.1 channel analog out to produce true 7.1 surround sound, thereby offering home theater environment that rivals the movie theater. The BD45 is compatible for up to 5.1 channel decoding.

The DMP-BD70V is a dual deck VHS-Blu-ray player, offering multi-format playback of VHS, CD, DVD and 1080p high definition Blu-ray discs.

- Each employs the PHL Reference Chroma Processor Plus to reproduce clear, vivid colors that are faithful to the original film.
- An internet enabled technology, VIERA CAST lets users access the web without an external box or a PC, providing access to Amazon's VOD extensive library of streamed titles, YouTube, Google's Picasa Web Album, Bloomberg and a weather channel.
- They include an SD Memory card slot making it easy to view and share both digital still images and HD video recorded with an HD camcorder in the AVCHD format.
- They up-convert content recorded in the 480i/p or 720p format to 1080p. They also provide 1080/24p output, thereby reproducing cinema images from a Blu-ray Disc and DVD in their original 24p form with no need for conversion.
- The DMP-BD65 and DMP-BD85 include a USB slot for connection with the Wi-Fi adapter for wireless connection to online content such as VIERA CAST and BD-Live. USB memory with JPEG/MPEG3 and DivX movie data can also be enjoyed. (BD65 is not compatible with DivX)

Blu-ray Players

Featuring online connectivity, users can enjoy access to online streaming entertainment—thousands of TV episodes and movies—from partners such as Netflix and Cinema Now. They also feature access to 1080p VUDU™ content, and users can enjoy their favorite music playlists created with Pandora for a fuller experience. Otherwise the same, the BDX2500 is “wireless ready” via its USB port (with optional Toshiba USB wireless “dongle” for connection to a wireless home network), while the BDX2700 has built-in wireless connectivity.

- They feature 1080p/24fps playback of Blu-ray titles, as well as upconversion of standard definition DVD.
- BD-Live capable, they offer online streaming capability, playback of MP3, HD-JPEG, WMA and AVCHD for home movie viewing.
- On-board decoding of Dolby True HD and DTS HD Master Audio I Essential via the analog 7.1 channel outputs or pass through via HDMI® interface for outboard decoding.
- To ensure that they can be integrated easily into your existing home theater setup, they offer a full complement of connections, including HDMI, component, composite, S-Video, optical and coaxial digital, and analog audio outputs. They also includes an SD card slot with SDHC support, and an Ethernet port.
- REGZA-LINK® (HDMI™-CEC) connects the BDX2500 or BDX2700 and your HDTV for convenient two-way control with one remote.

YAMAHA

BD-S1065 Blu-ray Disc Player

The BD-S1065 features top video and audio quality, with 1080p/24Hz-compatible HDMI video output, full HD Audio decoding and 7.1-channel audio output. Also supports BD-Live and BonusView, and matches Yamaha AV receivers.

High Picture Quality:

- 1080p/24Hz-compatible HDMI video output
- x.v. Color and Deep Color compatibility
- 1080p playback for DVDs, photos and personal video data

Magnificent Audio Performance

- For all HD formats:
 - Direct bitstream and multi-channel Linear PCM output via HDMI
 - Analog 7.1 multi-channel output with 4 x 2-channel DACs
 - Analog down-mixed 2-channel output
- 192kHz/24-bit audio DAC
- Pure Direct for high sound quality CD playback through analog audio output
- Terminal for detachable power cable

BD-Live and BonusView:

- Connect to the internet to access the fun and informative features that BD-Live provides. Secondary video/audio for enhanced commentary and information. Virtual Package for new entertainment possibilities with USB memory

YAMAHA® RX Series

The RX-V367, RX-V467 and RX-V567 are 3D-ready AV receivers featuring 1080p-compatible HDMI 1.4 inputs (and Audio Return Channel on the RX-V467/V567). They are also equipped with an impressive array of features to enhance the audio/video experience. These include HDMI switching with 1080p video pass-through, Deep Color (30/36-bit) and x.v.Color pass through, iPod and Bluetooth audio compatibility, CINEMA DSP, Compressed Music Enhancer, audio delay for adjusting lip-sync, and four SCENE buttons for easy operation (with 13 preset SCENE template).

RX-V367

- 5-channel 520W powerful surround sound (100W x 5)
- Burr-Brown 192 kHz/24-bit DACs for all channels
- iPod compatibility via optional YDS-11 Universal Dock or iPod/iPhone with optional YDS12.
- Bluetooth (A2DP) compatibility with optional Yamaha YBA-10
- Front panel mini jack input for connecting portable audio player
- Initial volume setting and maximum volume setting
- 1080p-compatible HDMI (4 in/1 out)
- YPAO sound optimization for automatic speaker setup
- Audio input assign capability for HDMI and component video input
- Audio Delay for adjusting Lip-Sync (0-240ms)
- Subwoofer phase select/subwoofer out
- CINEMA DSP (17 DSP programs) with adaptive DSP level
- Adaptive DRC (Dynamic Range Control)
- Silent Cinema and Virtual Cinema DSP

RX-V467 Step-up Features:

- 5-channel 525W powerful surround sound (105W x 5)
- Direct Mode for high quality sound reproduction
- Decoders for HD audio formats: Dolby TrueHD and DTS-HD Master Audio; Dolby Digital Plus and DTS-HD High Resolution Audio
- iPod song titles displayed on the front panel
- Change HDMI input while in Standby Through mode
- Initial volume setting and maximum volume setting

RX-V567 Step-up Features:

- 7-channel 630W powerful surround sound (90W x 7)
- Analog video upscaling to full HD 1080p
- HDMI CEC functionality

RX-V665 • RX-V765 Step-up Features (except not 3D-ready):

- Digital ToP-ART and High Current Amplification
- Cinema DSP 3D (17 DSP programs) with adaptive DSP level
- Pure Direct • Dialogue Lift
- Intelligent assignable amplifiers for Surround Back <-> Front Presence or Zone 2 connection
- XM ready with XM HD Surround powered by Neural Surround
- SIRIUS Satellite Radio ready
- Zone 2 on/off and control on front panel, remote input/output and programmable dual +12v trigger outputs.
- Discrete amp configuration (RX-V765 only)

Pioneer

VSX-519V • VSX-819H • VSX-919AH • VSX-1019AH Home Theater Receivers

Pioneer's A/V receivers enhance compressed audio and lower-quality music files to ensure a dynamic surround listening experience. High definition fans will appreciate dynamic picture and sound reproduction capabilities including HDMI repeaters that provide full video format capabilities such as Deep Color, x.v Color that deliver a wider gamut of hues and shades as well as Lip Sync function for synchronized audio and video playback.

VSX-519V-K (110w x 5 channels):

- iPhone and iPod certified for enhanced compatibility, it features two HDMI inputs, front mini input for portable audio players and dual zone audio output.
- Incorporates Advanced Sound Retriever (ASR) to greatly enhance sound reproduction of portable MP3 players by restoring the critical audio data that is often removed from a compressed audio file. When played back on a home theater system, audiences gain robust music that is near CD quality.

- Utilizes Auto Level Control (ALC) to equalize inconsistent volume levels that can fluctuate across digital audio tracks (i.e. MP3 and iPod), input sources and even TV channels and commercials to cause disruptive entertainment. By restoring the gap in recorded and playback volume without diminishing audio quality, ALC ensures consistent listening from all entertainment.

VSX-519V-K (B&H# PIVSX519VK).....Call or Log-on

VSX-819V-HK (110w x 5 channels) Step-Up Features:

- Controllable via iPod or iPhone, the VSX-819H steps-up with three HDMI inputs and a multi-format front panel USB port that can handle an array of MP3 music files. Users can seamlessly navigate and choose personalized playlists using just the receiver's remote control and a dedicated OSD.
- Supports Dolby TrueHD and DTS-HD high resolution audio formats from Blu-ray Disc feature films.

- MCACC (Multi-Channel Acoustic Calibration) takes inventory of a room's speakers then digitally optimizes each one to balance out any room-induced acoustic inaccuracies. Listeners gain extremely accurate, robust sound that reaches the ear at precisely the right time, sound level and equalization.

VSX-819V-HK (B&H# PIVSX819HK).....Call or Log-on

VSX-919AH-K • VSX-1019AH-K (110w x 7 channels) with PHAT II Power Step-Up Features:

- Proprietary Hybrid Amplifier Technology II (P.H.A.T.) ensures powerful, high quality, multi-channel sound performance at greater efficiency levels.
- The VSX-919 transcends music selection capabilities and add a touch of style to the traditional mobile device experience with full-color artwork from a selected song or album that can be displayed on a connected HDTV.
- When connected to a Blu-ray player via HDMI, the VSX-919AH uses proprietary PQLS (Precision Quartz Lock System) technology to sync the player and receiver.

- It has ASR-multi to restore compressed multichannel legacy audio, including Dolby Digital and DTS 5.1 often found on DVD movies and satellite or cable television programming. Also features ALC3e-multi, which delivers multi-channel digital audio quality even in low volume listening.

VSX-1019AH-K Only:

- Enjoy 2nd zone full-color OSD for Sirius as well as iPod album artwork
- Four HDMI inputs and Faroudja 1080p video scaler

SONY

STR-DH510 • STR-DH710 • STR-DH810 • STR-DN1010

Home Theater Receivers

Designed to function as the hub of a high-definition home theater, Sony's A/V receivers offer excellent functionality and connectivity to provide a simplified approach to high-definition home theater control.

The 5.1 channel STR-DH500 offers 100 watts of power per channel and accepts 1080/60p and 24p video signals via HDMI (3 in/1 out). It also features Blu-ray Disc audio decoding and audio return channel using just one cable for TV audio. (#SOSTRDH510).....**199.95**

The 7.1 channel STR-DH710 steps up with 105 watts per channel, compatible with Dolby TrueHD, dts-HD Master Audio, supports LCPM audio through three HDMI and three component video inputs and is S-AIR ready. (# SOSTRDH710)**249.95**

The sleek 7.1 channel STR-DH810 (110 watts power per channel) steps up with seven HD connectives (4 HDMI/3 Component), upscales video to 1080p, has fully assignable audio and video inputs and includes a universal remote. (# SOSTRDH810)**399.95**

Featuring a sleek piano black gloss design that matches Sony's Blu-ray Disc players and TVs the 7.1 channel STR-DN1010 offers HDMI™ 1.4 3D pass-through technology, ample HD connectivity and compatibility with all of the latest Blu-ray Disc audio formats, to control any high-def or 3D capable system. It features Full 1080/24p support and 7 HD inputs. HDMI 3D pass through technology supports 3D video from connected devices and passes them through to a 3D compatible HDTV, while decoding high-resolution audio codecs. The receiver also features an icon-driven menu system for simple device and content navigation and can upscale analog video sources to 1080p via HDMI. Compatible with Dolby TrueHD, dts-HD Master Audio and features wireless 2nd zone capabilities via Sony's S-AIR® wireless technology.

(B&H# YAHTR6260BL)**499.95**

ONKYO

TX-SR308 5.1-Channel A/V Surround Home Theater Receiver

Maximize performance and features without putting undue strain on your finances. The high-value TX-SR308 handles high-definition lossless audio codecs from Dolby and DTS—and thanks to its HDMI 1.4 specification is ready for the 3D video future. Conveniences include overlaid On-Screen Display for easy adjustment of settings; a Universal Port for single-cable connection of peripherals; and a front-panel audio input for direct connection of iPods and other MP3 players.

- Three HDMI 1.4 inputs let you simultaneously connect high-def sources such as a Blu-ray player, a gaming console, and a cable/satellite tuner. HDMI 1.4 adds the exciting possibilities of 3D video and an Audio Return Channel. Audio content received directly by your HDTV's tuner can be sent "upstream" to your A/V receiver, without the need for a separate S/PDIF audio cable.

