Product highlights

Real Flat picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

Crystal Clear

Combining picture enhancements like Contrast plus and color improvement, Crystal Clear improves picture depth.

Eye-Fi

Eye-Fi ensures that noise and sharpness improvements are continuously made at a rate of 60 times per second. By continually adjusting picture setting over 3,000 times per minute, Eye-Fi optimizes the viewing experience.

Eco AV Stereo

Using 2 on-board speakers, this device creates a spatial bisonic sound from mono sound power.

Auto Volume Leveler

The Auto Volume Leveler moderates sudden volume increases when switching broadcast channels or when commercials come on. It suppresses the volume increases in the sound modulation. The Auto Volume Leveler is great new feature!

Smart Picture and Smart Sound

Philips preset modes for Smart Picture and Smart Sound provide you with direct access via a single key on the remote control. You can select optimized picture and sound settings for the various picture and sound modes.

Headphone jack

Rear Audio/Video input/output

Mono audio and video input and output connectors are provided on the back of the set.
