FLOOR CARE SYSTEMS SIMPLEX SELECT

FLOOR CARE PROCEDURES

BEFORE WE START, WE NEED: EQUIPMENT

- Mop Buckets and Wringers
- Mop Heads and Sticks
- Floor Scrubber
- Ultra High-Speed Buffer
- Abrasive Floor Pads
- Polishing Floor Pads
- Wet Vacuum with Squeegee
- Dust Mop
- Rinse-Free Evaporating Liquefier
- Floor Sealer/Conditioner
- Durable Floor Finish
- Repairable Floor Finish
- Neutral Cleaner
- Neutral Disinfectant Cleaner
- Thermoplastic Floor Gloss Restorer
- Concentrated Spray Buff Compound

STEP 1 STRIPPING

1. Dilute Stripper according to directions with cool water.
2. Apply liberally with mop keeping floor very wet for at least ten minutes.
3. Agitate if possible using floor scrubber and abrasive pads.
4. Pick up re-liquefied finish and filth with vac.
5. Mop up any remaining residue. Allow to thoroughly dry.

STEP 2 SEALING

1. After stripping and detail mopping, you may find it advantageous to buff or burnish the bare clean floor prior to applying any seal or finish. Be sure to run a clean dust mop over the floor after buffing.
2. Apply base coat of sealer using conventional finishing methods. Be sure all equipment is clean prior to using.
3. Normally, one or two coats will be sufficient to provide a base for finishing. Allow each coat at least 30 minutes dry time.

STEP 3 FINISHING

1. Pour Floor Finish into clean mop bucket. (For best results and to avoid contamination, line the mop bucket first with a plastic liner.)
2. Using a new mop head, immerse in finish and wring out gently.
3. Apply a uniform coat of the finish to floor with mop.
4. Allow to dry at least 30 minutes.

NOTE: For best results, apply 5-6 coats in this manner and buff when done using a polishing pad.

STEP 4 CLEANING

1. Dust mop floor daily.
2. Clean floor with a diluted solution of Neutral Cleaner applied with a damp mop or automatic scrubber.
3. No rinsing is necessary unless gross filth is present.

STEP 5 RESTORATION

Using a restorer

1. Dust mop floors to remove surface grit.
2. Apply a thin coat of diluted Thermoplastic Floor Gloss Restorer to the floor and let dry.
3. Burnish with high-speed buffer.
4. Dust mop floor.
5. Reapply at least once a week.

Using spray buff

1. Dust mop floors to remove surface grit.
2. Apply a light mist of Spray Buff Compound directly in front of the buffer onto an area which can be comfortably worked. Do not allow the spray buff to dry on the floor.
3. Buff or burnish until dry.
4. Reapply as traffic dictates.

DUAL-SURFACE MACHINE

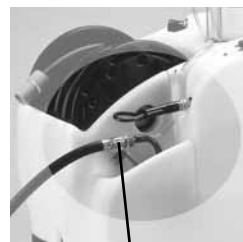

King Cobra 1200 Dual-Surface Cleaner

The latest innovation in the King Cobra Series featuring an exclusive dual-surface design. Powerful 1200 psi for hard surface cleaning of tile and grout or switch to hot water, instant 212° F carpet extraction cleaning at 150 psi. Auto-fill with power priming system, chemical metering, and auto-dumping make the King Cobra 1200 easy to operate and efficient.

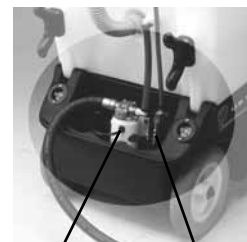

Features & Benefits

- **Hose Reel** – Patent-pending, built-in hose reel with 25' vacuum and solution hose for easy hose management.
- **Smart Circuit Locator** – Detects separate lines to eliminate blown circuits.
- **Heater Element** – In-line, after the pump for longer pump life, and instant heat to 212° F, lifetime warranty.
- **Solid State Circuitry** – Senses temperature change in heat exchanger within 1 degree for more consistent heat at the wand tip.
- **16 Gallon Capacity**
- **Low Solution Fill** – Solution fill area located low for easy bucket fill with less back stress.
- **Low Moisture System** – Less water (combined with higher heat) means faster drying, less chance of shrinkage, and less wicking from the pad.
- **Tanks and Bodies** – Lightweight, rotationally molded with lifetime warranty against cracks, leaks, and dents.
- **Wand Holder** – Stores wand for convenient transport.
- **Cord Wrap** – Can accommodate up to 50' of 12/3 electrical cord.

