Instructions for use

Let's make things better.

PHILIPS MAGNAVOX

Once your PHILIPS MAGNAVOX purchase is registered, you're eligible to receive all the privileges of owning a PHILIPS MAGNAVOX product. So complete and return the Warranty Registration Card enclosed with your purchase at once. And take advantage of these important benefits.

• Warranty Verification

Registering your product within 10 days confirms your right to maximum protection under the terms and conditions of your PHILIPS MAGNAVOX warranty.

• Owner Confirmation

Your completed Warranty Registration Card serves as verification of ownership in the event of product theft or loss.

• Model Registration

Returning your Warranty Registration Card right away guarantees you'll receive all the information and special offers which you qualify for as the owner of your model.

Congratulations on your **purchase,** and welcome to the **"family!"**

PHILIPS MAGNAVOX

REGISTRATION NEEDED WITHIN 10 DAYS
PHILIPS MAGNAVOX
Hurry!

Dear PHILIPS MAGNAVOX product owner:

Thank you for your confidence in PHILIPS MAGNAVOX. You've selected one of the best-built, best-backed products available today. And we'll do everything in our power to keep you happy with your purchase for many years to come.

As a member of the PHILIPS MAGNAVOX "family," you're entitled to protection by one of the most comprehensive warranties and outstanding service networks in the industry.

What's more, your purchase guarantees you'll receive all the information and special offers for which you qualify, plus easy access to accessories from our convenient home shopping network.

And most importantly you can count on our uncompromising commitment to your total satisfaction.

All of this is our way of saying welcome–and thanks for investing in a PHILIPS MAGNAVOX product.

Sincerely,

Robert Minkhorst
President and Chief Executive Officer

P.S. Remember, to get the most from your PHILIPS MAGNAVOX product, you must return your Warranty Registration Card within 10 days. So please mail it to us right now!

Know these **safety***symbols*

⚠ This "bolt of lightning" indicates uninsulated material within your unit may cause an electrical shock. For the safety of everyone in your household, please do not remove product covering.

⚠ The "exclamation point" calls attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.

WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.

CAUTION: To prevent electric shock, match wide blade of plug to wide slot, and fully insert.

ATTENTION: Pour éviter les chocs électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu'au fond.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

SAFETY INSTRUCTIONS - Read before operating equipment

This product was designed and manufactured to meet strict quality and safety standards. There are, however, some installation and operation precautions which you should be particularly aware of.
1. **Read Instructions** - All the safety and operating instructions should be read before the appliance is operated.
2. **Retain Instructions** - The safety and operating instructions should be retained for future reference.
3. **Heed Warnings** - All warnings on the appliance and in the operating instructions should be adhered to.
4. **Follow Instructions** - All operating and use instructions should be followed.
5. **Water and Moisture** - The appliance should not be used near water - for example, near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement or near a swimming pool, etc.
6. **Carts and Stands** - The appliance should be used only with a cart or stand that is recommended by the manufacturer.
6A. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn.
6B. **Tilt/Stability** - All televisions must comply with recommended international global safety standards for tilt and stability properties of its cabinet design.
    - Do not compromise these design standards by applying excessive pull force to the front, or top, of the cabinet which could ultimately overturn the product.
    - Also, do not endanger yourself, or children, by placing electronic equipment/toys on the top of the cabinet. Such items could unsuspectingly fall from the top of the set and cause product damage and/or personal injury.
7. **Wall or Ceiling Mounting** - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.
8. **Ventilation** - The appliance should be situated so that its location or position does not interfere with its proper ventilation. For example, the appliance should not be situated on a bed, sofa, rug, or similar surface that may block the ventilation openings; or, placed in a built-in installation, such as a bookcase or cabinet that may impede the flow of air through the ventilation openings.
9. **Heat** - The appliance should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.
10. **Power Sources** - The appliance should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.

11. **Power-Cord Protection** - Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords and plugs, convenience receptacles, and the point where they exit from the appliance.
12. **Cleaning** - The appliance should be cleaned only as recommended by the manufacturer.
13. **Power Lines** - An outdoor antenna should be located away from power lines.
14. **Outdoor Antenna Grounding** - If an outside antenna is connected to the receiver, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges.

    Section 810 of the National Electric Code, ANSI/NFPA No. 70-1984, provides information with respect to proper grounding of the mats and supporting structure grounding of the lead-in wire to an antenna discharge unit, size of grounding connectors, location of antenna-discharge unit, connection to grounding electrodes and requirements for the grounding electrode. See Fig. below.
15. **Non-use Periods** - The power cord of the appliance should be unplugged from the outlet when left unused for a long period of time.
16. **Object and Liquid Entry** - Care should be taken so that objects do not fall and liquids are not spilled into the enclosure through openings.
17. **Damage Requiring Service** - The appliance should be serviced by qualified service personnel when:
    A. The power supply cord or the plug has been damaged; or
    B. Objects have fallen, or liquid has been spilled into the appliance; or
    C. The appliance has been exposed to rain; or
    D. The appliance does not appear to operate normally or exhibits a marked change in performance; or
    E. The appliance has been dropped, or the enclosure damaged.
18. **Servicing** - The user should not attempt to service the appliance beyond that described in the operating instructions. All other servicing should be referred to qualified service personnel.

