2 Setup

Clock and Alarm

Use the navigation keys (▲ ▼ ◀ ▶) and **ENTER** on the remote control to perform the followings:

Set the clock as below:

1. Press **SETUP** key on the remote control.
2. Select "Real Time Clock setup".
3. Select "Current time".
4. Set date and time in the setting menu.
5. Select "OK" and then press **ENTER**.

To display the clock, press **CLOCK** on the remote control.

Set the alarm as below:

1. Press **SETUP** key on the remote control.
2. Select "Real Time Clock setup".
3. Select "Alarm Time" to set the alarm date and time.
4. Select "Alarm Message" to create reminder message when the alarm activates.
5. Select "Alarm Media File" to select a file for playback as the alarm.
6. Select "Alarm On/Off" to turn on or off the alarm function.

3 Enjoy

Auto Tilting

This photo frame is equipped with Auto Tilting function, your photos will be displayed according to their orientation (portrait or landscape).

Start a photo slideshow

1. Press **PICTURE** on the remote control to enter picture mode.
2. Select a photo from the photo thumbnails with **▲ ▼ ◀ ▶** keys on the remote control and then press **ENTER** to start the slideshow.

Scheduler

You can also preset time and date for playback of a selected file.

1. Press **SCHEDULE** on the remote control.
2. Press **FUNCTION** to show a row of icons at the screen bottom, press **▶** to select "✓☐" and then press **ENTER** to show the Add Entry menu on the right of the screen.
3. There are 6 steps to create a schedule (select frequency, set start time, set end time, select media type, select playback file and saving). Use **▲ ▼ ◀ ▶** keys and **ENTER** to go through these steps.
 - When selecting start and end time of a new schedule, a highlight box will be created as you press **▲ ▼ ◀ ▶** keys. The highlighted time slots on the calendar refer to your created schedules.

A Add Entry menu **B** Created schedules
