End User License Agreement

End User License Agreement (“Agreement”) – This is a legal agreement between you, the end user, and AZENTEK, LLC/ INTRINSYC SOFTWARE INTERNATIONAL, INC.

(“AZENTEK/INTRINSYC”). By using all or any portion of the Software you are agreeing to be bound by the terms of this agreement. This Agreement applies to the use of software, pre-installed software on any of our hardware devices and accompanying items, including on CD-ROM, floppy disc, memory card, download package or any other data carriers, and all contents and contents programs (“Software”).

Please read this Contract carefully. By using this software you agree that this Agreement is enforceable like any written negotiated Agreement signed by you. This Agreement is enforceable against you and any legal entity that obtained the software.

If you do not agree to the terms of this Agreement, promptly return the unused software, unopened disk package and the accompanying items to the place where you obtained them for a full refund.

1. OWNERSHIP: It is hereby understood and agreed by you that AZENTEK/INTRINSYC is the owner of all title, ownership rights, intellectual property rights and copyrights in and to the Software. The Software shall remain the sole and exclusive property of AZENTEK/INTRINSYC and its licensors and AZENTEK/INTRINSYC and its licensors will retain all patents, copyrights and other intellectual property rights in the Software, as applicable. You also hereby understand and agree that AZENTEK/INTRINSYC and/or its third party licensors own all right, title and interest in and to all content included in the Software, including, but not limited to, all intellectual property rights therein (the “Content”).
2. GRANT OF LICENSE: AZENTEK/INTRINSYC grants you the right to use one copy of the Software, provided it is used on only one computer or hardware device at any time. The Software is in “use” on a computer or hardware device when it is loaded into temporary memory (e.g., hard disk, CD-ROM, or other storage device) of that computer. This license does not grant any right to obtain future upgrades, updates or supplements (“upgrades”) of the Software. Any updates are similarly governed by this Agreement and any accompanying amendments. Updates may be subject to additional costs and provisions.
3. OTHER RESTRICTIONS: Except for the initial loading of the Software onto a Hardware Device or for archival/backup purposes as provided for above, you may not rent or lease, broadcast, present, transfer, or distribute the Software and accompanying written materials. You may not reverse engineer, decompile, reverse engineer or disassemble the Software. If Software is an upgrade, any transfer must include the upgrade and all prior versions. All rights not specifically granted in this Agreement are reserved by AZENTEK/INTRINSYC.
4. TRANSFER: You may transfer the Software and this Agreement to another party to whom you may transfer the hardware devices and accompanying items if the other party agrees to accept the terms and conditions of this Agreement. If you transfer the Software, you must simultaneously either transfer all copies whether in printed or machine-readable form to the same party or destroy any copies not transferred, including all modifications and portions of the program contained or merged into other programs. You shall not sub-license, lease, assign, or transfer the Agreement or the Software except as expressly provided in this Agreement. Any attempt otherwise to sublicense, lease, assign, or transfer any of the rights, duties, or obligations hereunder renders this License VOID.
5. LIMITATION OF WARRANTIES AND LIABILITIES: EXCEPT FOR THE LIMITED WARRANTY DOCUMENT INCLUDED WITH THE HARDWARE DEVICE, IF ANY, AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ALL SOFTWARE, OTHER COMPONENTS THEREOF AND SERVICES ARE PROVIDED ON AN “AS IS” BASIS. YOU EXPRESSLY

ACKNOWLEDGE AND AGREE THAT YOUR USE OF THE SOFTWARE IS AT YOUR SOLE RISK AND THAT THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY AND EFFORT IS WITH YOU. EXCEPT AS OTHERWISE EXPRESSLY STATED IN THIS AGREEMENT, AZENTEK/INTRINSYC DOES NOT MAKE, AND HEREBY EXPRESSLY DISCLAIMS, ANY AND ALL EXPRESS AND/OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT AND TITLE, AND ANY WARRANTIES ARISING FROM A COURSE OF DEALING, USAGE OR TRADE PRACTICE. YOU UNDERSTAND AND AGREE THAT THE USE OF THE SOFTWARE IS DONE AT YOUR OWN DISCRETION AND RISK AND THAT YOU WILL BE SOLELY RESPONSIBLE FOR ANY DAMAGES.