Note to the CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Introduction

Onscreen MENU

SmartLock™

Sound

Remote Control Operation

General Information

Here are a few of the special features built into this new Color Television:

SmartLock™ feature allows you to block the viewing of certain channel or external audio/video connections where you might not want your children viewing inappropriate material.

Infrared Remote Control works your TV set, VCR, and a variety of wireless remote control Cable Converters (Satellite Receivers, DBS, etc.).

Standard broadcast (VHF/UHF) or Cable TV (CATV) channel capability.

Stereo TV with built-in audio amplifier and twin speaker system for receiving TV programs broadcast in stereo sound. This TV can actually detect if the signal being received is Stereo and adjust for it.

Closed Captioning allows the viewer to read TV program dialogue or voice conversations as Onscreen text.

Automatic Programming of Channels for quick and easy selection of favorite stations available in your area.

Onscreen Features (in either English, French, or Spanish) show helpful messages for setting of TV controls.

Audio/Video Jackpanel for direct connections with VCRs (or other video accessories) providing quality TV picture and sound playback.

On Timer automatically turns the TV ON at a preset time, and channel.

Sleep-Timer automatically turns the TV OFF at preset times.

SmartPicture™ allows you to set the picture color, tint, contrast, etc. for various types of programming such as Personal (picture controls the way you set them), Sports, Movies, or Weak Signals with the push of one button.

SmartSound™ controls allow you to set the sound controls for various types of listening programs such as Personal (sound controls the way you set them), Theater, Music, or Voice with the push of one button.

NOTE: This owner's manual is used with several different television models. Not all features (and drawings) discussed in this manual will necessarily match those found with your television system. This is normal and does not require you contacting your dealer or requesting service.

To adjust your TV picture controls, select a channel and follow the steps shown below:

(BEGIN)

① **Press the MENU button** on the remote to display the onscreen menu.

② **Press the CURSOR UP ▶ or DOWN ■ buttons** until the word **BRIGHTNESS** is highlighted. (Or, COLOR, PICTURE, SHARPNESS, TINT, COL. TEMP. depending on the adjustment you want to make.)

③ **Press the CURSOR RIGHT ▶▶ or the CURSOR LEFT ◀◀ buttons** to increase or decrease the brightness of the picture.

STOP

SMART HELP

BRIGHTNESS Press the ▶▶ or ◀◀ buttons until darkest parts of the picture are as bright as you prefer.

COLOR Press the ▶▶ or ◀◀ buttons to add or eliminate color.

**PICTURE Press the ▶▶ or ◀◀ buttons** until lightest parts of the picture show good detail.

SHARPNESS Press the ▶▶ or ◀◀ buttons to improve detail in the picture.
TINT Press the ▶▶ or ◀◀ buttons to obtain natural skin tones.

COLOR TEMP Press the ▶▶ or ◀◀ buttons to select NORMAL, COOL, or WARM picture preferences. (NORMAL will keep the whites, white; COOL will make the whites, bluish; and WARM will make the whites, reddish.)

The onscreen menu will time out and disappear from the screen when you finish, or you can press the STATUS/EXIT button to clear the menu from the screen.

*Y*our television comes with an *onscreen clock. During normal operation the clock appears on the screen when the STATUS/EXIT button is pressed or when a channel change occurs.*

BEGIN

1 **Press the CLOCK button** on the remote to display the onscreen CLOCK menu.

2 **Press the CURSOR UP ▶ OR CURSOR DOWN ■ buttons** until the words **SET CLOCK** are highlighted.

3 **Enter the current time using the NUMBERED buttons.** If the first number is a single digit first enter a zero then the digit (i.e., press "0", then press "8").

4 **Press the CURSOR RIGHT ▶▶ or CURSOR LEFT ◀◀ buttons** to set either **AM** or **PM** time.

Note: The **CLOCK** onscreen menu can also be accessed through the main menu by **pressing the MENU button; then scrolling up/down with the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the word **CLOCK** is highlighted. **Press the CURSOR RIGHT ▶▶ button** to activate the CLOCK menu and follow the steps above to set the time.

STOP

SMART HELP

Remember: Be sure to press "0" first and then the hour number for single digit entries.

To clear the onscreen menu press the STATUS/EXIT button, or wait a few seconds after you have finished your adjustment and the menu will automatically disappear from the screen.

12   8:30
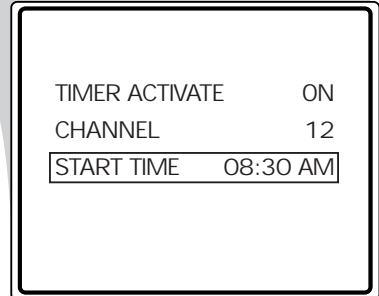

If the TV is in use when the START TIME control is about to be activated, the screen will display a warning stating it's going to change channels in 30 seconds. It will appear like the screen shown below and change to the selected start up channel. Pressing any button on the remote within this count down will cancel the change.

CHANGING
TO CHANNEL 6
IN 30 SECONDS
Closed Captioning (CC) allows you to read the voice content of television programs on the TV screen. Designed to help the hearing impaired, this feature uses onscreen "text boxes" to show dialogue and conversations while the TV program is in progress.

