Upgrades

Phaser III PXi to 300X Upgrade

Upgrade your Phaser III PXi to the functionality of the Phaser 300X network connectivity, image process-ing and color matching features. You can even custom calibrate the color pallete with our PhaserMatch software. Upgrades also provide dramatically faster raster image data speeds. The upgrade consists of a board exchange.

Phaser 300i to 300X Upgrade

Take the performance of your 300i to a new level by upgrading it to the 300X. Use our PhaserMatch software

to custom color calibrate and enjoy PostScript processing speeds up to 50% faster.

Phaser III PXi to 300i Upgrade
                                                  4698BRD
Phaser III PXi to 300i Upgrade
                                                  Z300XUP

RAM Upgrade

Adding RAM SIMMs increases your printer's power and performance.

4-Mbyte RAM SIMM   **4690F4M**

EtherTalk Card

This SIMM-style upgrade gives your Phaser III PXi the means to operate on an EtherTalk network.

EtherTalk card   **4680F02**
(For serial #'s B10xxxx and up)

Ethernet Card

This SIMM-style upgrade gives your Phaser 300X EtherTalk and Novell protocol capabilities. With the card installed, you can also upgrade your printer to TCP/IP protocols.

Ethernet card   **4680FP1**

TCP/IP (requires 4680FP1)   4680FP2