TO THE MAXIMUM EXTENT PERMITTED BY LAW AND EXCEPT AS OTHERWISE EXPRESSLY STATED IN THIS AGREEMENT, AZENTEK/INTRINSYC WILL NOT BE LIABLE OR RESPONSIBLE TO YOU OR ANY OTHER PERSON OR ENTITY FOR ANY TYPE OF DIRECT, INCIDENTAL, SPECIAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST REVENUE, LOST PROFITS, REPLACEMENT GOODS, LOSS OF PROPRIETARY MATERIAL, RIGHTS OR SERVICES, BUSINESS INTERRUPTION, LOSS OR CORRUPTION OF ELECTRONIC COMMUNICATIONS, OR INTERRUPTION OR LOSS OF USE OF SERVICES OR EQUIPMENT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OTHER PECUNIARY LOSS, AND WHETHER ARISING UNDER THEORY OF CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, EVEN IF INTRINSYC HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR THEY ARE FORESEEABLE. IN NO EVENT SHALL AZENTEK/INTRINSYC 'S TOTAL LIABILITY (WHETHER ARISING UNDER A THEORY OF CONTRACT, TORT, INCLUDING NEGLIGENCE, STRICT LIABILITY OR OTHERWISE) UNDER OR IN CONNECTION WITH THIS AGREEMENT OR BASED ON ANY CLAIM FOR INDEMNITY OR CONTRIBUTION EXCEED THE AMOUNT OF PURCHASE PRICE OF THE AGREEMENT. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OF LIABILITY FOR PERSONAL INJURY, OR OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS LIMITATION MAY NOT APPLY TO YOU.

1. CONFIDENTIALITY: You acknowledge that the Software contains proprietary trade secrets and you hereby agree to maintain the confidentiality of Software and not to disclose or provide access thereto to any person.
2. THIRD PARTY SOFTWARE LICENSES: AZENTEK/INTRINSYC may make use of third party software. Notwithstanding the terms and conditions of this License, use of some third party materials included in the Software may be subject to other terms and conditions.
3. TERMINATION: This Agreement automatically terminates if you fail to comply with the terms hereof or if you attempt to assign the Agreement or transfer the Software to a third party except as expressly permitted in this Agreement. If such should occur, you must destroy all copies of the Software and all of its component parts. All provisions of this Agreement, except for the license grant above, survive the termination of this Agreement.
4. ENTIRE AGREEMENT: The terms and conditions of this Agreement, including any addendum or agreement to it which may be included with the accompanying package of the Software (and/or Hardware), plus the Limited Warranty, if applicable, reflect the entire agreement between You and AZENTEK/INTRINSYC with respect to the subject matter hereof and will supersede and replace all prior understandings and agreements, in whatever form, regarding the subject matter. This Agreement shall not be modified or amended except in writing signed by AZENTEK/INTRINSYC. This Agreement shall take precedence over any other documents that may be in conflict therewith.
5. TRANSLATIONS: The original English version of this Agreement may have been translated into other languages. The English version of this Agreement is the controlling version.
6. JURISDICTION AND DISPUTES

This Agreement is governed by the laws of the State of Michigan without regard to its conflict of laws rules.

All disputes hereunder shall be resolved in the applicable state or federal courts of the State of Michigan located within Genesee County, Michigan. To the extent permitted by law the parties consent to the jurisdiction of such courts, agree to accept service of process by mail, and waive any jurisdictional or venue defenses otherwise available.

12. SEVERABILITY

If at any time any one or more of the provisions of this Agreement become invalid, illegal or unenforceable in any respect for any reason, the validity, legality and enforceability of any such provision in every other respect and of the remaining provisions of this Agreement shall not be in any way impaired

About 39

Index 40

1. Introduction

Welcome to the world of mobile navigation! Simple operation, clear maps in 2D or 3D mode as well as numerous innovative features and functions have made **Destinator** the essential guide for every traveler - whether in the car, on foot or on a bike.