(BEGIN)

1 > **Press the MENU button** on the remote to display the onscreen menu.

2 > **Press the CURSOR UP▶ or CURSOR DOWN ■ button** until the word **CC** (Closed Caption) is highlighted.

3 > **Press the CURSOR RIGHT ▶▶ button** to select the CLOSED CAPTION option you want **(OFF, 1, 2, or MUTE)**. Dialogue (and descriptions) for the action on the captioned TV program will appear onscreen.

4 > **NOTE:** You can also set the Closed Caption by **pressing the CC button** on the remote. When pressed repeatedly the screen will display the options: **CC-OFF, CC-1, CC-2, or CC-MUTE.**

STOP

SMART HELP

Remember: The onscreen menu will time out and disappear from the screen when you finish, or you can press the STATUS/EXIT button to clear the menu from the screen.

NOTE: Not all TV programs and product commercials are made for broadcast with Closed Caption (CC) information included. Neither are all Closed Caption modes (CC-1, or CC-2) necessarily being used by a broadcast station during the transmission of a closed caption program. Refer to your area's TV program listings for the stations and times of Closed Caption shows.

The SmartLock feature is an integrated circuit that receives and processes data sent by broadcasters, or other program providers, that contain program content advisories. When programmed by the viewer, a TV with SmartLock can respond to the content advisories and block program content that may be found objectionable (such as offensive language, violence, sexual situations, etc.). This is a great feature to censor the type of viewing children may watch.

Over the next few pages you'll learn how to block channels *and certain rated programming. Below is a brief explanation of some terms and ratings you will find in the SmartLock feature.*

SmartLock offers various BLOCKING OPTION controls from which to choose:

MASTER DISABLE: This is what might be called the "master switch" for SmartLock. When in the ON position, ALL blocking/censoring is turned off (or disabled). When in the OFF position, ALL blocking based on specifically blocked settings will take place.

BLOCK UNRATED: ALL unrated programs based on the Movie Ratings or Parental (TV) Guidelines can be blocked if this feature is set to ON and the MASTER DISABLE feature is set to OFF.

BLOCK NO RATINGS: ALL programming with NO content advisory data can be blocked if this feature is set to ON and the MASTER DISABLE feature is set to OFF.

After an access code has been programmed, you can block up to 5 individual channels. But more than just blocking channels, certain blocking options exist which will block programming based on ratings patterned by the Motion Pictures Association of America and TV broadcasters. (See description of ratings on this page.)

MOVIE RATINGS
(MOTION PICTURE ASSOCIATION OF AMERICA)

G: General Audience - All ages admitted. Most parents would find this program suitable for all ages. This type of programming contains little or no violence, no strong language, and little or no sexual dialogue or situations.

PG: Parental Guidance Suggested - This programming contains material that parents may find unsuitable for younger children.) It may contain one or more of the following: Moderate violence, some sexual situations, infrequent coarse language, or some suggestive dialogue.

PG-13: Parents Strongly Cautioned - This programming contains material that parents may find unsuitable for children under the age of 13. It contains one or more of the following: violence, sexual situations, coarse language, or suggestive dialogue.

R: Restricted -This is programming is specifically designed for adults. Anyone under the age of 17 should only view this programming with an accompanying parent or adult guardian. It contains one or more of the following: intense violence, intense sexual situations, strong coarse language, or intensely suggestive dialogue.

NC-17: No one under the age of 17 will be admitted. - This type of programming should be viewed by adults only. It contains graphic violence, explicit sex, or crude indecent language.

X: Adults Only - This type of programming contains one or more of the following: very graphic violence, very graphic and explicit or indecent sexual acts, very coarse and intensely suggestive language.

TV PARENTAL GUIDELINES
(TV BROADCASTERS)

TV-Y - (**All children** -- *This program is designed to be appropriate for all children.*) Designed for a very young audience, including children ages 2-6. This type of programming is not expected to frighten younger children.

TV-Y7 - (**Directed to Older Children** -- *This program is designed for children age 7 and above.*) It may be more appropriate for children who have acquired the development skills needed to distinguish between make-believe and reality. This programming may include mild fantasy and comic violence (FV).

TV-G - (**General Audience** -- *Most parents would find this program suitable for all ages.*) This type of programming contains little or no violence, no strong language, and little or no sexual dialogue or situations.

TV-PG - (**Parental Guidance Suggested** -- *This program contains material that parents may find unsuitable for younger children.*) This type of programming contains one or more of the following: Moderate violence (V), some sexual situations (S), infrequent coarse language (L), or some suggestive dialogue (D).

TV-14 - (**Parents Strongly Cautioned** -- *This program contains some material that many parents would find unsuitable for children under 14 years of age.*) This type of programming contains one or more of the following: intense violence (V), intense sexual situations (S), strong coarse language (L), or intensely suggestive dialogue (D).

TV-MA - (**Mature Audience Only** -- *This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17.*) This type of programming contains one or more of the following: graphic violence (V), explicit sexual situations (S), or crude indecent language (L).

Over the next few pages you'll learn how to block channels and get a better understanding of the rating terms for certain programming.
*First, let's start by learning how to set a personal access code:*

BEGIN

**1** **Press the MENU button** on the remote to display the onscreen menu.

2 **Press the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the words **SmartLock** are highlighted.