THE RAPTOR

**CLEAN MASTER EXTRACTOR WITH
BUILT-IN HEAT/SINGLE CORD**

The Raptor 130H gives you maximum performance out of a one-cord machine. The 130H has a 150 psi pump, 1750 watt pre-heater in a stainless steel-lined solution tank. 1000 watt in-line heater, three-stage vacuum blower, 20' vac/sol hose set and a 4" clear upholstery tool. If you want maximum "truckmount" performance, look at the Raptor 230H. We like to call this machine a "truckmount" because with adjustable pressure up to 300 psi, two 3-stage vacuum blowers, two 1000 watt in-line heaters, 50' of vac/sol hose and a 2-jet s/s S-bend wand, this two-cord machine combines portability with performance.

WAVE'N DRY® ROLL TOWEL DISPENSER

Totally touch free
dispensing. The towel
is stored fully protected
inside the dispenser.
By simply waving
your hand under the
sensor, 8", 11", 16.5"

9" Jumbo Jr. Tissue Dispenser

The Silhouette® 9"
tissue dispenser holds
one roll of toilet tissue.
This dispenser fits where
larger dispensers can't,
but is still ideal for heavy
traffic washroom usage.

PPBD017

Side-By-Side Tissue Dispenser

This efficient dispenser holds
two 9" rolls of toilet tissue.
The side-by-side design fea-
tures a serrated edge for easy
sheet tear-off and an easy
glide sliding door to ensure
only one roll is dispensed at a
time.

DILUTION CONTROL SYSTEMS

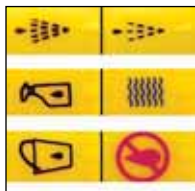

BUTCHER'S (RTD) Ready-To-Dispense

Ready-to-dispense right out of the box.

COLOR-CODED and numbered for easy identification.

SIMPLE USE ICONS for different applications.

PRE-INSTALLED male quick connect for fast product change over.

SPECIALLY DESIGNED HANDLE for ease of use.

This exciting new system is an innovation in dispensing technology.

Butcher's superconcentrates can be dispensed right out of the 1.5- or 5-liter containers without any equipment – all you need is a water hose. Each chemical bottle has a dispensing head that can dispense properly diluted cleaning solutions into spray bottle at 1.5 gpm, or mop buckets or solution tanks at up to 4 gpm. The flow rate is easily selected with a twist control knob right at your fingertips. Ergonomic handle and trigger allow for one-hand operation, and the trigger features a high-flow trigger lock to reduce fatigue when filling large containers.

Each RTD unit features an attached, removable, plastic male quick connect that mates with an optional female version. Or, once the quick connect has been removed, the dispensing head can be directly connected to a standard threaded male water hose connection.

Each RTD unit features a vacuum break for backflow protection.

Optional accessories include a 5' water hose, female quick connect, Hook-Up Kit (includes 5' water hose, a Y-valve, and on/off ball valve for the water hose and a female quick connect); a Wall Holster (lockable, holds two units of either size and includes a 6' bucket fill hose and two drip trays); and two Wire Racks (one holds two 1.5-liter units and one holds two 5-liter units).

Select Fast-Trac White-Super Polish:
For dry polishing or with fine water mist to ensure high gloss.

Select Safe-T-Polish Red Special:
Softer, less aggressive than regular Red.

Super Strip Pad/Hi Productivity Strip Pad

Our most aggressive stripping pad, this pad was designed to remove the most stubborn permanent seals and coating buildup. Its open mesh design & 5/8" (1.7 cm) thickness will not clog and load allowing complete pad contact & abrasion.