2. Menus

Displayed below are **Destinator's** main menus.

Go – Lets you select a location to travel to

Map – Displays route and map options.

Settings – Lets you choose setting options.

Manage Route – Additional features that determine the route.

3. Creating a Route

Address

1. Tap

2. Tap

3. Select an address entry mode:

Town/City First displays cities first and is most commonly-used.

Street First displays the street list and then the cities list.

Intersections or Road Junctions lets you travel to a designated cross-street location.

Postcode lets you select the postcode, street and address number.

4. Enter City

5. Enter Street

6. Enter Address Number or Point on the Street

7. Tap Go

Selecting Address Intersection

You can instruct **Destinator** to create a route to a selected intersection.

1. Tap Intersections

2. Select city and tap OK

3. Select a street and tap OK

4. Select a cross street and tap OK

5. Tap Go

Changing State or In Other Countries

You can change from one state to another. The State screen shows the states that are available in the current map. When using a European map, the **Change State** button becomes **In Other Countries**, which lets you create a route to a location in another country.

1. Tap In Other Countries

2. Select state and tap OK

Travelling To Options

You can select from the following options:

- **Save** – Store address to a selected folder.
- **Start Point** – Designate address as the starting point.
- **Demo Route** – Run simulated route to selected address.

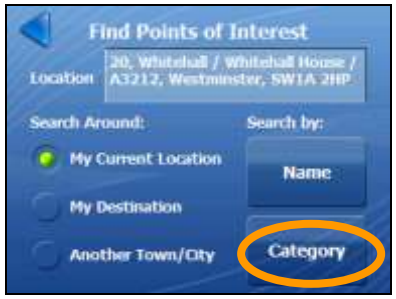
POI

Points of Interest (POI) are a collection of thousands of interesting or useful places organized into easy-to-find categories and subcategories.

Searching by POI Categories

1. Tap

2. Tap



3. Tap a Search Around option (My Current Location is selected by default) and the Category button

4. Tap a category

Search-Around Options:

My Current Location – Search near your current location.

My Destination – Search near your destination.

Another City – Search in another city.

5. Tap a subcategory

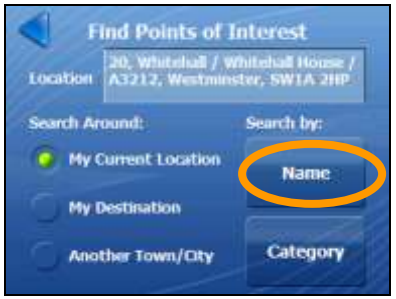
6. Tap the location and OK

7. Tap Go

Show on Map – Tap to show the locations on the **Show on Map** screen. The **Result Number** buttons correspond to the screen results. Tap the button to display the location address and to centre the location on the map. When you have selected a location, click **OK** to display the **Travelling To** screen.

Searching by POI Name

You can search for a POI by entering the entire name, individual words in the name, or letters in the words. For example to search for Bank of America, you can enter "bank of america", "america", "bank", "amer", or "ica".



1. Tap the Name button.

2. Enter a search string and tap the Search button.

3. Select location and tap OK to Travelling To screen. Tap the Scroll Down key to see the next six results.

Sort by ABC – Shows locations alphabetically and not by distance from your location.

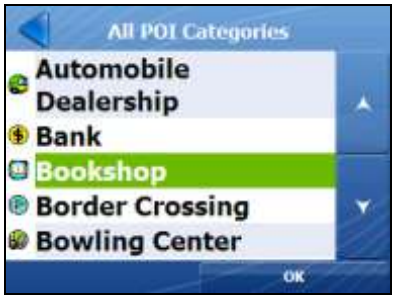
Sort by Distance – Shows locations by distance from your current location, and not alphabetically.

Show on Map – Tap to show the locations on the **Show on Map** screen. The **Result Number** buttons correspond to the screen results. Tap the button to display the location address and to centre the location on the map. When you have selected a station, click **OK** to display the **Travelling To** screen.

