Interface Cable

Installation Guide

Installation

Step 1:

Remove the head unit from your dashboard.

Important: Depending on how your head unit was installed you may have to remove part or all of your dash board before the head unit can be pulled out. You may also have to remove screws to complete this step.

Note: Before proceeding, make sure that the PIA Adapter has been programmed. Refer to the PIA Installation Manual. Professional installation is recommended.

Step 2:

Connect the 34-pin cable connector to the Programmable Interface Adapter (PIA) mating connector as shown in Figure 1. Slide the rubber strain relief onto the PIA case. Attach the Car Dock USB connector into the USB receptacle on the PIA. Make sure the connectors are secure, and slide the top cover onto the bottom housing. (Refer to Figure 2.)

Step 3:

Connect the end of the cable with the right angle DIN connector and audio cables to the back of the head unit as shown in Figure 2. The shorter end of the cable coming from the PIA is a pass-through cable that can be used to connect other products to your head unit, i.e., CD changer.

Note: The location of the connections on the head unit may vary depending on the model.

Step 4:

Start your car and turn on your head unit to confirm that the XM Direct system is properly connected. Please refer to your stereo owners manual on how to access XM mode. When you tune to XM channel 1, you should see "XM Preview" on your head unit LCD, and hear that channel through your car speakers. If not, check to make sure all connections are correct or refer to the troubleshooting section of this installation guide.

Step 5:

Mount and secure the interface cable in a suitable location that will not interfere with the radio and will not vibrate or rattle after installation.

Step 6:

Return the head unit to its original location in the dashboard.

CAUTION: Ensure the cables are not kinked or get disconnected when installing the head unit.

Note: If you had removed screws to pull the car stereo head unit out, please reinstall the screws.