Blue Blend®/Hi Speed Pad

A proven blend of natural and synthetic fibers which produces outstanding results when used with a UHS Burnisher and UHS chemical systems. Its unique formula is designed to remove scuffs and scratches. It burnishes to a wet-look appearance and is very long lasting even under extreme propane burnishing conditions.

Thermal Thunder®/Hi Speed Pad

Our Thermal Thunder (beige) pad has been the industry standard for over 15 years. It combines just the right amount of heat and friction with fiber content to smooth away scuffs and scratches for a brilliant wet-look shine. Performs best with 1500-2000 RPM burnishers.

White Lightning® Curing Pad

Special polishing agents allows this pad to burnish brilliantly while removing scuffs and scratches. It smooths the surface to a clear wet-look gloss. Its fine denier construction is gentle on softer coatings and will not leave hazing or streaking in the coating. This pad doubles as a soft curing pad when used on fresh coating. Achieves best results with UHS burnishers.

Gorilla Lite/Hi Speed Pad

This exceptional floor pad effectively combines natural hair and fiber in a new, advanced way. This will bring out the gloss on softer, more buffable floor finishes. It's the ultimate UHS tool.

Gorilla Pad/Hi Speed Pad

A natural hair burnishing pad with binder that is hard and aggressive. Ideal for electric and battery powered machines up to 3000 RPM.

SELECT CONTOUR PADS

The Contour System makes scrubbing and polishing uneven floor surfaces much easier. With more vertical fibers per inch, they actually mold to the floor and reach every microgroove.

Dry Polish (Lime Green):
Use on any uneven or smooth surface with a buffable finish.
175-3000 RPM

Deep Scrub (Blue Striped):
Use dry or wet to loosen deeply embedded soils.
175-350 RPM

SELECT SANDSCREENS

New and improved silicon carbide coated sand-screens. Our new state-of-the-art process applies the grain and binder to our screens uniformly for unsurpassed performance. These screens deliver 25% more cutting action and last 30% longer than before. Available in 7 grits and disc sizes from 12" to 24".

SELECT STRIPPING BOOTS

These stripping boots reduce your risk of slipping while keeping your footwear dry and away from harsh chemicals.

THE SIMPLEX DIFFERENCE

SIMPLEX JANITORIAL STANDS FOR SOLUTIONS

For more than 30 years, the Simplex Janitorial success story has been written to satisfy every need of every customer. Our policy is simple...our job is your satisfaction.

You get what you need when you need it.

You get outstanding janitorial products, great prices, professional training and on-time delivery, same day if needed. At Simplex Janitorial, it's simply about the customer.

SIMPLEX JANITORIAL STANDS FOR SERVICE

Our Customer Support Team is dedicated to building strong, long-term customer relationships. You'll benefit from expertise that covers every aspect of the cleaning industry.

Our Customer Support Team is available 24/7 to meet any need or answer any questions.

WHAT'S BEHIND THE SIMPLEX JANITORIAL NAME

- Best janitorial products in the cleaning industry
- Cost-saving, high-quality Simplex brands or top national brands...your choice
- Same day delivery...round-the-clock support
- Complete in-stock supplies and equipment
- Training programs to keep customers up and running

OUR SHOWROOM AND SERVICE DEPARTMENT

In our vast showroom you can test and purchase a broad spectrum of products from cleaning supplies to the most advanced cleaning machines. We service what we sell through our "Simplex Service Plus" equipment policy. Our specialists provide on-site equipment analysis and a comprehensive parts inventory to do repairs quickly and efficiently. If necessary, a free loaner will be provided until your machine is repaired.

OUR WAREHOUSE: WALL-TO-WALL SOLUTIONS

Our state-of-the-art warehouse is one more advantage that sets Simplex Janitorial apart. You can be assured of having the product you want when you want it.

If we don't have it...you don't need it.

OUR SALES FORCE

SIMPLEX JANITORIAL LISTENS. Our highly trained and experienced account executives offer customized solutions that meet your individual needs. They have the right products and the right information to help you select what works for you. We hold regular customer satisfaction meetings to make sure we're meeting your needs every step of the way. And our broad-based educational training sessions relate directly to today's cleaning maintenance industry.