3 **Press the CURSOR RIGHT ▶▶ button** to display the SmartLock Access Code screen.

4 **Using the NUMBERED buttons, enter 0, 7, 1, 1. "XXXX"** appears on the Access Code screen as you press the numbered buttons.

"INCORRECT CODE" will appear on the screen, and **you will need to enter 0, 7, 1, 1 again.**

5 **Press the CURSOR DOWN ■ button** until the words **CHANGE CODE** are highlighted.

6 **Press the CURSOR RIGHT ▶▶ button** to change your personal Access Code.

7 **"Next enter a "new" 4 digit code using the NUMBERED buttons.** The screen will then ask you to confirm the code you just entered. **Enter your new code again. "XXXX"** will appear when you enter your new code.

8 **Press the STATUS/EXIT button** after the new code has been entered to set the code in the TV's memory.

_ _ _ _

When a blocked channel is viewed, this is what the screen will display. To view the blocked channel, simply enter the current access code. Note: Once the access code is entered ALL blocked channels will be viewable until the TV is powered off. Once the set is turned off and then back on the previously blocked channels will again be blocked.

CHANNEL   5
LOCK   YES
CLEAR ALL   ▶

CHANNEL   ALL
LOCK   NO
ALL UNBLOCKED

Note: When the CLEAR ALL option is selected, the CHANNEL option will display ALL.
If at this point if you change the LOCK option to YES, *ALL* channels will be blocked from viewing.

SmartLock offers the viewer other blocking features as well. With these Blocking Option features, the censoring can be turned ON or OFF.

(BEGIN)

1 **Press the MENU button** on the remote to display the onscreen menu.

2 **Press the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the words **SMART LOCK** are highlighted.

3 **Press the CURSOR RIGHT ▶▶ button** to display the SmartLock Access Code screen.

4 **Using the NUMBERED buttons** on the remote, enter your personal Access Code.

5 With the word **BLOCK** highlighted, **Press the CURSOR RIGHT ▶▶ button.**

6 **Scroll the menu using the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the words **BLOCKING OPTIONS** are highlighted.

7 **Press the CURSOR RIGHT ▶▶ button** to display the **Blocking Options (MASTER DISABLE, BLOCK UNRATED, or BLOCK NO RATING).** When highlighted, each feature can be turned **ON** or **OFF using the CURSOR RIGHT ▶▶ or CURSOR LEFT ◀◀ buttons** on the remote.

If the BLOCK UNRATED or BLOCK NO RATINGS controls are turned ON, all unrated programs and programs containing NO content advisory data will display the screen shown to the left. To watch the channel enter your access code, or change the BLOCK UNRATED and BLOCK NO RATINGS back to off.

BLOCKING OPTIONS:

MASTER DISABLE: This is what might be called the "master switch" for SmartLock. When in the ON position, ALL blocking/censoring is turned off (or disabled). When in the OFF position, ALL blocking based on specifically blocked settings will take place.

BLOCK UNRATED: ALL unrated programs based on the Movie Ratings or Parental (TV) Guidelines can be blocked if this feature is set to ON and the MASTER DISABLE feature is set to OFF.

BLOCK NO RATINGS: ALL programming with NO content advisory data can be blocked if this feature is set to ON and the MASTER DISABLE feature is set to OFF.

There are two types of program ratings within the SmartLock feature. One is based on the Movie Industry ratings while the other is based on the TV Industry ratings. Both can be used to block or censor programming that has been rated in either manner.

Let's first look at the Movie Rating options of SmartLock:

(BEGIN)

1 **Press the MENU button** on the remote to display the onscreen menu.

2 **Press the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the words **SMART LOCK** are highlighted.

3 **Press the CURSOR RIGHT ▶▶ button** to display the SmartLock Access Code screen.

4 **Using the NUMBERED buttons** on the remote, enter your Personal Access Code.

5 With the word **BLOCK** highlighted, **Press the CURSOR RIGHT ▶▶ button.**

6 **Scroll the menu using the CURSOR UP ▶ or CURSOR DOWN ■ buttons** until the words **MOVIE RATINGS** are highlighted.

7 **Press the CURSOR RIGHT ▶▶ button** to display the **MOVIE RATINGS (G, PG, PG-13, R, NC17, or X).**

When highlighted, all these options can be turned **ON** *(which will allow blocking)* or **OFF** *(which will allow viewing).*

Use the CURSOR RIGHT ▶▶ or CURSOR LEFT ◀◀ buttons on the remote to turn the rating option ON or OFF.

STOP

TV-Y - (All children -- *This program is designed to be appropriate for all children.*) Designed for a very young audience, including children ages 2-6. This type of programming is not expected to frighten younger children.

TV-Y7 - (Directed to Older Children -- *This program is designed for children age 7 and above.*) It may be more appropriate for children who have acquired the development skills needed to distinguish between make-believe and reality. This programming may include mild fantasy and comic violence (FV).

TV-G - (General Audience -- *Most parents would find this program suitable for all ages.*) This type of programming contains little or no violence, no strong language and little or no sexual dialogue or situations.

TV-PG - (Parental Guidance Suggested -- *This program contains material that parents may find unsuitable for younger children.*)This type of programming contains one or more of the following: some suggestive dialogue (D), infrequent coarse language (L), some sexual situations (S), or moderate violence (V).