Browsing the Entire POI List

You can display the entire **POI Category** list.

1. Tap



2. Select a POI category and tap OK

3. Select a POI location and tap OK

4. Tap Go

Travelling To Options

For information, see the Travelling To Options on page 12.

Recent Locations

You can select from a list of recent locations that you have travelled to.

1. Tap

2. Tap

3. Select a location

4 Tap Go

Travelling To Options

For information, see the Travelling To Options on page 12.

Favorite Locations

A **Favorite location** is a destination that you have stored for easy retrieval.

Saving a Location

From the **Save Location** screen, you can tap the right and left arrow keys to select a group to where you want to save your location. To create a group, see Creating Groups for Favorite Locations on page 18.

1. Tap Save.

2. Enter a name for the location, select a group (optional), and tap OK. The location is automatically saved in My Favorites if a group is not selected.

Travelling to a Favorite Location

1. Tap

2. Tap

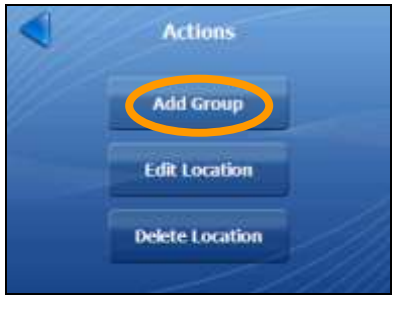
3. Select the location and tap OK

4. Tap Go

Creating Groups for Favorite Locations

You can use groups to organize your favorite locations.

1. Tap



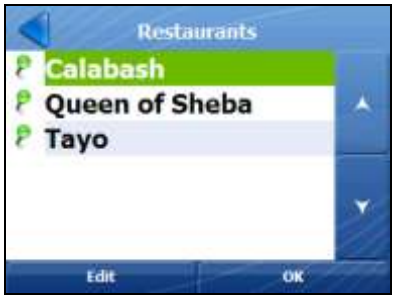
2. Tap

Additional Commands:

- Tap **Edit Group** to rename a selected group
- Tap **Delete Group** to remove a selected group

3. Enter a group name and tap OK

4. The group appears



5. Save favorites in group

Travelling To Options

For information, see the Travelling To Options on page

4. Additional Destinator Features

Driving Directions

The **Driving Directions** screen displays travel instructions as you navigate the route.

1. Tap

or

(on map)

2. Tap

3. Tap

4. Displays travel instructions from start point to end point

Showing Entire Route and Next Turn Maps

Route

Displays the entire route

Turns

Display the selected turn

Tap **Prior** to show the previous turn

Tap **Next** to show the next turn

Avoid

Removes the turn and recalculates the route

Road Type and Route Mode

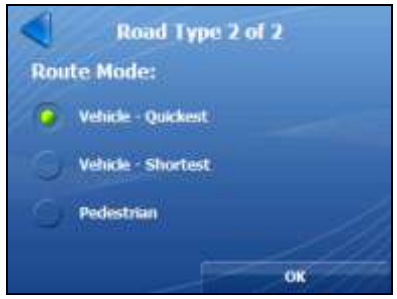
You can select roads to be excluded from your route calculations. Use this feature when you want to avoid congested roads, toll roads or unsafe streets. You can also select a route type for generating routes.

1. Tap

2. Tap

3. Tap

4. Select the road types to avoid



5. Select one of the following: Quickest (default), Shortest or Pedestrian (on foot or bike)

Route Types:

Quickest – Instructs **Destinator** to calculate the speediest route.

Shortest – Instructs **Destinator** to calculate the shortest route. The shortest route could be on city streets, which would make the route slower.

Pedestrian – Generates a route up to ten kilometers (approximately 6 miles), which is not limited by vehicle constraints, such as one way streets. When creating a pedestrian route, **Destinator** avoids motorways or other roads where pedestrians would not travel. Voice prompts are deactivated in this mode

Detours

Select a detour distance to instruct **Destinator** to calculate an alternative route. For example, if you know there is traffic for the next three miles, you can have **Destinator** calculate a detour that takes you off your current route and then returns you back to that route after a distance of three miles.

