Key Features

S-Video Output
Picture Zoom

MP3 Compatibility Audio Playback
3D Virtual Surround Sound
Dual Headphone Outputs

Tri-Lingual On-screen Menus (English/French/Spanish)
Screen Saver
Credit Card Size Remote Control
3.5 Rechargeable Lithium Ion Battery

Advantage Toshiba

- 7" Widescreen, Active Matrix Display with 480x234 Pixel Resolution
- Rubberized Cabinet Design
- 12-Bit/54MHz Video digital-to-analog conversion for maximum color purity, detail, and resolution
- 24-Bit/96 kHz PCM Audio Compatibility delivers warmer, more natural-sounding audio from many types of discs
- DVD-Video/CD/Video CD playback. DVD-R/CD-R/CD-RW Compatible playback ensures discs made with personal recording devices can be played back in the home theater system, too
- JPEG Viewer enables a user to display digital photographs in a variety of popular digital formats

TOSHIBA

Technology & Benefits

7" Widescreen Active Matrix Screen

Perfect for viewing standard, letterbox, and anamorphic DVD movies.

Picture Zoom

This interactive feature allows you to select an area of the picture you want to zoom in on and magnify it. Enhanced digital processing during moving video or freeze-frame playback produces superior color fidelity and resolution, even when you're zoomed in. Also can be used to expand letterbox-only films to increase the viewable area on-screen.

MP3 Compatibility Audio Playback

Expands the players' functionality to include playback of custom music collections encoded via MP3 digital audio format onto CD-R or CD-RW media.

3D Virtual Surround Sound

Provides a simulated surround sound effect from sources that contain only a stereo soundtrack. Convenient when playing older DVD films or for use with home theaters not equipped with multi-channel playback compatibility. Also active via the headphone output jacks.

JPEG Viewer

The Toshiba JPEG Viewer enables a user to display digital photographs, created on a personal computer in the JPEG digital format, on any television. An intuitive on-screen display assists in the creation of customized slideshows with a few simple clicks of the DVD player's remote control.

Screen Saver

The player can be set to automatically go into a screen saver mode after five minutes of inactivity. While in this mode, the Toshiba DVD logo appears and "ping-pongs" across the screen. Many movies will display the main movie menu indefinitely after the movie has ended. If left onscreen for a prolonged period, burn-in on the LCD/TV screen may result without this feature.

Specifications

Disc Qty	1	EXTRA		Remote Control	Credit Card
Diagonal Screen		JPEG Viewer	X	Terminals