- Can decode Dolby TrueHD and DTS-HD Master Audio as well as Dolby Digital Plus and DTS-HD High Resolution Audio.
- Proprietary Universal Port lets you connect an optional UP-A1 Dock for iPod or UP-HT1 HD Radio Tuner.
- Front-panel audio input for portable devices
- Overlaid On-Screen Display (OSD) via HDMI

#ONTXSR308249.00

TX-SR508 7.1-Channel A/V Surround Home Theater Receiver

The TX-SR508 steps four 3D-ready HDMI 1.4 inputs for connecting your high-definition sources; Dolby Pro Logic IIz for new surround-sound possibilities; Powered Zone 2 and bi-amping for more speaker flexibility. Meanwhile, Audyssey volume and equalization technologies ensure comfortable listening and a room-fitting soundstage. It is also SIRIUS™ Satellite Radio ready (subscription required).

- Dolby Pro Logic IIz enables you to incorporate two "front high" speakers into your surround-sound set-up as an alternative to the two surround backspeakers. The front high channels carry ambient, non-directional audio that helps immerse you even more deeply into your movies and games.
- With Powered Zone 2, you can enjoy surround sound entertainment in the main room, while playing back a different stereo source in a second zone equipped with a pair of speakers. Alternatively, you can use the Zone 2 line-out to send an unamplified audio signal to an amplifier (and speakers) in the second room.

- Comes with three Audyssey technologies to help create the most suitable listening environment for your home.
 - Audyssey 2EQ corrects room acoustic problems and calibrates speakers.
 - Audyssey Dynamic Volume lets you set the volume level that you want and keep it there, without having to constantly adjust it.
 - Audyssey Dynamic EQ continuously adjusts frequency response and surround levels to produce the ideal balance for a given volume level.

ONTXSR508349.00

TX-SR608 7.2-Channel A/V Surround Home Theater Receiver

Featuring THX® Select2 Plus Certification, the TX-SR608 steps up with six HDMI 1.4 inputs, along with an analog RGB video input for connecting your PC. All video sources, regardless of resolution, can be upscaled to big and beautiful 1080p via HDMI and Faroudja DCDi Cinema. It also offers the expanded Audyssey DSX surround format. Three-stage inverted Darlington circuitry and jitter-cleaning technology work to ensure extremely precise and faithful amplification. (It is not SIRIUS™ Satellite Radio ready.)

- THX Select2 certification means it meets the world's most demanding standards for audio quality and performance, and must play at reference volume levels with minimal distortion. THX Select2 Plus certification is specified for rooms where the screen-to-seat viewing distance is 10 to 12 feet and the room volume is around 2000 cubic feet.
- When it comes to video processing, the Faroudja DCDi Cinema video processor offers several advantages. This processor can accept any video signal, regardless of the source resolution, and upscale it to 1080p to match the native resolution of your high-definition display. What's more, DCDi Cinema effectively removes video artifacts such as jagged edges during the video signal deinterlacing process. You get to enjoy smooth progressive scan video images, even for fast-moving sports and action scenes.

- The TX-SR608 handles two new surround-sound technologies from Audyssey and Dolby that offer exciting new ways to set up the speakers in your home theater system. Audyssey DSX lets you incorporate "front wide" speakers, in place of the usual surround back speakers, to expand the width of the soundstage. Set up at a recommended 60° off center, these channels help to produce a more realistic soundstage and a more immersive listening experience. Alternatively, Audyssey DSX can reconfigure the TX-SR608's surround back channels to deliver "front height" channels. These channels carry ambient, non-directional audio that adds a new vertical dimension to your movies and games. Dolby Pro Logic IIz provides a similar front-height speaker option that likewise works to create a more enveloping home theater experience.

Movies and games look great on today's widescreen TVs, but the audio from a typical flat-panel display leaves a lot to be desired. With its basic 2.1-channel configuration, the HTX-22HDX gives you a combo subwoofer and A/V receiver plus two front speakers for stunning mid- and high-range audio. Three HDMI 1.4 inputs let you hook up a Blu-ray player, console, and cable/sat tuner. HDMI 1.4 is not only compatible with upcoming 3D video, it also lets you run an Audio Return Channel from your display's tuner back to the receiver. The HTX-22HDX handles HD formats from DTS and Dolby; offers four distinct audio modes for gaming; and includes Onkyo's very own Theater-Dimensional which creates an immersive and convincing surround effect through just 2.1 channels. On-screen display makes it easy to adjust settings on the fly.

**HT-S3300**

5.1-Channel 660W Home Theater System

A future-ready receiver-and-speaker package that won't break the bank, the 5.1-channel HT-S3300 is packed with so much advanced technology that it redefines entry-level home theater. It features three HDMI v1.4 inputs to hook up a Blu-ray player, game console, and cable/satellite box—which can be output via a single cable to a high-res display. Not only is HDMI 1.4 compatible with next-generation 3D video, it also enables a convenient Audio Return Channel. The HT-S3300 supports lossless HD audio formats from Dolby and DTS. It also provides an overlaid On-Screen Display function for easy adjustment of settings; a Universal Port for one-cable connection of peripherals; Audyssey equalization; four gaming audio modes; and a fully immersive, beautifully balanced 5.1-channel speaker set.

ONHTS3300.....**Call or Log-on****HT-S5300**

7.1-Channel 780W Home Theater System

At the heart of this 7.1-channel system, is the A/V receiver sporting four of the latest HDMI® 1.4 inputs—enough for all your high-def sources. HDMI 1.4 brings compatibility with 3D video and an Audio Return Channel. With the HT-S5300, you can also adjust settings on the fly with a handy overlaid on-screen display. The receiver offers a broad range of connectivity options, such as a front input for portable devices and a Universal Port for one-cable connection of the included Dock for iPhone/iPod. High-quality Burr-Brown DACs ensure pristine analog conversion of all digital audio sources, including HD audio formats from Dolby and DTS. And Dolby® Pro Logic® IIz gives you the option of a new height-channel set-up with the included 7.1-channel speaker package.

ONHTS5300B.....**Call or Log-on****HT-S6200**

7.1-Channel 960W Home Theater System

The HT-S6200 features four HDMI 1.3a inputs to handle 1080p video as well as DolbyTrueHD and DTS-HD Master Audio™—two lossless decoding formats carried by Blu-ray Disc (BD) that enable delivery of a bit-for-bit soundtrack identical to the studio master track. The receiver also handles two "lossy" audio formats: Dolby® Digital Plus, which is designed to accompany high-definition video; and DTS-HD High Resolution Audio™, which offers a greater bit rate, a higher sampling rate, and more channels than the core. Compatibility with Dolby Pro Logic IIz gives you the option of incorporating front height channels into your home theater set-up. Another BD-related technology is DTS-HD Express, which provides access to secondary audio features. A proprietary Universal Port allows single-cable connection of the included Dock for the iPod or an optional Onkyo DAB+ Radio tuner.

ONHTS6200.....**Call or Log-on****HT-S9100THX**

THX® Integrated System Plus™ Certified 7.1-Channel Home Theater System

The HT-S9100THX is the first THX I/S Plus Certified system to handle full high-definition processing of 1080p video and the master quality of Dolby® TrueHD and DTS-HD Master Audio™. Whatever input you choose—whether gaming, movies, broadcasts, or music—the HT-S9100THX draws on a reservoir of precise amplification power to create a breathtaking home entertainment experience. With video upscaling, revolutionary audio equalization and acoustic treatment technologies, and integrated control with leading display brands, the HT-S9100THX is a fail-safe solution for most home environments.

IN-WALL & IN-CEILING SPEAKERS

More than any other component, speakers define the sound of an audio system. In-wall and in-ceiling speakers have made tremendous strides in recent years to the point of competing with their cabinet-style counterparts. Thus, many are turning to in-wall/ceiling solutions to maximize their living space. Extremely popular with interior designers and decorators, they offer a clean, minimalist look and near-invisible presence, thanks to their camouflage grilles. When installing your next system, you may want to consider the excellent products listed below for a heard-but-not-seen experience in a home that truly emanates music.

AudioSource®

Contractor Series

In-Ceiling Speakers

Each includes carbon-filled polypropylene woofer and elastomer deposited silk tweeter, robust mounting clamps and paintable grill and frame.

AC5C: 100 watts, 5¼" woofer, 19mm pivoting silk tweeter. (AUAC5C): Pair	49.95

JBL

SOUNDPOINT SERIES

JBL's SoundPoint in-wall and in-ceiling speakers deliver room-filling sound, yet are extremely compact with shallow mounting depths. They feature unique swivel-mount titanium laminate tweeter for crystal highs, and a rubber surround aluminum woofer for high power handling and tight, deep bass. They include a cutting template and integrated dog-ear brackets for retrofit applications. And with rough-in frames available for new construction, installation is just as easy.

STUDIO L SERIES

JBL's Studio L in-wall and in-ceiling speakers are designed for serious listening. They feature pivoting titanium-laminate dome tweeters that can be aimed directly toward listeners, proprietary Elliptical Oblate Spheroidal™ (EOS) waveguides, and independent tweeter level controls to greatly improve high-frequency response and ensure that the speakers sound great anywhere in the room. Frame and grille can be painted to blend into the existing environment. They include a cutting template and integrated dog-ear brackets for retrofit applications. Rough-in frames are also available for new construction, making installation easy.

L328C: In-Ceiling 150 watts, 8" woofer (JBL328C)	Call or Log-on

JBL ES SERIES

ES Series loudspeakers feature distinctive styling — tapered enclosures, a unified center section, and a front baffle that curves into the top surface — that blends classic and contemporary design elements. They accurately reproduce even the most dynamic digital sources with precise fidelity using a unique grille design to disperse the sound accurately.

Result: dynamic, full-spectrum movie sound with crisp, clear dialogue and all the subtleties of the original.

All models except the subwoofers are magnetically shielded, and include five-way binding posts to facilitate use with any type of speaker cable. The ES20, ES30, ES80 and ES90 also have dual sets of terminals for bi-wiring or bi-amping, if desired. The ES10 compact bookshelf monitor can be mounted on a wall, and is supplied with built-in wall-mount brackets to facilitate its use in a wide variety of custom-installation, designer and architectural applications. The ES25C center channel speaker may be placed on top of or below a TV set or on a shelf, and the ES80 and ES90 floorstanding towers have an elegantly proportioned, slim profile that enables them to fit in any home entertainment system. The 10" 250W ES150P and 12" 300W ES250P subwoofers include a full complement of inputs and controls to achieve optimum low-frequency response in any installation.

ES10: 3-Way Bookshelf in Cherry (JBES10C) or Black Ash (JBES10B)	Call or Log-on

JBL STUDIO L SERIES

Once you've heard Studio L, there's no going back. Have you ever been in a recording studio filled with professional loudspeakers and built for great acoustics? It's an experience few people ever forget. And it's the experience JBL's Studio L series duplicates at home. Incorporating significant innovations combined with exclusive and time-proven JBL technologies, Studio L Series brings studio-quality sound to home listeners everywhere — and they are stylishly-designed with an elegant appearance that is as stunning as their performance.

Includes eight high-performance models engineered to make the same clear, accurate and dynamic sound quality heard by the pros available to home theater enthusiasts and music lovers. There are two wall-mount/bookshelf monitors (L810, L820); compact bookshelf speaker (L830); two floorstanding towers (L880 and L890); two dedicated center channel speakers (LC1 and the wall-mountable LC2) and a 12", 600-watt powered subwoofer (L8400P).

Home Theater Speakers

Infinity TSS 3-in-1

Three Channel, Single-Enclosure Loudspeaker

The TSS 3-in-1 will instantly and dramatically upgrade the sound of any television connected to an A/V receiver. As part of a complete home theater system, it will deliver the left, right and center

channels with all the finesse of the three separate speakers it replaces, delivering crisp dialogue and spacious imaging.

Available in charcoal, the TSS 3-in-1 can be wall-mounted using its included swivel-wall-mount bracket, making it ideal for placement above or below flat-panel displays, or above a TV set or entertainment center furniture. Also includes a support cradle that enables it to be placed on a shelf.