TV-14 - (Parents Strongly Cautioned -- *This program contains some material that many parents would find unsuitable for children under 14 years of age.*) This type of programming contains one or more of the following: intensely suggestive dialogue (D), strong coarse language (L), intense sexual situations (S), or intense violence (V).

TV-MA - (Mature Audience Only -- *This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17.*) This type of programming contains one or more of the following: crude indecent language (L), explicit sexual situations (S), or graphic violence (V).

Now that you've learn how to block channels or censor your viewing using the Movie Ratings or Parental (TV) Guidelines let's review what you've done. The SmartLock Review feature allows you to see what has been blocked. Whenever the Menu button is pressed the onscreen menu will be displayed with the SmartLock Review highlighted.

(BEGIN)

1 **Press the MENU button** on the remote to show the onscreen menu. **SmartLock REVIEW** will be highlighted.

2 **Press the CURSOR RIGHT ▶▶ button** and the SmartLock Review Menu will appear.

This menu will display what channels have been blocked; what Movie Ratings have been blocked; what Parental (TV Ratings) Guideline have been blocked. This review screen will also display that status of Unrated and No Rating settings. If the Master Disable feature has been turned ON, the SmartLock Review screen will display "SmartLock DISABLED."

```
CC                OFF
SETUP             ▶

BLOCK UNRATED     OFF
BLOCK NO RATING   OFF
```

```
SmartLock DISABLED
```
SmartLock DISABLED will appear in the SmartLock Review screen if the SmartLock Disable feature is set to ON.

CHANNELS BLOCKED - Shows all blocked channels that where set within the CHANNELS BLOCKED feature. Up to 5 channels may be blocked at one time.

MOVIE RATINGS - Shows all blocked Movie Ratings that were set within the MOVIE RATINGS feature. All or some may be blocked at one time. Note: If a lower rating is blocked; this will automatically cause the higher ratings to be blocked also. (i.e., if R is set to be blocked, X will automatically be blocked also.)

PARENTAL GUIDELINE - Shows all blocked TV Ratings that were set within the PARENTAL GUIDELINES feature. All or some may be blocked at one time. Note: If a lower rating is blocked; this will automatically cause the higher ratings to be blocked also. (i.e., if TV-14 is set to be blocked, TV-MA will automatically be blocked.) Parental Guidelines also have sub ratings for Violence (V), Fantasy Violence (FV), Sexual Situations (S), Coarse Language (L), and Suggestive Language (D). If the main rating is turned off but the sub rating is turned ON, the program will be blocked but the rating will not appear within the SmartLock Review menu.

BLOCK UNRATED - Shows ON or OFF depending on the status of the BLOCK UNRATED feature. Based on the Movie Ratings or Parental (TV) Guidelines.

BLOCK NO RATING - Shows ON or OFF depending on the status of the BLOCK NO RATING feature. Based on programming with NO content advisory data.

◀))) USING THE TREBLE, BASS AND BALANCE CONTROLS

*B*esides the normal volume level control, your TV also has BALANCE, BASS and TREBLE controls for sound adjustments. The BALANCE control allows the listener to adjust the sound being heard between the right and left TV speakers. The controls work just like the BASS, TREBLE and BALANCE controls on any hi-fi stereo audio system.

(BEGIN)

⟨1⟩ **Press the MENU button** on the remote to show the onscreen menu.

⟨2⟩ **Press the CURSOR UP ▶ or CURSOR DOWN ■ buttons** to select and highlight the name of the control you wish to change (**BALANCE, BASS or TREBLE**).

⟨3⟩ **Use the CURSOR LEFT ◀◀ or RIGHT ▶▶ buttons** to adjust the levels of each highlighted control.

(STOP)

```
NOISE REDUCTION    ON

BASS          ■········· 30
INCREDIBLE SURR    ON
SOUND         STEREO
```
◀))) USING THE INCREDIBLE SURROUND FEATURE

*T*he Incredible Surround feature adds greater depth and dimension to both monaural (MONO) and stereo TV sound. With the control turned ON the TV's speakers can add even wider sound separation to normal broadcasts.

(BEGIN)

⟨1⟩ **Press the MENU button** on the remote to display the onscreen menu.

⟨2⟩ **Press the CURSOR UP ▶ or CURSOR DOWN ■ button** until the words **INCREDIBLE SURR** are highlighted.

⟨3⟩ **Press the CURSOR RIGHT ▶▶ or the CURSOR LEFT ◀◀ buttons** to turn the Incredible Surround control ON or OFF.

(STOP)

```
TREBLE        ■········· 30

SAP           OFF
```

```
TREBLE        ■········· 30
BASS          ■········· 30
INCREDIBLE SURR    ON
SOUND         STEREO
SAP           OFF
```

SMART HELP

Remember:
The onscreen menu will time out and disappear from the screen when you finish, or you can press the STATUS/EXIT button to clear the menu from the screen.

Your TV can detect a stereo signal and will set itself automatically so the stereo sound can be heard. However, there may be occasions when you might want to set the TV to mono. The following steps describe how to change the SOUND control:

(BEGIN)

1 **Press the MENU button** on the remote to show the onscreen menu.

