

LENN

INNOVATION NEVER FELT SO GOOD.™

## Four-Zone System

### **LZP-4**

Designed to control multistage heating and cooling systems

# Lennox LZP-4 Zoning System

Innovation never felt so good.™

Designed to adapt to your comfort level and lifestyle needs

Divides your home into four comfort zones, giving you more flexibility and control

Provides precise comfort throughout the home, throughout the year

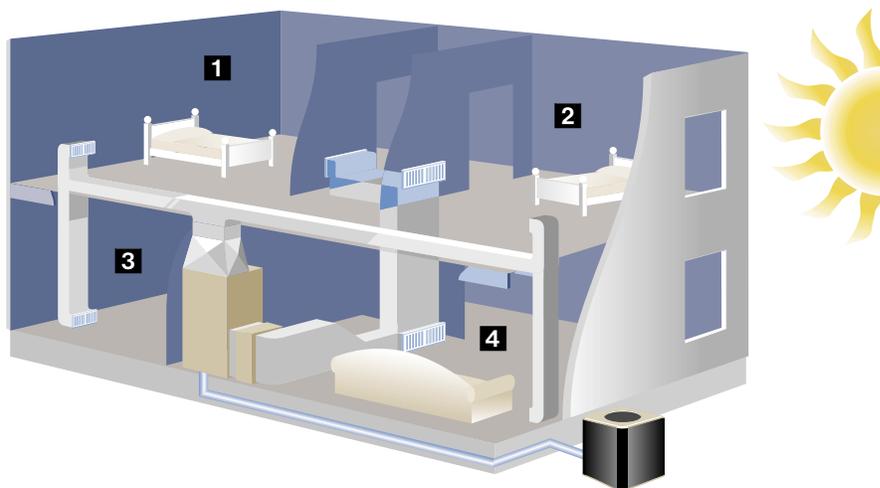

Can save you hundreds of dollars in energy costs over the life of the system

Lennox' LZP-4 zoning system enhances your comfort by allowing you to control the flow of heated and cooled air through different areas of your home.

Say you have an upstairs floor that's always too hot. With the LZP-4, you can reduce heating in that area. And if you have a room that gets a lot of use throughout the day, you can make sure it gets extra air conditioning.

## ROOM-BY-ROOM COMFORT CONTROL— YEAR-ROUND ENERGY SAVINGS

The LZP-4 zoning system meets your specific comfort needs in one zone, without affecting the other zones. It's like having a heating and cooling system for each living area in your home. This not only maximizes your comfort—it also saves you money, year after year.

### WARRANTY

2-year limited warranty.\*

- Zone 1** – Seldom-used upstairs bedroom (needs little heat or cooling)
- Zone 2** – Children's upstairs bedroom (high heat in the summer requires additional air conditioning)
- Zone 3** – Home office or exercise room
- Zone 4** – Family room (high-activity area needs extra air conditioning)

## Comfort Rises to every comfort challenge, from chilly drafts to hot spots

As illustrated by the example shown on page 2, this system gives you many options for comfort control around your home.\*\*

## Efficiency Reduces your energy costs by up to 35%, when used with a programmable thermostat\*\*\*

With the LZP-4 zoning system, you no longer have to pay to heat or cool areas of your home you rarely use.

Dimensions	HxWxD (in.)
LZP-4	12 x 9-1/2 x 2

Component	How It Works	How It Helps
<b>Solid-State Control Panel</b>	Divides your home into four different comfort zones, allowing you to adjust temperature and airflow according to your lifestyle needs	Gives you greater control over your energy costs and comfort
<b>Zone Damper (one for each zone)</b>	Regulates airflow and controls temperature consistently throughout your home	Helps eliminate hot and cold spots
<b>Electronic Air Sensor</b>	Continually monitors temperature of the air leaving the zone and automatically adjusts control panel settings to ensure zone demands are satisfied	Ensures accuracy and hassle-free operation

