**VSX-824-K** 5.2-Channel Networked AV Receiver with HDMI 2.0

The VSX-824-K is an advanced, yet affordable receiver featuring 6 HDMI 2.0 inputs to handle 4K2K Ultra HD video at 60 fps. Plug an optional Roku Streaming Stick into the Roku Certified MHL 2.0 port on the back of your receiver to unlock a great selection of entertainment choices. Control the attached Roku stick from the receiver's remote control or free iControlAV5 app for the most convenient access to your favorite entertainment. From switching inputs and controlling volume, to exploring all of the new features of your AVR, the iControlAV5 iOS and Android remote control app offers full control

Equipped with the optional AS-WL300 wireless network adapter, the VSX-824-K is the ultimate control center of your home entertainment system. The AS-WL300 provides wireless compatibility with applications such as iControlAV5, the AVNavigator, Internet Radio and DLNA® 1.5 Audio Streaming. The VSX-824-K gives you instant access to your favorite content and allows you to control it with your smartphone or tablet. It offers the latest Made for iPhone 5s/5c Certification. And as a networked receiver, it supports Apple's AirPlay music streaming technology, allowing you to enjoy your favorite music with your iPhone, iPod or iTunes anywhere in the house. The VSX-824-K also supports DLNA 1.5 media streaming. The VSX-824-K delivers the high-resolution music playback you demand with support for 192 kHz 24-bit AIFF, WAV, FLAC, and Apple Lossless up to 96kHz 24-Bit. Compressed formats, such as MP3, WMA, and AAC are also supported. Stream these files from your home network, tablet, or even the front USB. Last, Multi-Channel Acoustic Calibration (MCACC) creates the optimum acoustic environment for movies and music in any room in the house. The system, complete with custom microphone, automatically compensates for differences in speaker size, level, and distance, and equalizes the response. (PIVSX824K)..... **399.99**

**VSX-1024-K + VSX-1124-K**

7.2-Channel Networked AV Receivers with HDMI 2.0

Stepping up, VSX-1024-K can be setup to use two of its seven amplifiers to power a set of speakers in a second room such as a bedroom or patio. This "second zone" can enjoy content that is different than what is listened to in the main room. The top-of-the-line VSX-1124-K steps up 4K 60P Ultra HD Upscaling and Pass-through, DSD Playback, Subwoofer EQ, Dual Subwoofer Pre-out, built-in AVNavigator

**Lifestyle® 135 Series II Home Entertainment System**

Imagine the home theater sound you want without a roomful of speakers. It's all made possible by a Bose® innovation that delivers spacious sound as wide as your room – from one visible speaker that fits neatly beneath your TV and a wireless, compact Acoustimass® module. Together, they bring Bose performance to all your entertainment, every day – TV, movies, sports, video games, 3D and AM/FM radio.

Unify® technology lets you confidently connect and control up to 6 HD and music sources. Intuitive onscreen menus and universal remote control makes operation easy and connecting sources simple. And the system is also SoundTouch™ upgradeable, for streaming Internet radio, Pandora and your music library wirelessly using your home Wi-Fi network. Plus, no matter the size and shape of your room or where you place the soundbar, ADAP-TiQ audio calibration system customizes the audio to your room's acoustics. So the system sounds as good as it can.

#BOLS135IIHTS.....**2499.00**

**Lifestyle® 525 Series II ♦ Lifestyle® 535 Series II**

Home Entertainment Systems

The Bose® Lifestyle® 525 Series II delivers spacious 5.1 surround sound and crisp, clear dialogue from Direct/Reflecting® speaker arrays and a hideaway Acoustimass® module. Otherwise the same, the Lifestyle® 535 Series II system delivers immersive 5.1 surround sound and crisp, clear dialogue from award-winning Jewel Cube® speaker arrays and a hideaway Acoustimass® module. The small speakers blend elegantly into almost any, while the Acoustimass module provides deep low notes and can be hidden out of sight behind a couch or curtain. Together, they bring Bose performance

to TV, movies, sports, video games, 3D and AM/FM radio. No matter where the speakers are placed, or the size and shape of the room, the ADAPTiQ audio calibration system ensures the system will deliver a high-quality performance. And, automatic video upscaling delivers the highest resolution the TV can accept, including 1080p over HDMI.