2 **Press the CURSOR UP ▶ or CURSOR DOWN ■ button** until the word **SOUND** is highlighted.

3 **Press the CURSOR RIGHT ▶▶ or CURSOR LEFT ◀◀ buttons** to choose between **STEREO** or **MONO**.

With STEREO selected, the television will reproduce any stereo broadcast signal it receives. Please note that you can force a stereo broadcast signal to MONO, but you cannot force a mono broadcast signal to stereo.

(STOP)

SECOND AUDIO PROGRAM (SAP)

SAP is an additional part of the stereo broadcast system. Sent as a third audio channel SAP can be heard apart from the current TV program sound. TV stations are free to use SAP for any number of purposes, but many experts believe it will be used for foreign language translations of TV shows (or for weather and news bulletins.)

If a SAP signal is not present with a selected program, the SAP option cannot be selected. Also, if SAP is selected on a channel (with SAP) and you select another channel, when you return to the original channel SAP will be OFF (and you will have to reselect the SAP feature.)

Whether you're watching a movie or a video game, your TV has automatic video control settings matched for your current program source or content. The SmartPicture feature quickly resets your TV's video controls for a number of different types of programs and viewing conditions you may have in your home. Each SmartPicture setting is preset at the factory to automatically adjust the TV's Brightness, Color, Picture, Sharpness, Tint, and Color Temperature levels.

(BEGIN)

1 **Press the SMART PICTURE button** on the remote control. The current SmartPicture setting will appear in the middle of the screen.

2 **Press the SmartPicture button repeatedly** to select either PERSONAL, MOVIES, SPORTS, or WEAK SIGNAL picture settings.

Note: The PERSONAL setting is the setting that you setup using the PICTURE options within the onscreen menu. This is the only SmartPicture control setting that can be changed. All other settings are setup at the factory during the time of production. If settings are changed while using the Movie, Sports, or Weak Signal selections, the changes you make will become the "new" Personal settings. The Movie, Sports, and Weak Signal settings cannot be changed.

STOP

PERSONAL

MOVIES

WEAK SIGNAL

The SmartSound feature allows the listener to select between four different factory set sound options. Personal (which can be set by the user), Theater (for movie viewing), Music (for musical type programming) and Voice (when the program is mainly dialogue). To select any of the options follow the directions below.

(BEGIN)

1 ▷ Press the SMART SOUND button on the remote control. The current SmartSound setting will appear in the middle of the screen.

2 ▷ Press the SMART SOUND button repeatedly to toggle between the four settings.

Remember, only the PERSONAL control can be changed by the viewer. This changes the settings in the main onscreen menu's sound controls. All other settings are setup at the factory during the time of production. If settings are changed while using the Theater, Music or Voice selections, the changes you make will become the "new" Personal settings. The Theater, Music and Voice settings cannot be changed.
STOP

Your our remote control is set to work your TV and many infrared remote (IR) control VCRs, Cable Boxes, Satellite Systems, DBS, etc. However, an easy onetime step may be necessary before the remote will work your VCR.

Try this initial check to see if going on to the following section is necessary.

BEGIN

1 **Place the TV/VCR/ACC Mode Switch** in the proper position.

2 **Point the remote control** at the device and press the POWER button.

3 Does the remote turn the device ON?

If YES, stop and try other function buttons on the remote. If they also work the device, then the remote is ready and no further steps are needed.

If NO, continue...

1 First look up a **THREE-DIGIT remote control number** for your brand of Device before going through the simple steps on the following page.

Find your Three-Digit Code on pages 33-34.

SMART HELP

Remember, if more than one number is listed, you may have to try more than the first Three-Digit code given in order to locate your Device's remote code.

SOUND
Direct Access Method

Now that you have looked up the three-digit Remote Code Number for your brand of device, you are ready to follow the four simple steps below.

Please read through steps 1-4 before beginning.

(BEGIN)

1. **Place the TV/VCR/ACC Mode Switch** in the proper position.

2. **Press the VCR RECORD button** on the remote control and release.

3. **Press the SmartSound button** on the remote within 30 seconds, then release.

4. **Enter the THREE-DIGIT REMOTE CODE NUMBER** for your desired device. The remote is now ready to send commands to the unit.

5. **Point the remote** at the Device. Press the POWER button on the remote to turn the unit ON.

(STOP)

SMART HELP

Remember, if this doesn't work the first time, repeat steps using the same remote code number.

After a second try and the remote does not operate your device, see if there is another three-digit code number (pages 33-34) listed for your device and repeat the steps above using the new number.

If after repeated attempts the code number method does not work you device, try the **SEARCH METHOD** on page 32.

VCR

Satellite Receiver or DBS, etc.

Cable Converter
Search Method

Your TV remote can be set to work various external devices such as VCRs, Cable Boxes, Satellite Receivers, DBS, etc. by what is called the search method of remote control programming. If the "DIRECT ACCESS" code number method (shown on the previous page) did not set your remote to work your accessory device, then follow the easy steps listed below.

Note: The Search Method only works with devices equipped with channel display indicators or capability.

Please read steps 1-4 before beginning.

BEGIN

1 **Press the POWER button** on the device your are attempting to program to turn it ON.

2 **Place the TV/VCR/ACC Mode Switch** in the proper position.

