

## **KEYTEC Magic Touch Built-In Kit for Perfect Flat CRT Monitors**

All built-in kits can be used with either USB or ProE controller.  
Please refer to controller selection guide.

<b>Part No.</b>	<b>For Perfect Flat CRT size</b>	<b>Outside Area</b>	<b>Clear Area</b>	<b>Active area</b>	<b>Thickness</b>
KTT-015CAF	15" (14" view)	311.2 X 241.3	295.9 X 226.1	285.8 X 215.9	2.8
KTT-017CAF	17" (16" view)	349.3 x 266.7	334 x 251.5	327 x 241.3	2.8
KTT-019CAF	19" (18" view)	387.4 x 304.8	369.6 x 289.6	362 x 273.1	3.6
KTT-021CAF	21" (20" view)	431.8 x 330.2	416.6 x 315	406.4 x 301.6	3.6

### **Notes:**

1. The cable is about 6-ft long and it is a 4-wire flat telephone type cable.
2. The connector is a 6P/6C phone type plug.
3. The surface is typically treated with anti-glare hard coating. However, clear hard coating can be used upon customer's request for optimum clarity where glare is not a major concern.

## **CRT Monitor Selection Guide for Flat Built-In Touch Screen Kits**

The following table lists the monitors, which have perfect flat CRT tube. **KEYTEC's** flat built-in touch screen kits *should* fit those monitors. However, this list is for reference purpose only. It is strongly recommended that touch monitor integrators should obtain complete specifications of the monitors they wish to use. In general, the suitable monitors need to have at least 0.2" (5 mm) space tolerance inside the enclosure.

KEYTEC	Touch Screen P/N	KTT-015CAF	KTT-017CAF	KTT-019CAF	KTT-021CAF