1. Tap

2. Tap

3. Tap

4. Tap a button to set the detour distance

1. Maps

GPS Bar

Map Icons

	Tap to view a larger area in less detail. Tap to view a smaller area in greater detail.
	Tap to show the **Main** menu.
	Tap the Compass to change the **Map View** display. Compass Type: **3D** – 3D map view with the forward direction at the top. **2D** – 2D map view with the forward direction at the top. **2D N** – 2D map view with North at the top.
	 Use the **Volume** bar to adjust or mute the volume.
	Next turn information. Tap for turn-by-turn directions.

	Tap the toggle button for different GPS information: • Travel Distance, Remaining Time, Arrival Time • Current Street
	The **Lane Information** bar displays all turns at an intersection. You cannot enter turns that show the **No Turn** icon.
	Speed limits are visible only when the **Speed Warning** prompt is selected. When you are exceeding the speed limit, **Destinator** displays the following icons: North America Europe **Destinator Technologies** is not responsible for discrepancies between the map speed limit information displayed in **Destinator** and the actual speed limit as displayed on the street or highway. By law, you are required to follow the speed limit postings that appear on the road.
	Destinator displays when the device is connected to a power source or when the device is running on battery. The battery status is displayed as follows: Full, Half Full, Empty.
	Tap to set your **QuickNav** location. When set, **Destinator** automatically calculates a route to the location.

Travel by Tapping the Map

When you tap on the **Map** screen, the pop-up box is displayed, providing options to:

- Navigate to the selected map location.
- Save the map location.
- Start from the selected map location.
- Call the location's phone number, when available, or another phone number (on a phone-enabled device).
- Send an SMS message that contains location coordinates (on phone-enabled device).

Night Map View

Destinator provides day and night views. It is preferable to use the night view when travelling at night or in overcast weather.

1. Tap

2. Tap Night View

3. Displays night view

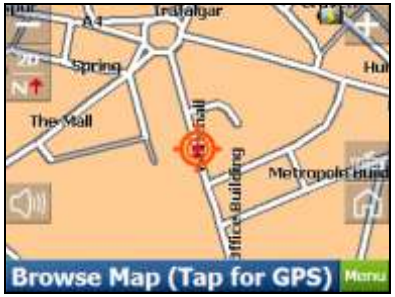
Note: Tap Day View to change to day

Browse Map

You can disconnect the GPS receiver, so that you can search for a location on the **Map** screen without **Destinator** centering the map to your current location.

1. Tap

2. Tap



3. Tap, hold and drag the map

Map Display

Select the buttons, bars and icons that you want displayed on the **Map** screen.

1. Tap

2. Tap

3. Select the options you want to show on the map

Tap the following options to display on map:

Allow Zoom Control	Shows **Zoom Out** and **Zoom In** buttons.
Display Compass	Displays the compass, which lets you change the map view.
Display Volume Control	Shows the **Volume** button.
Display Power Indicator	Reveals an icon indicating whether your device is plugged in or running on battery.
Display Speed Limit	Displays the road's speed limit information.
Display Upcoming Street Name	Shows the next street name.
Allow Screen Tap	Displays the navigation popup menu when tapping on a map location.
Display Information Bar	Displays estimated time of arrival.
Larger Labels	Increases the size of street names to make the map easier to read.
Automatic Map Zoom	When selected, the zoom is speed dependent. The map zooms out at higher speeds, displaying a larger map area, and zooms in at slower speeds, displaying a smaller map area.
Display Lane Information	Shows the lane information bar that displays all turns at the next intersection.
Display QuickNav Button	Displays the **QuickNav** button, which you tap to navigate to a pre-selected location.

Map Selection

1. Tap

2. Tap

3. Select map and tap OK

4. You must agree to use the selected map

From the **Select Map** screen, you can also choose from the following options:

- **Refresh** – Tap to update the map list.
- **Delete** – Tap to remove a map.

2. Settings

Configuration Wizard

This wizard, which automatically starts the first time you use **Destinator**, lets you easily configure the system settings by providing a step-by-step setup process. Note: You can also change these configurations from the **Setting** menus.