- Rigid extruded-aluminum enclosure reduces unwanted resonances.
- Room-friendly acoustical waveguides for more accurate high-frequency response across a wider listening area
- Dual 3½" MMD woofers and 3/4" MMD tweeter for each (left, center & right) channel.
- Can be combined with Total Solutions surround speakers and a powered subwoofer to create a complete home theater loudspeaker.

TSS-1200 (B&H# INTSS1200CH): Four two-way satellites and a two-way center-channel with dual 3½" woofers and 3/4" tweeter, 12" 250-watt subwoofer. Includes gold-plated binding posts and five fixed and five adjustable wall-mount brackets. Charcoal finish**Call or Log-on**

polkaudio SurroundBar 360°

Home Theater System

A complete digital home theater audio system, the SurroundBar 360° DVD Theater includes a single, attractive multi-channel

speaker that measures 44½ x 4¼ x 4¼" (WDH) and a separate, compact console that contains an integrated DVD/CD player, SDA® signal-processing amplifier, AM/FM radio, universal remote control and a host of digital, analog, USB, and video inputs.

Add a new dimension to movies, music, TV. Connect it to any video game, satellite/cable TV box, MP3 player or other external source and experience ear-opening surround sound with just one speaker. Rediscover your favorite video games, or play DVDs, CDs, MP3 and JPEG and Kodak photo discs.

- DVD player with integrated Farouja DCDI2 upconversion with HDMI 1080i output turns any composite or S-Video signal into high-definition 480p, 720p, and 1080i video
- Magnetically-shielded, the SurroundBar 360° speaker easily mounts above or below your TV. Or use the included cradle on a TV stand, a shelf or for set-top placement.
- Polk's proprietary SDA (Stereo Dimension Array) technology combines signal processing and acoustical geometry to create 360° surround from the SurroundBar 360's eight drivers.
- Patented Power Port Bass Venting System ensures that the SurroundBar 360 supplies clean, low distortion bass without the clutter of an external subwoofer.
- USB input makes it easy to attach digital photo sources and MP3 players
- Accommodates, DTS Digital Surround and Dolby Digital DVDs, as well as MPEG2, MPG, CD, CD-R/RW, DVD+R/RW, MP3 at resolutions up to 384kbps VBR (Variable Bit Rate).

SurroundBar 360° (B&H# POSB360)**899.00**

polkaudio PSW111

8" Down-Firing 150-watt Subwoofer

Ideal match for the SurroundBar 360°, you can put the PSW111 practically anywhere and you won't believe the punch such a small subwoofer packs.

- LFE, line and speaker level inputs, and speaker level inputs allow easy connection to any system.
- Intelligent amplifier puts out gobs of power, but uses very little power at low volumes or standby mode.
- State-of-the-art Klippel Distortion Analyzer to help optimize the woofer's motor structure, voice coil alignment and suspension bringing you the best possible performance even at extreme listening levels.

PSW111 (B&H# POPSW111B)**299.95**

**Velodyne Impact Series**

Low Distortion Subwoofer

Affordable high-output, low distortion subwoofers, they feature beautiful cabinets with black gloss lacquer trim to fit in any decor, while their deep, defined bass brings movies and music to life. They include MDP amplifiers with more dynamic headroom for high impact, 2" copper-wound voice coils and an adjustable, high quality crossover system to perfectly match the subwoofer with the main speakers in the room. The Impact-10 and 12 feature a down firing port for high output and low distortion. The Impact-Mini, with a 6.5" forward-firing driving and 8" down-firing passive, produces amazing bass from a tiny cabinet. They include 3-year (electronics), 5-year (drivers) warranty.

Impact Mini (B&H# VEIMINI): 300W dynamic, 180w RMS amplifier**399.00**

Impact-10 (B&H# VEIMPACT10): 10" woofer, 250W dynamic/150W RMS amplifier**299.00**

Velodyne VX-10

10" 150-watt Powered Subwoofer

Bring the thrill of live concerts and "first run" surround sound movie theaters into your home at a price you can easily afford. Powered by a discrete component 150-watt dynamic power amplifier, the front-firing 10" woofers output is enhanced by a precisely engineered rear-mounted port to produce significant bass extension, output and impact. Compact design and high gloss lacquer ensures the VX-10 fits right in with your decor.

VX-10 (B&H# VEVX10B)**179.00**

BOSE
Better sound through research.**Lifestyle® V20 Lifestyle® V30**

Home Theater Systems

The Lifestyle® V20 and V30 home theater system offer HD compatibility for your DVD player and other components. They consist of an elegantly designed media center with a separate display module, four Direct/Reflecting® (V20) or Jewel Cube® (V30) speaker arrays, a horizontal center-channel speaker and the Acoustimass® module. The media center includes an AM/FM tuner and 4 A/V inputs (including component, composite, S-Video and two HDMI). The media center and component connections are hidden from view because it has no controls or display of its own. It is controlled by the supplied universal radio frequency remote. Only the elegant display panel remains as the visual interface for your system. The display shows system messages, program details, current source and selected options. For added convenience the ADAPTiQ® audio calibration system provides greater freedom of speaker placement. It analyzes the way your room's dimensions and other variables affect sound, then automatically adjusts the sound of your Lifestyle® surround sound system to the acoustics of your room. And for greater versatility, the Bose® link whole-home audio technology lets you connect compatible Bose products to your Lifestyle® home entertainment system for listening in as many as 14 additional rooms – even outdoors.

Lifestyle® V20: Black (B&H# BOLS20B) or White (B&H# BOLS20W) **1799.00**
Lifestyle® V30: Black (B&H# BOLS30B) and White (B&H# BOLS30W) **2699.00**

Lifestyle® 28 Series III
DVD Home Entertainment System

No matter what you want to hear – or where you want to hear it – the Lifestyle® 28 Series III system makes it all possible with performance, elegance and simplicity. The system is designed so all the elements – media center, five speakers and Acoustimass module – work in harmony, enhancing performance and ease of operation. Sound is customized to your room with the innovative ADAPTiQ® audio calibration system. The stylish media center

features a progressive scan DVD/CD player and AM/FM tuner. The system includes Direct/Reflecting® cube speaker arrays that fill your room with spacious surround sound. Add the optional VS-2 video enhancer (see next page) with 1080p upscaling and HDMI connectivity to simplify integration with other video sources. Black (B&H# BOLS283B) **1799.00**

Lifestyle® 48 Series IV

DVD Home Entertainment System

Stepping up from the Lifestyle® 28 system, this system feature Bose's innovative uMusic®+ intelligent playback system to digitally store and organize up to 340 hours of music in the media center, freeing you from managing a cumbersome CD collection. Rate your favorites, skip the songs you don't like. This system will learn – and deliver – your musical preferences. The tiny, award-winning Jewel Cube® speaker arrays fill your room with spacious surround sound. Black (B&H# BOLS48B); White (B&H# BOLS48W) **3999.00**

**3•2•1® GS Series III**

DVD Home Entertainment Systems

Experience enhanced home theater sound from almost anything you watch – with greater simplicity than traditional five-speaker surround systems. The 3•2•1 GS Series III DVD home entertainment system delivers cinematic 2.1-channel sound with just two Gemstone® speakers and a hideaway Acoustimass module. The system includes an elegant media center featuring a progressive scan DVD/CD player with 1080p video upscaling, HDMI output and AM/FM tuner. Setup is easy (just three wires and a power cord), while step-by-step instructional DVD walks you through the process. A programmable, easy-to-use universal remote control lets you command your TV and most other devices along with your DVD system. Graphite (B&H# B0321GSIIG) **999.00**

**CineMate® Series II • CineMate® GS Series II**

Home Theater Systems

The CineMate® Series II speaker system provides high-quality home theater sound to get more from your HDTV. Just two compact speakers and a hideaway Acoustimass module deliver sweeping cinematic sound that puts you in the middle of your movies, games and sports. Proprietary TrueSpace® technology enables immersive performance – without immersing you in equipment. Eliminates much of the wiring of traditional 5-speaker systems. Just connect the system to your TV and control basic functions with a simple four-button remote. The CineMate®

GS Series II steps up with premium Gemstone® speakers and improved digital acoustic performance.

CineMate® Series II (B&H# BOCMI) **599.00**
CineMate® GS Series II (B&H# BOCMGSII) **799.00**

Acoustimass® Speakers**Acoustimass® 16 Series II**

The best Bose® 6.1-channel Virtually Invisible® speakers for your ultimate surround sound experience. Enjoy a surround sound experience from six compact cube speaker arrays and a hideaway Acoustimass module.

Black (B&H# BOAM162B) **1,299.00**

DAV-DZ170 BRAVIA Theater System with DVD Player

Make your movies come alive with the sleek DAV-DZ170 BRAVIA home theater system. It combines a DVD/CD player with 1080p upscaling and HDMI output, 1000 watts of home theater power, iPod compatibility and connectivity, Digital Cinema Audio Calibration for quick speaker set-up, and a one-touch remote control. An Easy Set-up Disc guides you through the set-up process.

- View movies and photos and listen to music. Supports DVD, DVD-R/RW, DVD+R/RW DL and CD-R/CD-RW discs and plays WMA, AAC, and JPEG files.
- System optimizes speaker placement in just 30 seconds with Digital Cinema Auto Calibration.
- Connect your iPod to the front USB port and access all of your favorite music. Also allows easy MP3 ripping to your USB drive so you can take your favorite songs on-the-go.

- Can upscale standard DVDs to 1080p high-definition quality via an HDMI cable when connected to an HDTV set.
- BRAVIA Sync lets you connect products with HDMI and use one button from one remote to switch right input and begin playing.
- For convenience includes easy set-up DVD and a one page guide, gives basic speaker set-up instructions and simple connection options.

BDV-E570 • BDV-E770W • BDV-HZ970W

5.1-Channel Blu-ray Disc Home Theater Systems

The BDV-E570 and BDV-E770W are 1000-watt 5.1-channel BD home theater systems that connect to the Internet wirelessly with the included USB (802.11 Wi-Fi) adapter, allowing easy access to entertainment from the BRAVIA Internet Video platform and BD-LIVE functionality.

The BDV-E700W adds integrated S-AIR wireless audio capabilities. Sony's S-AIR technology transmits audio up to 164 feet from the main system to the included wireless rear channel surround speakers. Users can also add wireless multi-room speaker clients (sold separately)—up to 10 individual S-AIR AirStation audio devices—to enjoy music throughout the home. (The BDV-E570 is S-AIR ready so users can add optional modules, also sold separately). Stepping up, the 3D capable BDV-HZ970W has all the features of the BDV-E770W plus it adds IP Content Noise Reduction technology to improve web video quality.

- Enjoy 3D Blu-ray Disc™ movies in Full HD 1080p. Also supports standard Blu-ray Disc movies in high definition and upscales DVDs to near HD quality.
- They deliver full HD 1080/60p and 24p True Cinema™ output and support the latest advanced audio codecs including 7.1 channel Dolby TrueHD and Dolby Digital Plus, DTS-HD High Resolution Audio, and DTS-HD Master Audio decoding as well as bit-stream.
- Systems include Sony's Digital Media Port, which adds control and connectivity options for music playback through various accessories, including a cradle for iPod players which is packaged with each system, or an optional Network Walkman™ cradle, a PC client device, and a Bluetooth adapter (each sold separately).
- They include an easy set-up DVD with step-by-step instruction on initial set up process, eliminating any confusion during the set up process. Plus, BRAVIA Sync technology simplifies every day operation with one-button command of compatible components through HDMI.

