Visit us on the web at www.GoPresto.com

This is a  Listed appliance. The following important safeguards are recommended by most portable appliance manufacturers.

IMPORTANT SAFEGUARDS

To reduce the risk of personal injury or property damage when using electrical appliances, basic safety precautions should always be followed, including the following:

1. Read all instructions before using this appliance.
2. To protect against the risk of electrical shock, never put the motor housing, cord, or plug in water or other liquids.
3. Close supervision is necessary when any appliance is used by or near children.
4. Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
5. Do not operate any appliance with a damaged cord or plug, or in the event the appliance malfunctions, or is dropped or damaged in any manner. Return the appliance to the Presto Factory Service Department (see page 4) or to the nearest Presto Authorized Service Facility for examination, repair, or electrical or mechanical adjustment.
6. The use of attachments not recommended or sold by the appliance manufacturer may cause fire, electric shock, or injury.
7. Do not use outdoors.
8. Do not let cord hang over edge of table or counter or touch hot surfaces, including the stove.
9. Avoid contact with moving parts.
10. Do not use the lemonade maker for other than intended use.

SAVE THESE INSTRUCTIONS THIS PRODUCT IS FOR HOUSEHOLD USE ONLY.

POLARIZED PLUG – Connect the power supply cord to a polarized outlet only. As a safety feature, this appliance has a polarized plug (one blade is wider than the other). This plug will only fit in a polarized outlet one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

Getting Acquainted

Before initial use, and after each subsequent use, wash all parts except the motor housing in warm, sudsy water. **Do not wash parts in a dishwasher.**

Wipe the motor housing with a damp cloth to clean. **Never immerse the motor housing in water or any other liquid.**

How To Use

1. Select a recipe from the ones listed on page 3 or prepare one of your own.
2. Add liquid ingredients, sweetener, and ice cubes to the pitcher first. Use the markings on the side of the pitcher as a guide. Each line represents one cup.
3. Cut fruit (citrus fruits) in half crosswise.
4. Attach the stirring paddle to the motor housing by fitting the tabs, see Fig. A, into the slots in the hole on the bottom of the motor housing. Now place the motor housing over the pitcher, aligning the spout on the motor housing with the spout on the pitcher, Fig. B.
5. Place the juice collector over the post on the motor housing so the juice chute fits into the opening of the motor housing, Fig. B. Then place the post cap on the post and the reamer on the post cap.
6. Plug cord into outlet.
7. Press the ON/OFF switch to begin the juicing and stirring process. While holding the pitcher handle with one hand, use your other hand to place one half of the fruit over the reamer. Hold onto the rind side and press down to extract juice, Fig. C.

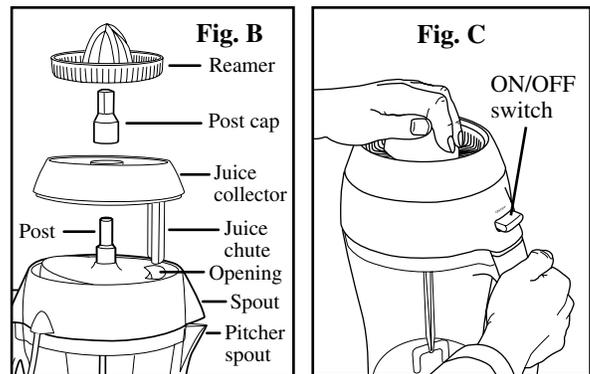

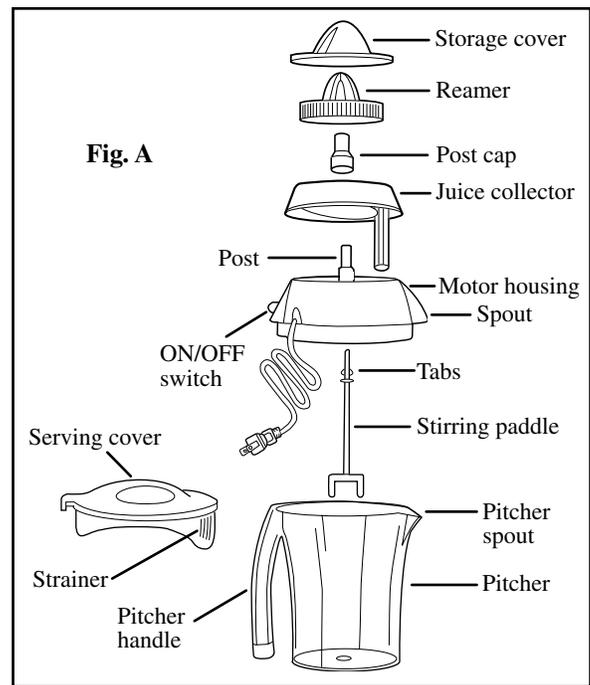

Note: The reamer may turn both clockwise and counter-clockwise during the juicing and stirring process. This is normal.

8. When it appears all the juice has been extracted, press the ON/OFF switch to stop the lemonade maker. Allow unit to sit for a couple of minutes so the juice in the juice collector can drip down into the pitcher.
9. Unplug unit and lift the motor housing, juice collector, and reamer off the pitcher.
10. Place the serving cover on the pitcher tightly so the strainer area, see Fig. A, is aligned with the pitcher spout. The juice is ready to serve. Hold the pitcher handle as you pour.

The cover is intended to fit snugly. For easy removal, hold the pitcher handle and using your thumb gently push up on the cover to lift it off.

