## To Backup a Windows® Computer

**1.**Ensure that your computer is on and you are logged in.

**2.** Connect the Clickfree Backup to your computer's USB port using the USB cable that is included.

**3.** Wait for approximately 60 seconds. The Clickfree backup program will automatically start. If the Clickfree backup program does not appear on your computer screen, please see the Troubleshooting section.

4. Your backup will start and run automatically.

**5.** When backup is complete, just unplug the Clickfree Backup from your computer. Congratulations! Your files are now safe.