3 **Press the (A/CH) • RECORD and the SMART SOUND buttons simultaneously** and hold them down.

4 The device will begin to change channels after the remote identifies the correct code. When the channels start to change release the VCR RECORD and SMART SOUND buttons. The remote should be ready to operate the device.

STOP

SMART HELP

This method can take up to two minutes to perform.

Don't let the device scan up more than five channels. If you do the remote may pass up the right code and another two minute search cycle will have to be repeated.

If no channel change happens within two minutes, repeat steps 1-4. Should a channel change still not occur, the remote will not work the desired device.

When using the TV remote with a VCR, first make certain it is set to control your VCR (by the REMOTE CODE or SEARCH method).

(BEGIN)

1. **Set the TV/VCR/ACC mode switch to VCR** on the remote.

2. **Point the top of the remote** toward the front of the VCR (remote sensor window) when pressing the buttons.

STOP

RECORD BUTTON
Hold the (A/CH) • RECORD button down to begin a VCR recording.

VCR SYSTEM SWITCH
Set in the VCR position to send remote commands to the VCR.

PLAY BUTTON ▶
Press to begin playback of a video tape.

REWIND BUTTON ◀◀
Press to rewind tapes. For some VCR's the STOP button may have to be pressed first, then REWIND. In playback mode hold down the button to view picture moving rapidly in reverse.

STOP BUTTON ■
Press to stop the motion of a tape in playback, rewind, fast forward, etc.

SMART HELP

Remember, the VCR buttons on the remote will not operate your VCR if those features are not found on your VCR remote control.

Note: All VCR functions (particularly Search, Rewind, Fast Forward, etc.) will operate the same as with the original VCR remote control provided with the VCR.
POWER BUTTON
Press to turn the VCR ON and OFF.

TV/VCR BUTTON
Press while in the VCR mode (VCR indicator on the front of the unit will light) to view the playback of a tape. Press again to place in the TV position (VCR indicator light will go off) to view one program while recording another program.
When used in the TV mode, the TV/VCR/CLOCK button will access the TV's Clock menu options.

NUMBER BUTTON
Press buttons for direct VCR channel selections.

PAUSE BUTTON II
Press to temporarily stop the tape during a playback or recording. Press again to release Pause.

FAST FORWARD BUTTON ▶▶
Press to rapidly advance the tape. For some VCR's you may need to press the STOP button first, then the FAST FORWARD button. In playback mode hold the button down to view the picture moving rapidly in the forward direction.

CHANNEL + & – BUTTONS
Press to scan up or down through the VCR channel numbers.

*P**lease make these simple checks before calling for service. These tips can save you time and money since charges for TV installation and adjustment of customer controls are not covered under your warranty.*

CAUTION: A video source (such as a video game, Compact Disc Interactive - CDI, or TV information channel) which shows a constant non-moving pattern on the TV screen, can cause picture tube damage. When your TV is continuously used with such a source the pattern of the non-moving portion of the game (CDI, etc.) could leave an image permanently on the picture tube. When not in use, turn the video source OFF. Regularly alternate the use of such video sources with normal TV viewing.

No Power

- Check the TV power cord. Unplug the TV, wait 10 seconds, then reinsert plug into outlet and push POWER button again.
- Check that outlet is not on a wall switch. Be sure fuse is not blown on AC Power strip.

No Picture

- Check antenna connections. Are they properly secured to the TV's 75Ω plug?
- Check the TUNER control for CABLE or ANTENNA setting.
- Check Audio/Video Input jack connections if using a VCR or other external device.

No Sound

- Check the VOLUME buttons.
- Check the MUTE button on the remote control.
- Check Audio/Video Input jack connections if using a VCR or other external device.

Remote Does Not Work

- Check batteries. Replace with AA Heavy Duty (Zinc Chloride) or Alkaline batteries if necessary.
- Clean the remote and the remote sensor window on the TV.
- Check the TV power cord. Unplug the TV, wait 10 seconds, then reinsert plug into outlet and push POWER button again. Be sure fuse is not blown on AC Power strip if one is being used.
- Check to be sure TV outlet is not on a wall switch.

TV Displays Wrong Channel or No Channels Above 13

- Repeat channel selection.
- Add desired channel numbers (CHANNEL control) into TV memory.
- Check to be sure the TUNER control is set to the CABLE option.

Cleaning and Care
- To avoid possible shock hazard be sure the TV is unplugged from the electrical outlet before cleaning.
- When cleaning the TV screen take care not to scratch or damage the screen surface (avoid wearing jewelry or using anything abrasive). Wipe the front screen with a clean cloth dampened with water. Use even, easy, vertical strokes when cleaning.
- Gently wipe the cabinet surfaces with a clean cloth or sponge dampened in a solution of cool clear water. Use a clean dry cloth to dry the wiped surfaces.
- Never use thinners, insecticide sprays, or other chemicals on or near the cabinet, as they might cause permanent marring of the cabinet finish.

GLOSSARY TO TELEVISION TERMS

Coaxial Cable • A single solid antenna wire normally matched with a metal plug (F-type) end connector that screws (or pushes) directly onto a 75 Ohm input found on the Television or VCR.

Closed Caption • Broadcast standard which allows you to read the voice content of television programs on the TV screen. Designed to help the hearing impaired this feature uses onscreen "text boxes" to show dialogue and conversations while the TV program is in progress.