Helpful Hints

- For best juice extraction, use fruits that are room temperature rather than right from the refrigerator.
- If juicing several pieces of fruit, it is recommended that you periodically clean the reamer to remove excess pulp and seeds. This allows the juice to flow through the juice collector more efficiently.
- Because this juice maker is sensitive to heat, do not add hot or boiling water to the pitcher. Also do not wash in dishwasher.
- For larger pieces of fruit, such as grapefruit and oranges, you will need to move the fruit around the reamer while pressing down, so all of the fruit can make contact with the reamer.
- For best results, choose juice oranges, such as Valencia oranges, for orange juice. They will yield more juice than navel oranges.

Care and Cleaning

1. Always unplug unit before cleaning.
2. Remove fruit pulp and seeds from reamer. Then, wash all parts except the motor housing in warm, sudsy water.

Do not wash parts in a dishwasher.

Wipe the motor housing with a damp cloth to clean. **Never immerse the motor housing in water or any other liquid.**

Recipes

All recipes can be prepared with sugar substitutes if calorie and carbohydrate reduction is desired. Replace sugar with an equal amount of your favorite bulk sugar substitute. If using packets of sugar substitute, refer to the specific sweetener for instructions.

Lemonade

- | | |
|-----------------------------|------------------------|
| 1 quart (4 cups) cold water | 4 large lemons, halved |
| ½ quart (2 cups) ice cubes | 1 lemon, thinly sliced |
| ¾ cup sugar | |

Add water, ice, and sugar to HomeAde lemonade maker pitcher. Assemble parts for juicing and mixing; juice lemon halves. Add lemon slices.

Makes 2 quarts

Pineapple Citrus Blend

- | | |
|------------------------------------|--------------------------------|
| 3 cups unsweetened pineapple juice | 1 cup ginger ale |
| 2 cups ice cubes | 3 medium juice oranges, halved |
| | 1 large lemon, halved |

Add pineapple juice, ice, and ginger ale to HomeAde lemonade maker pitcher. Assemble parts for juicing and mixing; juice orange and lemon halves.

Makes 2 quarts

Limeade

Follow recipe for lemonade, except substitute 6 limes for the halved lemons. After juicing limes, add 1 thinly sliced lime to pitcher.

Makes 2 quarts

Citrus Wine Cooler

- | | |
|------------------------------------------------------|--------------------------------------------|
| 1 bottle (750 ml) Chablis or other dry wine, chilled | 1 large lemon, halved |
| ½ cup sugar | 1 quart (4 cups) carbonated water, chilled |
| 2 medium limes, halved | |

Add wine and sugar to HomeAde lemonade maker pitcher. Assemble parts for juicing and mixing; juice limes and lemon. Add carbonated water to pitcher. Serve immediately.

Makes 2 quarts

Orange Cream

- | | |
|---------------------------------|--------------------------------|
| 1 pint orange sherbet, softened | 4 medium juice oranges, halved |
| 1 quart (4 cups) 7-up | |

Add sherbet and 7-up to HomeAde lemonade maker pitcher. Assemble parts for juicing and mixing; juice oranges.

Makes 2 quarts

Natural Citrus Soda Pop

- | | |
|-----------------------------|--------------------------------------------|
| ¾ quart (3 cups) cold water | ice cubes |
| ¾ cup sugar | 1 quart (4 cups) carbonated water, chilled |
| 4 large lemons, halved | |

Add water and sugar to HomeAde lemonade maker pitcher. Assemble parts for juicing and mixing; juice lemons. Add ice cubes to a tall glass; fill glass ¾ full with lemon mixture. Top off with carbonated water.

NATIONAL PRESTO INDUSTRIES, INC.

Consumer Service Dept., 3925 North Hastings Way, Eau Claire, WI 54703-3703

You may also contact us at our web site www.GoPresto.com. Inquiries will be answered promptly by telephone, letter, or email. When writing, please include a phone number and a time when you can be reached during weekdays if possible.

Any maintenance required for this product, other than normal household care and cleaning should be performed by our Factory Service Department or any Presto Authorized Service Station. Be sure to indicate date of purchase and a description of defect when sending an appliance for repair. **Send appliances for repair to:**

CANTON SALES AND STORAGE COMPANY

Presto Factory Service Dept., 555 Matthews Dr., Canton, MS 39046-0529

Appliances may also be repaired at any Presto Authorized Service Station. Check your yellow pages for Service Stations near you.

The Presto Factory Service Department and Presto Authorized Service Stations are equipped to service all PRESTO® appliances and supply genuine PRESTO® parts. Genuine PRESTO® replacement parts are manufactured to the same exacting quality standards as PRESTO® appliances and are engineered specifically to function properly with its appliances. Presto can only guarantee the quality and performance of genuine Presto® parts. "Look-alikes" might not be of the same quality or function in the same manner. To ensure that you are buying genuine PRESTO® replacement parts, look for the PRESTO® trademark.

PRESTO® Limited Warranty

This quality PRESTO® appliance is designed and built to provide many years of satisfactory performance under normal household use. Presto pledges to the original owner that should there be any defects in material or workmanship during the first year after purchase, we will repair or replace it at our option. Our pledge does not apply to damage caused by shipping. To obtain service under the warranty, return this PRESTO® appliance, shipping prepaid, to the nearest Presto Authorized Service Station, or to the Factory Service Department. When returning a product, please include a description of the defect and indicate the date the appliance was purchased.

We want you to obtain maximum enjoyment from using this PRESTO® appliance and ask that you read and follow the instructions enclosed. Failure to follow instructions, damage caused by improper replacement parts, abuse or misuse will void this pledge. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This is Presto's personal pledge to you and is being made in place of all other express warranties.