- They feature Sony's Xross Media Bar (XMB) graphic user interface for easy menu navigation. Easily search select BRAVIA Internet partners for entertainment or information related to the disc that you are enjoying.
- iPod music playback via front USB slot
- BRAVIA® Internet Video Instantly stream a wide variety of movies, TV episodes, videos and music from a large selection of entertainment apps including: Netflix, YouTube, Pandora, Slacker
- Stream music, videos and photos from compatible DLNA devices (like a PC) using your home network.
- Gracenote™ Metadata Service instantly gives you access to detailed information about the movies you are watching

**SONY****HT-CT150 • HT-CT350**
Sound Bar Home Theater System

The HDMI v1.4 capable HT-CT150 (280W) and HT-CT350 (320W) allow 3D displays and source devices to communicate through an HDMI link. They also feature Audio Return Channel

enabling a TV, via a HDMI cable, to send audio data "upstream" to an A/V receiver or surround audio controller, increasing user flexibility and eliminating the need for any separate S/PDIF audio connection. Format support includes Dolby Digital, DTS, Dolby Pro Logic, Dolby Pro Logic II, MPEG-2 AAC, Linear PCM (2ch/5.1ch/7.1ch). They also offer S-Force PRO front surround sound technology, as well as a S-Master digital amplifier, Deep Color and x.v. Color modes. Offered in a black monolithic design, there are three HDMI inputs, one HDMI output, two S/PDIF and a digital coax input. There is also two analog audio inputs, and a DMPort (for Walkman, iPod connectors). The CT350 also has a FM tuner.

HT-CT350 Sound Bar Home Theater System (SOHTCT350).....**Call or Log-on**

JVC**TH-BA1** 4.1-Channel Sound Bar Home Theater System

The TH-BA1 features a low-profile front surround sound bar and wireless 100-watt subwoofer. It combines sleek design and simple setup with performance that delivers clear dialog and convincing surround sound. The sound bar is configured to fit neatly under a TV or can be wall-mounted. Front surround technology eliminates the need for rear speakers and the placement problems, clutter and extra wiring that comes with them. A single cable connects the sound bar to a DVD or Blu-ray player or TV via the system's two digital optical inputs and one analog input.

- Black, low-profile sound bar includes four 30-watt speakers, an amplifier and a sound processor. It also features built-in Dolby Digital, Dolby Pro Logic II and DTS decoding. Each speaker within the sound bar is amplified and housed in a separate internal structure to prevent interference.
- For simple setup and placement flexibility, the subwoofer connects to the sound bar via 2.4GHz digital wireless technology, eliminating the need for a cable connection.
- Power on/off, volume and source/surround mode selection can be done via supplied remote control.

JVTHBA1**299.95**

TH-BA3 5.1-Channel Dual Wireless Sound Bar Home Theater System

The 280-watt, 5.1-channel TH-BA3 includes a wall-mountable sound bar, wireless 6-5/16" powered subwoofer, and wireless rear speaker kit (wireless left and right surround speakers and a wireless receiver). The sound bar contains four speakers – one each for the left and right main channels and two for the center channel. Also built into the sound bar is the power amplifier, surround decoding, system controls and the transmitter for the wireless surround speakers. It offers one analog and two optical digital inputs and decodes Dolby Digital, DTS and Dolby ProLogic II surround signals. Includes easy-to-use remote control. (JVTHBA3).....**479.95**

TH-BS7 World's Slimmest 4.1-Channel Sound Bar Home Theater System

Designed to match the slimmest flat panel HDTVs, the 180-watt TH-BS7 includes a sliver of a soundbar that measures just 1.4" tall, an even slimmer wall-mountable amplifier/control unit and a wireless subwoofer. JVC's Direct Drive speaker technology uses a unique voice coil design and strong neodymium magnets to deliver outstanding sound quality and a broad soundfield from a super-slim speaker. The soundbar features four JVC Direct Drive speakers – L/R main channels and L/R surround channels – each driven by 20 watts. The two surround channels are processed using JVC's Front Surround technology to provide a surround sound effect without the need for rear speakers.

- The amplifier/control unit measures just 1.2 inches deep and can be wall mounted. It decodes Dolby Digital, DTS and Dolby Pro Logic II, and offers one analog and three optical digital inputs.
- For simple setup and placement flexibility, the system's 100-watt subwoofer (6" woofer) wirelessly connects to the sound bar, eliminating the need for a cable connection. Includes remote control.

JVTHBS7**499.95**

Panasonic**SC-BT230 • SC-BT330 • SC-BT730**
Blu-ray Home Theater Systems

Panasonic's Blu-ray Disc home theater systems employ advanced proprietary cinema surround to envelop viewers in a remarkably authentic home theater experience. True to Cinema sound and True to Cinema picture quality enable viewers to experience dynamic, clear sound and outstanding picture quality in the comfort of their home.

The SC-BT230 and SC-BT330 are equipped with advanced bamboo cone speakers for the center speaker, resulting in more responsive sounds and pure and clear vocals. The SC-BT330 and SC-BT730 include a Kelton-type subwoofer which, due to its distinctive design, drives a powerful reverberating bass in spite of its small, compact size.

The top-of-the-line SC-BT730 delivers exceptional sound quality with Pure Direct Sound speakers for front speakers and advanced bamboo cone speakers for the center and front speakers. The slim-type speaker box reduces unwanted reflection from the baffle and brings out high quality pure direct sound. This system also boasts wireless rear speakers.

For easy set-up and clutter-free layout, the SC-BT730 offers wireless rear speakers right out of the box. Simply connect the rear speakers to the included Wireless Receiver Unit, which receives radio wave transmission from the main unit. The SC-BT330 and SC-BT230 both offer rear wireless speaker capability with the optional SH-FX71 Wireless Kit for Rear Speakers.

- True To Cinema sound reproduces a realistic movie theater experience. By using a combination of real speakers and virtual speakers, the listener is enveloped in smooth, natural surround sound. Especially effective in action scenes, it gives the feeling of sitting in the center of a movie theater. To achieve True to Cinema picture quality, they incorporate PHL Reference Chroma Processor Plus, high precision processing technology that reproduces clear, vibrant colors extremely faithful to the original film.
- Each is equipped with a Universal Dock for iPod/iPhone, making it easy to play music and video downloads. Each is also Wi-Fi ready. With a Wireless LAN adaptor plugged into the USB terminal, online content can be enjoyed wirelessly by accessing to a Wireless LAN router.
- Networking and connectivity capabilities through VIERA CAST, including new content from Netflix, as well as Amazon Video on Demand, YouTube, Picasa, Bloomberg TV and Weather information. VIERA CAST compatibility lets users access online and easily view exciting content for more entertainment options. BD-Live lets users enjoy bonus content available with Blu-ray Discs.

SH-FX71 Wireless Kit for Rear Speakers

The SH-FX71 Wireless Kit is available as an optional upgrade for the SC-BT230 and SC-BT330 systems. It provides wireless rear audio with a wireless-ready home theater using a 2.4 GHz frequency and a digital transmitter card with easy insert adapter terminals and a compact rear receiver. It boasts a three-position switch for flexible setting [L/R Surround (5.1ch), Left Surround/Left Surround Back (7.1ch for 7.1ch systems), Right Surround/Right Surround Back (7.1ch) and an ID Set Switch.

SH-FX71 (# PASHFX71)**129.95**

SC-HTB1 Slim Sound Bar with Integrated Subwoofer

The SC-HTB1 gives a rich sound experience within the stylish, slim soundbar with the Advanced Bamboo Cone Speakers. These cone speakers are supposed to complement the Clear-Mode Dialogue technology to make sounds more responsive with vocals. It also integrates a subwoofer to deliver the rich bass tones, and allows minimal noise by cancelling unwanted vibrations with two speaker units reversely facing each other.

Setting up the system is a breeze, thanks to its compatibility with Audio Return Channel (ARC). Simply place it in front of the TV and connect it with just one HDMI cable. It uses a HDMI 1.4 return channel technology. (PASCHTB1).....**Call or Log-on**

YAMAHA

YSP-4100 • YSP-5100

Digital Sound Projectors

Yamaha's Digital Sound Projectors offer the most convenient way to achieve multi-channel surround sound from a single unobtrusive source component. No more multiple speakers, no more clutter, no more hiding wires. They incorporate 40 beam drivers, two woofers and 42 corresponding digital amplifiers—no other receiver, amplifier or speakers are needed. Wall-mounted or placed on a shelf or rack, they deliver sensational multi-channel sound for Blu-ray discs, DVDs and other digital sources.

They feature HD Audio decoding (Dolby TrueHD and DTS-HD Master Audio) as well as Dolby Digital Plus and DTS HD. They offer 11 Cinema DSP programs (3 movie, 3 music and 5 entertainment) to create thrillingly realistic soundscapes in any room. They features analog to HDMI video upscaling, numerous listening modes, and custom installation functions. They also include four 1080p compatible HDMI inputs and one output with Deep Color, XV Color, Auto Lip-Sync and CEC functionality, to facilitate pure digital connections with the latest home theater components. Otherwise identical, the YSP-5100 has two built-in tweeters to ensure high stereo sound quality.

- IntelliBeam™ automated system calibration enables quick and easy set up each for the optimal listening experience.
- They achieve true surround sound by directing sound beams off the walls to reach the listener from various angles. The main mode is 5 BeamPlus2 for 7-channel sources. In addition, there is a wide variety of other listening modes.
- Digital Sound Projector™ Technology controls the orientation of the sound by focusing it through multiple beams. The center channel sound is heard directly, while sounds from other channels are heard after reflecting off walls. The result is true multi-channel surround sound that sounds just like a multi-speaker system—but without the need for extra speakers.
- Built-in FM tuner and SIRIUS Satellite Radio ready
- UniVolume technology maintains a consistent volume level between different channels, programs, commercials and input sources. It can be switched on and off.
- When connected to a CEC compatible TV, such as a Panasonic VIERA Link TV, they will turn on and off together with the TV. Their volume can also be controlled via the TV remote.
- Music Enhancer function restores what was lost, when music is encoded into a digitally compressed format like MP3, so your music always sounds the way it should.
- Custom installation functions include RS-232C, IR in aIR pass through out and extended IR
- They include accessories for wireless iPod/iPhone and subwoofer transmission. Using Yamaha's yAired technology, there is no loss of signal data like with systems using Bluetooth technology. Also provide synchronized power on/off and can charge your iPod with the included charging cradle.

LE810 • LE820 • LE920 Series

HDTV AQUOS LED LCD TVs

Sharp's new AQUOS LED LCD TV series break new ground in LCD technology and design. These next-generation sets of UltraBrilliant Edge-lit AQUOS LED LCD TVs incorporate Sharp's proprietary four primary color technology enabling more than a trillion colors to be displayed for more sparkling golds, Caribbean blues and sunflower yellows.

The four-primary-color display adds the color Y (yellow) to the three colors of R (red), G (green), and B (blue). This combination expands the color gamut, faithfully rendering nearly all colors that can be discerned with the unaided human eye. Four primary color technology enables the display to reproduce colors that have been difficult to portray using conventional LCD displays, such as the golden yellow color of brass instruments.

When combined with Sharp's 1080p X-Gen LCD panel, which incorporates UV2A Technology, the displays offer dramatic reduction in energy consumption compared to conventional fluorescent-backlight LCD TVs.

They also offer a stunning new contemporary design that pushes the envelope for flat-screen television artistry. At only 1.6-inches thin, the full-front panel glass (on the LE920 and LE820 series) extends to meet the slim border for a subtle edge that befits the elegance of a modern home theater. They include Sharp's newest version of AQUOS Net, which delivers streaming video with Netflix. AQUOS Net gives users instant access to customized Web-based content as well as AQUOS Advantage Live real-time customer support. Last, they are equipped with Sharp's OPC function that automatically adjusts the unit's brightness based on the lighting of the room.

The top-of-the-line LE920 offer the pinnacle in image quality and connectivity. This Full-HD 1080p LCD TV offers outstanding performance for fast-action imagery, employing AquaMotion 240, which virtually eliminates blur and artifacts on fast-moving video. It also includes a USB media player for digital video/music/photo enjoyment.

Similar to the LE920 Series, the LE810 and LE820 combine Sharp's X-Gen LCD panel with an UltraBrilliant Edge-lit LED backlight. Sharp's proprietary Fine Motion Enhanced technology is included for 120 Hz Frame Rate Conversion, as well as fast response time (4 ms). Otherwise the same, the LE810 series features a 4,000,000:1 dynamic contrast ratio, the LE820 steps up with a 5,000,000:1 ratio.