1. Set your language preference

2. Review the map license agreement

3. Tap Search GPS to automatically connect to GPS, based on the default settings. You can also manually set your GPS connection settings (not recommended).

4. Select time and daylight savings

5. Select your units of measure

6. Review driver warning

POI Display

Select from the list to display POI categories on the map.

1. Tap

2. Tap

3. Select the POI categories to display on the Map screen and tap OK

Voice Prompts

Select from the list of voice prompts.

1. Tap

2. Tap

3. Select the voice prompts to be used and tap OK

Tap the following prompt options:

Travelling To	**Destinator** recognizes your route by announcing the destination you are travelling to.
Arriving	Lets you know that **Destinator** has arrived at your destination.
Maneuvers	**Destinator** announces the next turn.
Say Road Names	**Destinator** announces the road name that you are turning onto. **Note:** This option requires Text-To-Speech functionality.
Route Recalculation	Notifies you of route recalculations. For example, when you miss a turn.
Speed Warning	Warns you when your car exceeds the speed limit.
GPS Not Found	Warns that no GPS signal was found.
Unreliable GPS Signal	Warns that the GPS signal is too low and unreliable for navigation.
Button Click	Lets you hear a click when tapping a button or a point on the map.

Units of Measure

Select from the list of units of measure.

1. Tap

2. Tap

3. Select the units of measure and tap OK

Language

Select the language for the user interface and voice prompts.

1. Tap

2. Tap

3. Select the text display and voice languages. Tap OK.

Time Display

Select the time zone and whether you want **Destinator** to adjust time for Daylight Savings.

1. Tap

2. Tap

3. Select the time zone and adjust time for Daylight Savings. Tap OK.

QuickNav

You can set a location so that every time you tap the icon on the **Map** screen, **Destinator** calculates the route to this location.

1. Tap

2. Tap

3. Set an Address or POI Category and tap OK

Make sure that the icon appears on the **Map** screen by selecting it from **Map Settings**.

Look & Feel

1. Tap

2 Tap

3. Displays the Look & Feel screen

Look & Feel Options:

Skin – Select a predefined skin

QWERTY Keyboard – Display the navigation keyboard as QWERTY

Auto Day-Night Switch – Automatically switches from day to night view

Demo Route

You can get the feel of how **Destinator** navigates a route by launching a navigation demo. Tap the **Start Demo** button to start the navigation demo. Tap the **Stop Demo** button to end the navigation demo.

1. Tap

2 Tap

3. Destinator runs the navigation demo

GPS Signal

Destinator receives the GPS signal from a built-in GPS receiver or an external GPS receiver. Your vehicle's location and position are constantly updated unless you are working in the **Browse Map** mode.

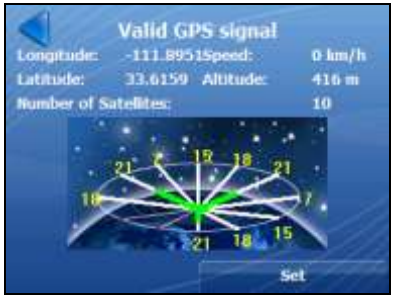
1. Tap

2. Tap

3. Displays GPS Signal information

Configuring GPS Settings

1. Tap



2. Tap Set

3. Tap Search GPS to connect to a GPS signal, using the predefined connection settings. You can also manually set your connection settings (not recommended).

You can configure your GPS connection through the following settings:

COM Port This field lets you specify the Communications port. The COM Port is disabled when your device is connected to an external GPS receiver.

Note: Most Bluetooth® receivers use COM 6 or COM 8. Most serial receivers use COM 1.

Baud Rate This field lets you specify the transmission rate of data.

Protocol This field displays the GPS protocol. The default setting is NMEA.

Note: Most receivers use NMEA 4800.

Help

Tap this button to display technical support information.

1. Tap

2. Tap

3 Technical support information is displayed

Technical Support

If you have questions about the **Destinator** software, please contact your supplier or technical support:
