20•20W

COMPANION HOLDING CABINET WITH ROLL-IN CART

COMBI MATE WARMER

ecosmart™
• HALO HEAT . . . a controlled, uniform heat source that gently surrounds food to provide a better appearance, taste, and longer holding life.

• Uses one-third to one-half the energy of conventional holding equipment.

• Motionless air inside cabinet prevents transfer of flavors, retains more product moisture, and preserves color.

• Close temperature tolerance, along with even heat distribution, maintains an ideal serving temperature throughout the cabinet.

• Roll-In Pan Cart (trolley) is designed for maximum capacity and is completely interchangeable with the Combitherm® Combi Oven/Steamer model 20•20 and the Alto-Shaam® QuickChiller™ QC-100.

• Available in a stationary or mobile cabinet design.

MODEL 20•20MW
(SHOWN WITH RIGHT-HAND DOOR)

Insulated Halo Heat companion holding cabinet features 20 gauge stainless steel construction. The cabinet is controlled with one (1) ON/OFF power switch and an adjustable, electronic thermostat which includes a heat indicator light, temperature set button, and temperature increase and decrease buttons. The thermostat has a range of 60° to 200°F (16° to 93°C) and includes a digital display indicating the air temperature within the cabinet. The door has a heavy duty rotary handle with standard left-hand hinging.

Each holding cabinet includes one (1) Roll-In Pan Cart (trolley) which features removable handle, pan support rails to hold full-size pans, and ten (10) wire shelves for sheet pans. Cart includes four (4) swivel casters with brake.

☐ **MODEL 20•20MW:** Mobile holding cabinet supported by four (4) heavy duty casters

☐ **MODEL 20•20W:** Stationary holding cabinet supported by four (4) heavy equipment legs

FACTORY INSTALLED OPTIONS
• Left-hand door swing is standard.
   ☐ ➡Specify right-hand door as a special order.
