

# The common-sense solution for floor cleaning

The machine is supplied in battery or cable versions. Both versions feature the ECO water and chemical saving concept and are suited to a wide variety of institutional or commercial applications

The built-in parking prop and wheel takes the weight off the brush and supports the machine when parked

Scrubber/Dryer

Nilfisk BA/CA 410

# Smart

# -thinking !!!

So compact - and still all the benefits of larger machines

**LARGE AND COMPLEX TO OPERATE - TOO EXPENSIVE FOR MY SMALL AREAS - NOT ANYMORE!**

The BA/CA 410 micro scrubber/dryer is designed to provide you with the cleaning capacity of a large machine - but built into a small machine.

Though compact in size, with its 43 cm scrubbing deck, it has all the capacity you need. The powerful motors allow you to clean all types of floors - it is even capable of tackling stripping tasks. Why bother having a single disc and wet vacuum, when you can get both in one compact solution?

Like all Nilfisk-Advance machines, it has been built with your needs in mind. With excellent ergonomics and simple, intuitive controls it reduces operator fatigue and requires a minimum of training. Therefore, it makes you more efficient in doing your job - helping you to save time and money - anywhere - anytime!

This is what we call "smart thinking" - and that is why Nilfisk-Advance is setting standards in the cleaning industry.

# It's all here

## ...fully fitted & ready to go

- Easy to use, simple to maintain and top cleaning results with a minimum of effort
- 43 cm scrub deck gives productivity of a large machine, still featuring the manoeuvrability of the compact machine
- Wide selection of pads/brushes for cleaning of any type of floor
- Roto moulded polyethylene tanks and chassis for reliability and long life time
- "No tools" removal and squeegee blade replacement
- Front access for easy fitting of blades
- Tilt-back tank for easy access to batteries and motors

The unique ECO mode system saves water and reduces chemical usage. It also allows the machine to be used longer between tank refills

The onboard battery charger means that downtime is kept to a minimum. The batteries can be recharged whenever and wherever required

The operating handle is fully adjustable for comfort and efficiency. It can also be folded away for parking and storage

A built-in hook protects the brush from possible damage during transportation between cleaning locations.

The offset brush deck with side wheel permits efficient close-up cleaning without damaging walls and furniture
