# Welcome to the Future of SafeCut™ Trimmers and Guillotines from Fellowes.

The new range of Fellowes SafeCut™ Trimmers and Guillotines is based on market research, trade information and Fellowes experience in Business Machines. Fellowes' recent success with award-winning designs and superb reliability in Binding, Laminating and Shredding provides an opportunity to build on the featured approach which offers benefits to the user.

Based on our research, we have focused the new Fellowes range of trimmers and guillotines on three main areas:

1. Cutting precision; visible cutting line & perfect cut
2. Safety in use and in transport / storage
3. User-friendly, stylish design

Fellowes NEW range of Trimmers and Guillotines come equipped with unique user friendly features;

#### SafeCut™ Blade Cartridges -

for safe and easy blade exchange. Ensures that users can change the cutting cartridge without touching the blades – for greatest personal safety.

#### SafeCut™ LED Guide -

for precision cutting. Safer than laser guides and not harmful to the eye.

#### Foldable SafeCut™ Guard -

Pre-assembled and foldable guard on the Guillotines, to prevent mis-handling and to provide ultimate safety.

#### SafeCut™ Blade Storage -

Integrated blade storage compartments in trimmer base.

#### Carry Points -

Integrated Carry points on all models allow safe and easy movement

## New Rotary Trimmers

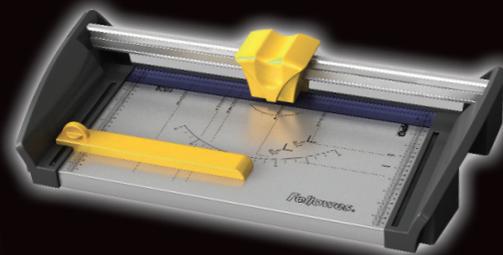

Ideal for making straight cuts through relatively low material thickness and are widely used by photographers, in advertising, and graphics studios and in schools and at home.