- 4-Color Filter QuadPixel Technology adds yellow to the traditional RGB sub-pixel components, enabling the display of more than a trillion colors.
- Full HD 1080p resolution for the sharpest picture possible.
- UltraBrilliant LED System includes a "double-dome" light amplifier lens and multi-fluorescents, enabling high brightness and color purity.
- Full HD 1080p XGen LCD Panel with 10-bit processing is designed with advanced pixel control to minimize light leakage and wider aperture to let more light through.
- USB Media Player adds the convenience of viewing high-resolution photos and music on the TV.
- 120Hz Fine Motion Enhanced for fast-motion picture quality (LE810 and LE820 series). The LE920 steps up with AquaMotion 240Hz for double the motion picture quality.
- Wide Viewing Angles (176°H x 176°W) Sharp's AQUOS® LCD TVs' viewing angles are so wide, you can view the TV clearly from practically anywhere in the room.
- High Brightness (450 cd/m2) means you can put them virtually anywhere – even near windows, doors or other light sources – and the picture is still vivid.
- AQUOS Net delivers streaming video with Netflix™, customized Internet content and live customer support via Ethernet, viewable in widget, full-screen or split-screen mode.

LC-60E88UN 240HZ 60" AQUOS LCD TV with Advanced Picture Quality

Utilizing a 240Hz refresh rate panel, the 60" LC-60E88UN is the ultimate TV for sports and movie buffs. Coming in a new piano-black design, it employs Sharp's proprietary Full HD 1080p X-Gen LCD panel with UV2A technology and 10-bit processing for stunning images and a dramatically bright and clear picture. The X-Gen panel is designed with advanced pixel control to minimize light leakage, producing extremely deep black levels. The panel also provides a wider aperture to allow more light to pass through the panel, resulting in higher peak brightness. A special dejuder feature results in the smooth reproduction of film content. Combining the X-Gen panel with a 240Hz Fine Motion Advanced technology, this TV is ready for high-definition viewing of fast-action imagery. For convenience, equipped with Sharp's OPC function that automatically adjusts the unit's brightness based on the lighting of the room. Connections include four HDMI® with Instaport™ quick switching to avoid delay when switching between sources; and 1080p component and S-video inputs. Also offers an RS-232C input for custom installations, and a PC input so it can do double duty as a PC monitor. (#SHLC60E88UN).....

N1930w 19" (VIN1930W) **229.95**

N2201w

22" 720p HD TV with Side Loading DVD Player

The N2201w is the perfect compact display/PC monitor for areas where space is tight such as dorms, kids' rooms, dens, kitchens and other small rooms. The 22" display features 1680 x 1050 resolution with

1,000:1 contrast, 5ms response time and wide viewing angles. The integrated ATSC/QAM tuner receives digital terrestrial and cable broadcasts. HDMI input allows for one cable digital connection with HD components. Integrated stereo speakers are each powered by 2.5W for a complete multi-media experience.
 #VIN2201W **324.95**

VT2042 • VT2342

20- and 23" Widescreen LCD HDTVs

TV broadcasts, DVD movies, and computer games will look great when viewed on their 1600 x 900 or Full 1920 x 1080 HD displays.

- They feature ATSC/QAM/NTSC tuning system and offers a full range of inputs, including HDMI (three on the VT2342), component, S-Video, and composite. That makes it easy to turn them into a home entertainment center, with room for a digital camera, camcorder, DVR, and VCR.
- There's also a 15-pin VGA jack, so you can use them as a space-saving computer monitor.
- Enjoy the superb definition and detail of the ViewSonic's picture, thanks to their 10,000:1 high dynamic contrast ratio. Colors appear deeper and darker under virtually all room lighting conditions.
- For high performance, they feature ultra-fast 5ms response time and high-fidelity SRS TruSurround audio with SPDIF output.
- For convenience there are parental controls so you can block programs based on their ratings. They also feature closed captioning which comes in handy in noisy environments, or when it's not appropriate to turn up the sound.

VT2042 20" TV (#VINT2042) **179.95**
VT2342 23" TV (#VINT2342) **252.95**

Panasonic

Viera C2 • U2 720p and 1080p Plasma HDTVs

The VIERA C2 series (720p) and U2 series (1080P) offers stunning picture performance with a native contrast ratio of 30,000:1, an Infinite Black panel, and a 24p Cinematic Playback mode which displays movies in natural, cinematic motion, allowing you to experience theater-like viewing at home.

- 600Hz Sub-field Drive delivers razor-sharp motion focus, providing clear, vivid images when viewing action movies or watching sports events such as tennis, baseball or football games.
- Extending their versatility, the VIERA Image Viewer (SD card reader) lets you display photos on a large HDTV screen in full-HD (1920 x 1080) resolution.
- They feature HDMI inputs, component and composite video inputs with audio and digital audio output.
- For convenience, VIERA Link provides control of all compatible A/V components (Panasonic DVD/Blu-ray players, home theater sound system and HD camcorder) using only the TV's remote control and on-screen menus. Utilizing HDMI-CEC VIERA Link even permits operation of a network camera, ideal for monitoring of a home/nursery.

Viera G25 1080p Plasma HDTV

Stepping up from the S2 series, the VIERA G25 series is the center of your entertainment universe. With VIERA Cast, enjoy what the web has to offer right on the big screen. Catch up with family and friends with Skype on your TV, catch your favorite movie with Netflix and listen to great music with Pandora - plus more! And the Infinite Black Panel featured on the G25 series blocks ambient light and produces deep blacks and bright, vivid images with minimal reflection.

The G25 series are also THX certified for strict performance standards for items as black levels, resolution, contrast, scaling, motion conversion, de-interlacing and color gamut. THX certification begins during the initial product design phase and has three primary goals - to drive quality in manufacturing, optimize image quality and signal processing, and make buying decisions easier.

- VIERA Cast is a web menu that's built into the television, letting you enjoy great online entertainment like YouTube videos and your digital photos on Picasa Web Albums, all with just a click of a button—no PCs or external are required. Quick keyword input (like a cell phone) helps retrieve favorite content faster and easier. You can also get instant weather updates from a weather channel as well as the latest financial information from Bloomberg TV, and now users have access to HD movie rental via Amazon Video-on-Demand, a streaming video service with more than 40,000 titles. VIERA Cast also offers tweeting web communications with Twitter®, and home video and audio conferencing with Skype. It also provides USB terminals for a keyboard and Wireless LAN Adapter. No PC required. Best of all, the VIERA Cast menu will self-update as soon as great new online content becomes available.
- VIERA Cast's Skype capability makes it possible for people around the world to connect and communicate through voice and video calls from the comfort of their own living room on VIERA's large screen.
- A new Infinite Black Panel dramatically increase contrast when viewing in brightly lit locations, while reducing the electrical pre-discharge that causes graying has greatly enhanced black gradation. As a result, deep, rich blacks are displayed in virtually any viewing area, from living rooms to bedrooms. Even in dark film scenes, fine textures such as on clothing, are clearly reproduced.
- It's easy to view full-HD images with the SD card slot. Watch and show your photos and motion images right after you take them. Simply insert an SD Memory Card into your VIERA HDTV to display photos and full-HD videos on the large screen. You can also choose from among 5 types of background music and 5 display effects

Panasonic

Viera C22 • X2 • U22

720p and 1080p LCD HDTVs

Your favorite shows just got better. The VIERA C22 series are just right for enjoying your favorite hi-def TV shows, and make it easy to share your digital photos on screen as well. Available in 32- and 37" sizes, the monitors feature 720p resolution, IPS Alpha Panel with 178° viewing angle; VIERA Image Viewer to view digital still JPEG images; VIERA Link; 15,000:1 native contrast ratio; two HDMI inputs and a PC input. Otherwise the same, the X2 series has a universal dock for iPod/iPhone. The iPod Entertainment Kit lets you control and play back your music and videos directly from your iPod/iPhone on the TV. Otherwise the same as the C22, the U22 series steps-up with 1080p Full HD resolution.

- Panel reflections have been reduced to half those of conventional panels, to sharpen images and reduce glare.
- IPS display Panel delivers a 178° wide viewing angle with bright, clear images when viewed from almost any location in the room.
- Extending their versatility, the VIERA Image Viewer (SD card reader) lets you display photos on a large HDTV screen in full-HD (1920 x 1080) resolution.
- Intelligent Scene Controller marries gamma correction with backlight control to achieve an expanded contrast range exhibiting deep blacks, smooth color transition and clean whites.
- They also feature component and composite video inputs with audio and digital audio output
- For convenience, VIERA Link provides control of all compatible A/ components (Panasonic DVD/Blu-ray players, home theater sound system and HD camcorder) using only the TV's remote control and on-screen menus. Utilizing HDMI-CEC VIERA Link even permits operation of a network camera, ideal for monitoring of a home/nursery.
- With the VIERA Tools user interface, simply press a button on the remote control and icons such as the photos or movies from the menu screen. Now you can just select the one you want. This kind of easy operation means you have more fun and less hassle
- The included universal dock (X2 series only) plugs into a special port on the back panel. The on screen menu mirrors the iPod menu enabling you to lean back with the TV's remote and choose the artist, album, playlist, podcasts, or videos to play.

Viera D2

1080p LED-LCD HDTV

Introducing LED-backlight technology, the LED-LCD D2 series uses white LEDs arranged around the inside frame of the TV along with a special diffusion panel designed to spread the light evenly behind the LCD panel. This method of backlighting the LCD panel allows for the LED-LCD HDTVs to become extremely thin and offers a wider color gamut than traditional back-lit LCDs, which use fluorescent bulbs to provide the light source. Combined with the IPS panel, the viewing angle is enhanced, contrast is also improved and there is lower power consumption. The D2 series also features the proprietary Universal Dock for iPod; the VIERA Image Viewer to view digital still JPEG photos with music slide show capability; VIERA Link, PC input; 24p Smooth film; 120Hz Motion Picture Pro4; four HDMI connections and Clear Panel.

- Boasting a high luminous efficiency, the LED backlight helps deliver a brighter, more vivid picture while using less electricity. You enjoy the kind of bright, beautiful images that make VIERA such outstanding entertainment, while also saving energy.
- 120Hz Motion Picture Pro 4 technology produces crisp, focused images for sports, dramatic action, and all other fast-moving scenes without unnecessary color trailing.
- The iPod Entertainment Kit lets you control and play back your music and videos directly from your iPod/iPhone on the TV.
- With Motion Focus Technology, the TV detects areas with motion and activates backlight blinking for only those areas, greatly enhancing resolution.
- Enjoy naturally flowing 24p films and familiar TV-like quality. This mode optimizes the number of frames of 24p images recorded from film media such as a Blu-ray Disc. Advanced source analysis and frame generation produce smooth images that are faithful to the original.

- In Game mode, quicker image response increases the enjoyment of video games when a game console is connected to the TV. What's more VIERA produces the dark images in video games more clearly. This mode works anti-image retention (wobbling) too.

SAMSUNG

LN19C350 • LN22C350 • LN26C350 • LN32C350

Series 3 720p LCD HDTVs

Series 3 LCD HDTVs deliver vivid, life-like image with a 15,000:1 dynamic contrast ratio at a fast 8ms response time—critical for smooth pictures without “ghosting,” caused by pixels that can’t respond fast enough to the changing video signal. It’s also vital in playing games. They also feature a Wide Color Enhancer that optimizes a given color’s hue, resulting in a more natural rendering of colors, while SRS TruSurround provides an incredible immersive sound environment from just two speakers by projecting “phantom speakers” that seem to be all around you.

- Game Mode enhances dark areas, sharpens the picture, speeds up the image processing response and enhances the sounds of your games.
- High 15,000:1 dynamic contrast ratio allows you to see detail in both the lighter parts of a scene and the darker parts.
- Headphone jack allows you to view and play to your heart’s content without disturbing others.
- Wide Color Enhancer 2 optimizes a given color’s hue, resulting in a more natural rendering of colors.