Direct Audio/Video Inputs • Located on the rear of the TV these connectors (RCA phono type plug) are used for the input of audio and video signals. Designed for use with VCRs (or other accessories) in order to receive higher picture resolution and offer sound connection options.

Identify • Method by which a remote control searches and finds an operating code for another product (such as a VCR or Cable Converter). Once the code has been "identified" then the TV remote can operate and send commands to the other product.

On Screen Displays (OSD) • Refers to the wording or messages generated by the television (or VCR) to help the user with specific feature controls (color adjustment, programming, etc.).

Menu • An onscreen listing of feature controls shown on the Television screen that are made available for user adjustments.

Multichannel Television Sound (MTS) • The broadcast standard that allows for stereo sound to be transmitted with the TV picture.

Programming • The procedure of adding or deleting channel numbers into the Television's memory circuits. In this way the Television "remembers" only the locally available or desired channel numbers and skips over any unwanted channel numbers.

Remote Sensor Window • A window or opening found on the Television control panel through which infrared remote control command signals are received.

Setup Mode • Automatic feature control settings made by the TV. Designed for first time setup and use. Settings for signal connections (antenna or cable TV), plus channel program memory are held in the TV's memory (even if the set is unplugged and moved to a new location.)

Second Audio Program (SAP) • Another or additional audio channel provided for in the Multichannel Television Sound (MTS) broadcast standard. The most frequently proposed use for SAP is the simultaneous bilingual broadcast of TV program material.
Status • Allows the user to quickly confirm what channel number is currently being viewed. Status can also be used to clear the Television of on screen displays or information (rather than waiting for the displays to "time out" or automatically disappear from the screen).

Twin Lead Wire • The more commonly used name for the two strand 300 Ohm antenna wire used with many indoor and outdoor antenna systems. In many cases this type of antenna wire requires an additional adapter (or balun) in order to connect to the 75 Ohm Input terminals designed into the more recent Televisions and VCRs.

LIMITED WARRANTY

<u>COLOR TELEVISION</u>

90 Days Free Labor
One Year Free Replacement of Parts (Two Years Free Replacement on Color Picture Tube)
This product can be repaired in-home.

WHO IS COVERED?

You must have proof of purchase to receive warranty service. A sales receipt or other document showing that you purchased the product is considered proof of purchase.

WHAT IS COVERED?

Warranty coverage begins the day you buy your product. *For 90 days thereafter,* all parts will be repaired or replaced free, and labor is free. From 90 days to one year from the day of purchase, all parts will be repaired or replaced free, but you pay for all labor charges. From one to two years from the day of purchase, you pay for the replacement or repair of all parts except the picture tube, and for all labor charges. After two years from the day of purchase, you pay for the replacement or repair of all parts, and for all labor charges.

All parts, including repaired and replaced parts, are covered only for the original warranty period. When the warranty on the product expires, the warranty on all replaced and repaired parts also expires.

WHAT IS EXCLUDED?

Your warranty does not cover:
* labor charges for installation or setup of the product, adjustment of customer controls on the product, and installation or repair of antenna systems outside of the product.
* product repair and/or part replacement because of misuse, accident, unauthorized repair or other cause not within the control of Philips Consumer Electronics Company.
* reception problems caused by signal conditions or cable or antenna systems outside the unit.
* a product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications.
* incidental or consequential damages resulting from the product. (Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you. This includes, but is not limited to, prerecorded material, whether copyrighted or not copyrighted.)
* a product used for commercial or institutional purposes.

WHERE IS SERVICE AVAILABLE?

Warranty service is available in all countries where the product is officially distributed by Philips Consumer Electronics Company. In countries where Philips Consumer Electronics Company does not distribute the product, the local Philips service organization will attempt to provide service (although there may be a delay if the appropriate spare parts and technical manual(s) are not readily available).

MAKE SURE YOU KEEP...

Please keep your sales receipt or other document showing proof of purchase. Attach it to this owner's manual and keep both nearby. Also keep the original box and packing material in case you need to return your product.

BEFORE REQUESTING SERVICE...

Please check your owner's manual before requesting service. Adjustments of the controls discussed there may save you a service call.

TO GET WARRANTY SERVICE IN U.S.A., PUERTO RICO OR U.S. VIRGIN ISLANDS...

Contact a Philips factory service center (see enclosed list) or authorized service center to arrange repair.

(In U.S.A., Puerto Rico and U.S. Virgin Islands, all implied warranties, including implied warranties of merchantability and fitness for a particular purpose, are limited in duration to the duration of this express warranty. But, because some states do not allow limitations on how long an implied warranty may last, this limitation may not apply to you.)

TO GET WARRANTY SERVICE IN CANADA...

Please contact Philips at:

1-800-661-6162 (French Speaking)
1-800-363-7278 (English Speaking)

(In Canada, this warranty is given in lieu of all other warranties. No other warranties are expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose. Philips is not liable under any circumstances for any direct, indirect, special, incidental or consequential damages, howsoever incurred, even if notified of the possibility of such damages.)

REMEMBER...

Please record the model and serial numbers found on the product below. Also, please fill out and mail your warranty registration card promptly. It will be easier for us to notify you if necessary.
