<b>Needle system #</b>	29BL
<b>Lubrication</b>	Manual
<b>Skip stitch function</b>	1:1 - 2:1 true skip stitch
<b>Warranty</b>	Reliable™ 1 Year Warranty

## DESCRIPTION

The MSK-755H heavy-duty blindstitch machine is designed to handle the medium to heavy fabric requirements of a drapery workroom.

With the MSK-755H, you will be able to hem with or without blackout. No more worrying about breaking needles and skipping stitches. Getting a great quality stitch is assured because the heavy-duty fittings do such a good job of feeding the heavier fabric.

We set the MSK-755H up with our Sewquiet™ 4000 servomotor, using a #50 pulley so that the machine is easier to control, helping to ensure a perfect stitch.

Less vibration = better stitch quality. The solid frame construction on the MSK-755H (as compared to a frame drop type machine) ensures less vibration, and ultimately a better quality stitch than frame drop machines.

## BEST USED FOR

Medium-heavy weight drapery fabrics

## FEATURES

- Simple to use - easy to operate
- Adjustable stitch penetration for various types of fabric
- Adjustable thread tension
- Metal swing-away plate
- Skip stitch function with chain-off finger
- Complete stand includes a Sewquiet™ 4000 DC Servomotor, plywood table top and K-legs