Series 4 720p LCD HDTVs

Stepping up, Series 4 LCD HDTVs add DnSe (Digital Natural Sound engine) to deliver higher quality sound with more natural effects than conventional methods by reproducing the ‘genuine’ stereo sound intended by the music content creators. It achieves this by actively working on overcoming the limitations of earphones and less-than-ideal speakers to offer realistic stereo and deep bass sounds. A convenient ConnectShare JPEG input makes it easy to connect your MP3 player or digital camera to your HDTV.

Connect a thumb drive or digital camera and ConnectShare Movie’s easy on-screen interface provides an index of video, photos or music stored on it. They also incorporate AnyNet+ (HDMI-CEC) which allows peripheral AV devices such as a DVD player to be controlled by the TV remote control.

LCD 650 Series • LCD 750 Series

1080p CCFL-backlit LCD HDTVs

The LCD 650 and LCD 750 series feature CCFL backlighting, advanced connectivity and a new Ultra Clear panel, which enables enhanced picture quality. The LCD 750 series is also a proprietary 3D enabled system allowing compatibility with multiple 3D formats to provide access to 3D content from many sources. Beautifully crafted, multimedia centerpieces that play a wide array of digital content in pristine full HD glory. In addition to a comprehensive range of features and capabilities, they feature a new Ultra Clear panel to produce richer, more natural colors, deeper contrast and greater clarity than ever before.

- 120Hz refresh rate (LCD 650) works with Samsung’s proprietary Auto Motion Plus™ 120Hz frame interpolation technology, to eliminate motion blur and jitter. Furthermore, the advanced panel has a fast pixel response time to produce razor sharp images even with fast-paced motion in action scenes.
- They feature Samsung’s Internet@TV – Content Service. Powered by Yahoo! Widget Engine, users can access widget-based content from a wide array of Yahoo! Internet sources including Flickr, News, Weather and Finance. With a click of the remote, these widgets are easily accessed via a bar-style graphic user interface which sits on the bottom of the screen.
- They also include the upgraded Internet@TV with Samsung Apps, offering users an expanded, easy to navigate selection of content and applications from leading services like The Associated Press, Netflix, Pandora, Twitter, USA TODAY, and VUDU. Applications can be downloaded and viewed all while watching TV. More than 20 applications are available free of charge, with more to come.
- Aesthetically pleasing, they incorporate Samsung’s ToC™ (Touch of Color) design with a luxuriously coated translucent surface over the chassis. On the LCD 650 a two-tone gradation of transparent ruby color yields a much softer, glassier look for the deeper and wider curve at the bottom of the bezel.
- For added flexibility, they support 802.11a/b/g/n wireless networking capabilities via a wireless USB dongle, and they are DLNA-compliant, allowing viewers to easily enjoy their PC-based music, video, and pictures from any room in their home.
- They include Allshare™ for wireless connectivity and multimedia sharing across devices, allowing users to wirelessly transfer photos, movies and music from DLNA enabled PCs, mobile phones and digital cameras to their TV for big screen viewing.

LCD 750 Series Step-up Features

Samsung’s Real 240Hz™

LCD 750 sets a new bar for modern innovation for LCD HDTVs by offering built-in 3D technology. Samsung is delivering the best 3D HDTV experience possible by leveraging a number of proprietary technologies. The built-in 3D processor was developed to comply with the major 3D formats. In addition, Samsung’s 3D technology delivers a picture using a full color spectrum for an immersive viewing experience. For those not in the 3D mood, it’s easy to enjoy the same enhanced picture quality content in 2D with the push of a button. Even if 3D content is unavailable, the TVs can render 2D content – like broadcast TV, gaming content, and legacy DVDs – into 3D in real time. By adding Samsung’s 3D Blu-ray player (BD-C6900) and a pair of Samsung 3D active glasses, users can enjoy a complete 3D total solution for home entertainment.

LED C7000 • LED C8000 • LED C9000 Series

The premium and ultra slim LED C7000 (1" thin), C8000 (0.9" thin) and C9000 (pencil thin 0.3") step-up with Samsung's Real240Hz™ refresh rate technology and Samsung' proprietary built-in 3D processor compatible with major 3D format standards. While the TVs are optimized for viewing 3D content, the built in 3D processor lets you render 2D content into 3D in real time. Combined with Samsung's 3D Blu-ray player or home theater system (BD-C6900 and HT-C6930W), and unique Samsung-designed 3D Active Glasses, you have a total 3D solution for home entertainment. They also include Allshare™ for wireless connectivity and multimedia sharing across devices, allowing users to wirelessly transfer photos, movies and music from DLNA enabled PCs, mobile phones and digital cameras to their TV for big screen viewing.

The C9000 (only) series comes with a premium 3" color touch-screen remote control – which features a live feed of the channel you're currently watching. The easy to use, full touch-screen remote control (optional for the LED C7000 and C8000) comes complete with an earphone jack and Twin View, which lets you watch TV or Blu-ray DVD titles on the remote or TV at the same time. The remote includes Allshare and a QWERTY keyboard, and at 2.4 Ghz, its integrated Wi-Fi and infrared technology controls the TV, STB and AV devices with on-screen buttons.

Optional LED TV Accessories

LinkStick Wireless USB Adapter

The LinkStick makes it easy to connect to online content and acts like a thumb drive. When connected to a USB 2.0 port, it allows for online connectivity, offering easy access to Samsung Apps and InfoLink™ RSS data. (SAWISO9ABGNX)**79.99**

WMN1000B Ultra Slim Wall Mount

Samsung's innovative ultra-slim wall-mount solutions enhance these ultra-thin televisions by reducing the gap between the TV and the wall to a mere 0.6 inches, making the experience similar to hanging a picture frame. They feature a unique cord system to help you stay untangled for a neat and organized appearance. (SAWMN1000B)**249.95**

PLASMA HDTV

Combining full HD 1080p resolution, increased energy

efficiency, breath-taking design, and networking options with the latest audio-visual technologies, Samsung's plasmas set the standard of excellence. Despite their slim design, they harness the latest display technology to produce unmatched picture performance and deliver the ultimate in HDTV viewing experience. They offer an extremely high dynamic contrast ratio along with Ultra FilterBright technology, which uses arrays of black-coated color enhancement film to minimize glare and maximize contrast. Ultra Filter Bright Plus reduces the luminance in black levels for one of the darkest blacks ever seen on an HDTV. Exclusive Wide Color Enhancer maps HD signals to the panel's native color space, which covers 110% of the HD specification, helping the set portray hues in lifelike brilliance.

Plasma HDTV 6500 Series

In addition to featuring Samsung's signature ToC design, the 6500 Series provides expansive access to entertainment options with Samsung's Internet@TV – Content Service which enables users to access internet based multimedia content from their favorite Internet sources. The suite of services ranges from a host of Yahoo! properties (Flickr, News, Weather and Finance) to third-party content from well-known names including USA Today, YouTube and eBay. Plus, the new Samsung Apps provides users with an expanded, easy to navigate selection of content and applications from leading services like The Associated Press, Netflix, Pandora, Twitter, USA TODAY, and VUDU. Applications can be downloaded and viewed all while watching TV. Over 20 applications are available free of charge, with more to come.

- They are wireless DLNA-compliant, allowing users to enjoy their entire library of media content that may exist in various locations around the house without the hassle of extra cabling.
- Users can also connect storage and mobile devices to the USB 2.0 port to play a variety of multimedia files via USB 2.0 Movie. An expanded list of supported codecs, which also include 3GPP, MKV, WMV9 and DivX, gives users even more freedom to easily access and share nearly all forms of digital content.

Plasma HDTV 7000 Series

The ultra-slim 7000 Series is equipped with a wealth of immersive viewing and picture enhancing technologies in a slim, brushed black bezel designed with affordability in mind. Samsung's proprietary, built-in 3D processor is compatible with major 3D formats. The processing can also be applied to broadcast TV, gaming content and legacy DVDs to automatically convert 2D viewing into 3D in real time. Couple this with Samsung's 3D Blu-ray player (BD-C6900) and 3D active glasses, and you can bring the complete 3D theater experience home. The 7000 Series also includes Samsung's Clear Image Panel technology, which delivers clear images from every angle without the blurring dual images typically found with conventional panels.

Plasma HDTV 8000 Series

Samsung's Plasma HDTV 8000 Series delivers stunning performance in a deeper dimension and optimized design quality. Built-in 3D technology provides a striking depth of dimension for in home television viewing and uses a full color spectrum to deliver a rich, more immersive viewing experience. Innovations like Real Black Filter and Motion Judder Canceller (MJC) deliver the best picture quality. The Real Black Filter reduces onscreen glare caused by ambient light, so blacks and shadow details are as crisp and defined as possible, while MJC reduces motion judder commonly found in fast-paced action scenes in film-produced content. The TVs also feature a slim brushed titanium-colored bezel with hints of Samsung's signature Touch of Color™ (ToC™) design. Additionally, the TVs are equipped with Samsung's CinemaSmooth™ technology for playback of 24fps Blu-ray content mirroring the quality of the latest movie theaters.

SONY

BRAVIA EX400 • EX500

The BRAVIA EX400 and EX500 series deliver best in class BRAVIA technologies and are perfect for those who want access to premium design and outstanding performance—all at the best price. They offer Full HD 1080p resolution and can even do 1080/24p. Hook up a 1080/24p-capable Blu-ray disc player via one of the set's four HDMI ports and you'll watch movies with the cinematic look that you could once only experience in a movie theater. They offer new digital closed captioning to understand hard-to-follow dialogue or when viewing in a noisy environment. An Ambient Sensor optimizes the set's color to match room lighting while LightSensor Technology optimizes the brightness of the screen's CCFL backlight to match room lighting. USB input allows you to enjoy JPEG pictures, MP3 music and MPEG1 and MPEG2 movies from a USB enabled device.

Otherwise the same, the EX500 steps up with Motionflow 120Hz Technology. By doubling the frame rate from the standard 60 frames per second and applying Image Blur Reduction technology, Motionflow 120Hz technology deliver a crisp, fluid and realistic viewing experience during fast-action scenes with smooth motion detail and exceptional clarity.

BRAVIA EX600 • EX700

Stepping up, the BRAVIA EX600 and EX700 series offer a slim design plus amazing dynamic contrast with an Edge LED backlight design. Compared to conventional fluorescent backlights, LED-illuminated LCD TVs produce purer, whiter light that improves contrast and color accuracy, for a picture that looks beautifully natural.

Otherwise the same, the EX700 series adds Motionflow 120Hz Technology, BRAVIA Internet Video, is Wi-Fi adapter ready, and has a Presence sensor to help reduce power consumption by almost 40% compared to Sony's other LCD HDTV models.

- Experience smooth motion detail and clarity with Motionflow 120Hz technology. This technology doubles the frame rate from the standard 60 frames per second and applies Image Blur Reduction technology to deliver a crisp, fluid and realistic viewing experience during fast-action scenes.

KDL-52EX700

KDL-40EX600

- Many times people become busy and forget to turn the television off when they leave the room. Sony's Presence Sensor feature solves the issue by automatically turning off the picture when no one is present in the vicinity after a user-set timeframe. When the sensor detects motion, the TV turns it self back on instantly.
- BRAVIA Internet Video can instantly stream a wide variety of movies, TV episodes, videos and music from a large selection of entertainment apps including: Netflix, YouTube, Slacker - the list goes on and on.
- Enjoy the convenience of wireless connectivity for your home entertainment network and make accessing your online entertainment—including movies, photos, music, videos and more - even easier! (Wi-Fi dongle required).
- Eliminate standby power consumption without having to unplug your TV. Simply turn the Energy Saving Switch to off position and the TV no longer draws energy from the power source.

