handspring®

trēo™

The Handspring™ Treo™ 270 color communicator does it all.
Now you can have your phone, Palm OS® organizer, email,
SMS text messaging, and wireless Web in one amazingly
compact and indispensable device—in full-color.

Treo 270 has a built-in, backlit keyboard, making one-handed access to key functions easy and thumb typing fast—even in the dark.

full-color screen

Browsing the Web, viewing photos and playing games just got a lot more fun…and more colorful. With the Treo's vivid color screen, text and graphics are more readable.

mobile phone

This dual-band world phone* comes with all the features you expect in a mobile phone like speed dial, three-way calling and call history. Plus, it has extra features like a personal speakerphone, full integration with the built-in PhoneBook for dialing direct from your contact list, and Instant Lookup to quickly search for contacts by name or initials.

Palm OS organizer

With 16MB of memory, the rechargeable Treo 270 has everything you need to organize your life. It includes Date Book Plus, PhoneBook (an improved Address Book), To Do List and Memo Pad. And, you can run thousands of Palm OS applications and use HotSync® to backup, update, and transfer data between Treo and your desktop.

wireless messaging device

Send and receive business or personal email from virtually anywhere with optional Treo Mail™ service**. Or, if your message is short, send an instant SMS text message to other mobile phone users in your network or to an email address.

access to the web

Access virtually any Web site from just about anywhere with your Treo 270 and Blazer®—the award-winning wireless Web browser. Get directions, confirm your flight, check the weather and see it all on the large, bright and colorful screen.

built-in, backlit keyboard

Finding contacts, dialing the phone, and entering data is fast and easy with the built-in QWERTY keyboard. And, since it's backlit, you can do it all—even in the dark.

palm powered™

*Applies only to 900/1900 MHz phone. Certain models will not be available in all regions.
**Visit handspring.com for more information on optional Treo Mail service.

full-featured mobile phone

- Call management features include large number dial pad, speed dial, three-way calling, call history, direct dial from your PhoneBook, caller ID and call waiting.

- Instant Lookup allows you to quickly find anyone in your PhoneBook. Just type the first initial and the first few letters of the last name.

- Personal speakerphone allows you to talk and listen hands-free.

- Dual-band phone comes in two versions: 900/1800 MHz (Europe and Asia Pacific) and 900/1900 MHz (North America). The 900/1900 MHz world phone can be used in Europe and Asia on GSM 900 networks and in North America on GSM 1900 networks.

powerful Palm OS® organizer

- Includes all the classic applications—Date Book Plus, To Do List, Memo Pad, Advanced Calculator and CityTime world clock—plus a few new ones, like Instant Lookup and an improved PhoneBook.

- Runs the popular Palm OS—and thousands of Palm™ applications. Beam information between other Palm-Powered devices and transfer data from your current Palm OS device to your new Treo communicator with ease.

- Comes with a USB HotSync® cable so you can instantly backup, update and exchange information between your Treo communicator and desktop computer.

- Features a rechargeable battery, 16MB of memory and a fast Palm OS processor.

wireless messaging

- Send SMS (Short Message Service) text messages (up to 160 characters in length) to other SMS-enabled phones or any email address.

- Create SMS messages in an instant with shortcuts like saved recipient lists, boilerplate text and signature preferences.

- Read, delete and manage your business or personal email with optional Treo Mail™ service. Send and receive email as though you were at your desk.

wireless web browsing

- Connect to the Internet with the built-in Web browser called Blazer®, wireless data services and an ISP account.

- See Web pages load an average of four times faster with Blazer. You can even create bookmarks and cache pages for easy access.

- Access virtually any Web site—not just those optimized for mobile devices. Blazer supports multiple Web and wireless standards: HTML, WML, HDML, cHTML (i-mode) and xHTML.

- Surf safely. Blazer incorporates 128-bit SSL encryption technology to ensure that visiting any site on your Treo is as secure as browsing from your desktop.
