

“simply one of the best
speaker systems
to pass through my
listening room”

-Brent Butterworth,
Robb Report's Home Entertainment & Design Magazine

THX
U L T R A₂

Critically acclaimed audio for home theater

With Atlantic Technology's 8200e, you don't have to sacrifice anything. This home theater speaker system has become the first choice of top reviewers and experts – not only because it surpasses the vigorous performance standards of THX, but also because its myriad of built-in, room-optimizing controls allow it to perform at it's best in any room or situation. To top it off, it's dressed up in an elegant, lustrous Gloss Black painted finish. Now that's an award-winning performance. Available through select home theater specialists.

Suggested Subwoofer:
Atlantic's powerhouse
THX-certified 642e SB.