SONY

BRAVIA NX700 • NX800 Series

Stepping up from the KDL-EX700, the NX700 and NX800 series feature Sony's new design concept—Monolithic Design. This design changes the entire TV viewing environment by delivering the most innovative, stylish, and high-quality experience possible. With quality materials forming a simple, flush viewing surface with crisp edges and a smooth border, the models blend into the home's interior and allow viewers to focus completely on beautiful on-screen images without distraction from unnecessary decorative elements. Also, a unique 6° upward tilt option offers a more natural, comfortable viewing experience. The remote control of the Monolithic BRAVIAS has also been redesigned, now featuring a curved top surface (making easier to access the controls) and a glossy outer surface. In addition to Monolithic Design, they also offer integrated Wi-Fi wireless network capabilities (802.11N). Otherwise the same, the KDL-NX700 series features Motionflow 120Hz Technology, while the KDL-NX800 series doubles that with Motionflow 240Hz Technology.

- Motionflow™ 240Hz technology delivers exceptionally crisp and detailed images with natural motion. The Motionflow algorithm goes beyond traditional 120Hz technology by quadrupling the frame rate of conventional LCD TVs and interpolating three new frames.
- From the moment you turn on them on, you'll notice a sharp, vibrant picture. With BRAVIA Engine 3 fully digital video processor, these TVs produce breathtaking picture quality with reduced visual noise, enhanced color and overall image detail even on 1080p sources such as PlayStation®3 systems and Blu-ray Disc™ players.
- Turn the DLNA Certified® BRAVIA NX700 and NX800 HD television into your entertainment hub. Using the TV's easy-to-use Xross Media Bar™ (XMB™) navigation system and your home network, you can stream videos, photos and music stored on your DLNA Certified computer or other DLNA compliant devices directly to your BRAVIA HDTV—all without leaving the couch.
- Experience a world on online entertainment directly on your TV screen with BRAVIA Internet Video and Widgets. Using your home broadband connection, you can access apps from providers such as Netflix®, YouTube™, Slacker and more to instantly stream your favorite media. Use Widgets to access news headlines, or get updates from Twitter™ and Facebook®.
- Enjoy the convenience of built-in wireless connectivity to your home entertainment network and make accessing your online entertainment - including movies, photos, music, videos and more

BRAVIA HX800 • HX900 • LX900 Series

3D Capable BRAVIA HDTVs

Sony's 3D HDTVs will draw you closer to entertainment than ever before. The 3D models incorporate a frame sequential display and active-shutter glasses that work together with Sony's proprietary high frame rate technology reproducing full high-definition 3D images. The HX800 and HX900-series are 3D capable using optional Sony 3D active shutter glasses and 3D transmitter, while the LX900 series offers integrated 3D functionality with Sony's 3D active shutter glasses and built-in 3D transmitter.

The HX800 series utilize a Dynamic Edge LED backlight with local dimming for improved contrast and dynamic range. They feature Motionflow PRO 240Hz Technology for smooth motion, ambient sensor, optional USB Wireless-LAN adapter for easy wireless network connection, BRAVIA Engine 3 and USB and DLNA photo/music/video playback.

Otherwise the same, the HX900 series features Monolithic Design, BRAVIA Engine 3 with Intelligent Image Enhancer, and Sony's new OptiContrast panel. Designed with a clear surface treatment and a resin sheet sandwiched between the LCD display panel and glass plate, the OptiContrast panel minimizes the reflection and refraction of external and internal light producing deeper images with superior black levels even in bright rooms. In addition to integrated 3D functionality, the top-of-the-line LX900 adds Position Control to the Intelligent Presence Sensor detecting a user's viewing position to deliver optimized video/sound balance, while the Distance Alert feature helps to keep small children at an eye-friendly distance.

TERK**TV55** Indoor/Outdoor Amplified TV Antenna

Dual mode ultra low noise amplifier allows a choice of the best gain setting for maximum reception. Slim profile, weatherproof design, the TV55 can be installed anywhere—Under the eaves of a roof, on a window sill, outside wall, terrace or used as a roof top antenna.

(TEFV55).....**56.95**

**HDTV6**

Directional HDTV Antenna
Maximize your viewing experience. HDTV6 has the capability to receive all available UHF, VHF and local HDTV broadcasts. It provides amplification and high gain for high-quality picture even from distant stations. Its UHF element is highly directional and reduces signal interference.

(TEHDTV0).....**69.95**

**HDTVα****Directional Indoor HDTV Antenna**

This amplified indoor TV antenna uses high-gain amplifier to increase range and to enhance HDTV signal reception for your TV entertainment. Installs in just minutes.

TEHDTVA.....**40.99**

**HDTVi** Directional Indoor UHF/VHF HDTV Antenna

Tuned for optimum HDTV reception with a unique design that utilizes loop periodic elements and dipoles for receiving both UHF and VHF HDTV broadcasts, allowing you to receive more stations. Design accents today's high-tech HDTV sets and tuners.

TEHDTVi.....**32.99**

**HDRO****Outdoor HD Radio Antenna**

Designed and tuned to receive digital AM and FM signals. Incorporates an ultra low noise amplifier. Easy to install, mast and wall mount options included.

(TEHDRO).....**39.95**

**FDTV1A**

Omnidirectional Amplified Flat Digital Antenna
Extremely low noise amplifier provides outstanding reception. Removable amplifier for maximum flexibility. High gain picks up farther stations. 360° reception pattern eliminates constant adjustments.

(TEFDTV1A).....**49.95**

**FDTV2** Omnidirectional Flat Digital Antenna

Optimized for HDTV reception. 360° reception pattern eliminates need for constant adjustments. 3 way mounting stand and hardware included.

(TEFDTV2).....**34.95**

**FDTV2A**

Omnidirectional Amplified Flat Digital Antenna
Extremely low noise amplifier provides outstanding reception. Removable amplifier for maximum flexibility. 360° reception pattern eliminates constant adjustments. way mounting stand and hardware included.

TEFDTV2A.....**44.95**

**HDRI****Indoor HD Radio Antenna**

HD is revolutionizing the way we think about radio and the HDRI helps you hear the difference just a little more clearly. The HDRI's proprietary AM loop technology minimizes interference, and is engineered specifically for digital reception on both AM & FM, for optimal overall radio performance.

TEHDRI.....**39.95**

**VR1****TV Volume Regulator**

Easily connects between your TV and satellite receiver, cable box, or DVD player and stops loud commercials and annoying TV volume changes. Connect and forget - works automatically. Great for hearing impaired — raises volume level of hard to hear programs. (TEVR1).....**26.99**

**L-30S** 2.4 GHz Wireless Audio/Video Transmitter and Receiver System

Imagine having your A/V components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires. Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that. It also gives you the ability to control the A/V source from the other room, so you can actually change the channels on your satellite receiver from the second TV's location. With the purchase of additional receivers, you can use it with multiple TV's throughout your home. (TELF30S).....**74.95**

**SUPERSONIC****SC-602****HDTV and Digital TV Indoor Antenna**

- Supports HDTV 1080p, 1080i, 720p broadcast
- Full band DTV/UHF receiver
- High front to back ratio helps rejected unwanted multi-path signal corruption
- Flat forward gain slope delivers balance reception
- Maximum range of 40 miles
- Wall mountable design

#SUSC602.....**Call or Log-on**

**SC-603****HDTV and Digital TV Outdoor Antenna**

- Improves your picture and sound quality
- Supports HDTV 1080p, 1080i, 720p broadcast
- Full band DTV/VHF/UHF receiver
- 360° motorized rotating antenna
- Maximum range of 120 miles
- Includes wireless remote control (6 mile distance)
- Operates up to two TV sets
- Easy bracket installation

Harmony H510

Advanced Universal Remote

Say goodbye to your TV, DVD, cable, and stereo remotes. The Harmony H510 can control 5 components from any brands with an extensive infrared database that supports over 225,000 devices from 5,000+ brands. And it's constantly updated with new components and fine-tuned settings, so it will never be out-of-date.

- One button press turns on the right devices in the right order. Powers on your TV, DVD player, and stereo receiver; sets all your inputs; and even, for example, starts your movie.
- Connect the remote to your computer via the included USB cable, and the online set-up Wizard guides you through the entire setup.
- Interactive LCD with Help function makes it simple for everyone. It even asks questions to make sure you're watching and listening to the entertainment you want, exactly the way you want it.

Harmony H510 (B&H# HAH510)Call or Log-on

Harmony 700

Rechargeable Remote with One-Click Control

The Harmony H700 remote can simplify your home entertainment by replacing up to 6 remotes. It features a color screen, rechargeable batteries and one-click control of your favorite activities. The H700 offers one-button control, so you can simply select what you want to do instead of going through a complex series of button presses. The color LCD screen gives you at-a-glance access to your entertainment options. The H700 comes with rechargeable AA batteries that can go several weeks between charges. When it's time, just connect the remote to the power adaptor and plug it in to recharge.

Setting up the remote is a snap. You'll never need to punch a code. Instead, you connect Logitech's newest remote to your PC or Mac and download the software. From Betamax to Blu-Ray – you can be sure the Harmony 700 remote can control virtually any IR home-electronic device.

Harmony H700 (B&H# HAH700).....Call or Log-on

Harmony One

Advanced Universal Remote

Reduce the clutter and complexity of your living room and simplify your home entertainment with the Harmony One. Replacing up to 15 remotes, it control components from any brands with an extensive infrared database that supports over 225,000 devices from 5,000+ brands. And it's constantly updated with new components and fine-tuned settings, so it will never be out-of-date.

- Full-color touch screen provides easy, one-touch access to any entertainment activity—such as watching a DVD, watching TV, listening to music, and more.

- One simple press of the touch screen and Harmony One controls the rest, including turning on the right components in the right order and setting the correct inputs.
- Fits comfortably in your hand, while its rechargeable design (rechargeable lithium-ion battery pack with charging base) means you can stop worrying about replacing batteries.
- Sculpted, backlit buttons in logical zones, so you can find the right channel—even in the dark.
- Step-by-step guide tailors the device to perfectly match your home entertainment system

Harmony One (B&H# HAHARMONY1)Call or Log-on

Harmony H1100

The perfect complement to a sophisticated living room, the Harmony 1100 puts a brilliant, 3.5", full-color touch screen in your hands. Replacing up to 15 remotes, you'll be able to turn on everything you need with just one touch. And you can customize the controls to get the commands you want, when you want. It's like no remote you've ever used before.

- Palm-sized and rectangular shaped, it's easy to hold whether you're switching channels or turning up the volume.
- Large 3.5" color touch screen lets you see icons and commands, even in the dark. You'll have the commands you want, when you want them. And you'll be able to access all the functions of your devices. Help is even available right on the screen.
- Connect the remote to your computer and you're guided through every step for easy setup. If you hit a snag, live customer support is ready to help.

- With the optional Harmony RF Extender, you can control devices behind closed doors, even those you can't see.
- No complicated lists of what to turn on or which button to select. Select what you want to do—such as "Watch TV"—and the remote does the rest.
- Rechargeable design (rechargeable lithium-ion battery pack with charging base) means you don't have to worry about batteries.
- Supports 225,000+ devices from 5,000 brands, so you know it will work with what you have today and what you'll add tomorrow.

Harmony 1100 (B&H# HAH1100)Call or Log-on

Harmony RF Wireless Extender

Compatible with the Harmony H900 and H1100 remotes, the Harmony RF Wireless Extender offers the ability to control out-of-sight components within an incredible 100' range, even from different rooms throughout your home. This compact, fully addressable extender features four dedicated IR ports, intelligent Z-Wave RF technology, computer setup, and the ability to control up to 8 components within line-of-sight of the included IR emitters. (HAWRFE2)**Call or Log-on**

Premiere

Millions of possibilities. One screen. One remote. One box.

The TiVo Premiere box is much more than a DVR. It's a cable box, a movie box, a web box, and a music box. It's everything you love from TV and the web brought together in one place, all easy to search and explore, all on a

breathtaking new HD interface. With Premiere, you'll not only get the world's best

DVR, you'll enjoy access to a vast universe of broadband entertainment.