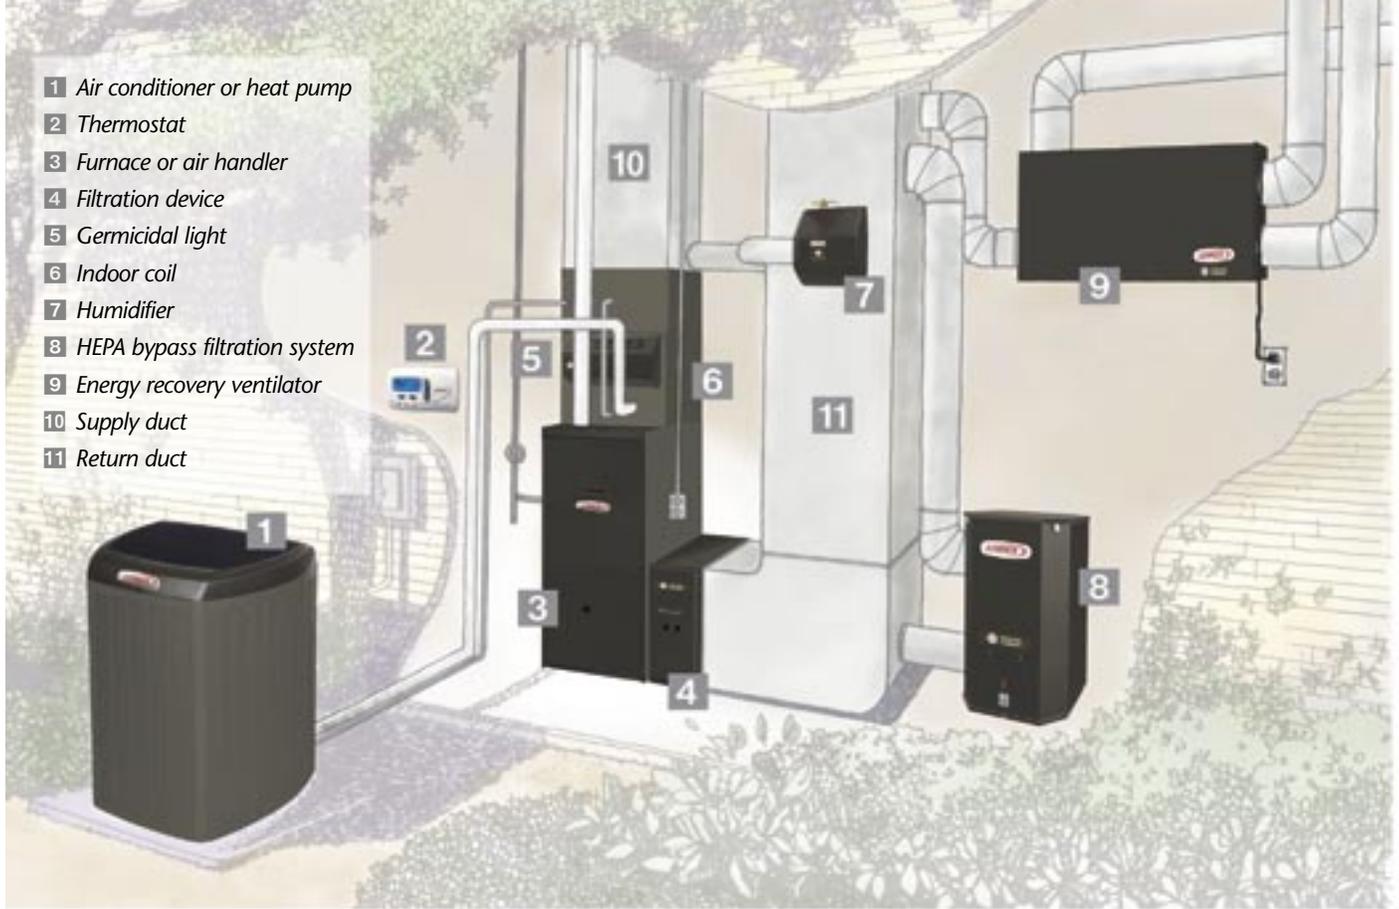

Feature	How It Works	How It Helps
<b>Vacation Mode</b>	Allows you to adjust temperature settings in each zone for optimal efficiency when your home is unoccupied	Increases efficiency
<b>Auto Changeover</b>	Maintains comfort by automatically alternating between heating and cooling during transitional weather	Delivers enhanced comfort and efficiency
<b>Permanent Program Memory</b>	Maintains zone settings in the event of a power loss	Provides an extra measure of reliability
<b>Built-In Time Delay</b>	Keeps your HVAC system from short-cycling (constantly stopping and restarting), so it can run at peak efficiency	Delivers enhanced comfort and efficiency
<b>LED Display</b>	Indicates heating and cooling status for each zone	Offers timesaving convenience
<b>Emergency Heat†</b>	Activates auxiliary heater during periods of extremely cold weather	Assures your complete comfort during cold winter months
<b>Dual-Fuel Capability</b>	Allows integration of the zoning system with an electric heat pump and gas furnace	Offers enhanced energy savings

\*Applies to residential applications only.

\*\*Not designed for use with variable speed gas furnace or electro-mechanical thermostats.

\*\*\*Department of Energy statistics.

†Zone control panel must be installed in conditioned airspace. Used with heat pump systems only.

## CONTINUOUS COMFORT NETWORK

Lennox® heating, cooling and indoor air quality products are designed to provide efficient, economical comfort—not only as individual units, but also together as an integrated system. This combined network of products delivers on every comfort count, from consistent temperatures and balanced humidity to improved indoor air quality.

## DEALERS YOU CAN COUNT ON

Choosing the right dealer for your heating, cooling and indoor air quality needs is every bit as important as choosing the right brand. We think you'll agree our dealers are a big reason you can count on quality customer service when you call.
