IMPORTANT SAFETY INSTRUCTIONS AND PRECAUTIONS

- Read instruction carefully before using this product
- Observe all warnings and cautions when using this product.
- Retain all manuals and documentation for future referral.
- Only use this product in a manner described in this manual.
- Do not use this product if you are in control of a motor vehicle.
- If used in a motor vehicle it should be used away from the driver to avoid distraction.
- Do not use this device in extremely hot, cold, humid, dusty or sandy environments.
- Do not use this device in electrical storms or other conditions if the likelihood of lightning is possible.
- Do not attempt to clean this product using liquid cleaners or aerosol cleaners. Use only a damp soft cloth to clean the surface of this device.
- Extreme care should be taken when using this product near any body of water such as swimming pools, kitchen sinks, baths and the like.
- This device is not waterproof.
- Only place the device on a stable surface and ensure that cables attached to the device can not cause the device to fall.
- Only use the recommended accessories for this device. Use of incorrect accessories may cause damage and void the warranty.
- Use only the recommended power supply for this device. The use of incorrect power source may cause damage to the device or injury to the user.
- Using this device near other electronic devices may cause interference. Please use care using this product near other devices.
- Care should be taken when using the external antenna. Please remove the fitting carefully from the device. Do not pull at the cord to remove it.
- Ensure that the ventilation holes are not blocked when using this device. Heat build up may cause this device to fail.
- There are no serviceable parts in this device. Attempts to open this device by unauthorised personnel may cause further damage and void the warranty.
- Picture quality will be dependant on signal quality and strength. This device may

not be able to pick up all stations in all areas. For best results use in a strong signal area and ensure that the antenna has a clear unobstructed view of the sky.

- Do not bend, drop, crush, puncture, incinerate, or open this device.
- Avoid use in extreme temperatures. extreme temperatures.
- Do not use this device in rain, or near washbasins or other wet locations. Take care not to spill any food or liquid into it. In case this device gets wet, unplug all cables, turn it off and allow it to dry thoroughly before turning it on again.
- Never attempt to repair this device by yourself. It does not contain any user serviceable parts. The battery should be replaced only by authorised service providers.
- Use headphones safely. Use of headphones while operating a vehicle is not recommended and is illegal in some areas. Be careful and attentive while driving. Stop using this device if you find it disruptive or distracting while driving or performing any other activity that requires your full attention.
- Use only the USB drive adaptor to connect USB drives to the Device. Do not attempt to connect the device to a PC or DC power supply using this port. Connecting the DVB-T player to any other device other than described in this manual may void the warranty.

DVBT-MP32 User Manual

USING THE DVB-T RADIO

1. In the Main Menu press the [VOL +]/[VOL -] buttons to select the Radio Icon and then press the [OK] button to enter the Radio Mode.
2. Press the [CH +]/[CH -] to select the preferred radio channel.

3. The Radio service will start immediately.

Note: The device can only play DVB-T radio broadcasts. These stations are found when scanning for TV broadcast

To rescan for radio channels please rescan for TV channels.

RECORDING FUNCTION

1. During the TV or Radio mode press  the ●REC button to start recording the current TV or Radio Program. When the unit is recording, ●REC will be displayed in the upper left screen.
2. Press the  button of the [HOME] button to stop recording.
3. Recorded TV programs can be played back in Video Playback Mode.
4. Recorded Radio Programs can be played back in Music Mode.

Important Notes

- a) An SD card, MMC card or USB drive must be fitted or connected for the recording function to work.
- b) The Recorded program will be stored in a default folder named "PVR". Files will be saved as*. MPG for video files and *.MP3 files for radio recordings. The recorded file will be named as Channel Name + Recorded Date + Time. For example 090131_101336.mpeg.
- c) Due to the file size limitations of the FAT/FAT32 files system being 4GB, recordings larger than 4GB will be split in multiple parts no larger than 3.9GB.
- d) 1 GB of storage will store approximately 45 minutes of video.
- e) Storage devices formatted in FAT/FAT32 will only be supported.
- f) Generally all USB 2.0 drives and SD cards can be used for recording programs. However, there may be some cases where USB 2.0 drive and SD cards will not record programs. It is highly recommend that all storage media be formatted before being used on this device.
- g) **Warning!** Please do not edit, move or delete the "*.PLT" & "RECORD.TMP" files. Doing so will cause errors on playback.