The TiVo Premiere XL has all the features of the TiVo Premiere box, plus it has 3 times more recording space—up to 150 hours of HD, is THX-certified for premium audio and digital quality and includes TiVo premium backlit remote control.

- New HD user interface for optimized search & discovery
- Records up to 45 hours of HD programming.
- Connects to your cable service, replacing your cable box.
- Replaces your cable box with CableCards™ you get from your cable company.
- Gets its program information by connecting to either your broadband connection or a standard phone line.
- Comes with an easy-to-read setup poster to get you started, or contact a TiVo Certified Installer in your area.
- Works with cable and digital antenna. Doesn't work with satellite.
- Full HD support (also works with standard-definition TVs).
- Takes you through a guided setup process right on your TV.
- Schedule recordings online or with your mobile phone.
- Find shows with exclusive TiVo features, like TiVo Search, WishList searches, Season Pass recordings and more.
- Control live or recorded TV with pause, rewind (3 speeds), fast-forward (3 speeds), slow-mo and instant replay.
- Record two shows at once while watching a previously recorded show.
- You've transferred your recordings to your computer, you can use TiVo® Desktop Plus software to burn a DVD and take your recorded shows with you wherever you go.

- When you connect your TiVo Premiere to a home network through a broadband Internet connection, you get a lot of extra features such as Netflix streaming video, Amazon Video On Demand, BLOCKBUSTER On Demand, YouTube videos, and the many new features offered by TiVo Desktop and TiVo Desktop Plus You can also schedule recordings online with as little as two hours' notice – even remotely on your laptop or mobile phone.
- Access the world's largest on-demand video store, including movies & TV shows from TiVo online partners like Netflix, Amazon Video On Demand, BLOCKBUSTER On Demand, and more.
- Watch YouTube™, music videos and other free web videos on your TV.
- Who says you can't take it with you? Transfer your recorded shows to your laptop and hit the road. Or use TiVo Desktop Plus to convert your shows and load them onto your laptop, iPod, iPhone, PSP, or other mobile device.
- Transfer your favorite recorded programs to your computer and burn them onto a DVD disc.
- Enjoy your PC or Mac's music and photo libraries on your TV.
- Stream photos and music from Picasa, Rhapsody, Music Choice, Live 365, and others.
- Smaller, more energy efficient and more powerful than previous TiVo generations.

Modular Wireless Speaker Conversion Systems

Now you can convert any speaker system to wireless, delivering CD-quality sound without the interference problems that plague most wireless systems. Say goodbye to weak speakers, under-powered amps and massive signal distortion. With intelligent error correction, advanced antennas and powerful 60-watt digital amps these systems convert the users' existing speaker system to create a high-fidelity surround sound environment that brings home cinema to life.

- True point-to-multipoint technology allows users to place each receiver exactly where they want to regardless of potential wireless interfering electronics like cordless phones, 802.11 computer networks and microwave ovens that normally effect wireless performance.
- Diversity antennas help overcome problems with multi-path fading (signals bouncing off walls, people, etc).
- Transmission of 6 full bandwidth 16 bit CD-quality audio channels eliminates audible noise and distortion.
- The system is expandable, with each channel having the ability to add up to 6 speakers. That means you could actually run 36 speakers off a 5.1 system...speakers literally all over your house.

The Modular Wireless Speaker Conversion line includes four models: a 5.1 system for 5 speakers and a sub, a 2.0 system for two speakers, and individual sub and speaker modules that allow additional speakers to be added to any system.

ARW5.1: 5 receivers each with 6 speaker inputs, plus one subwoofer receiver and a system transmitter for the receivers. It converts any surround sound system to a wireless system for all speakers. AC power is the only wired connection. (ACARW51) **439.95**

ARW20: Two speaker system features a transmitter with 5-channel speaker-level input and subwoofer line-level input and two 60-watt amplified receivers. (ACARW20)..... **179.95**

ARWR2: Single speaker add-on features one 2.4GHz modular wireless receiver pack with 60W amplified receiver. (ACARWR2) **89.95**

ARWS3: Single sub add-on features a wireless receiver pack for one subwoofer line-level receiver. (ACARWS3)..... **69.95**

Universal Remote Control

RF-10

The RF-10 is a universal and learning remote that sends IR and RF commands to all home theater A/V equipment. This allows the RF-10 to operate "out-of-sight" A/V components through walls, doors and cabinets when connected to the optional MRF-100 RF receiver.

- Replaces up to 8 different remote controls. Macro programming enables users to take advantage of one-touch operation.
- Punch through operation for control of frequently used functions

- Automate your system with 10 one touch macro buttons, each with up to 50 commands
- Includes thousands of built-in pre-programmed codes
- SimpleSound provides total volume control over all components in your system, even those without built-in volume control, such as TiVo, DVD & VCR.
- Retains programming without batteries up to 10 years

RF-10 (B&H# UNRF10)59.95

RF-20

Step-up features from the RF-10

- Replaces up to 10 remote controls
- Create custom text labels on the expanded LCD screen
- 5-way thumbpad for operation of menu-driven devices
- Instantly access up to 40 favorite channels with one button press
- 432 macro buttons, each with up to 190 commands

RF-20 (B&H# UNRF20)79.95

MRF-100B PowerBlaster

An RF receiver, the MRF-100B RF provides an affordable and innovative "whole-house" solution to home theater operation. Converts RF signals from an RF-10 or RF-20 remote to IR commands

and sends them to out-of-sight components via built-in front blasters, indoors or outdoors, up to 100' without pointing.

- Hide and operate A/V equipment from a room other than where A/V equipment is located. Control out-of-sight A/V components through doors, walls, cabinets and floors
- Adjust audio system volume or selection while outdoors
- Control out-of-sight A/V components through doors, walls, cabinets and floors

MRF-100B (B&H# UNMRF100B)59.95

Digital R50

Controlling up to 18 components, the Digital R50 features a self-explanatory Setup Wizard right on the large color LCD screen for quick and easy configuration—no Internet or PC required.

- Thousands of built-in control codes for your components.
- Learns functions and commands from other remotes
- Instantly access up to 48 favorite channels with one button press
- 1500 macro buttons, each with up to 255 commands
- Friendly features include smart volume control, "Sofa Mode", etc.

Bravia VPL-BW7**SONY**

Home Theater Widescreen Projector

Fill your room with big, bright, high-def images without busting the budget. The VPL-BW7 combines HD 720p resolution, 3LCD projection, 2000-lumens, and a 1000:1 contrast ratio to deliver a sharp, detailed, lifelike video image.

- HDTV-ready projector
- Auto/manual vertical keystone correction image adjustment
- 4 video inputs (composite and S-Video, HDMI and HD-15)

#SOVPLBW7 **799.95****PT-AE4000U****Panasonic**

Home Theater Widescreen Projector

Optical system pushes performance levels to an entirely new level of picture quality. A high-precision lens, Full-HD LCD panels, Hollywood Tuning, Dynamic Iris, built-in waveform monitor, and a 100,000:1 contrast ratio combine to achieve unmatched quality.

- Pure Color Filter Pro improves color purity
- Two 12v trigger outputs to activate a motorized screen
- HDMI and component inputs

#PAPTAE4000 **2,099.00****HD65****Optoma**

DLP Home Theater Projector

Turn ordinary sports broadcasts and movies into extraordinary entertainment. The HD66 can handle computer content up to 1920 x 1080, putting out a 2500 lumens at a crisp 4000:1 contrast ratio. 3D content is displayed at a maximum resolution of 720p.

Provides a true 16:9 ratio without image cut-offs and distortions. Connections include HDMI, VGA, composite, S-Video and RS-232.

#OPHD66 **Call or Log-on****Bravia VPL-HW15****SONY**

BRAVIA SXRD 1080p Home Theater Projector

Delivering an immersive cinematic experience and Full HD 1080p resolution, the VPL-HW15 is the perfect home theater solution. Three SXRD micro-display panels, ARC-F (All Range Crisp Focus) lens and BRAVIA Engine display stunning, life-like images on a scale that no flat panel HDTV can match. 200W lamp provides startling brightness. Advanced Iris 3 technology delivers up to 60,000:1 contrast by automatically optimizing picture brightness on a scene-by-scene basis.

#SOVPLHW15 **2,699.00****HC3800****MITSUBISHI**

DLP Home Theater Projector

An affordable full HD projector that delivers eye-popping images and action like you've never before seen in the comfort of your own living room. A fixed iris delivers 1300 lumens and 4000:1 contrast ratio. The HC3800 also includes a high performance 1.5x HD zoom lens that provides exquisite focus and image depth for greater installation flexibility and ultra-sharp picture performance.

#MIHC3800 **Call or Log-on****HD20****Optoma**

DLP Home Theater Projector

Whether viewing the game, watching a Blu-ray disc or playing your favorite game you'll get more out of the experience with the HD20. It puts out 1700 Lumens at a 4000:1 contrast ratio to provide rich, saturated colors in true 1080p high definition.

Capable of projecting an image of from 3-25-ft. the HD-20 can be used in the family room or large auditorium. For more flexibility it features two HDMI plus component and VGA inputs, accepts NTSC/PAL and SECAM signals and has a 100- 240v AC 50/60 Hz power supply.

#OPHD20 **Call or Log-on****MovieMate 60****EPSON**

Powerful 16:9 multimedia 3LCD projector delivers dynamic color and contrast, backed by 2000 lumens. Short throw lens can display an 80" wide screen image from only 7.8 feet away. Offers HDMI input, 1.35x digital zoom and keystone correction. More than a projector, the MovieMate 60 is a portable entertainment center incorporating a DVD player and built-in stereo audio system which handles movies, audio and video devices, karaoke and gaming consoles.

#EPMM60 **Call or Log-on****MovieMate 72****EPSON**

The ultimate high-definition projector, DVD and music player combo, MovieMate 72 takes entertainment to a new level with precision 720p resolution. This all-in-one product includes built-in progressive scan DVD/CD player and four 5W Dolby 5.1 DTS stereo speakers.

Project images up to eight times larger than on a 40", wide-screen TV. Works with iPod, Nintendo Wii, Sony PS3 or Xbox 360 video game system for more entertainment options.

#EPMM72 **1,099.00****PLV-Z700****SANYO**

Full 1080p Home Theater Projector

In addition to Full HD 1080p, the PLV-Z700's versatile lens-shifting system allows placement of the projector virtually anywhere. It provides high contrast ratio of 10,000:1, while variable iris adjusts automatically every 1/60th of a second providing the most optimal light level at all times. Also incorporates SANYO's 3D color management system, an electronic shutter that protects the lens from dust when not in use and five video modes.

#SAPLVZ700 **Call or Log-on****PowerLite 705HD****EPSON**

With 2500 lumens and a 3000:1 contrast ratio the 705HD possesses the power to project vivid, saturated pictures in a variety of lighting situations. It even has four image modes to match its capabilities to the ambient lighting condition.

HDMI 1.3a and USB inputs allow you to show everything from Blu-ray discs to JPEG picture slide shows in table top, ceiling mount or rear projection modes. Weighs a mere 5.1 pounds and comes with its own carry case.

#EPPLHC705HD **749.95****PowerLite 8500UB****EPSON**

With a 3LCD optical engine capable of projecting 1600 lumens and an incredible 200,000:1 contrast ratio, the 8500UB projects vivid, beautiful, true to life images. Displays 720p, 1080i and 1080p HD signals.

High-speed dual-layer auto iris function adjusts light output up to 60 times per second based on the gamma and black/white levels of your projected content, for perfectly adjusted images and the deepest blacks.

#EPPLHC8500 **2,499.00****H5080****vivitek**

Full 1080p Home Theater Projector

Utilizes the latest advancements in video processing technologies to create remarkable image quality.

Features Pixelworks™ processor, manual lens shift (vertical/horizontal) and interchangeable lens options to accommodate different home theater settings. Includes three HDMI v1.3, VGA, component (RGB), composite and S-Video inputs. Also offers RS-232 for one-touch automation and 12v trigger for simple screen/projector automation.
