

## MaxAttach NAS 4000 Quick Start Card

MaxAttach™ NAS 4000 is an easy to use network rack mount storage appliance for file sharing on Microsoft and UNIX/Linux platforms. Ideal for your office, business or workgroup, it presents the most cost-effective way to increase your network storage, and it eliminates the need for expensive server upgrades. It also includes pre-loaded server software for plug-and-work operation.

### Unit Information

Please record the following information found on the bottom of the MaxAttach unit. This information will be needed to identify your unit for configuration or Maxtor Support.

- Model Number: \_\_\_\_\_
- Serial Number/Device ID: \_\_\_\_\_

### Necessary Equipment for Installation

To connect, install and administer your MaxAttach NAS 4000, you will need a network hub or switch. You will also need the following capabilities on your workstation:

- Windows 95/98/NT (SP5)/2000 with network access
- Internet Explorer v4.01 or later, or Netscape v4.08 or later
- 10/100 Mbps Ethernet Network Interface Card, (NIC)
- Software drivers for the NIC
- TCP/IP Enabled
- CD-ROM drive

## **1 Connect MaxAttach To Your Network**

1. To connect the MaxAttach unit to the network, insert the cable that came with the unit into the network connection on the back of MaxAttach. Insert the other end into a 10/100 BASE-T Ethernet connection on your network hub or switch. Use the power cord to connect the MaxAttach to a power source.
2. Power on MaxAttach by pressing the On/Off rocker switch next to the power cord in the back of the unit. Then press the power standby button on the other side of the back panel. On the front panel of the box, the power light will flash for several minutes during the power-up cycle. When the power light stops flashing and the network light is on, your MaxAttach is ready to configure.

## **2 Install the MaxNeighborhood Software**

1. Insert the self-launching CD in the CD-ROM drive and follow the on-screen installation instructions.
2. A welcome screen will appear with options to install MaxNeighborhood or to Register Online. Click the Install MaxNeighborhood button.
3. When the installation is complete, you will be given the option to launch. To launch, click FINISH. A MaxNeighborhood window will appear with a "SEARCHING, Please Wait. . . ." message – indicating that the computer is searching for MaxAttach units. When the search is complete, the grid window will display the MaxAttach unit(s) on your network.

## **3 Launch the Configuration Wizard**

1. Highlight and double-click on the name of your MaxAttach unit in the MaxNeighborhood window.
2. The Configuration Wizard will help you set the clock, assign an administrator password and assign a unit name and workgroup. The system will restart with the updated settings.
3. You're Done! For more details on configuration, installation and trouble shooting, please refer to the MaxAttach NAS 4000 Installation Guide.