**Solo TV Sound System**

Solo TV is a single speaker that works like a sound bar. It requires only two cables for hook-up and you can place it directly under most flat panel HDTVs up to 37" and many up to 42" as well. The Solo features Bose's speaker array technology for clear sound reproduction. It also supports proprietary digital signal processing, which optimizes and adjusts the sound at any volume level. For connectivity, the Solo is equipped with an optical digital audio input, a coaxial digital audio input and an RCA L/R stereo analog audio input. It even includes an optical cable and a compact four-button remote that controls power, volume and mute. Bose offers an optional universal remote as well. (BOSTVSS).....**399.00**

**SoundTouch™ 20 ♦ SoundTouch™ 30 Wi-Fi Music Systems**

Now you can stream Internet radio, Pandora and your music library with the touch of a button. The SoundTouch™ 20 makes listening to your favorite music easier than ever. If you already have a Wi-Fi network, you're ready to enjoy rich, room-filling sound. This compact system has a built-in power supply, making it easy to place just about anywhere. With SoundTouch™, Internet radio and music services are built right into the system, so you don't need other devices to play personal favorites. Enjoy Bose® sound in any room you want – no extra equipment necessary. That means you can put your tablet away, or leave your phone in your pocket and still stream the music you love.

SoundTouch™ app lets you personalize up to six presets, which can be found on the top of the system or the included remote. Once set, the system gives you the easiest control ever – one touch. Use the app to stream a song or station that you haven't added as a preset. SoundTouch™ systems are AirPlay enabled, so you can play music wirelessly from your iOS device. When you're ready, add more SoundTouch systems for a multi-room experience. Play the same music throughout your home, or listen to different music in different rooms. Stepping up, the SoundTouch™ 30 utilizes exclusive waveguide technology engineered around a high-performance woofer to produce deep, rich sound that can fill the largest room of a home.

Home Theater Speakers & Systems

## Virtually Invisible Speakers

### Virtually Invisible® 791 Speakers

These speakers produce more spacious and full sound than conventional in-ceiling speakers, making them well-suited for both music and home theater. Installation is easy and the flush-mount design blends seamlessly into the ceiling.

**White (BOV1791).....\$599.00**

### Virtually Invisible® 191 Speakers

Enjoy the rich sound of movies and music from speakers that blend into your décor. The speakers are easy to install flush to your wall or ceiling and can even be painted to match your room. Proprietary ported enclosure assures a quality performance. The Articulated Array® speaker design delivers Stereo Everywhere® speaker performance, which provides rich stereo sound throughout the room.

**White (BOV191).....\$298.00**

## Direct/Reflecting Speakers

### 201®/301® Series V

#### Direct/Reflecting® Speaker Systems

Thanks to Direct/Reflecting® speaker technology, these small speakers fill good-sized rooms with sound.

**201® Series V: 6½" woofer; Power rating: 10-120w per channel. Black Finish Pair (BO201B).....\$218.00**

**301® Series V: 8" woofer; Power rating: 150w per channel. Black Finish Pair (BO301B).....\$328.00**  
**Cherry Finish Pair (BO301C).....\$328.00**

### 161® Direct/Reflecting® Speaker System

These Bose® multi-purpose speakers offer high performance in a slim and elegant design for stereo surround sound use. Stereo Everywhere® speaker performance delivers stereo

almost anywhere in the room. Articulated Array® speaker design features two angled 2½" Twiddler™ drivers that reproduce lifelike stereo over a larger listening area instead of one small "sweet spot." The high-excursion Twiddler drivers generate more air movement from a small enclosure. Custom brackets enable easy mounting for stereo or surround use. Compatible with amps and receivers rated 10 to 100w per channel. Size: 41½ x 11 x 5" (HWD).

**Black Finish Pair (BO161B).....\$158.00**  
**White Finish Pair (BO161W).....\$158.00**

### 901® Series VI Direct/Reflecting Speakers

Providing legendary stereo performance in a compact and stylish package, the 901® Series VI speakers use Direct/Reflecting technology to deliver the warm, clarity, and spaciousness of a live performance from your home stereo components. You get stereo performance with balanced sound everywhere in the room, rather than in a single sweet spot. Acoustic Matrix enclosure house nine (9) full-range drivers with helically-wound aluminum voice coils to provide exceptional power handling capability, and dramatically reduced chamber noise for well-defined bass. An optional active EQ balances the output of all audio frequencies to deliver natural tonal balance and clarity.

In Black (BO901V2B) or Walnut (BO901V2W).....\$1398.00      901 Series VI Active EQ v2 (BO901V2E).....\$199.00

## Environmental Speakers

### Free Space® 51 Environmental Speakers

A freestanding speaker that conquers conventional limitations of performance and placement outdoors. Enjoy the pleasures of your favorite music by the pool ... on your deck or patio ... or in the garden. Its radial design delivers broad 360° sound coverage, while a specially engineered enclosure helps preserve music's depth and richness in the open air. Can be mounted or placed on hard surfaces, or set directly into the ground. Withstands extreme weather conditions for year-round dependability. Finally – a speaker that combines your love of music with your love of the great outdoors.

**Pioneer SP-SB23W** Speaker Bar System

Designed by renowned speaker designer, Andrew Jones, this compact solution produces remarkable stereo imaging, wider off-axis response and enhanced dynamic range. Its speaker cabinet is precision-crafted from composite wood, offering more controlled resonance and truer audio reproduction. Six individual speakers are each driven by their own dedicated amplifier and integrated by an active digital crossover network. Handling the low frequencies is a 50w powered wireless subwoofer with 6.5" driver that can be conveniently adjusted with supplied remote. (PISPSB23W)..... **396.99**

**SHARP HT-SB30D**

2-Channel Sound Bar Home Theater System

Sleek and stylish, the HT-SB30D is a 2-channel 40-watt sound bar system with Bluetooth wireless compatibility. It features a unique exposed driver design for high-definition audio and a lustrous brushed material look. This system can be set up either horizontally in front of a TV base or wall-mounted for a flexible design solution for 40" and larger class TV models. (SHHTSB30D)..... **129.99**

**SAMSUNG**

**SHAPE™ Wireless Audio System**

Integrate your music around how you live. With it's adaptive design, exceptional audio performance, and simple wireless connectivity, the speaker reinvents how you listen. Simply plug in the speaker, connect your device via Bluetooth or Wi-Fi with the free app, and start listening. The unique triangular design fits your home; on a shelf, in a cabinet, or tucked into the corner. Use one speaker horizontally for stereo audio or a pair vertically for true left/right separation. Send your music directly from your Bluetooth enabled smartphone, tablet, computer or Samsung TV to a Shape speaker. You can even simply tap to connect with your NFC enabled devices to establish an instant wireless connection.

**HT-H7730WM** 7.1 Channel 1330W Blu-Ray System

The HT-H7730WM features the DTS Neo: Fusion II codec which creates virtual 9.1-channel output by interpolating source material and turning it into an auditory experience with such depth and direction that the listener can't help but be swept into the action. Powering the HT-H7730WM is an amplifier that gives listeners the best of two worlds – the warmth of analog vacuum tubes and the power and efficiency of digital amplification. The tallboy speakers house not only midrange drivers and tweeters, but also front height speakers that can be angled upward to create height channels that enhance the immersive surround sound experience. The Blu-ray player features UHD Upscale Processor, which generates true-to-life pictures with vivid colors. Can upscale standard- and high-definition content to Ultra-High Definition (UHD) – four times the resolution of 1080p – making it compatible with UHD TVs. (SAHTH7730WM) ..... **797.99**

### LB5800 Series Full HD 1080p Smart LED TV

They feature an LCD panel with Full HD 1920 x 1080p native resolution, LED backlighting, a Triple XD Engine and MCI 120 technology, which uses the TV's 60 Hz refresh rate to reduce distortion on fast-moving images. Picture Wizard II technology allows you to self-calibrate key picture quality elements including black level, color, tint, sharpness and backlight levels.

The LB5800 has built-in Wi-Fi and Ethernet connectivity. Smart TV features include Home Dashboard 3.0, access to premium content and an app store, LG Cloud for storing media, a full web browser, SmartShare media sharing and Skype video calling with an optional camera. It also supports Intel Wireless Display (WiDi) and works with the optional Magic Remote with voice control capabilities. They offer three HDMI inputs and three USB 2.0 ports that let you play videos, music or photos from a USB drive without needing to use a PC. Other features include MHL and Miracast mobile device mirroring, SIMPLINK multi-device control, multiple picture modes, multiple sound modes, Clear Voice II technology and 20W stereo speakers.

### LB6300 Series Full HD 1080p Smart LED TV

They feature full HD picture quality and Triple XD Engine for enhanced color reproduction and life-like picture quality. With LG's Resolution Upscaler, lower resolution sources are scaled to the TV's native 1920 x 1080 resolution. MCI 600 technology uses the TV's 120 Hz refresh rate to reduce distortion on fast-moving images.

As a Smart TV, they have built-in Wi-Fi, so you can stream music and video content from LG's app-based web-interface. LG's Smart TV menu gives you access to premium content like Netflix and YouTube. They include the Magic Remote Controller, a motion detecting remote control with built-in microphone for simplified navigation and web-browsing.

For connecting multiple high-definition sources, there is a component video input and three HDMI inputs. The component video input can be used as a standard composite video and stereo RCA interface for connecting lower resolution sources. Three USB 2.0 ports are also onboard for connecting peripherals such as flash drives. Two built-in speakers deliver a combined 20W of audio power, but you do have the option of utilizing the TV's optical output for connecting to a higher power audio system.

**LB7100 Series** 1080p Smart 3D LED TV

They feature full HD picture quality and Triple XD Engine for enhanced color reproduction and life-like picture quality. With LG's Resolution Upscaler, lower resolution sources are scaled to the TV's native 1920 x 1080 resolution. MCI 960 technology, uses the TV's 240 Hz refresh rate to reduce distortion on fast-moving images. They come with 2 pairs of 3D glasses, and can convert content back and forth between 2D and 3D. Built-in Wi-Fi lets you stream music and video content from LG's app-based web-interface. Smart TV menu gives you access to premium content like Netflix and YouTube. They include the Magic Remote Controller, a motion detecting remote control with built-in mic for simplified navigation and web-browsing. Equipped with component video input and three HDMI inputs. The component video input can be used as a standard composite video and stereo RCA interface for connecting lower resolution sources. There are three USB 2.0 ports for connecting peripherals such as flash drives. Two built-in speakers deliver 20W of audio power, but you can use their optical output for connecting to a higher power audio system.

**UB9800 Series** 4K ULTRA HD TV

The UB9800 series feature 3840 x 2160 resolution ULTRA IPS panels. LG's IPS technology is highly regarded for its ability to offer extraordinarily detailed images and a wide viewing angle. This series also features improved sound with the collaboration with harman/kardon. They are equipped with a unique proprietary chip that enhances the Ultra HD resolution and optimizes overall image quality. Thanks to this chip, LG's Tru-ULTRA HD Engine Pro further differentiates the TV's picture quality.

The UB9800 comes with a sophisticated upscaling function that takes SD, HD or Full HD content and renders it in sharp, near-Ultra HD quality. Working in tandem with the Super Resolution Algorithm, the Tru-ULTRA HD Engine Pro provides a more enjoyable viewing experience by helping to eliminate the visual errors common to some other types of upscaling systems. In addition, the Tru-ULTRA HD Engine Pro also supports a technique called 4K Motion Estimation Motion Compensation (MEMC), which helps ensure that all 4K Ultra HD content appears lifelike and virtually free of motion blur. It also has a built-in 4K HEVC 60p decoder. The device decodes broadcast signals in both H.264 and HEVC H.265 formats, in both 30p or 60p. They seamlessly display Ultra HD content from nearly any input source, including HDMI, USB and LAN. LG's unique ULTRA HD CINEMA 3D uses Film Patterned Retarder (FPR) technology to render convincing 3D images with virtually no flicker or cross-talk. Also have a built-in camera and enhanced audio with built-in harman/kardon 4.2- or 5.2-channel audio systems.

**UB8500 + UB9500 Series** 4K ULTRA HD TV

The UB8500 and UB9500 contain an IPS panel with Edge LED and local dimming. Fans of ultra-fluid images will appreciate a 100 Hz refresh rate along with CMR 1000. To make up for the lack of 4K/Ultra HD content, they have an upscaling chip, Tru Ultra XD Engine Pro, which is capable of converting any content to 3840 x 2160 pixels. They use passive 3D and are therefore lined with a polarized filter and come with four pairs of glasses, two for 3D and two DualPlay glasses for simultaneous two-player gaming. For connections, they have a single HDMI 2.0 input capable of receiving 60 Hz Ultra HD signals, three HDMI 1.4 inputs, USB 3.0 port, two USB 2.0 ports and dual DVB-C2/T2 and S2 tuners. To make the TV interface nice and fluid, a quad-core processor runs WebOS with its connected functions and downloadable apps (VOD, TV replay, games, etc.).

The UB8500 features TruMotion 120Hz, 1320 UCI (Ultra Clarity Index), Magic Remote, Cinema 3D and 2.0-channel 20w audio system. The UB9500 steps up with TruMotion 240Hz, 1500 UCI and 2.1-channel 35w audio system.

**PB6600 Full HD Smart Plasma TV**

Delivers a detailed 1080p viewing experience, while supporting Internet streaming services. The PB600 Series features 1920 x 1080 resolution and 600Hz Sub Field Driving, so distortion on fast-moving material such as sporting events is kept to a minimum. As a Smart TV, it incorporates Ethernet and Wi-Fi connectivity. Once connected, you can access subscription-based and free Internet streaming services like Netflix, Hulu Plus, YouTube and more. With three HDMI ports, three USB 2.0 ports, and a component video input, you have multiple interfaces for connected high-definition video sources. The component video connection is shared with the composite video input for interfacing analog video sources. Two built-in speakers deliver 20W of total power. Virtual Surround Plus is integrated for producing dynamic virtual surround sound from the TV's built-in speakers. Using the TV's optical output, you have the option of outputting audio to an external multi-channel speaker system.

**SHARP AQUOS**

**AQUOS 6-Series AQUOS 1080p Smart LED TV**

The AQUOS 6-, 7-, 8-Series feature dual-core processor, Web browser and built-in Wi-Fi. Sharp's SmartCentral platform provides access to virtually unlimited Web based content with an expanded selection of apps, Flash and HTML5 supported Web browsing and Android and iOS remote control. They also allow you to send content from an iOS and Android phone or tablet to the TV with a flick. You can also split screens for simultaneous TV viewing and Web browsing. And, Netflix subscribers can search for content on their smartphone or tablet and then select to watch it on the TV with Netflix "Second Screen" capability. 6-Series has an astonishingly slim screen bezel. The sides of the TV amazingly appear to fall away. Turn them into a work of art. Wallpaper Mode allows pre-installed artwork images or photos from a USB drive on the screen at a reduced light level that mirrors museum conditions, so the screen blends beautifully into a room's décor with extremely low power consumption.

**AQUOS Q**

Q Series features Sharp's proprietary Quattron technology which incorporates a fourth yellow subpixel to the standard red, green and blue, giving them 33% more subpixels than a standard HDTV, for a total of 8 million subpixels. See sharper, more electrifying action with 240Hz refresh rate, while 8:1M dynamic contrast ratio delivers deeper blacks and whiter whites. For convenience, optical picture control automatically adjusts picture brightness to the light in the room. Sharp's split-screen experience lets you surf the web while you watch TV, so you won't have to choose between your favorite show and your favorite website. MHL connection turns a small-screen phone into a big-screen experience. MHL delivers HD uncompressed video with up to 8 channels of digital audio. Since MHL also charges the mobile device, you can power-up while you're connected.

For connectivity, they are equipped with 4 HDMI (4K inputs), 2 USB ports and Bluetooth. Powerful 20W audio features high fidelity with Clear Voice, so scenes sound great. With Smart Central 3.0, you can browse and search across cable, satellite, and streaming services, all in one place. With the exclusive SmartCentral 3.0 mobile app everything you do on your Smart TV can be done from your tablet or smartphone. When the TV is turned off, Wallpaper Mode lets you display virtually any image you choose.

**AQUOS Q+**

Stepping up, the Q+ series feature 10 million more subpixels than standard Full HD, for more detail, depth and color. They can also accept a 4K signal and play it back at near-4K resolution, with an effective resolution of up to 3840 x 2160. With Sharp's Revelation Upscaler, they take HD content and optimize it for the higher resolution screen, so all your HD content is sharper and more vivid. The SQ line is 3D ready, has a 240Hz Panel and is designed with a high-quality finish on a thin diamond cut bezel. The UQ line has premium features such as THX certification, AquoMotion TM 960, Super Bright Technology, premium design with aluminum bezel, 3D with 2 pairs of glasses, powerful 35W audio and Bluetooth.

SONY

**KDL-W Series** BRAVIA LED Full HD TVs

In addition to being Wi-Fi enabled, W600B Series utilizes Sony's X-Reality PRO picture processor to ensure it displays unprecedented detail and astonishing color regardless of the content source. Motionflow XR 240 produces lifelike movement for the best experience when viewing fast action programming and gaming. ClearAudio+ Digital Sound Processing (DSP) with S-Force Front Surround projects clear vocals and wide sound range. A new user interface (UI) allows viewers to stream beautiful, HD entertainment straight from the Internet or a home network using built-in Wi-Fi with ease.

- Otherwise the same, the W630B steps-up with Motionflow™ XR 480 to produce lifelike movement
- Otherwise the same, the W800B series is 3D capable and comes with 2 pairs of glasses.
- W850B steps up with an innovative structural design with iconic Wedge form factor. The Wedge shape increases capacity to incorporate larger speakers for a deeper, more powerful sound. The design also increases stability by lowering the TV's center of gravity, achieving a smaller pedestal size than conventional TVs, and allows for a variety of installation options.
- The flagship W950B series incorporates TRILUMINOS™ Display, delivering lifelike color and accurate shading. The display works in unison with Sony's X-Reality PRO picture engine which analyzes, cleans and refines images from any source, to reproduce rich, accurate color while maintaining brightness, hue and saturation. In addition, proprietary X-tended Dynamic Range achieves a much more dynamic range of brightness with deeper blacks, more detailed gradation and higher peaks. The combination of these three unique Sony technologies delivers a Full HD viewing experience like never seen before.

**XBR-Series** 4K Ultra HD TVs

The XBR-X850B series incorporates unique technologies to provide overall quality that goes beyond standard 4K resolution. Sony's 4K X Reality PRO picture engine can upscale a variety of content regardless of source to beautiful 4K resolution, while wide color gamut TRILUMINOS™ Display works in unison to reproduce lifelike color and accurate shading to ensure the highest quality picture. Iconic Wedge shape, increases capacity to incorporate larger speakers, which provide a deeper, more powerful sound, unprecedented for a flat-screen TV. In addition, they incorporate Sony's ClearAudio+ digital signal processing for improved high-quality audio. Combines a variety of Sony technologies to create an immersive experience with clear vocals and a wide range of sound. An optional wireless subwoofer (SWF-BR100) creates a richer audio experience, delivering powerful bass from the TV for a simple and stylish home theater experience.

- The XBR-X900B series steps up with X-tended Dynamic Range technology driven by Edge LED arrays arranged along the side of the panel. This leads to unprecedented brightness and deeper detail even in the whitest whites or darkest blacks on the screen to deliver a truly brilliant picture quality.
  - The flagship XBR-X950B series incorporates Sony's X-tended Dynamic Range® PRO technology driven by direct LED arrays to achieve a much wider dynamic range of brightness, with higher peaks and deeper blacks, using a unique backlighting algorithm to further enhance picture quality.

**H5500 Series** LED Smart HDTV

Turn your phone, computer or tablet into a second TV with Smart View 2.0. Whatever is playing on your TV, Netflix, VOD or live TV is streamed to your mobile device as well. This lets you watch movies, shows and sports all around the house. Do two things at once with the multi-tasking Dual Screen. Browse the web, check social media or stream a video from YouTube while you watch TV. Screen mirroring feature allows you to mirror your phone or other mobile device's screen onto the TV's screen wirelessly. Use your TV's larger display instead of your device's screen for showing content and media playback.

- Three HDMI v1.4 inputs and two USB ports
- With built-in Wi-Fi, users can use Samsung's Smart Hub to access a wide range of apps on Samsung Apps or browse the web.
- With DIRECTV's Genie Whole-Home HD-DVR, you can enjoy the full DIRECTV experience without the additional receiver.
- USB port lets you connect a variety of computer, audio and video devices to the TV. USB movie capability allows the streaming of video from storage devices, cameras, camcorders and USB drives.
- With Samsung AnyNet+ you can enjoy expanded control and seamless functionality between all your Samsung HDMI connected compatible devices
- Eco Sensor measures the intensity of the light in the room and automatically adjusts the brightness.

**H6350 Series**

## 3D LED Smart HDTVs with Built-in Wi-Fi

Faster and smarter, the H6350 Smart LED TVs have an upgraded Smart Hub that organizes your content to make finding what you're looking for easier and more intuitive than ever. This TV is backed by a lightning-fast quad core processor, which reduces lag and accelerates load and smoother navigation. View every detail of action packed movies and sports with Clear Motion Rate 240, an excellent level of motion clarity. The Samsung CMR uses the frame refresh rate, image processor speed and backlight technology to measure fast action. Built-in S Recommendation helps you discover additional content based on preferences. This model even allows you to wirelessly share content between your TV and portable devices with integrated AllShare technology. With four HDMI and three USB ports, you have multiple options for connecting high-resolution audio and video sources. A component video input is also onboard for connecting additional sources; the component video connection is shared with a composite video input for interfacing lower resolution sources.

- Built-in quad-core processor reduces lag to give you a fluid browsing experience. It enables you to switch between apps, stream content and multitask faster. This extra power also provides faster page refreshing.
- With Wide Color Enhancer Plus, you'll witness a wider spectrum of colors on your screen, just like the director intended. You'll enjoy enriched colors while watching your favorite movies and shows, even older, non-HD content.
- Browse the web on your Smart TV to find the latest content. Enjoy everything from online shopping and social media browsing to entertainment news and the latest YouTube hits. Catch up on all the trending news and then go back to watching TV.

**H6400 ♦ H7150** Full HD Smart 3D LED TVs

**Step-up features from the H6350 Series**

The H6400 Series steps up from the H6350 with Motion Rate of 480 and stunning Full HD 1080p in both 2D and 3D modes. Active 3D technology is onboard for viewing 3D material in full HD 1080p resolution. Enjoy a 3D listening experience with 3D Sound Plus. Plus, experience advanced picture contrast, color and detail with Micro Dimming. Smart Interaction with Voice Command lets you talk to the TV to search what's on, or to perform basic commands such as "last channel," "record" or "turn off". Includes two pairs of active 3D glasses as well as the Smart Touch Remote for enhanced control. Select TV functions by simply talking into the built in mic. You can also use the touchpad to navigate quickly or use the remote like a mouse. Otherwise the same, the H7150 steps up with Clear Motion Rate (CMR) 960 and Micro Dimming Pro which scans zones across the entire picture and adjusts brightness to deliver deeper blacks and brighter whites.

**PLASMA HDTV**

With sharp 2D and 3D images, virtually no motion blur, deep blacks and vivid colors, Samsung's Plasma line offers jaw-dropping picture quality uncompromised by its sleek, elegant design. Plasma +1 narrow bezel design delivers even larger screen sizes than previously available so you can enjoy outstanding immersive experience. For TV shows and movies, the innovative 600Hz subfield motion technology renders even the fastest-moving scenes with the utmost clarity and precision, so that each detail is crystal-clear.

**PN4500 ♦ PN5300 ♦ PN5500 ♦ PN8500**

The PN4500 series features 720p resolution and a Eco Sensor for more intelligent energy management. ConnectShare Movie lets you watch videos, play music or view photos from a USB drive. Dolby Digital Plus / Pulse optimizes TV sound quality when viewing and listening to Internet movies, Internet music and other content played back from wired or wireless mobile phones, PCs, and tablet devices. It also features DTS 2.0 + Digital Out, DTS Premium Sound and includes a universal remote control.

The PN5300 steps up with Full HD 1080p resolution. The realistic detail of Full HD images invites you to enjoy a viewing experience that redefines reality.

The PN5500 creates vibrant, engaging images whether you're watching 2D or 3D video. Plus, 2D-to-3D conversion creates an added sense of depth with the push of a button. If you are a 3D fan, just slip on a pair of the included 3D glasses and add another dimension to your viewing enjoyment. The PN5500 is also a Smart TV with built-in Wi-Fi. Built-in web apps let you instantly watch movies streamed from Netflix, or TV shows with Hulu Plus. Samsung's innovative Smart Hub organizes your entertainment into five simple panels. Or, just speak into the microphone built into the touchpad remote and ask the TV for recommendations while you're watching, like "what baseball games are on"?

PN8500 series steps up with Samsung's Super Contrast Panel and a 1.35GHz quad-core processor, so besides surfing the web you can do things like multitask or use one app while downloading another. Samsung's AllShare™ Play lets you wirelessly access and stream content from any compatible device. If you have a Galaxy S3/S4 smartphone or tablet, you can share movies, photos, and music via the TV.

## TOSHIBA

### L1400 ♦ L2400 Series 1080p LED HDTV

The L1400 Series feature 1920 x 1080 native resolution, and have a 60 Hz refresh rate to combat the blur of fast-moving material such as sporting events. Dynamic Picture Mode is also onboard for enhanced image contrast. Integrated ColorMaster color management, allows you to fine-tune color reproduction. Two HDMI inputs are built into the TV for interfacing high-resolution video and audio sources. There's even a component video input for connecting additional high-definition devices; the component video input can also be used as a composite video input for connecting lower-resolution video sources. This TV has dual 7W speakers built-in, but you do have the option of using the TV's digital optical connection to output audio to a multi-channel speaker system. Otherwise the same, the L2400 Series steps up with a 120 Hz refresh rate to combat the blur of fast-moving material such as sporting events.

### L3400 Series

#### Full HD 1080p Smart LED TV

As a Smart TV, the L3400U has built-in Ethernet and Wi-Fi for Internet connectivity. Once connected, you can access streaming services such as Netflix, Pandora, and YouTube. Integrated MediaShare allows you to access content across your network connected devices. Three HDMI ports and one USB port are built in for interfacing high-resolution video and audio sources. There is even a component video input for connecting additional high-definition devices; the component video input can also be used as a composite video input for connecting lower-resolution video sources. 14W speakers are built-in, but you do have the option of using the TV's digital optical connection to output audio to a multi-channel speaker system.

### L7300 ♦ L7350

#### Full HD 1080p and 1080p 3D LED HDTV

L7300 series steps up with ClearScan 240Hz for awesome, crisp images of sports and other fast-motion video. CineSpeed Panel rated for 8ms delivers high-speed video, and a Gaming Mode which lets you enjoy hair-trigger action on your TV with a special setting that reduces game controller delay. They also include a wireless keyboard with Touchpad as well as a universal remote control.

Otherwise the same, the L7350 Series is equipped with Toshiba's Trivector 2D to 3D conversion so you can enjoy the wraparound experience of three-dimensional video from the comfort of your couch. Creates dynamic 3D images without any ghosting effects both from native 3D and 2D video sources like 2D Blu-ray discs, TV programs, video games or home videos. They also include a wireless keyboard with Touchpad as well as a illuminated universal remote control.

### L9300 4K Ultra HD 3D LED TV

Featuring four times the resolution of today's 1080p HDTVs, the L9300 Cloud TV deliver the ultimate viewing experience for movies, TV and games. Powered by Toshiba's CEVO 4K Quad+Dual Core Processor, they provide the highest quality resolution restoration, color gamut and surface brilliance enhancements that bring images to life like never before and enable powerful UltraHD upscaling and 2D-to-3D conversion. Features ClearScan 240Hz refresh rate technology, Dynamic picture mode, CQ Engine technology for advanced user picture quality controls, UltraClear Dynamic Noise Reduction for cleaner images without losing details, and Depth Adaptive Resolution+ for images with better resolution and depth. Also offers 2D to 3D conversion, and an ultra-slim bezel with a "sophisticated gun-metal trim" and matching frame stand. 58L9300U 58" 4K Ultra HD 3D Ultra-Slim Cloud LED TV (T058L9300U) (\$23 est. yearly energy cost\*)

## Television Antennas & Tuners

### AVerMedia® AVerTV

#### Hybrid TVBox 11

This compact box tuner delivers HD digital TV, over-the-air (ATSC), or unencrypted digital cable (ClearQAM) right to your desk. In addition, the tuner provides transparent Picture-in-Picture so you can watch TV and work on your PC at the same time. You can also connect other devices, such as a projector, DVD player, camcorder, or video game system and switch between them. (AVMTVBOXH11)

### digitalstream DHA1000

#### High-Gain HDTV Indoor Antenna

Multi-array pattern increases your HDTV signal range, as well as the quality and reliability of over-the-air HDTV signals. Looping and LPDA technology ensures higher picture quality and access to several channels. The DHA1000 has a multi-directional design as well, so that it can receive signals from every direction. It also has a built-in VHF antenna, which is employed to capture channels 2 through 12. (DIDHA1000)

DHA1000A Ultra High-Gain HDTV Amplified Antenna (DIDHA1000A)	41.98
--	-------

800-947-4414 | 212-444-6692

**dish VQ2510 Tailgater Bundle**

Features a Tailgater Satellite and a VIP 211z HD Receiver. Together, they allow you to bring Dish TV service with you wherever you go. Just connect the Tailgater to the receiver and start watching TV wherever you are. Portable and lightweight, system is easy to set up and it automatically finds the right satellite signal.

**NYRIUS ARIES Home+ HD**

**HDMI Digital Wireless Transmitter & Receiver**

Stream 1080p video and digital surround sound audio to anywhere in your home. Organize all your audio/video components by keeping them out of sight in another room or cabinet. Transmit the signal from your Blu-ray/DVD player, digital cable box, satellite receiver, PS3, Xbox 360 or PC wirelessly to your HDTV or projector up to 100' away. Optimize your multi-room HDTV without the hassle of messy cables. Connect multiple transmitters to conveniently send all your HDMI devices to one wireless receiver. (NYNAV501).....**199.99**

**peerless-AV HDS200**

**HD Flow Pro Wireless Kit**

The HDS200 signal can span an impressive distance of 131'. It supports Full HD 1080p 60Hz wireless streaming, passive 3D transmission for passive non-shutter glasses, and 5.1 channel digital audio with Dolby and DTS. Plus, it's equipped with dual HDMI inputs and Wi-Fi 802.11n wireless connectivity.

#PEHDS200.....**439.00**

**TERK Leapfrog L-30S**

**2.4 GHz Wireless A/V Transmitter and Receiver**

Imagine having your A/V components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires. Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that. It also gives you the ability to control the A/V source from the other room, so you can actually change the channels on your satellite receiver from the second TV's location. With the purchase of additional receivers, you can use it with multiple TV's throughout your home. (TELF30S).....**62.99**
