

KA300 Wireless Alarm Monitoring System

1 KA300RX Receiver

The KA300 system connects up to 3 audible alarms into one monitoring system. The KA300 alerts by using a ultra bright LED light, loud audible siren and strong bed shaker. The built in time condition signal filter helps to eliminate false alarms. The KA300 is designed to manage 1,024 different codes that are directed into 3 channels. The KA300 system is the best choice for ensuring that your property is fully compliant with the ADA.

It's the first flexible alarm monitor system on the market designed to fit from a small, medium to large scale building.

Includes battery backup which allows the system to work even in a power outage. Easy to set up and install in a small residential, dormitory, apartment, motel, hotel, etc.

2 KBS300RX Bed Shaker Receiver

Strong Vibrator!
