### Save This Manual

You will need the manual for the safety warnings and precautions, assembly instructions, operating and maintenance procedures, parts list and diagram. Keep your invoice with this manual. Write the invoice number on the inside of the front cover. Keep the manual and invoice in a safe and dry place for future reference.

---

## SAFETY WARNINGS AND PRECAUTIONS

---

**WARNING: When using this product, basic safety precautions should always be followed to reduce the risk of personal injury and damage to equipment.**

**Read all instructions before using this product!**

1. **Keep work area clean and well lit.** Cluttered areas invite injuries.
2. **Observe work area conditions.** Do not use the Imitation Camera in damp or wet locations. Don't expose to rain. Do not use electrically powered products in the presence of flammable gases or liquids.
3. **Keep children away.** Children must never be allowed in the work area. Mount the Imitation camera out of children's reach. This product is not a toy.
4. **Use the right product for the job.** Do not modify this product and do not use this product for a purpose for which it was not intended.
5. **Dress properly.** Protective, electrically nonconductive clothes and nonskid footwear are recommended when working. Wear restrictive hair covering to contain long hair.
6. **Always wear ANSI-approved impact safety goggles and heavy-duty work gloves during installation or service.**
7. **Stay alert.** Watch what you are doing, use common sense. Do not install the Imitation Camera when you are tired.
8. **Check for damaged parts.** Before installing the Imitation Camera, any part that appears damaged should be carefully checked to determine that it will operate properly and perform its intended function. Check for any broken parts or mounting fixtures and any other condition that may affect proper function. Any part that is damaged should be properly repaired or replaced by a qualified technician.

9. **Replacement parts and accessories.** When servicing, use only identical replacement parts. Use of any other parts will void the warranty. Only use accessories intended for use with this product. Approved accessories are available from Harbor Freight Tools.
10. **Do not install the Imitation Camera if under the influence of alcohol or drugs.** Read warning labels if taking prescription medicine to determine if your judgment or reflexes are impaired while taking drugs. If there is any doubt, do not install the unit.
11. **For your safety, service and maintenance should be performed regularly by a qualified technician.**
12. **The warnings, precautions, and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be supplied by the operator.**

### **SAVE THESE INSTRUCTIONS.**

---

## **UNPACKING**

---

When unpacking, check to make sure that the product is intact and undamaged. If any parts are missing or broken, please call Harbor Freight Tools at the number on the cover of this manual as soon as possible.

## ASSEMBLY

**FIGURE 1**

1. Twist the Camera Stand (2) into the Wall Bracket (1). Tilt-up the Pivoting Screw. **See Figure 1.**

**FIGURE 2**

2. Screw the Pivoting Screw into the housing of the Camera. Be sure it is secure. **See Figure 2.**
3. To make the Camera look more authentic, tuck the Wires (4) into the holes in the Camera Stand (2). **See Figure 2.**

Note: Turn pivot screw 90° if wall bracket is mounted on a vertical surface.

---

## BATTERY INSTALLATION

---

**Warning:** Only install batteries of the same type and charge level. Replace both batteries at once. Install batteries according to polarity markings.

**FIGURE 3**

1. Remove the two Battery Cover Screws (5) from the Battery Cover (8) with a screwdriver (sold separately). **See Figure 3.**
2. Slide the Battery Cover (8) off the Battery Case (11).
3. The Battery Case (11) is inside the Rear Housing (7).

**CAUTION: The housing and other machined parts of this item may have sharp burrs that can cut you. Use care when changing the batteries.**

Carefully remove the Batteries (9) from the Battery Case (11).

4. If present, remove old batteries and dispose of or recycle them properly.
5. Carefully place two new “AA” Batteries (9) into the Battery Case (11). Be sure that the polarities (+ or -) of the batteries line up with the polarity signs.
6. Carefully replace the Battery Cover (8). Insert the Battery Cover Screws (5) and tighten them with the screwdriver.
7. Check LED light. If it does not light, repeat the steps or replace the batteries with new ones.

## INSTALLATION

1. Chose a wall or ceiling location that allows you to mount the unit onto a solid surface capable of sustaining the weight of the unit. If you cannot mount to wall studs, you will need to use the Dry Wall Mounting Anchors and Wood Screws (10). Be aware, the Camera needs to be mounted securely so it will not fall off the mounting and cause personal injury or property damage.

**Note:** The mounting holes on the Outdoor Camera are approximately 1/4" or 6 mm.

**FIGURE 4**

2. Hold the Wall Bracket (1) of the assembly against the surface you wish to mount. Using a pencil (not included), draw dots of the mounting holes. **See Figure 4.**
3. **Warning:** Check that there are no hidden wires, cables or other obstructions in the mounting location. Predrill the holes.
4. Install the drywall anchors into the holes if mounting into drywall.
5. Line up the holes in the mounting bracket with the holes in the wall and hold the unit in place. Mount using the Wood Screws (10).

---

## MAINTENANCE

---

Keep the Imitation camera clean and free of spider webs.
