

Clean Air Gun™ Series

400, 600 Amp MIG Guns

Issued Jan. 2008 • SPEC CA-1.5

400 Amp Clean Air Gun™

Bernard Clean Air Guns™ help create an efficient shop with reduced smoke and fumes regardless of your operation.

All Guns are Not Created Equal.

A MIG gun should be durable, easy to use and customized to your specific application. Our MIG guns put you in control: you choose the options you need and we'll build a gun to last.

Heavy-duty handles for durability.

45 degree bend for maximum feeding characteristics.

Chrome parts to resist spatter adhesion.

Adjustable vacuum chamber maximizes suction without affecting shielding gas and provides for efficient smoke collection.

Ideally suited for almost any heavy-duty MIG welding application.

Compatible with Centerfire™ series consumables for better arc starts, less spatter, more consistent welds and longer tip life.
